

## Our Mission: Mentally Healthy Kids

# Promoting Resiliency in Children, Families and Communities:

## Connecting Schools, Public Health and Mental Health - Part II

A Missouri Bright Futures Workshop - April & May 2006

Do you feel like you're alone in your efforts to help children achieve and maintain a mentally healthy outlook?

Do you often wish a child with mental health needs had been identified sooner?

Are you concerned about crisis intervention planning for disasters and other emergencies?

---

**School, public health and mental health experts have developed this workshop - the second of two - to look at new ways of collaborating on issues that affect the mental health of Missouri's children.**

**The workshop will focus on hands-on tools to promote resilient children, strong families and healthy communities.**

- **DEEPEN** your knowledge about how to implement promising practices to promote mental health and prevent mental illness.
- **INCREASE** your understanding of the power of collaboration in nurturing the emotional health and well-being of all children and adolescents.
- **IDENTIFY** where, when and how to seek help for children and families in Missouri and your community.
- **DEVELOP** the skills to form partnerships with families and other community stakeholders.
- **DISCOVER** how Missouri's communities can create winning strategies for collaborative services and supports.

# Promoting Resiliency in Children, Families and Communities:

Connecting Schools, Public Health and Mental Health - Part II
