

Vision:

*Unrivaled Global Reach
for America...ALWAYS!*

Mission:

*Provide Global Air
Mobility...Right Effects,
Right Place, Right Time*

Commander's Message

From relief operations in Haiti and Pakistan to combat support in Afghanistan, Air Mobility Forces are making a positive difference globally in the lives of others by delivering hope, fueling the fight, and saving lives... 24/7/365.

We are a part of something much bigger than ourselves. When all the moving parts across the command come together to get the mission done, it's phenomenal! Our airlift and airdrop capabilities continue to provide a lifeline of vital food, water, and ammunition to the warfighter while our tankers enable a critical canopy of combat power protecting our ground forces. Likewise, our aeromedical evacuation experts remain dedicated to saving lives and rapidly transporting injured warfighters to higher-level medical care.

Chief Spector and I are proud of the work you do every day. As we move forward, we must continue to improve and adapt to an ever-changing environment.

Thank you for all you do to provide unrivaled global reach for our nation...today, tomorrow, and always.

General, USAF
Commander

Air Mobility Command

Vision, Mission & Focus Areas

AMC Focus Areas

Win Today's Fight as Part of the Joint / Coalition Force

Sustain Mobility Forces Today & Prepare for Tomorrow

Develop & Care for Our Airmen and Families

Continue to Strengthen Nuclear Mission Support

Enhance Mobility Partnerships

Win Today's Fight as Part of the Joint / Coalition Force

We deliver combat capability to the warfighter, fuel the fight, and save lives. Working together with Joint and Coalition partners, we support operations from combat to humanitarian across the spectrum while always innovating to continuously improve. We will:

- Provide world-class airlift, air refueling, and aeromedical evacuation capabilities
- Identify and assess risks then take action to ensure safe mission accomplishment
- Improve the health of the fleet, critical infrastructure, and communication systems

Develop and Care for Our Airmen and Families

Airmen and families make the Air Force go and we must help them grow professionally and personally. We will:

- Foster a culture of Comprehensive Airman Fitness, helping Airmen become physically, mentally, socially and spiritually fit
- Posture the force for success by promoting education and professional development
- Enhance the health of our communities and enrich the living environment of our Airmen and families

Continue to Strengthen Nuclear Mission Support

Stewardship of the nuclear enterprise is a no-fail mission. To reinforce accountability we will:

- Ensure the security of all nuclear weapons and related material under MAF control
- Maintain rigorous inspections and oversight
- Provide robust training, manning, and policies for operations and nuclear command and control

Enhance Mobility Partnerships

Our mobility partners are incredible force multipliers, expanding our Nation's Rapid Global Mobility capability worldwide. To enhance these partnerships we will:

- Build Partnership Capacity by helping allied nations develop their own mobility systems
- Support robust Total Force Initiatives with our ANG and AFRC partners as well as ensure the success of our Joint Bases
- Strengthen equitable and ethical business relationships with commercial and industry partners

Sustain Mobility Forces Today & Prepare for Tomorrow

We must sustain, recapitalize, and innovate to ensure we continue to successfully provide Global Reach for America...Always. We will:

- Modernize and recapitalize aircraft, systems and equipment critical to mission accomplishment
- Maintain robust Command, Control and information systems across the Command
- Foster a culture of efficiency and reinvestment across the mobility enterprise
