 Mine Safety and Health Administration
 Office Of Assessments
 PROPOSED ASSESSMENT
 AND
 STATEMENT OF ACCOUNT**

Statement Date: 12/06/2011

Statement Number: 000274429	Mine ID: 4608436
Mine Name: Upper Big Branch Mine-South	Violator ID: (Operator - P22901)
Served To: PCC, MEC et al	Mine Location: Raleigh, WV 25140
Attn.: - Accounts Payable Mgr	
300 Running Right Way	
JULIAN, WV USA 25529	

Upon reviewing the violations cited in the citations and orders referenced below and the data supplied by the Secretary's Authorized Representative, and all other information supplied concerning these citations and orders, MSHA finds that the violations cited did in fact occur and applying that data to the assessment regulations described in 30 CFR 100, MSHA proposes the penalty specified.

Pursuant to 30 CFR 100.7, you have 30 days from receipt of this proposed assessment to either pay the penalty, or notify MSHA that you wish to contest the proposed assessment and that you request a hearing on the violations in question before the Federal Mine Safety and Health Review Commission. If you do not exercise the right herein described within 30 days of receipt of this proposed assessment, this proposed assessment will become a final order of the Commission and will be enforced under provisions of the Federal Mine Safety and Health Act of 1977.

For violations assessed under the formula described in 30 CFR 100.3, the points assigned for the size of the operator (Column A) are derived from applying Subsection 100.3(b) of 30 CFR 100 using the size of your company and the size of your mine. The points assigned for the history of previous violations (Column B) are derived from applying subsection 100.3 (c) of 30 CFR, that is, the number of violations assessed per inspection day. The points assigned for negligence (Column C) are derived from applying subsection 100.3(d) of 30 CFR, that is, finding either no negligence, low negligence, moderate negligence, high negligence or reckless disregard. The points assigned for gravity (Column D) are derived from applying Subsection 100.3(e) of 30 CFR, that is, the likelihood of occurrence of the event against which the standard is directed, the severity of the injury or illness if it occurred or were to occur, and the number of persons potentially affected if the event occurred or were to occur. The points or percentage reduction assigned for the demonstrated good faith of the operator charged in attempting to achieve rapid compliance or the effects thereof (Column E) are derived from applying subsection 100.3(f) of 30 CFR, that is, finding either good faith or a lack of good faith. Single Penalty Assessments are developed in accordance with former Subsection 100.4 (prior to the 2007 rule revision) and Special Assessments are developed in accordance with subsection 100.5 of 30 CFR.

If there is an outstanding balance included with this billing statement, MSHA records indicate that you have unpaid civil penalties. The Debt Collection Improvement Act of 1996 requires us to either: (1) refer your debt to the U.S. Department of Treasury's Cross-Servicing Program with an additional 18% referral fee; (2) refer your debt to a private collection agency with an additional 23% referral fee; (3) refer you to the United States Department of Justice for collection with an additional 13% referral fee; (4) bar you from receiving Federal loans, guarantees, and other Federal benefits; or (5) report you to the credit bureaus, if your debt remains unpaid. For questions concerning your billing statement, please contact the Civil Penalty Compliance Office at (202) 693-9720. If you have entered bankruptcy protection, do not consider this a demand. Please provide the Civil Penalty Compliance Office with court, case number, and designated trustee and attorney contact information.

Contest Information

Please see the 'NOTICE OF CONTEST RIGHTS AND INSTRUCTIONS' for instructions and options for contesting assessments, if any, included in this case.

Payment Information

To ensure that your payment is properly applied, please include the attached Remittance Coupon with all payments submitted. Please send all payments to the address shown on the Remittance Coupon.

Special MSHA Health and Safety Message or Notification

Please notice the changes to the Proposed Assessment document: 1) There is new verbiage on the cover page explaining the consequences for failure to remit payment for outstanding debt within the allocated time frames. 2) A remittance coupon is now included with summary payment information. Please mail this coupon with the payment. 3) As requested by the Federal Mine Safety & Health Review Commission, the Notice of Contest Rights and Instructions has been revised and includes a section for signatures and dates for the contesting official and alternate contact. Please mail a signed copy with your contest request.

Narrative Findings for a Special Assessment

Under 30 CFR 100.5, the Mine Safety and Health Administration may elect to waive the regular assessment formula contained in 30 CFR 100.3 in determining the civil penalty for a violation of the Federal Mine Safety and Health Act of 1977 (Mine Act), if it deems that conditions concerning the violation warrant.

A mine operator is required by the Mine Act to be on the alert for conditions and hazards in the mine which may adversely affect the safety and health of the employees. The mine operator is required to take the steps necessary to correct or prevent hazardous conditions and practices.

This mine operator exhibited an absence of care for the health and safety of the miners working at this mine. The conditions observed in the mine violated fundamental mine safety practices, as well as mandatory safety standards. This blatant disregard for the requirements of the Mine Act was evidenced by the sheer number and seriousness of the cited violations. These conditions, practices, and violations directly contributed to 29 fatalities at the Performance Coal Company, Upper Big Branch Mine-South.

MSHA has elected to waive the regular assessment formula because of the mine operator's failure to take any meaningful action to address the conditions and practices that existed at this mine. MSHA has decided to issue a special assessment in accordance with 30 CFR 100.5 for the following violations. MSHA has carefully evaluated the conditions cited, the inspector's relevant information and evaluation, and the information obtained from the Report of Investigation. The proposed penalties reflect the results of an objective and fair appraisal of all the facts presented.

The violations were cited during an investigation and inspection following a fatal underground methane explosion accident that occurred at the above mine on April 5, 2010.

The number of previously assessed violations and inspection days at this mine, and the size of the mine and company appear in the attached Proposed Assessment.

Based on the six criteria set forth in 30 CFR 100.3(a) and the information available to the Office of Assessments, it is proposed that Performance Coal Company, Massey Coal Services, Incorporated, A.T. Massey Coal Company, Incorporated, and Massey Energy Company, as a unitary operator, be assessed the following civil penalties:

CONTRIBUTORY VIOLATIONS

The following violations directly contributed to the cause of a fatal underground methane explosion accident which took the lives of 29 miners. Order Numbers 4900578 through 8431855 listed below each received a flagrant assessment; the violation cited resulted from a reckless or repeated failure to make reasonable efforts to eliminate a known violation of a mandatory health or safety standard that substantially and proximately caused, or reasonably could have been expected to cause, death or serious bodily injury.

No. 4900578	104(d)(2) Order 30 CFR 75.363(a)	12-06-11 \$220,000

NON-CONTRIBUTORY FLAGRANT VIOLATIONS

These violations were considered to be flagrant; that is, a reckless or repeated failure to make reasonable efforts to eliminate a known violation of a mandatory health or safety standard that substantially and proximately caused, or reasonably could have been expected to cause, death or serious bodily injury.

Although these violations did not directly contribute to the fatal underground methane explosion accident, they reflect a pattern of indifference to the safety and health of the miners and the existence of a mine culture which ignored the most basic principles of mine safety.
