Our 1st Winter Ball

Who's the Man?

Sarah and Dr. Smith are all smiles!

Strike a Pose!!

Math Counts

Math COUNTS is a middle school club where students are trained to solve advanced math word problems (Algebra 1, Geometry, Algebra 2) in preparation for school, chapter, state, and national competitions. It offers a way to show that math is not only challenging, but also fun!!

The OMS Club has met since mid - October. Based on January's school competition, the students will represent OMS for Chapter Competition. Go Thunderbirds!!!!!

Parent Surveys

How are we doing educating our number one clients.....our students?

Parents, please go to our school's website and take the Parent Survey. We encourage your input to make sure that we're providing a quality education for all students.
