MEDICAL MANAGEMENT CENTER (MMC)

"Your Care. Your Trust. Our Mission."

Our Mission

Facilitate medical management of
Medically Not Ready Soldiers
Decrease Soldiers' recovery time
Decrease length of time Soldiers
cannot perform their duties
Decrease the timeline for identifying a
Soldier's medical retention decision
point
Increase the number of soldiers who
are fully medically ready

Strong Team ~ Trusted Medicine ~
Partners in Health

Phone: 804-734-9546(front desk)

MEDICAL EVALUATIONS AND TREATMENT PROCESSES

What is the MMC?

Medical Management Center (MMC) is a program, implemented by the U.S. Army Medical Command (MEDCOM), to assist unit and rear detachment commanders with managing and assisting Medically Not Ready (MNR) Soldiers through the healing process.

These centers do not replace unit oversight and management of Soldiers who are pregnant, on convalescent leave or non-deployable due to dental conditions or lack of immunizations.

CONCEPT OF OPERATIONS

The overall objective of the MMC is to provide the Commander with the way forward in disposition planning for a Soldier, including timelines for return to duty, MAR2, or movement through the disability evaluation system.

TREATMENT PLANS

Include, but are not limited to:

- Diagnosis
- Functional assessment
- Risk mitigation strategies
- Short and long term goals
- Medication management
- And specific disposition criteria (WTU, RTD, IDES)

CURRENT FUNCTIONS

- Nurse Case Management/Tracking
- E-Profile review
- Track medical issues
- Monitor IDES processing
- Collaboration with PCM for total healthcare needs of the Soldier
- Liaison between Soldier, VA, medical community, and other agencies
- WTU gateway

For Soldiers:

HOW DO I ENROLL IN THE MMC?

1. Speak with your Primary Care Manager (PCM).

For Commanders:

HOW DO I GET MY SOLDIER ENROLLED IN THE MMC?

1. Speak with Kenner PAD office (734-9299)
2. Reach out to the MMC Care Coordinator assigned to your unit.
