

Federal Highway Administration Federal Lands Highway

Completed Project Survey

Background Information

Project Number: _____ Project Completion Date: _____

Project Name: _____

Brief Description of Work: _____

Respondent's Agency: _____

Respondent Information (optional)

Name: _____ Phone: _____

Title: _____

D Y E M A N A G E M E N T G R O U P , I N C .

FY 2005

Federal Lands Highway

Completed Project Survey

This collection of information is voluntary and replies will be confidential. The information will be used to determine our customers' satisfaction with our service and to assist the FHWA in evaluating service delivery and processes. It takes approximately an average of 10 minutes to complete this survey. Please note that an agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. The OMB control number for this collection is 2125-0590, which expires on April 30, 2008.

Directions: Please indicate your level of satisfaction with the conditions addressed below. Use the rating scale to represent your best judgment.

1. FLH's Management Practices

- a) Management of the construction schedule.
 - b) Management of the construction costs.
 - c) Timeliness of response to guidance and requests by your agency.
 - d) Quality of response to guidance and requests by your agency.
 - e) FLH and construction contractors working together to resolve problems.
 - f) Overall job of managing the construction.

2. Completed Project Elements

- a) Pavement or bridge surface (texture and ride).
 - b) Drainage structures (culverts, channels, and ditches).
 - c) Major structures (bridges, walls, etc.).
 - d) Stability of cut and fill slopes and road shoulders.
 - e) Maintainability (mowing, vegetation, snow removal, etc.).

A grid of 20 empty square boxes arranged in 4 rows and 5 columns. This grid is used for a handwriting practice activity where children are asked to write the letter 'a' in each box.

3. Completed Project Aesthetics

- a) Landscaping and seeding.
 - b) Striping (roadway and parking areas).
 - c) Alignment of guardrails, walls, and roadside appurtenances.
 - d) Earth shoulders and slopes (including rock slopes).
 - e) Drainage structures (culverts, channels, and ditches).
 - f) Major structures (bridges, walls, etc.).
 - g) The overall aesthetics of the completed project.

4. Conditions during Construction

- a) Roadway conditions.
 - b) Detours and traffic flow.
 - c) Safety of motorists and non-motorists.
 - d) Accommodation of landowners.
 - e) Access to business and adjacent property.
 - f) Signage.
 - g) Your perception of overall public reaction during construction.

A grid of 40 empty square boxes arranged in 5 rows and 8 columns. The boxes are outlined in black and are evenly spaced both horizontally and vertically.

5. Environmental Sensitivity

- a) Preservation of existing vegetation.
 - b) Protection and preservation of natural, historical, and cultural resources.
 - c) Riparian (preservation and establishment of vegetation adjacent to streams).
 - d) Erosion and sediment control.
 - e) Materials source/waste area management.
 - f) Environmental compliance with contract.

6. Overall Rating

- a) Overall quality of the completed project.
