SkySat-1 Private Remote Sensing License: Public Summary

On 20 April 2010, the Commercial Remote Sensing Regulatory Affairs Office of the National Oceanic and Atmospheric Administration, an agency of the Department of Commerce, granted a license to Skybox Imaging, Inc to operate a private, commercial, space-based, remote sensing system named "SkySat-1."

SkySat-1 is a planned commercial Earth observation satellite, licensed to collect sub-meter resolution panchromatic and multispectral images. The satellite will operate in a polar inclined, circular, low earth orbit (approximately 450 km).
