

December 3, 2009

Dear IFQ Permit Holder:

The purpose of this letter is to inform you of a change in the fee percentage calculated for the 2009 fishing year. Enclosed is your revised 2009 Individual Fishing Quota (IFQ) Fee Liability Summary (bill). This bill supersedes any earlier dated version that you may have received.

You are receiving this letter because you are a person who, according to our records, held a 2009 IFQ halibut and/or sablefish permit against which landings were recorded. Therefore, you have incurred a liability to pay fees based on the ex-vessel value of your IFQ landings.

The revised 2009 IFQ fee percentage is **1.6 percent** of the ex-vessel value. The National Marine Fisheries Service, Alaska Region (NMFS/AKR), Operations, Management Divisions (OMD), in coordination with the Restricted Access Management (RAM), determined this percentage by calculating all the expenditures that were directly related to the management and enforcement of the IFQ program for Fiscal Year 2009, dividing that total by the total NMFS/AKR standard ex-vessel value of the entire fishery, and then making other adjustments in accordance with regulations.

General Instructions

With your Summary we are enclosing an IFQ Fee Submission Form and instructions.

If you agree with the amount owed as set out on the Fee Summary, you are not required to submit this form; simply pay the bill using one of the methods explained below.

If you disagree with the Fee Summary and instead choose to pay based on the actual value you received from the sale of your 2009 IFQ fish, **you must submit the completed IFQ Fee Submission Form and attach documentation verifying the actual value you received for your fish.** Pay close attention to the form instructions and enter all required information (including information on any bonuses or retro payments for IFQ fish).

Regardless of whether you pay based on the standard amount NMFS calculated or the actual value you received for your fish, your payment must be postmarked no later than **January 31, 2010**, to be considered timely. Because we will not be sending receipts, we strongly recommend that you keep copies of everything submitted, including your payment.

Payment Options

You may pay in one of the following ways:

- By credit card or electronic check through our secure on-line system at web site <http://www.fakr.noaa.gov/ram/ifqfees.htm>, entering any one of your IFQ permit number and PIN combinations, and following the directions. On-line payments are processed through **Pay.gov, a secure system for electronic payments used by many government agencies.**

Reminder: IFQ and CDQ permit holders and Hired Masters access RAM's on-line services

by using a permit-PIN combination, and Registered Buyers use a Registered Buyer password. Both login methods will be replaced with a combination of your NMFS (person) ID and a personal password which has been mailed to you. If you have not received your NMFS ID and temporary password please contact RAM toll free at (800) 304-4846 (select option #2); or

- By check or money order, made payable to the National Marine Fisheries Service or NMFS, and mailed to: **Office of Operations, Management Division (OMD)**, P.O. Box 21668, Juneau, AK 99802. **Do not mail cash.** Be sure and address your envelope correctly to avoid delays in processing your payment. Your payment must be postmarked by January 31, 2010.

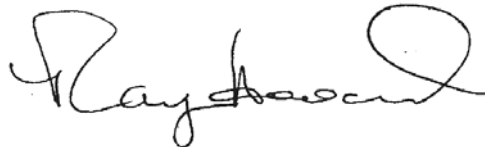

Regardless of your chosen method of payment, if you pay based on your actual value, you must mail your Fee Submission form to NMFS postmarked by January 31, 2010.

Please note that if you fail to pay your fee liability by January 31, 2010, you will be issued an Initial Administrative Determination (IAD), which will make a formal finding that the fee is due and payable; you will have 30 days in which to respond (or appeal). During those 30 days, you will not be able to transfer Quota Shares or IFQ in or out of your name. If you fail to respond in the time allotted, a Final Agency Action will be taken that formally establishes your debt. You will be subject to interest, penalties, and late fees on your account and your QS or IFQ transfer privileges will remain suspended.

Further, every 30 days after Final Agency Action has been taken, you will receive a late notice with additional interest, penalties, and late fees assessed. If you fail to respond to us after 180 days, your account will be turned over to collections.

If you have any questions regarding the Cost Recovery Program or your account, please call the NMFS/Alaska Region toll free at (800) 304-4846 (select option #5) or via facsimile at (907) 586-7255. Alternatively, you can visit our web site at www.alaskafisheries.noaa.gov.

Sincerely,

A handwritten signature in black ink, appearing to read "Ray Howard", written in a cursive style.

Ray Howard, Regional Budget Officer
