

DOD telephones are provided for the transmission of official government information and are subject to communications security monitoring at all times. Use of official DOD telephones constitutes consent to monitoring per DOD Directive 4640.6.

Do not discuss classified information on non-secure telephones.

Official DOD telephones are subject to monitoring for communications security purposes at all times.

# 2010

#### **Personnel Listings.**

## **McEntire ANGS Map & Key**

### **Outside Back Cover**

1. Frequently called telephone numbers for service activities.

*All personnel data is retrieved from the 169 MSF-Customer Service Office ext. 8205.*

## **Section A General Information**

1. **Uses of the Installation Telephone System:** Military telephones are authorized FOR GOVERNMENT OFFICIAL CALLS ONLY and must be restricted to calls essential to the accomplishment of our mission. Unofficial and personal calls should be placed using pay stations located at convenient places. Each person having a telephone on his/her desk is responsible for insuring strict observance of this restriction.

### **Dialing Instructions:**

- |                          |   |
|--------------------------|---|
| a. McEntire ANG Station  | dial the four-digit extension number.   |
| b. Local Area            | dial <b>99</b> , then the desired number.   |
| c. DSN                   | dial <b>94</b> , then the desired DSN number.   |
| d. Long Distance         | dial <b>98</b> , an identification number (PIN) is required to place long distance commercial toll calls via Federal Telecommunications System (FTS) – 2000, on McEntire ANG Station. |
| e. Overseas DSN/Overseas | dial <b>94</b> , then the country code and desired number.  |

### **AUDIX voice mail**

#### **Accessing**

Dialing 8634 from an on-base telephone, 583-8634 when using DSN, and 647-8634 from an off-base telephone, to access voice mail.

To Retrieve Voice Mail enter your voice mailbox extension and access code (password).

#### **Requesting Voice Mail Service**

Submit AF Form 3215 to 169CF/SCX, Plans & Implementation. Once the service is established you will be notified of your temporary password.

#### **Audix Instructions**

Go to “IM TOOLBOX” on the Information Management Intranet Web page.

## Special Dialing Features for Standard Handsets:

### **a. Call forwarding:**

Allows all calls to an **extension number to be forwarded to a selected extension.**

**TO ACTIVATE: \*2 & 4 digit extension**

**TO DEACTIVATE: #2**

### **To forward calls to AUDIX:**

**TO ACTIVATE: \*3**

**TO DEACTIVATE: #3**

### **b. Automatic call back:**

Allows internal users who placed a call to a busy or unanswered internal telephone to be called back automatically when the telephone is not busy by flashing the switch-hook and then dialing the Automatic Callback access code.

**TO ACTIVATE: \*5**

**TO DEACTIVATE: #5**

**c. Call pick-up access code:** When a member of a call pickup group is away and received an incoming call, any member of the call pickup group can answer the call.

**TO PICKUP: \*7**

**d. Answering call waiting:** The called party hears one burst of tone when a call from another telephone user is waiting, two quick bursts of tone when an attendant-handled or an outside call is waiting, three quick bursts of tone when a priority call is waiting. The called party hangs up on the current call and immediately receives ringing from the waiting call. The calling party can be put on “soft” hold by flashing the switch hook and dialing the answer hold-un-hold feature access code to answer the waiting call. Hanging the phone up will ring back the party on hold.

**ANSWER HOLD-UNHOLD ACCESS CODE: \*4**

**Deprogram Forwarding Function:** If your call is auto forwarded to Audix, after one ring it automatically goes to Audix, pick up your telephone, wait for a dial tone, and press **#3**.

## **2. Making DSN Calls.**

The Defense Switched Network (DSN) is the basic general-purpose switched-circuit voice network with the Defense Communications System. Use is authorized only for the most essential elements of the command that require long distance telephone communications in the support of command operations, intelligence, logistics, and administration. Use must be for official communications only. Calls will be restricted to only those calls, which are necessary and require a timeliness that other means do not afford. **DSN will not be authorized for PERSONAL OR UNOFFICIAL CALLS.**

The DSN Telephone Directory can be found at the following web links:

Intranet: <https://scmcen05.scmcen.af.mil/IntranetWelcome.asp> (Hot Link)

Internet: <http://dsnbbs.ncr.disa.mil/telephone.htm>

**CONUS DSN** Dial **94**, then the desired DSN number.

**OCONUS DSN** Dial **94**, then the country code and desired number.

### **3. Reporting Nuisance and Threat Calls.**

It is unlawful for any person to make a telephone call during which obscene, lewd, or immoral language is used with the intent to offend. Federal law further prohibits interstate telephone calls, which are obscene, lewd, lascivious, filthy or indecent, or where the intent, with or without actual conversation, is to annoy, abuse, threaten or harass any persons. It is also unlawful to knowingly allow anyone to use a telephone under his control for the above purposes. Any nuisance or bomb threat calls should be immediately reported to Security Forces at 8284.

### **4. Request for Service and Equipment.**

Requests for installation, reclassification or removal of telephones or equipment must be submitted on AF Form 3215 to Plans and Programs, 169 CF/SCX. An individual who thoroughly understands the request should be the requesting official and the Unit Commander or Staff Officer must sign as the authorizing official to insure appropriate unit/staff concurrence and control. The AF Form 3215 requesting new Class "A" Service must include a statement justifying the use of the class of service requested.

1. **Classification of Telephone:** Official/Unofficial classes of telephone service are:

- a. **CLASS "A":** (Official) Telephone lines accessing central offices, toll trunks, government telephone systems and services, and DSN.
- b. **CLASS "B": (Unofficial)** When obtained from the government, the subscriber pays all charges according to Title 10 U.S.C. Section 2481, Utilities and Services: Sale, Expansion and Extension of Systems and Facilities. The Air Force reserves the right to enter premises where it provides such telephones to inspect, repair, or remove equipment.
- c. **CLASS "C":** (Official) Telephone lines for transacting official Government business on Air Force installations. It does not provide direct-dial access to off-base trunk lines (toll trunks, DSN.)
- d. **CLASS "D":** (Official) Restrict use of these lines to special services such as fire, sentry, and crash alarms.

### **5. MINIMIZE.**

Minimize is a condition imposed by Commanders to control and reduce electrical communications, both messages and telephonic traffic during exercises or periods of emergency. During such periods, vital and relevant message traffic must not be delayed; therefore, other traffic must be drastically reduced. The control of electrical messages and accounting of telephone calls during minimize is the responsibility of the originator.

### **6. Who Provides Telephone Services.**

**a. Directory Updates:**

- ➔ All personnel data in (Section D) is retrieved from the 169 MSF-Customer Service Office ext. 8205.
- ➔ All Organizational Data (Sections A & B) is updated by contacting the 169CF/SCBI office at ext. 8765.

**b. Repair Service.**

- ➔ For trouble with base communication systems such as telephones, PA systems, computers, circuits or radios, call the Help Desk at ext. 8622
