

2011-2012 Head Start Program Information Report - 2011-2012 PIR Import Format

2011-2012 PIR XML Import Requirements

The Office of Head Start provides a PIR XML import format for importing data files directly into a 2011-2012 PIR in HSES. This enables Head Start Grantees and Delegates to import data from other vendor systems that generate PIR XML format compliant Import files.

Import files configured in accordance with the 2011-2012 PIR XML Import Format for each question:

- have proper XML structure (ensuring successful import).
- are configured for the 2011-2012 PIR Form questions (ensuring question alignment).
- are ready to import (ensuring data integrity).

The 2011-2012 PIR XML Import Format specifications and supporting details are listed below in the following sections.
