MEMORANDUM

From: Commanding General
To: Base Maintenance Officer

Subj: Environmental Differential Pay; request for

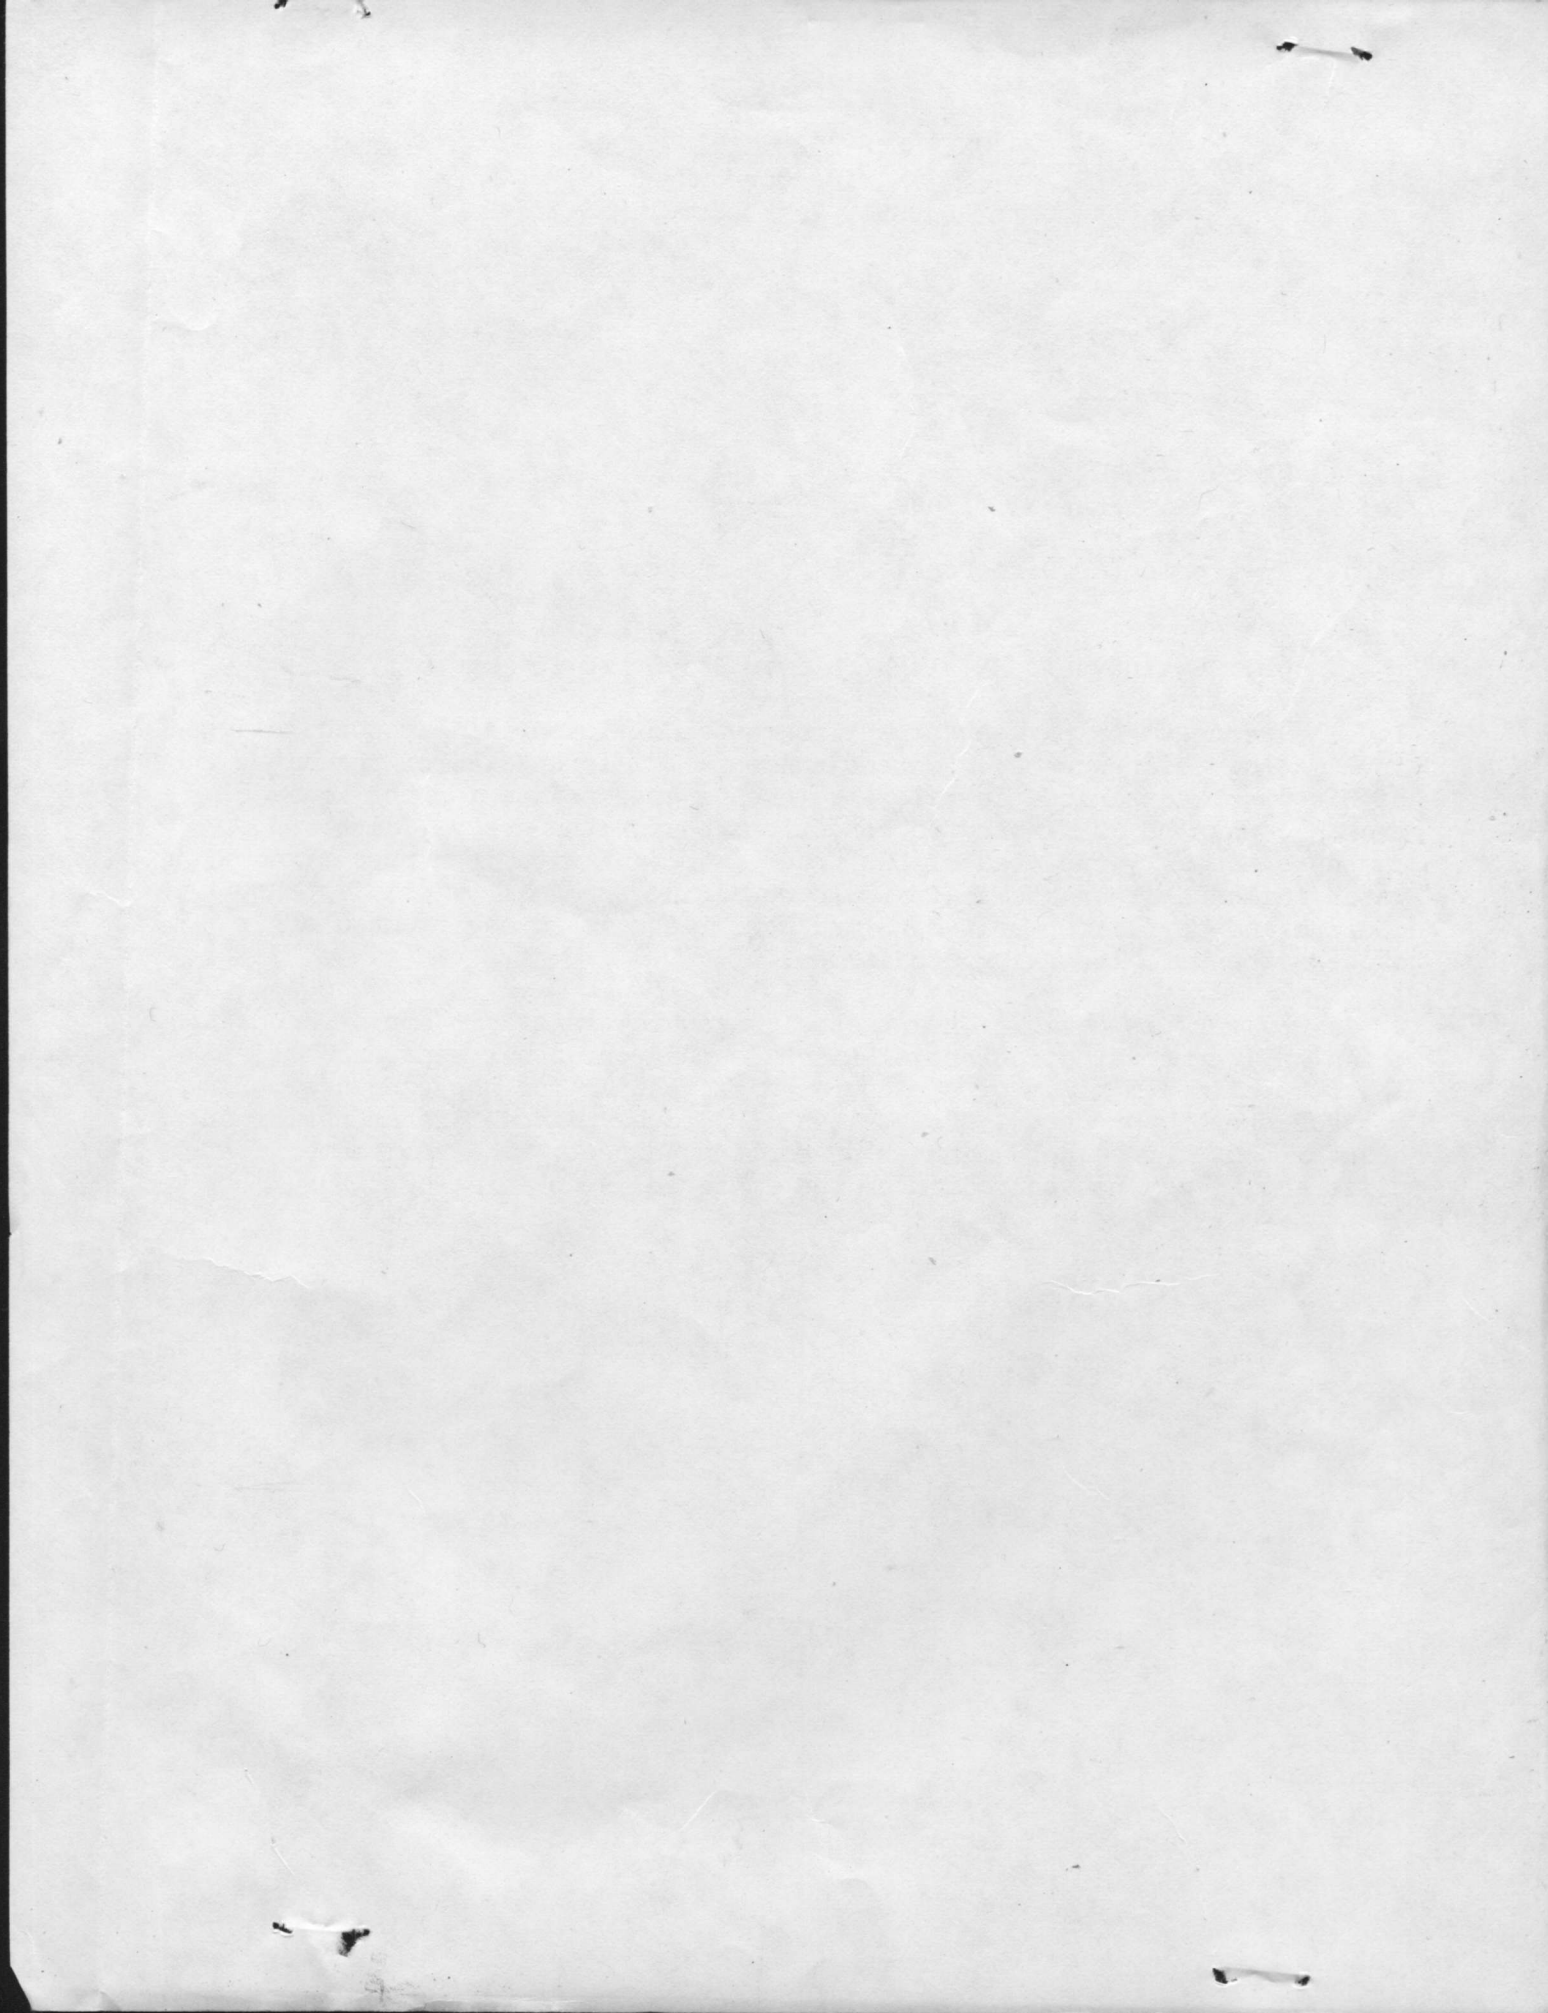

Ref: (a) FFM Supplement 532-1, S8-7, Appendix J
(b) BMaint memo MAIN/BRW/rn over 12590 dtd 16 August 1976

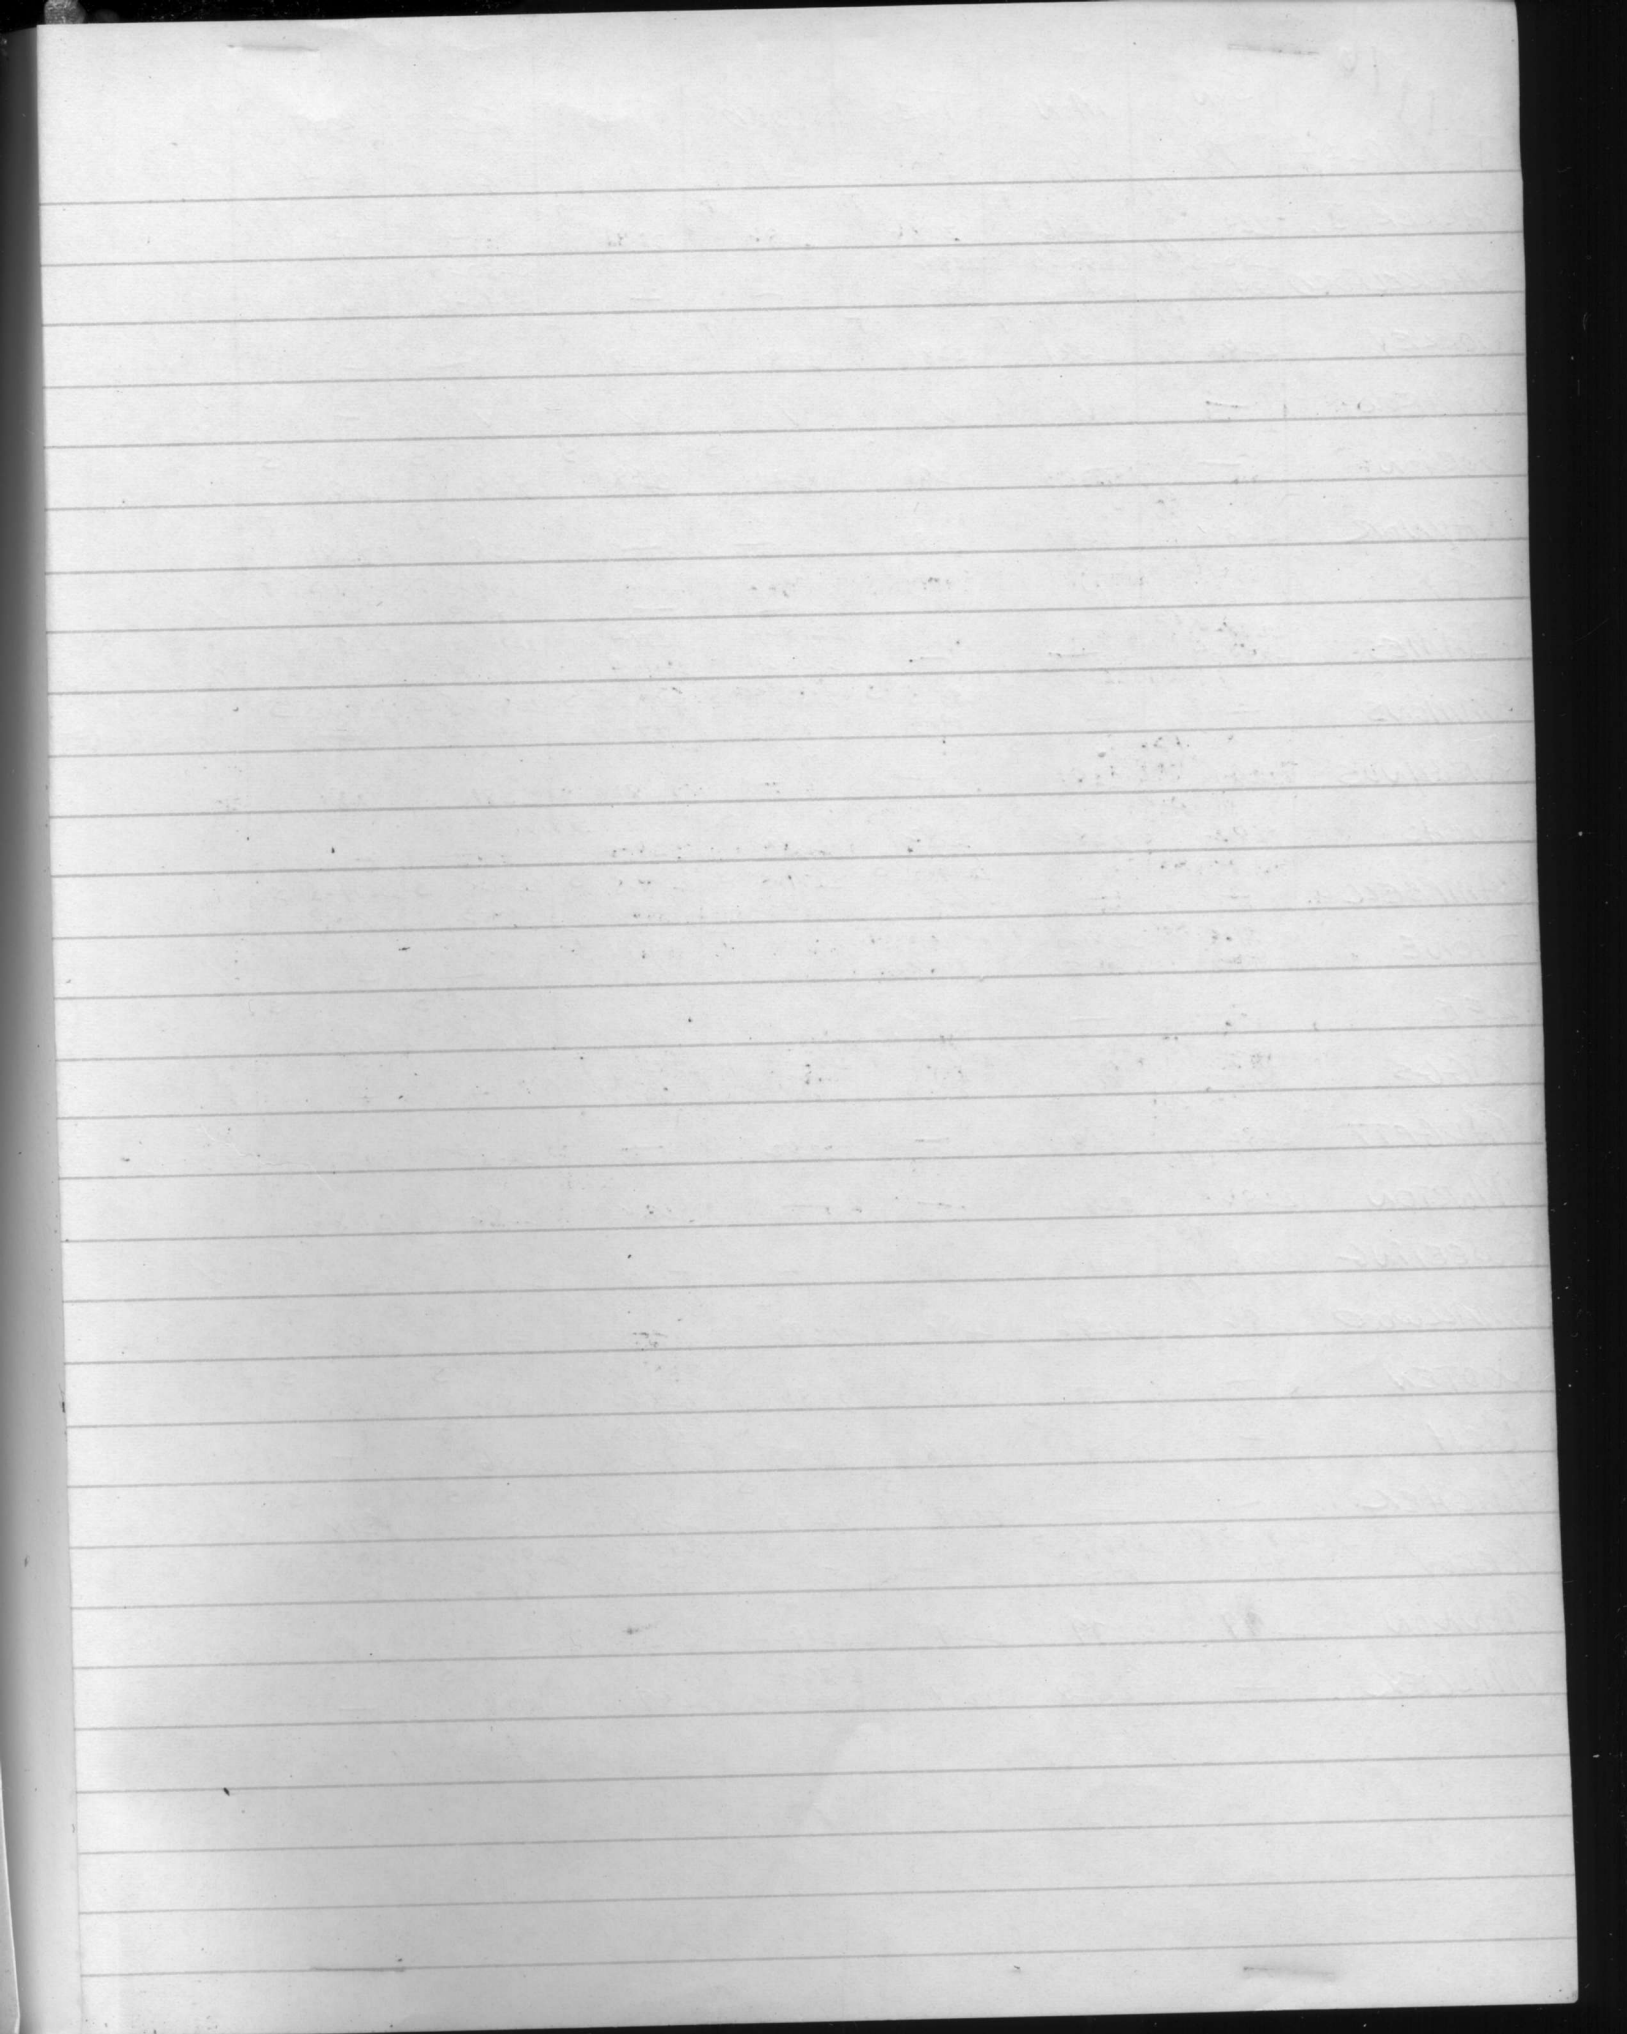

1. The request for payment of environmental differential has been reviewed in light of reference (a). An environmental differential for the categories of Dirty Work described in reference (b) is appropriate for the Equipment Mechanic when he is exposed to conditions beyond the grease, dirt and dampness normally expected of his trade. Contact with iron rust mixed with water, oil and other chemicals while repairing chemical pumps, filters, zeolite and sphyraclor softeners and other associated equipment clearly exceeds the normal working conditions.

2. Dirty work is payable on an actual exposure basis. An employee entitled to an environmental differential which is paid on actual exposure basis shall be paid a minimum of one hour's differential for the exposure. For exposure beyond one hour, the employee should be paid in increments of one-quarter hour for each 15 minutes or portion thereof. The environmental differential may not be paid when the employee is in a leave status.
