Mrs. Edythe McKinney
Planning and Assessment Branch
North Carolina Department of Natural Resources
and Community Development
P.O. Box 27687
Raleigh, North Carolina 27611-7687

Dear Mrs. McKinney:

Thank you for considering us in the revision process for the
Environmental Permit Directory. This Directory has been of great
value to our environmental staff as well as, Headquarters, Marine
Corps and the Naval Facilities Engineering Command. We have used
this Directory daily to inform planners, consultant engineers and
other Marine Corps officials regarding North Carolina environ-
mental processees.

One of the most important environmental issues facing Camp Lejeune
is the difficulty in keeping a current set of environmental
policies upon which to make decisions. As you know, this issue
affects numerous federal agencies as well as the private sector.
We have subscribed to the North Carolina Register; however, none
of the publications have been received yet. Any effort which you
could make toward consolidating and distributing the latest
environmental policies is greatly appreciated.

We note the requirements of the North Carolina Department of
Cultural Resources are not included in the Directory for pro-
tection of historic resources. These rules seem to change less
frequently than other permit-type rules but are a significant
consideration in our land management and siting decisions. It
would assist us in using the Directory if they were included.

We again request approximately 50 copies of the 1987 Environmental
Directory if you have them to spare. Thank you for your con-
tinued assistance in this matter.

Sincerely,

T. J. DALZELL
Colonel, U. S. Marine Corps
Assistant Chief of Staff, Facilities
By direction of the Commanding General
