Mr. Harry Tyson  
District Conservationist  
U. S. Soil Conservation Service  
604 College Street  
Jacksonville, North Carolina 28540

Dear Mr. Tyson:

This letter is to advise you of plans to open Henderson and Hickory Ponds on 24 June 1987 for fishing. Major General J. E. Cassity will officially open the ponds shortly after shoreline ceremonies at 1400 hours. You, Mr. David Combs, Area Conservationist, Mr. Billy Jones, Area Engineer, Mr. William L. Barnhill, Area Soil Scientist, of your agency, and a representative from the Onslow County Soil and Water Conservation District are cordially invited to attend the ceremony.

Marine Corps Base, Camp Lejeune personnel, appreciates the effort by you and the other professionals in the Soil Conservation Service, for making the design specifications, providing materials listings, and the engineering work necessary for making repairs to both ponds. We look forward to having you with us during the ceremony.

Sincerely,

J. I. WOOTEN  
Director, Natural Resources Division  
By direction of the Commanding General
