11 JUL 1979

From: Commanding General
To: Commanding Officer, Field Medical Service School, Marine Corps
Base, Camp Lejeune, NC 28542
Via: Area Commander, Camp Johnson, Montford Point, Marine Corps Base,
Camp Lejeune, NC 28542

Subj: Authorization for Construction of Portable Field Latrines;
request for

Ref: (a) CO, FMSS ltr NC 8705:ETS:rbd 6200 dtd 4 May 79
(b) NC Law & Rules for Ground Absorption Sewage Disposal System
dtd 1 Jul 77

1. As requested in reference (a), it has been determined that temporary field head facilities could be constructed at Camp Johnson under certain conditions. As a result of the high water table, a concrete vault will be necessary or an earth mound may be constructed to raise the pit above the ground water table. If the pit or vault method is used, the entire head facilities would have to be designed, constructed and installed according to state regulations, reference (b).

2. For further details contact Mr. Julian Wooten, Base Maintenance Department, at extensions 5003/2003.

4 May 1979

From: Commanding Officer
To: Commanding General, (Attn. AC/S Training), Marine Corps Base,
Camp Lejeune, N.C. 28542
Via: Area Commander, Camp Johnson

Subj: Authorization for construction of Portable Field Latrines;
request for

1. It is requested that Base Range Maintenance be authorized to construct two portable field latrines to be situated in the AD5 Training Area, Camp Johnson, to support Field Medical Service School field training exercises. The requested latrines will provide a programmed replacement for one latrine currently in use and one additional latrine to support exercises conducted in an area remote from present installations.

2. If approved, all required materials will be requisitioned by Field Medical Service School and delivered to Base Range Maintenance.
