HAZARDOUS WASTE INSPECTION OF 2ND RECONNAISSANCE BN ON 23 JAN 1986

Ref: (a) BO 6240.5
(b) State Regulations for the Implementation of the Resource Conservation and Recovery Act

Encl: (1) Hazardous Waste Management Inspection

1. NREAD has begun another round of routine inspections of hazardous waste generation and storage facilities to determine compliance with references (a) and (b). The inspections address both Base and tenant commands and are conducted in compliance with the cognizant Hazardous Material Disposal Coordinator (HMDC). The subject inspection revealed the following deficiencies which appear to be violations of reference (b):

- a. Lack of training records
- b. Lack of weekly inspection records for hazardous waste storage areas
- c. Drum of hazardous waste which was not properly marked, labeled or dated.

2. These violations, possibly each one, would have subjected Camp Lejeune and possibly the organization(s) and individual(s) involved, to fines of not less than \$50 to \$500 had they been noted by a State hazardous waste inspector during an annual inspection.

3. A spot check of the facilities shown in Part F of Attachment A to the enclosure will be conducted by Base Environmental personnel during the week of 17 February to ensure that the noted violations have been corrected.

4. Although copies of the enclosure were not provided to HMDC or units involved, findings have been discussed with the HMDC. Also, HMDC's have been provided with a copy of the inspection checklist used by NREAD during inspections. Please furnish guidance with the following:

- a. How does the AC/S, Facilities want cognizant commands formally advised of the findings of the subject type of inspection?

Subj: HAZARDOUS WASTE INSPECTION OF 2ND RECONNAISSANCE BN OF 23
JAN 1986

b. What internal enforcement actions should be taken against the cognizant officials/officers/personnel, when apparent violations of reference (b) are identified?

In NREAD's opinion, the major command in charge of the subject unit should take disciplinary action; however, it is recommended that the Base Staff Judge Advocate be requested to render a legal opinion on the proper legal manner by which these apparent violations should be handled.
