13 OCT 1995

Roy F. Weston, Inc.  
Attn: Mr. Brian R. Magee, P.E.  
1880-H Beaver Ridge Circle  
Norcross, GA 30071

Gentlemen:

In our letter of 12 June 1995 certain restrictions were identified concerning the proposed Groundwater Remediation System for the ABC Cleaners. That letter advised that a Use Agreement was being developed by the Real Estate Division, Naval Facilities Engineering Command, Norfolk, Virginia, to cover the construction and operation of the proposed Remediation System that will be located on Government Property. Since that letter was issued Mr. Nat Grace, Realty Specialist, Norfolk, Virginia, has expressed some concerns with your proposal, along with a request for information in support of development of the Use Agreement. The items listed below are hereby requested:

- a. Detailed construction plans and survey site plans for the treatment building.
- b. The proposed location for the discharge pipe within the railroad right-of-way needs to be revised to an area outside of this right-of-way. This change in location will require an exact location plan with description for review by officials at this Command. After our review and approval the revised location plan will be forwarded to the Real Estate Division in Norfolk.
- c. An acreage figure for the area to be encompassed by the Groundwater Remediation plan to include contaminated areas upon government property.
- d. A schedule for the proposed work on the remediation system.

If there are any questions, please contact Mr. Nat Grace at telephone (804) 322-4924 or Mr. John Jordan at telephone (910) 451-1833.

Sincerely,

W. J. BEARY  
Commander, U. S. Navy  
Public Works Officer  
By direction of  
the Commanding General
