5-22-83 - Plant came on at 1010 - Effluent valve on #1 filter did not open. Had to pry valve to get it open. I believe this is a safety hazard and should be remedied as soon as possible. The pipes are very slippery for a man aquatics to be climbing around on.

5-22-83 - 1100 - #1 filter effluent valve closed - got valve open again.

8-24-83 - Riggs called at 1055 said the contractor
cut circulating pump off to fix system.
It was cut off around 1945 and said they
will be through at 2400. Will set system
back up. Campbell will check it every
two hours.

8-25-83 0100 - Went to TT pool with E. Campbell. Contractor had
just completed work. While we were there the one worker stepped
on hinged grating at ladder - grating gave way due to poor fit
and man almost went into pit. The other contract employee
pulled grating so it would not give way but created a stumbling
hazard. Grating should be fixed immediately! (SP)

 the water 2' low. It's been reported to me that
 the manager lets the people open and close the
 valves on baby pool and it's causing the
 pool swimmers to drop level of pool and
 causing the pumps to brake suction and
 will burn pumps up. I suggest we change
 2206 locks because too many people has
 keys to our locks (burner)

Stone called at 2000 and said line backed up in drain line into the street at TT. I went over there and the line was from the center line of road up onto the grass for a half of block. 8" deep. I stayed and help wash down street with $\frac{1}{2}$ in fire hose. still didn't get it all. need to run pump in pit only 30 min. at a time and let rest for 1 hr. or will flood street again. the main pit is full of line, settled in bottom. (Common)

9-17-83 - Assisted Campbell with clean up at TT 38.

cannot get any gas until we get new cards
I was told that we were informed last
week to pick up new gas cards. called
Sgt. Crabtree at 5-³²¹606 and they will not issue
gas without new card. (Emmons)

9-25-83 - Danny Hill called and said he would
not be in 12-8 tonight and that he
was going to see doctor tomorrow and
would call and let us know about tomorrow
night. Called Holland at 326-3977 & changed to 5978
He will be coming in 12-8 H.B.

10-7-83 - MRS. A. RIGGS CALLED AT 22:00 + REPORTED MR. RIGGS HAS GOT A VZUS + WON'T BE IN, TT 12-8. CALLED FREDDY DUNCAN AT 326-3926 + ASKED IF HE WOULD WORK 12-8 TT + HE SAID YES. ~~AT~~

10-8-83 - See out at 1200. SP

10-8-83-1445 - Asst. Fire Chief Mohr requested that the fire dept be allowed to conduct training at 670 for about an hour. They wanted to use their hook & ladder trucks to remove a body from the roof. As all of our equipment was secured & said ok. Chief Mohr supervised the training.

10-8-83 - 1555 - Fog called and said he was at the Airport and would be about 1 1/2 hrs. Miller will make 1st check of TT.

10-9-83 - HB - Had problems with gun way valve for #2 of the effluent, got it strangled out and then #1 of the effluent valve closed off. Had to put #1 on hand control. Plant went off and when it came back on I closed both effluent valves and set them up to shut down when reopened effluent on both filter seem to work alright after that.

Hot 11-7-83

11-7-83 - Campbell informed that the high pressure line valve on back wash line at TT would not open and that he couldn't wash filters. He said he would try to take it apart & repair it. Peterson took Rich's truck to TT so they would have great material and tools but couldn't isolate the valve. Some belts will have to be cut off valve. Decided plant would run until morning if line were secured. Called Mr. Price & he stayed running w/o line until morning. Charged call to 5988 (could not get dial tone on 5988 - TT phone will not ring Hotful Telephone repair.). SP

11-7-83 - Dabbe at MCAS is down again. Conveyor is frozen up. Can not make a detail of time.

11-7-83 (JP) Reiff called and said when he gets up to 45 MPH in 5th gear, truck it shakes all over the road.

11-7-83 - HB - On #1 filter when you set the rate of wash to three it opens all the way up. Then the wash valve will not open until you cut the rate of wash back off. Also the wash valve is very slow to close. #2 works good.

11-17-83 - Had to replace pin in # 2 Rate of flow Eff. valve. We need a clip or something to secure this pin properly. The rate of flow backward may work ok at times but again tonight I couldn't get it to open past 6. This is too slow a rate of flow to properly wash filters.
We need a longer ladder so that fluorescent tubes in pipe gallery can be changed.

11-18-83 8.4 Check-in H. P. Adams TT. Reiff & Adkins
A.S. Synner, Kellin ^{Prater} RR. CHB. Wooten

11/18/83 Florida back in operation at 1000 AM.

11-19-83 H.B. - #1 filter closed off. Bleed
off lines, switched back and forth from
manual to auto, finally left it in
manual, then #2 closed off. Almost
shut part off and went home. Tinkered
around with it some more than filters got
to high. Switched to automatic. Seems
to be working about now 1900.

11-20-83 ⁽⁰¹⁰⁰⁾ WASH RATE ON #2 FILTER WOULD
NOT GO ABOVE 5.8 MG. I THEN HAD PROBLEMS
WITH EFF RATE OF CONTROL VALUES ON #1 & #2
FILTERS. ⁽⁰³⁰⁰⁾ STILL HAVING PROBLEMS #1 FILTER EFF
RATE OF CONTROL CLOSING SHUT & #2 FILTER
FILTER TAKING ALL OF THE WATER ^{on #12}

11-20-83 - Window Beach heater still does not
work. A ticket was turned in.
