8-23-84 - HB-670 at around 1745 the #2 high lift

came on. At 1940 an alarm went off and

both pumps cut off at the same time.

I went to the overhead tank to check and

see if it had overflown. It hadn't.

There was 57 gals. pressure at the overhead

Someone at H.S.O. Pool messed with chain on baby pool and left it open. James went to check pool and big pool was  $1\frac{1}{2}$ ' low. pump broke suction and was running but. had to fill pool and prime pumps and close chain on baby pool. It was either the mg. or life guards that did it. They were told to leave the valves alone. This was reported to me by mr. Symner (Linnemo)

8-26-84 - 2130 - A. Riggs called and said someone had drown in the MP. pool. Judged male. I went over with Riggs and PH was 7.4 and Chg was 0.5. Turned Chg up and left note for Jay to check Chg and let it get between 1.2 & 1.5 before he cuts back.  
JRA

8-26-84 - 2220 - Duncan called from RR-85 and said the contractor had just left and that they had put a new gear in #2 filter controls.

2-12-85-1600 Campbell received a phone call from Housing about bad water  
at TT 407. He checked Otu at 1205 and called me at 1230. He said the  
water was clear, had a 0.8 Cl<sub>2</sub> residual and had no objectionable  
taste or odor. The resident stated the water gave her and her  
husband diarrhea. A woman living with them said she had been  
to "chemical analysis school" and that to her it smelled and tasted  
like something was "growing in it." The resident's name is  
MARGO FRANCIS, Phone # 571-7602, Otu 407 TT. (S)

3-6-85 - A Riggs called and said MP-Pool still is out of acid.

3-6-85 - Two loads of lime come in at Bed 20 at 1700. They had weighed in but no one was at the scales to weigh them out. I informed Dayelle about this. He said to go ahead and unload. After two hours of calling I called Major McNut (577-1303) who is in charge of the scales and informed him of the situation. He said he would have someone there at 2030. The trucks were weighed out at 2130.
