

# TABLE OF CONTENTS

## VOLUME 1

|            |   |           |
|------------|---|-----------|
| <b>1.0</b> | <b>INTRODUCTION.....</b>                                | <b>1</b>  |
| 1.1        | Introduction.....                                       | 1         |
| 1.2        | The Tennessee Valley Authority .....                    | 1         |
| 1.3        | History of the TVA Power System.....                    | 2         |
| 1.4        | Purpose and Need for Integrated Resource Planning ..... | 5         |
| 1.5        | The Integrated Resource Planning Process .....          | 5         |
| 1.6        | The TVA Strategic Plan and Vision.....                  | 6         |
| 1.7        | The TVA Environmental Policy .....                      | 8         |
| 1.8        | Scoping and Public Involvement.....                     | 9         |
| 1.8.1      | Scoping.....  | 9         |
| 1.8.2      | Public Briefings .....                                  | 12        |
| 1.8.3      | Stakeholder Review Group.....                           | 12        |
| 1.8.4      | Public Review of the Draft IRP and EIS .....            | 12        |
| 1.9        | Statutory Overview .....                                | 13        |
| 1.10       | Relationship with Other NEPA Reviews.....               | 14        |
| 1.11       | EIS Overview.....                                       | 16        |
| <b>2.0</b> | <b>TVA’S RESOURCE PLANNING PROCESS.....</b>             | <b>19</b> |
| 2.1        | Introduction.....                                       | 19        |
| 2.2        | Need for Power Analysis.....                            | 19        |
| 2.2.1      | Load Forecasting Methodology .....                      | 19        |
| 2.2.2      | Forecast Accuracy .....                                 | 21        |
| 2.2.3      | Peak Load and Net System Energy Forecasts.....          | 21        |
| 2.2.4      | Power Supply Resources .....                            | 23        |
| 2.2.5      | Capacity and Energy .....                               | 24        |
| 2.2.6      | 2010 Resource Mix.....                                  | 24        |
| 2.2.7      | Assessment of Need for Power .....                      | 25        |
| 2.3        | Scenario Development.....                               | 28        |
| 2.4        | Planning Strategies .....                               | 33        |
| 2.5        | Portfolio Development.....                              | 35        |
| 2.6        | Portfolio and Strategy Evaluation Metrics .....         | 36        |
| <b>3.0</b> | <b>THE TVA POWER SYSTEM .....</b>                       | <b>39</b> |
| 3.1        | Introduction.....                                       | 39        |
| 3.2        | TVA Customers, Sales, and Power Exchanges.....          | 39        |
| 3.3        | TVA-Owned Generating Facilities.....                    | 40        |
| 3.4        | Purchased Power .....                                   | 47        |
| 3.5        | Demand-Side Management Programs.....                    | 49        |
| 3.6        | Transmission System.....                                | 54        |
| <b>4.0</b> | <b>AFFECTED ENVIRONMENT .....</b>                       | <b>57</b> |
| 4.1        | Introduction.....                                       | 57        |
| 4.2        | Climate .....   | 57        |
| 4.3        | Air Quality .....                                       | 69        |
| 4.4        | Regional Geology.....                                   | 90        |
| 4.5        | Groundwater.....  | 96        |

4.6. Water Quality ..... 99

4.7. Water Supply..... 101

4.8. Aquatic Life ..... 108

4.9. Vegetation and Wildlife ..... 110

4.10. Endangered and Threatened Species ..... 114

4.11. Wetlands ..... 115

4.12. Parks, Managed Areas, and Ecologically Significant Sites..... 116

4.13. Land Use ..... 117

4.14. Cultural Resources..... 118

4.15. Socioeconomics ..... 120

4.16. Solid and Hazardous Waste ..... 126

4.17. Availability of Renewable Resources ..... 130

    4.17.1. Wind Energy Potential ..... 131

    4.17.2. Solar Energy Potential..... 132

    4.17.3. Hydroelectric Energy Potential ..... 134

    4.17.4. Biomass Fuels Potential ..... 135

**5.0 ENERGY RESOURCE OPTIONS ..... 139**

    5.1. Introduction ..... 139

    5.2. Options Evaluation Criteria ..... 139

    5.3. Options Excluded from Further Evaluation ..... 139

    5.4. Options Included in IRP Evaluation ..... 142

        5.4.1. Fossil-Fueled Generation ..... 142

        5.4.2. Nuclear Generation ..... 146

        5.4.3. Renewable Generation ..... 147

        5.4.4. Energy Storage..... 151

        5.4.5. Energy Efficiency and Demand Response Options ..... 154

**6.0 ALTERNATIVES..... 157**

    6.1. Introduction ..... 157

    6.2. Strategies and Associated Resource Plans..... 157

        6.2.1. Strategy B – Baseline Plan Resource Portfolio ..... 157

        6.2.2. Strategy A - Limited Change in Current Resource Portfolio..... 158

        6.2.3. Strategy C - Diversity Focused Resource Portfolio ..... 158

        6.2.4. Strategy D - Nuclear Focused Resource Portfolio ..... 159

        6.2.5. Strategy E - EEDR and Renewables Focused Resource Portfolio ..... 159

        6.2.6. Strategy R - Recommended Planning Direction..... 160

    6.3. Strategy and Portfolio Evaluation..... 161

    6.4. Strategies and Alternatives ..... 164

    6.5. Preferred Alternative ..... 164

    6.6. Comparison of Environmental Impacts of the Alternatives ..... 168

**7.0 ANTICIPATED ENVIRONMENTAL IMPACTS ..... 171**

    7.1. Introduction ..... 171

    7.2. Facility Siting and Review Processes ..... 171

    7.3. Environmental Impacts of Supply-Side Resource Options ..... 172

        7.3.1. Fossil-Fueled Generation ..... 178

        7.3.2. Nuclear Generation ..... 180

        7.3.3. Renewable Generation ..... 180

        7.3.4. Energy Storage..... 185

    7.4. Environmental Impacts of Energy Efficiency and Demand Response Programs..... 185

7.5. Environmental Impacts of Transmission Facility Construction and Operation..... 186

7.6. Environmental Impacts of Alternative Resource Strategies and Portfolios..... 188

    7.6.1. Air Quality ..... 188

    7.6.2. Greenhouse Gas Emissions and Climate Change ..... 189

    7.6.3. Water Resources ..... 197

    7.6.4. Fuel Consumption..... 200

    7.6.5. Solid Waste..... 204

    7.6.6. Land Requirements ..... 207

    7.6.7. Socioeconomics..... 210

7.7. Potential Mitigation Measures ..... 211

7.8. Unavoidable Adverse Environmental Impacts ..... 211

7.9. Relationship Between Short-Term Uses and Long-Term Productivity of the Human Environment..... 212

7.10. Irreversible and Irrecoverable Commitments of Resources..... 212

**8.0 LITERATURE CITED..... 215**

**9.0 LIST OF PREPARERS ..... 231**

**10.0 LIST OF AGENCIES, ORGANIZATIONS, AND PERSONS TO WHOM COPIES ARE SENT..... 237**

**11.0 GLOSSARY, ACRONYMS, AND ABBREVIATIONS ..... 243**

**12.0 INDEX ..... 253**

## LIST OF TABLES

**Table 1-1.** IRP 2009 Public Scoping Meetings..... 9

**Table 1-2.** Public Meetings Held in 2010 Following Release of Draft IRP and EIS. .... 13

**Table 1-3.** Laws and executive orders relevant to the environmental effects of power system planning, construction, and operation..... 15

**Table 2-1.** Attributes of the eight scenarios..... 30

**Table 2-2.** Attributes of planning strategies..... 33

**Table 2-3.** Attributes of the five planning strategies. .... 34

**Table 3-1.** TVA customers and power sales for fiscal years 2006-2010..... 40

**Table 3-2.** Fiscal Year 2006-2010 TVA-Owned Generation by Type..... 41

**Table 3-3.** Characteristics of TVA coal-fired generating facilities..... 42

**Table 3-4.** TVA coal purchase contracts for 2011, in millions of tons, by mining region and mining method..... 44

**Table 3-5.** Characteristics of TVA nuclear generating units. .... 44

**Table 3-6.** Characteristics of TVA natural gas-fueled plants..... 46

**Table 3-7.** Major power purchase agreement contracts/facilities..... 48

**Table 3-8.** Pending power purchase agreements resulting from the 2008 RFP for the delivery of renewable energy. .... 49

**Table 4-1.** Monthly, seasonal, and annual temperature averages for six NWS stations in the TVA region for 1971-2000..... 58

**Table 4-3.** Monthly, seasonal, and annual wind speed averages for nine sites in the TVA region for 1973-2000..... 61

|                    |  |     |
|--------------------|--|-----|
| <b>Table 4-4.</b>  | Monthly, seasonal, and annual cloud cover averages for nine sites in the TVA region for 1973-2000.....   | 64  |
| <b>Table 4-5.</b>  | The major man-made greenhouse gases and their global warming potentials. Source: Forster et al. (2007).....  | 67  |
| <b>Table 4-6.</b>  | 2008 global, United States, and TVA region CO <sub>2</sub> emissions. Source: USEIA (2009, 2010). .....  | 68  |
| <b>Table 4-7.</b>  | National Ambient Air Quality Standards.....  | 70  |
| <b>Table 4-8.</b>  | Aquifer, well, and water quality characteristics in the TVA region. Source: Webbers (2003). .....  | 98  |
| <b>Table 4-9.</b>  | TVA reservoir ecological health ratings, major water quality concerns, and fish consumption advisories. Source: TVA Data at <a href="http://www.tva.com/environment/ecohealth/index.htm">http://www.tva.com/environment/ecohealth/index.htm</a> and state water quality reports..... | 102 |
| <b>Table 4-10.</b> | 2005 water use for TVA coal-fired and nuclear generating plants. Source: Bohac and McCall (2008). .....  | 106 |
| <b>Table 4-11.</b> | Projected Browns Ferry and Watts Bar Nuclear Plant water use. Source: TVA data. ....   | 107 |
| <b>Table 4-12.</b> | TVA combined-cycle generating plant water use.....   | 108 |
| <b>Table 4-13.</b> | Regional non-TVA power generation and thermoelectric water use. ....   | 108 |
| <b>Table 4-14.</b> | TVA region metropolitan areas (Source: Bureau of Census 2000a, 2010). .....  | 122 |
| <b>Table 4-15.</b> | Quantities (in kilograms) of hazardous wastes and other wastes requiring special handling produced by TVA generating facilities, 2006-2009. See text for descriptions of the waste classifications. ....   | 127 |
| <b>Table 4-16.</b> | 2006 - 2009 coal combustion solid waste production and utilization. ....   | 129 |
| <b>Table 4-17.</b> | Quantity (in lbs.) and rate (in lbs/GWh) of low level waste generated at TVA nuclear plants, 2006-2009. Source: TVA data. ....   | 130 |
| <b>Table 5-1.</b>  | Energy resource options identified during IRP scoping but excluded from further evaluation. ....   | 140 |
| <b>Table 5-2.</b>  | Renewable generation capacity (in cumulative MW) expansion portfolio associated with Strategies C, D, and R.....   | 152 |
| <b>Table 5-3.</b>  | Renewable generation capacity expansion portfolio associated with Strategy E.....  | 153 |
| <b>Table 6-1.</b>  | Levels of EEDR, renewable additions, and coal capacity idled tested in the development of Strategy R.....  | 157 |
| <b>Table 6-2.</b>  | Cost and financial metrics for the 35 resource portfolios and averages for each Strategies A-E. ....   | 161 |
| <b>Table 6-3.</b>  | Environmental and economic development metrics for the 35 resource portfolios and averages for Strategies A-E. ....  | 162 |
| <b>Table 6-4.</b>  | Original planning strategies ranked by their total ranking metric scores for cost and financial risk factors.....  | 163 |

| <b>Table 6-6.</b>  | The No Action Alternative - Strategy B - Baseline Plan Resource Portfolio. All listed capacities are in MW. ....   | 165 |
| <b>Table 6-7.</b>  | Action Alternative - Strategy C - Diversity Focused Resource Portfolio. All listed capacities are in MW. ....  | 166 |
| <b>Table 6-8.</b>  | Action Alternative - Strategy E - EEDR and Renewables Focused Resource Portfolio. All listed capacities are in MW.....   | 167 |

**Table 6-9.** Action Alternative Strategy R - Recommended Planning Direction. All listed capacities are in MW..... 168

**Table 7-1.** Environmental characteristics of current and committed supply-side options included in alternative strategies. .... 174

**Table 7-3.** Generic impacts of transmission system construction activities. .... 187

**Table 7-4.** Average percent reductions in CO<sub>2</sub> emissions by strategy..... 194

**Table 7-5.** Average percent reductions in CO<sub>2</sub> intensity by strategy..... 194

**Table 7-6.** Comparison of socioeconomic impacts of alternative strategies based on the percent difference from the no-action Strategy B/Scenario 7. .... 211

## LIST OF FIGURES

**Figure 1-1.** The TVA region..... 2

**Figure 2-1.** Peak load (top) and net system energy (bottom) forecasts for the baseline Scenario 7 - Reference Case: Spring 2010 and high- and low-growth scenarios..... 22

**Figure 2-2.** Representative summer day load shape and use of peaking, intermediate, and base load generation..... 24

**Figure 2-3.** 2010 baseline portfolio firm capacity (left) and generation (right). .... 25

**Figure 2-4.** 2010 - 2029 firm capacity under the 2010 baseline portfolio. .... 26

**Figure 2-5.** Capacity (top) and generation (bottom) gaps for the baseline Scenario 7 - Reference Case: Spring 2010 and lowest and highest scenarios. .... 27

**Figure 3-1.** Fiscal Year 2010 TVA-Owned Summer Generating Capacity by Type of Generation..... 41

**Figure 3-2.** Fiscal year 2006-2010 coal purchases by mining region..... 43

**Figure 3-3.** Cumulative demand reduction of TVA EEDR programs, fiscal years 1995-2008. .... 50

**Figure 3-4.** Fiscal year 2008-2012 demand reduction goals and achieved demand reduction..... 51

**Figure 4-1.** 1971-2000 TVA region annual average temperature (°F) based on data from six NWS stations. .... 59

**Figure 4-2.** Annual average precipitation (inches) for the Tennessee River basin. The straight line represents the mean change in annual precipitation for the period. Source: TVA rain gauge network data..... 60

**Figure 4-3.** Prevailing wind direction for surface winds at nine regional airports, 1973-2000. .... 62

**Figure 4-4.** Annual median wind surface wind speeds for the TVA region, 1973-2008..... 63

**Figure 4-5.** Observed annual observations and fitted trend lines for (a) cloud cover at the Chattanooga airport, (b) cloud cover at the Huntsville airport, (c) solar radiation at Sequoyah Nuclear Plant, and (d) solar radiation at the Browns Ferry Nuclear Plant for 1976/1977-2008..... 64

**Figure 4-6.** Trends in cloud cover at nine sites in the TVA region for (a) 1973-2008, (b) 1973-1995, and (c) 1995-2008. .... 66

**Figure 4-7.** CO<sub>2</sub> emissions from TVA power plants and other plants with long-term TVA power purchase agreements, 2000 - 2009. .... 69

**Figure 4-8.** Non-attainment areas for fine particles (PM<sub>2.5</sub>). .... 71

**Figure 4-47.** Total biomass resources potentially available in the TVA region by county (top) and per square kilometer by county (bottom). Source: Adapted from Milbrandt (2005). ..... 137

**Figure 4-48.** TVA region potential biomass resource supply (left) and generation (right). Source: Adapted from Milbrandt (2005 and NREL (2009c). ..... 138

**Figure 7-1.** Generation (and avoided generation) by source, strategy, and scenario for the 20-year planning period. Generation by other renewable sources (hydroelectric modernization, new hydrogeneration, landfill gas, solar) is not shown because of the small quantities. .... 189

**Figure 7-2.** Trends in SO<sub>2</sub> emissions by scenario for (top to bottom) Strategies B, C, E, and R. .... 190

**Figure 7-3.** Trends in NO<sub>x</sub> emissions by scenario for (top to bottom) Strategies B, C, E, and R. .... 191

**Figure 7-4.** Trends in mercury (Hg) emissions by scenario for (top to bottom) Strategies B, C, E, and R. .... 192

**Figure 7-5.** 2010-2028 trends in direct CO<sub>2</sub> emissions for (top to bottom) Strategies B, C, E, and R. .... 193

**Figure 7-6.** 2010-2028 trends in direct CO<sub>2</sub> emissions for (top to bottom) Strategies B, C, E, and R. .... 195

**Figure 7-7.** Trends in water use by coal, nuclear, and natural gas generating facilities by scenario for (top to bottom) Strategies B, C, E, and R..... 198

**Figure 7-8.** Trends in water consumption by coal, nuclear, and natural gas generating facilities by scenario for (top to bottom) Strategies B, C, E, and R..... 199

**Figure 7-9.** Trends in coal consumption by scenario for (top to bottom) Strategies B, C, E, and R. .... 201

**Figure 7-10.** Trends in nuclear fuel consumption by scenario for (top to bottom) Strategies B, C, E, and R. .... 202

**Figure 7-11.** Trends in natural gas consumption by scenario for (top to bottom) Strategies B, C, E, and R. The volume is based on the heat content of 1,025 Btu/cubic foot of natural gas used by the electric power sector in 2009 (USEIA 2010b). .... 203

**Figure 7-12.** Trends in coal ash production by scenario for (top to bottom) Strategies B, C, E, and R. .... 205

**Figure 7-13.** Trends in scrubber waste production by scenario for (top to bottom) Strategies B, C, E, and R. .... 206

**Figure 7-14.** Trends in production of high and low level waste by scenario for (top to bottom) Strategies B, C, E, and R..... 208

**Figure 7-15.** Land requirements for new generating facilities by type of generation, strategy, and scenario. .... 209

**Figure 7-16.** Life-cycle land requirements for generating facilities by type of generation, strategy, and scenario..... 210
