Product information, including uses/applications and source(s) of imports:

The chemical, *o*-cumyloctylphenol, is an organic intermediate that functions as an absorber of ultraviolet light. The product is used in the production of automotive coatings and light-sensitive plastics to prevent or retard the darkening or yellowing of the material as a result of exposure to sunlight. Schenectady International imports this chemical from a subsidiary in Switzerland.

Technical comments:³ ITC staff have made a slight editorial change to the chemical name in expired heading 9902.29.86.

³ The Commission may express an opinion on the HTS classification of a product to facilitate consideration of the bill. However, by law, only the U.S. Customs Service is authorized to issue a binding ruling on this matter. The Commission believes that the U.S. Customs Service should be consulted prior to enactment of the bill.
