

Effective Health Care

Etiology of Sarcoidosis

Nomination Summary Document

Results of Topic Selection Process & Next Steps

- The etiology of sarcoidosis does not fit within the domain of the Effective Health Care (EHC) Program because it does not address an effectiveness or comparative effectiveness question. No further activity will be undertaken on this topic.

Topic Description

Nominator: Individual

Nomination Summary: The nomination focuses on an interest in the etiology of sarcoidosis.

Key Questions from Nominator: 1. Is there ever going to be research [on sarcoidosis] and possible answer to why?

Considerations

- The topic does not meet EHC Program appropriateness criteria. (For more information, see <http://effectivehealthcare.ahrq.gov/index.cfm/submit-a-suggestion-for-research/how-are-research-topics-chosen/>.)
- This nomination does not appear to address an effectiveness or comparative effectiveness question; therefore, this nomination does not fit within the domain of the EHC Program.
- Further information on the topic of sarcoidosis is available from the National Institutes of Health at: <http://health.nih.gov/topic/Sarcoidosis>.
