

more of you in DC that can support the policies you want to support in your letter.

We do need to start drilling again in the US and Off-Shore. We need to make sure that we take precautions to avoid damage to the environment. We cannot sacrifice one for the other. But we must start drilling again, and do so in a respective manner of Mother Nature.

And we are going to need some new refining capability. Again, do it new technology and with respect to our environment. Build it in Eastern Idaho—we have the space and we could use the jobs and economic boost. Tough to get oil here, but if they need a place for it, bring it here.

We must start the nuclear programs again. We need to build some new reactors soon. I do not know for sure, but I am betting some of our older reactors are getting long in the tooth, and if they go off the grid, then what happens? Besides we need more power and money spent to renew our grid system.

We need to take a serious look at Ethanol. I am not sure it is all it is being promoted to be. I am not sure the benefits outweigh all of the costs. With the flooding in the Midwest, I wonder what the cost of corn will be now? But it is not just food issues, but the processing issues as well.

Wind Power should be promoted as well. But a Nuclear Power Plant is much easier on the eyes than 1000 wind towers, and not as susceptible to the changes in the wind.

Coal alternatives should be looked at as well. We need to check if the benefits we can gain from technology like coal gasification are valid and have low impact. Some of the claims you hear and read about look promising. But as I am learning with Ethanol, there may be some significant costs to chase this type of technology.

But the short of it—we need to develop our energy and become more independent. The amount of jobs created would be incredible in the process. You want a better health care system and less unemployment and less government care programs—just set the energy companies loose (for a change) and see this economy rebound in a heartbeat. These energy companies can afford health care plans and benefits for their workers. Our current policies are killing us—and I really hope there are enough Senators and Representatives in DC to turn this around. We have been shooting ourselves in the foot for more than 20 years. Guess it took that long for the “brain” to finally realize the pain in doing so.

Good Luck.

STEPHEN KAISER, *Rigby.*

TRIBUTE TO ARDIS DUMETT

Mrs. MURRAY. Mr. President, I rise today to recognize Ardis Dumett for her 20 years of service to the U.S. Senate and the people of Washington State. Ardis has served on my staff for the last 16 years of her distinguished public career. For 4 years prior to her service in my office, she worked for the revered Senator Henry “Scoop” Jackson. On January 20, Ardis retired from my office. We are sad to see her go and hope that she enjoys her well-earned retirement.

Throughout her career, Ardis has been a thoughtful and dedicated public servant. Initially, as my constituent services director, she led by example in her commitment and compassion to the constituents of Washington State. Covering immigration and environmental casework, she ensured the people of my State were well served by their Federal Government.

As the director of special projects in my Seattle office, she worked on numerous issues on my behalf over the years, ranging from the environment and emergency response to tribes and the transfer of military property. She worked tirelessly to guarantee that our State’s people and communities received a fair process—and often a successful outcome—when working with Federal agencies. Over the years I have received many notes from constituents thanking me for Ardis’ diligent work.

I would like to thank Ardis for her years of service to me and the people of Washington State. Her career is a tremendous example of public service; and her dedication to her work is truly appreciated. I wish her all the best in her future endeavors.

UNI-CAPITOL WASHINGTON INTERNSHIP PROGRAMME 2009

• Mr. CRAPO. Mr. President, I am proud to be involved for a third year in the Uni-Capitol Washington Internship Programme, UCWIP, an exchange program in which outstanding college students from Australia’s top universities compete to serve as interns for the U.S. Congress. The program is in its 10th year of bringing the Washington experience to our friends from Australia, firsthand. In addition to working in congressional offices, the program provides students with a number of other opportunities and activities including visits to historic sites, visits to government agencies, meetings with government leaders, and educational events.

This year, Nicholas Tam, a student from Melbourne University in Australia, is taking a 2-month hiatus from his law degree to help me serve Idaho constituents. Of the program, Nick says, “Working with Senator CRAPO has been a gateway to developing a nuanced, sophisticated understanding of the United States and its precise position and role in the world. UCWIP has been culturally enriching and enhancing of my own professional development. It has been a real privilege to aid in the advancement of strong conservative principles whilst working here in the United States Senate.” Nick is a terrific temporary addition to my staff and, like past interns, an intelligent individual, hard worker and personable.

Director Eric Federer and his wife Daphne have shown a decade of tireless commitment to enlarging the educational experience of Australian students. Now with 81 program alumni, this educational and highly successful exchange program has earned a rightful place among leading international academic exchange opportunities. I am honored to continue to participate in this well-crafted and successful program.●
