

Department of Energy

Washington, DC 20585

April 17, 2008

MEMORANDUM FOR DISTRIBUTION

FROM:

WILLIAM H. ROEGE

DIRECTOR

OFFICE OF CORPORATE SAFETY ANALYSIS

OFFICE OF HEALTH, SAFETY AND SECURITY

SUBJECT:

Department of Energy Corrective Action Management
Program Second Quarter Report Fiscal Year 2008

Attached is the Department of Energy (DOE) report on the status of the Corrective Action Management Program (CAMP) for the second quarter of fiscal year (FY) 2008. The report summarizes Corrective Action Plans (CAP) and their associated corrective actions developed and tracked by line managers to effectively address and resolve the Office of Independent Oversight environment, safety, health and emergency management assessment findings; Type A Accident Investigation Judgments of Need; Office of Aviation Management audit findings and other special assessment findings directed by the Secretary or Deputy Secretary to be addressed in CAMP. The report also summarizes line management follow-up corrective action effectiveness reviews of the completed CAPs to assure the findings have been effectively resolved and will not recur. The CAMP status is documented and tracked in the Department's Corrective Action Tracking System (CATS).

During the second quarter of FY 2008, three new assessment reports were added to the CAMP database. Four approved CAPs were completed and 16 approved CAPs are on schedule for completion. A total of 215 corrective actions were completed and 14 corrective actions are past their planned completion dates. One corrective action effectiveness review was approved during the quarter and no effectiveness reviews are overdue for approval by the cognizant Field Element Manager. Nine corrective action effectiveness reviews are on schedule for completion.

Our CAMP website at <http://www.hss.energy.gov/csa/csp/camp/index.html> outlines the program background, applicable DOE directives and references, Corrective Action Management (CAM) Team charter, CATS database and User's Guide, and previous quarterly reports on the status of the CAMP.

If you have any questions, comments or recommended changes pertaining to this report please contact me at (301) 903-8008, or Larry McCabe, of my staff at (301) 903-6732. Recommended changes may also be communicated to your CAM Team representative.

DOE Corrective Action Management Program

Second Quarter Report for Fiscal Year 2008

Performance Summary

This report provides the second quarter, fiscal year 2008 summary status of the Department of Energy Corrective Action Management Program (CAMP). The report includes the status of corrective action plans (CAPs) and their associated corrective actions (CAs) as of March 31, 2008. The report depicts the Department's CAMP program status, followed by the status for the Under Secretaries and the assigned Secretarial Officer (SO).

Progress has been noted with respect to Office of Environmental Management (EM) facilities in that no corrective actions have been overdue during the past six quarters, an improvement from 4QFY2006 when seven late corrective actions were reported. EM also completed 96 corrective actions during the quarter. There were no overdue EM effectiveness reviews during the quarter.

The National Nuclear Security Administration (NNSA) had 14 late corrective actions and no overdue effectiveness reviews for the quarter, representing a significant improvement from the previous quarter when 46 late corrective actions and one overdue effectiveness review were reported. NNSA also completed 66 corrective actions and one effectiveness review during the quarter.

The Office of Science (SC) had no late corrective actions or overdue effectiveness reviews during the quarter. SC completed 15 corrective actions during the quarter.

The Office of Nuclear Energy (NE) also had no late corrective actions or overdue effectiveness reviews for the quarter. NE completed 37 corrective actions during the quarter.

Reporting Guidelines

The Corrective Action Management Program requirements delineated in DOE Order 414.1C, Quality Assurance, direct Department line managers to address, track, report, complete, and determine the effectiveness of corrective actions to resolve and prevent recurrence of:

(1) Environment, safety and health, and emergency management findings identified by the Office of Independent Oversight; (2) Judgments of Need identified during Type A accident investigations; (3) Safety management findings of DOE aviation facilities identified by the Office of Aviation Management, Office of Management; (4) Findings identified during the conduct of special assessment initiatives directed by the Secretary or Deputy Secretary to be tracked and reported in accordance with the provisions of the DOE CAMP.

A *finding* is defined as a significant deficiency identified during the conduct of an oversight assessment that may adversely affect the DOE mission; environment, safety or health of workers or the public; or national security. For the purpose of this report, the term *findings* will also apply to accident investigation judgments of need. These findings are validated and clearly addressed in a formal assessment report provided to line management.

Department line managers must develop and implement a CAP that describes all actions required to effectively resolve each reported finding. The final CAP is approved by the SO or their delegated designee within 60 days from issuance of the formal assessment report. Line managers must also complete all corrective actions within the planned dates, as outlined in the approved CAP, and report the status of these actions in the Department's Corrective Action Tracking System database. The planned CAP completion date is the date that all corrective actions listed in the CAP are to be completed.

Within 6 months after completion of all corrective actions in the CAP, the responsible Field Element Manager must complete and approve a corrective action effectiveness review to verify closure of corrective actions and determine their effectiveness in preventing recurrence.

This report is available on the Internet by accessing the CAMP Website at:

<http://www.hss.energy.gov/CSA/csp/camp/index.html>
