E2. ENCLOSURE 2

DEFINITIONS

E2.1.1. Confidential Reporting. For the purposes of the policies and procedures of the SAPR Program, confidential reporting is restricted reporting that allows a Service member defined in Reference (c), to report or disclose to specified officials that he or she has been the victim of a sexual assault. This reporting option gives the member access to medical care, counseling, and victim advocacy, without requiring those specific officials to automatically report the matter to law enforcement or initiate an official investigation. The restricted reporting option is only available to those sexual assault victims who are Service members; however, it may not be an option if the sexual assault occurs outside of the military installation or the victim first reports to a civilian facility and/or a civilian authority. This will vary by state, territory, and/or overseas local agreements. For additional information on restricted reporting, see Reference (c).

E2.1.2. Defense Case Record Management System (DCRMS). A Department-wide data system, developed in coordination with the Military Services, to document support services requested by or referred for victims, standardized data on sexual assault incidents for trends, and record data on restricted reports of sexual assault. The DCRMS assists SARCs to manage the SAPR Program and meet reporting requirements, including restricted reports, victim support services, and the reporting requirements of section 596 of the National Defense Authorization Act for Fiscal Year 2006 (Reference (aa)) on cases hindered by lack of materials or processing delay. It allows the Services to obtain consistent data, assess trends, improve service delivery, and adjust policies as needed. Additionally, it provides standardized reports as required.

E2.1.3. Defense Incident Based Reporting System (DIBRS). A database system for the central storage of statistical information on criminal and high interest incidents within the Department of Defense. These incidents include situations where the military has exclusive jurisdiction, or if they share jurisdiction, where they coordinate with civilian law enforcement authorities. This system requirement meets uniform Federal crime reporting requirements, statutory requirements, and enables the Department of Defense to provide responses to internal and external response requests for statistical data on criminal incidents.

E2.1.4. Final Disposition. The conclusion of any judicial, non-judicial, or administrative actions, to include separation actions taken in response to the offense, whichever is later in time. If the final command determination is that there is insufficient evidence or other legal issues exist that prevent judicial or administrative action against the alleged perpetrator, this determination shall be conveyed to the victim in a timely manner.

E2.1.5. Military Criminal Investigative Organizations (MCIOs). The United States Army Criminal Investigation Command, Naval Criminal Investigative Service, and Air Force Office of Special Investigations.

E2.1.6. Identifying Personal Information. For the purpose of this Instruction, this term applies to the victim or alleged offender of a sexual assault, and is that information which would disclose

or have a tendency to disclose the person's identity. Identifying personal information includes the person's name or a particularly identifying description (e.g., physical characteristics or identity by position, rank, or organization), or other information about the person or the facts and circumstances involved that could reasonably be understood to identify the person (e.g., a female in a particular squadron or barracks when there is only one female assigned).

E2.1.7. Non-identifying Personal Information. Includes those facts and circumstances surrounding the sexual assault incident or information about the individual that enables the identity of the victim or alleged offender to remain anonymous.

E2.1.8. Reprisal. Taking or threatening to take an unfavorable personnel action, or withholding or threatening to withhold a favorable personnel action, or any other act of retaliation, against a DoD member for making, preparing, or receiving a covered communication.

E2.1.9. Sexual Assault Advisory Council (SAAC). A senior executive-level decision-making body that provides advice and counsel to the Secretary of Defense and Deputy Secretary of Defense on all SAPR matters.

DoD SAPR PROGRAM REQUIREMENTS AND PROCEDURES

E3.1. MANAGEMENT RESPONSIBILITY. Commanders, supervisors, and managers at all levels are responsible for the effective implementation of SAPR policies. Military and DoD civilian officials at each management level shall advocate a strong SAPR program and provide education and training that shall enable them to prevent and appropriately respond to incidents of sexual assault.

E3.2. PREVENTION AND RESPONSE. The Military Services shall:

E3.2.1. Provide periodic, mandatory education and training in SAPR at installation and fleet unit commands, during pre-commissioning programs and initial-entry training, and throughout the professional military education systems.

E3.2.1.1. This training shall be provided as part of the overall effort to achieve sexual assault awareness and prevention within the Department of Defense and shall be provided to all DoD Military Service members, including flag and general officers, and at a minimum to all civilian personnel who supervise military Service members. The focus of this training is to ensure that all Service members and civilian supervisors of Service members have a working knowledge of what constitutes sexual assault, why sexual assaults are crimes, and the meaning of consent. Additionally, the training should provide personnel with information on the reporting options available to them and the exceptions and/or limitations of each option.

E3.2.1.2.. The term sexual assault as defined in Reference (c) shall be used in all training programs. Training should also emphasize the distinction between the terms sexual assault and sexual harassment which is defined in Reference (r).

E3.2.2. Conduct an annual sexual assault awareness training update.

E3.2.2.1. To help Service members understand the nature of sexual assaults in the military environment, this training should be scenario-based, using real-life situations to demonstrate the entire cycle of reporting, response, and accountability procedures.

E3.2.2.2. Training for junior personnel should incorporate adult learning theory, which includes group participation and interaction.

E3.2.3. Ensure Service members who deploy to locations outside the United States are cognizant of sexual assault issues, as well as DoD-specific and Military Service-specific policies addressing sexual assault prevention, offender accountability, and victim care. This training shall include risk reduction factors that are tailored to the specific deployment location(s), and at a minimum shall:

E3.2.3.1. Provide a brief history of the specific foreign countries or areas anticipated for deployment, and address the area's customs, mores, and religious practices. The cultural customs, mores, and religious practices of coalition partners in the deployed location shall also be addressed.

E3.2.3.2. Address procedures for reporting a sexual assault to ensure Service members are aware of the full range of options available at the deployed location.

E3.2.3.3. Develop a mechanism for identifying trained sexual assault first responders, and identify those first response personnel who shall be available during the deployment, to include the SARC, VAs, HCPs, and chaplains.

E3.2.4. Establish guidelines for a 24-hour, 7-days per week sexual assault response capability for all locations, including deployed areas. Non-eligible civilians requiring emergent care for sexual assault shall be given appropriate life-saving intervention, if available, and assisted with the transition to civilian healthcare, law enforcement, and/or other support resources. While the installation may provide information on community resources, it shall be the decision of the civilian whether to pursue follow-on intervention, unless the individual is physically unable to make that determination. Regardless of the location, coordinate the efforts and resources to ensure optimal and safe administration of unrestricted and restricted reporting options, with appropriate protection, medical care, counseling, and advocacy. The guidelines shall:

E3.2.4.1. Ensure first responders are trained and identified, and response times are continually monitored to ensure timely response to reports of sexual assault. First responders shall include law enforcement, SARC, VAs, MCIOs, and HCPs. Additional explanation of first responders is provided at Enclosure 6.

E3.2.4.2. Maintain adequate supplies of SAFE kits and ensure personnel are appropriately trained on protocols for their use and comply with prescribed chain of custody procedures. Modified procedures applicable in cases of restricted reports of sexual assault are explained in Enclosure 4.

E3.2.4.3. Establish a multi-disciplinary case management group, as prescribed in Enclosure 7 and include provisions to provide for continuity of victim care and case management when a victim has a temporary or permanent change of station, or is deployed.

E3.2.4.4. Promote expedient resolution of unrestricted sexual assault cases. Unless otherwise expressly excused by operation of law, regulation, or policy, a unit commander who receives a report of an incident of sexual assault shall refer the matter as soon as practicable to investigative authorities assigned to the appropriate MCIO.

E3.2.4.5. Establish a policy which encourages commanders to be responsive to a victim's desire to discuss his or her case with the senior commander tasked by the Military Service with oversight responsibility for the SAPR program as determined in Reference (c).

E3.2.5. Establish the position of the SARC.

E3.2.5.1. Establish standardized criteria for selection of the SARC.

E3.2.5.2. At the Military Service's discretion, the SARC may be a military member, DoD civilian employee, or DoD contractor. The SARC shall:

E3.2.5.2.1. Report to the Military Service-designated senior commander, as defined in Reference (c).

E3.2.5.2.2. Provide regular updates to the senior commander and assist the commander to meet annual SAPR training requirements, to include providing orientation briefings for newly assigned personnel, and, as appropriate, providing community education publicizing available SAPR services.

E3.2.5.2.3. Provide the senior commander with non-identifying personal information, as defined in Enclosure 2, within 24 hours of a restricted report of sexual assault. Recognizing there may be extenuating circumstances in the deployed environments, this notification may be extended to 48 hours after the restricted report of the incident. Command and installation demographics shall be taken into account when determining the information to be provided.

E3.2.5.2.4. Serve as the single point of contact (POC) to coordinate community sexual assault response when a sexual assault is reported. The SARC shall assist the senior commander to ensure victims of sexual assault receive the appropriate responsive care.

E3.2.5.2.5. Personnel assigned as SARCs, provided that they are regularly appointed DoD military or civilian personnel, may exercise oversight responsibility for VAs authorized to respond to sexual assaults when they are providing victim advocacy services.

E3.2.5.2.6. Facilitate education of command personnel on sexual assault and victim advocacy services.

E3.2.5.2.7. Facilitate briefings on victim advocacy services to Service members, DoD civilian employees, DoD contractors, and other command or installation personnel as appropriate.

E3.2.5.2.8. Facilitate and document appropriate training of all military first responders who attend the multi-disciplinary case management group. An additional explanation of the case management group is included in Enclosure 7.

E3.2.5.2.9. Facilitate practical training for military sexual assault medical examiners and HCPs, as needed, in order to maintain optimal readiness and ensure the same level of care is provided in deployed, overseas, and remote environments.

E3.2.5.2.10. Facilitate the development and collaboration of SAPR public awareness campaigns for victims of sexual assault, to include planning local events for Sexual Assault Awareness Month which is nationally observed during the month of April.

E3.2.5.2.11. Coordinate medical and counseling services between military installations and/or deployed units related to care for victims of sexual assault.

E3.2.5.2.12. Conduct an ongoing assessment of the consistency and effectiveness of the SAPR within the assigned area of responsibility.

E3.2.5.2.13. Collaborate with other agencies and activities to improve SAPR responses to, and support of victims of sexual assault.

E3.2.5.2.14. Advocate to ensure the views of the victim of the sexual assault are considered in the decision-making process.

E3.2.5.2.15. Maintain liaison with commanders, military law enforcement, and MCIOs as appropriate to ensure protocols and procedures:

E3.2.5.2.15.1. Activate victim advocacy 24 hours a day, 7 days a week for all incidents of reported sexual assault occurring either on or off the installation involving Service members.

E3.2.5.2.15.2. Collaborate on public safety, awareness, and preventive measures.

E3.2.5.2.15.3. Facilitate ongoing training of military and civilian law enforcement and criminal investigative personnel on the SAPR policy and the roles and responsibilities of the SARC and VAs.

E3.2.5.2.16. Consult with command legal representatives, HCPs, and MCIOs to assess the potential impact of state laws governing the reporting requirements for adult sexual assault that may affect compliance with the DoD restricted reporting option and develop or revise applicable memorandums of understanding (MOUs) as appropriate. (See Enclosure 11.)

E3.2.5.2.17. Collaborate with MTFs within their area of responsibility to establish protocols and procedures to ensure notification of the SARC and/or a VA for all incidents of reported sexual assault, and facilitate ongoing training of HCPs on the roles and responsibilities of SARCs and VAs.

E3.2.5.2.18. Document the services referred to and/or requested by the victim from the time of the initial report of a sexual assault through the final disposition and/or until the victim no longer desires services.

E3.2.5.2.18.1. The SARC shall maintain in the DCRMS an account of the services referred to and/or requested by the victim for all reported sexual assault incidents, from medical treatment through counseling, and from the time of the initial report of a sexual assault through the final disposition and/or until the victim no longer desires services.

E3.2.5.2.18.2. The DCRMS shall capture information regarding all incidents from the moment the report is initiated until final disposition. The SARC will provide aggregate information to assist senior-level commanders to better understand and manage trends and

characteristics of sexual assault crimes at the Military Service-level, and to better understand and mitigate the risk factors that may be present within the associated environment.

E3.2.5.2.19. SARCs, provided that they are regularly appointed DoD military or civilian personnel, shall serve as chairperson of a multi-disciplinary case management group that meets monthly to review individual cases of unrestricted reports of sexual assault, unless this responsibility is otherwise delegated by the Military Service. (See Enclosure 7 for further explanation of the case management group.)

E3.2.5.2.20. Familiarize the unit commanders and/or supervisors of sexual assault VAs with the VA roles and responsibilities, using DD Form 2909, "VA and Victim Advocate Supervisor Statement of Understanding," at Enclosure 9 or a comparable Military Service-developed, standardized form. Unit commanders and supervisors shall not interfere with, or otherwise attempt to negatively influence, VA's sexual assault advocacy duties. If there is a conflict between a VA's primary duty and advocacy responsibilities, the VA's Unit Commander and/or supervisor should consult with the SARC to resolve the conflict. (See paragraph E3.2.11. for additional information.)

E3.2.6. Ensure victim advocacy is available for victims of sexual assault.

E3.2.6.1. Ensure standardized criteria for the selection and training of sexual assault VAs complies with Military Service's specific guidelines. All VA's must acknowledge their understanding of their advocacy roles and responsibilities using DD Form 2909, at Enclosure 9, or comparable Military Service-developed, standardized form.

E3.2.6.2. At the Military Service's discretion, victim advocacy may be provided by military personnel, DoD civilian employees, or DoD contractors, volunteers, or accomplished through partnership agreements with civilian advocacy organizations. Personnel responsible for providing victim advocacy shall:

E3.2.6.2.1. Be notified and respond within Military Service-designated timelines upon receipt of a report of sexual assault.

E3.2.6.2.2. Provide crisis intervention, victim service referrals, and on-going, non-clinical support to the victim of a reported sexual assault, in accordance with the sexual assault response protocols prescribed in Enclosure 10. A VA's primary responsibility is to help the victim navigate those processes required to obtain care and services needed. It is not the VA's role or responsibility to be the victim's therapist or to act as an investigator.

E3.2.6.2.3. Report directly to the SARC while providing sexual assault advocacy responsibilities.

E3.2.7. Ensure that, at a minimum, the following medical care is made available to a victim of sexual assault, and provided if the victim elects:

E3.2.7.1. Complete physical assessment, examination, and treatment of injuries including immediate life-saving interventions with follow-up and referral care as needed.

E3.2.7.2. Once clinically stable, the HCP shall consult with the victim regarding further healthcare options which shall include, but are not limited to:

E3.2.7.2.1. Testing, prophylactic treatment options, and follow-up care for possible exposure to human immunodeficiency virus (HIV) and other sexually transmitted infections or diseases.

E3.2.7.2.2. Assessment of the risk of pregnancy, options for emergency contraception, and any necessary follow-up care and/or referral services.

E3.2.7.2.3. Assessment for the need for behavioral health services and providing a referral, if necessary and/or requested by the victim.

E3.2.7.3. Ensure that the HCP consults with the victim regarding the availability of an optional SAFE. (Additional explanation of SAFE is at Enclosure 4.)

E3.2.7.3.1. If performed in the MTF, the HCP shall utilize a SAFE collection kit (SAFE kit) and the most current edition of the DD Form 2911, "Forensic Medical Report Sexual Assault Examination," at Enclosure 14.

E3.2.7.4. Designate an official who, in cases of restricted reporting, shall generate an alpha-numeric restricted reporting case number (RRCN), unique to each incident, that shall be used in lieu of personal-identifying information to label and identify evidence collected from a SAFE (i.e., SAFE kit, accompanying documentation, personal effects, and clothing).

E3.2.7.5. Designate an activity that, in cases of restricted reporting, will receive forensic evidence from the HCP and label and store such evidence in accordance with the following: (See Enclosure 4 for further information.) The activity representative shall be trained and capable of collecting and preserving evidence to assume custody of the evidence using established chain of custody procedures.

E3.2.7.6. Ensure SAFE evidence collection procedures are the same for both a restricted and unrestricted report of sexual assault. Additionally, for restricted reports of sexual assault, procedures shall be as follows:

E3.2.7.6.1. The Service-designated official shall provide the HCP with the appropriate RRCN to use in place of personally identifiable information about the victim should the victim elect restricted reporting, according to prescribed procedures for SAFE collection and preservation under restricted reporting. (See Enclosure 4.)

E3.2.7.6.2. Upon completion of the SAFE and securing of the evidence, the HCP will turn the material over to the appropriate Service-designated activity as determined by the selected reporting option.

E3.2.7.6.3. Evidence shall be stored until a victim changes to unrestricted reporting, but may not exceed 1 year from the date of the victim's restricted report of the sexual assault.

E3.2.8. Establish an official collateral duty within each MTF for the assignment of an HCP as the primary POC concerning DoD and Military Service SAPR policy, as well as updates in sexual assault care.

E3.2.9. Maintain liaison with installation Family Advocacy Program and Domestic Violence intervention and prevention staff to ensure coordination when a sexual assault occurs within a domestic relationship or involves child abuse.

E3.2.10. Maintain liaison with civilian sexual assault victim resources. Where necessary, recommend that commands establish an MOU or support agreements with the appropriate local authorities and civilian service organizations to maximize cooperation, reciprocal reporting of sexual assault information, and/or consultation regarding jurisdiction for the prosecution of Service members involved in sexual assault. The purposes of these MOUs or agreements are to:

E3.2.10.1. Enhance communications and the sharing of information regarding sexual assault prosecutions, as well as of the sexual assault care and forensic examinations that involve Service members.

E3.2.10.2. Collaborate with local community crisis counseling centers, as necessary, in order to augment or enhance their SAPR programs.

E3.2.10.3. Provide liaison with private sector sexual assault councils as appropriate.

E3.2.10.4. Provide information on medical and counseling services related to care for victims of sexual assault that may not be available on military installations, but are available in the civilian community.

E3.2.10.5. Facilitate and document training for civilian service providers about SAPR policy and the roles and responsibilities of the SARC and VA.

E3.2.11. Designate an appropriate level of command, commensurate with the maturity and experience needed, to be the disposition authority for allegations of sexual assault. These commanders shall take appropriate actions to ensure the fair, impartial, and timely investigation, resolution, and disposition of unrestricted reports of sexual assault. (See Enclosure 12.) Use the commander's sexual assault response protocols at Enclosure 5 as the baseline for commander's response. Military Services may expand the response protocols to meet Service-specific requirements and/or procedures.

E3.2.12.. Ensure commanders understand that taking action on victim collateral misconduct may be delayed until final disposition of the sexual assault case. Military Services will also ensure procedures are established that do not penalize commanders or organizations for delaying actions for collateral misconduct by the victim. Commanders must also be mindful of any potential speedy trial and/or statute of limitations concerns when determining whether to defer action.

E3.2.13. Ensure the victim of a sexual assault receives monthly updates regarding the current status of any on-going investigative, medical, legal, or command proceedings regarding his or her

sexual assault until the final disposition of the reported assault, and to the extent permitted under the Privacy Act of 1974 (Reference (ab)), Reference (z), and the Health Insurance Portability and Accountability Act of 1996 (Reference (ac)).

E3.2.14. Designate an appropriate level of command, commensurate with the maturity and experience needed, to review all administrative separation actions involving victims of sexual assault which occur within 1 year of the unrestricted report of sexual assault, and to exercise the administrative responsibilities involved as appropriate. (See Enclosure 12.)

E3.2.15. Establish procedures to protect the SARC and VA from coercion, discrimination, or reprisals, as defined in Enclosure 2, related to the execution of SAPR duties and responsibilities.

E4. ENCLOSURE 4

SAFE COLLECTION AND PRESERVATION UNDER RESTRICTED REPORTING

E4.1. GENERAL

E4.1.1. Medical services offered to victims of sexual assault include the ability to elect a SAFE in addition to the general medical management related to sexual assault response. The SAFE is an examination of a sexual assault victim by an HCP who, ideally, has specialized education and clinical experience in the collection of forensic evidence and treatment of these victims. The forensic component includes gathering information from the victim for the medical forensic history, an examination, documentation of biological and physical findings, collection of evidence from the victim, and follow-up as needed to document additional evidence.

E4.1.2. The process for collecting and preserving sexual assault evidence under the restricted reporting option is the same as takes place under the unrestricted reporting option, except that the restricted reporting option does not trigger the official investigative process and any evidence collected has to be documented in a way that ensures the confidentiality of a victim's identity.

E4.2. POLICY

E4.2.1. In accordance with Reference (c), restricted reporting allows a victim of sexual assault who is a Service member to disclose on a requested confidential basis the details of his or her assault to specifically identified individuals and receive medical treatment and counseling, without triggering the official investigative process.

E4.2.2. Additionally, at the victim's request, the HCP, if appropriately trained and/or supervised, shall conduct a SAFE as indicated, which may include the collection of evidence, in accordance with Reference (u) and clinical community standards of care.

E4.3. PROCEDURES

E4.3.1. Sexual assault reporting procedures require that the SARC be notified of all incidents of reported sexual assault. The SARC, in turn, will assign a VA to assist the victim. If a victim initially seeks assistance at a medical facility, SARC notification must not delay the treatment of any medical conditions requiring immediate attention for the health of a victim. Once any emergent medical injuries have been treated, the SARC or VA shall advise the victim of the reporting options available to him or her, explain the benefits and limitations of each, and document the reporting option the victim selects using DD Form 2910, "Victim Reporting Preference Statement" (VRPS), at Enclosure 13. The SARC or VA shall also inform the victim about the availability of an optional SAFE. If a victim chooses to undergo a SAFE, and the HCP determines a SAFE is indicated by the facts of the case, HCPs at military facilities shall conduct

the examination according to the most current version of Reference (u) and other applicable community standards of care.

E4.3.2. Installations that do not have a SAFE capability will be responsible for transporting the victim to a military facility or local off-base, non-military facility that has a SAFE capability. They may also contract with a local Sexual Assault Nurse Examiner or other HCPs who are trained and credentialed to perform a SAFE, and have them report to the MTF to conduct the examination.

E4.3.2.1. Whenever possible, military installations should have a formal MOU in place between military facilities and off-base, non-military facilities for the purpose of conducting a SAFE.

E4.3.2.2. The SARC or VA shall ensure that the victim is aware of any local or state sexual assault reporting requirements that may limit the possibility of restricted reporting prior to proceeding with the SAFE at the off-base, non-military facility.

E4.3.3. For restricted reporting cases, the Military Service designated official shall generate an alpha-numeric RRCN, unique to each incident, that shall be used in lieu of personal-identifying information to label and identify the evidence collected from a SAFE (i.e., SAFE kit, accompanying documentation, personal effects, and clothing). Upon completion of the SAFE, the HCP will package, seal, and label the evidence container(s) with the RRCN and notify the Military Service designated activity (hereafter referred to as “the activity”). The activity representative shall be trained and capable of collecting and preserving evidence to assume custody of the evidence using established chain of custody procedures. MOUs with off-base, non-military facilities should include instructions for the notification of a SARC regardless of whether a restricted or unrestricted report of sexual assault is involved, evidence receipt procedures, application of an RRCN, and disposition of evidence back to the activity. The RRCN and general description of the evidence shall be entered into a log to be maintained by the activity. Evidence shall be stored for 1 year from the date of the victim’s restricted report of the sexual assault.

E4.3.4. At least 30 days prior to the expiration of the 1-year storage period, the activity shall notify the appropriate SARC that the 1-year storage period is about to expire. Accordingly, the SARC shall ensure notification to the victim. If the victim does not desire to change from a restricted report to an unrestricted report, and does not request the return of any personal effects or clothing maintained as part of the evidence prior to the expiration of the 1-year storage period, in compliance with established procedures for the destruction of evidence, the activity shall destroy the evidence maintained under that victim’s RRCN. The evidence shall similarly be destroyed if, at the expiration of 1-year, a victim does not advise the SARC of his or her decision, or the SARC is unable to notify a victim because the victim’s whereabouts are no longer known. If, prior to the 1-year period, a victim changes his or her reporting preference to the unrestricted reporting option, the SARC shall notify the respective MCIO, who shall then assume custody of the evidence maintained by the RRCN from the activity under established chain of custody procedures. MCIO established procedures for documenting, maintaining, and storing the evidence shall thereafter be followed.

E5. ENCLOSURE 5

COMMANDER'S SEXUAL ASSAULT RESPONSE PROTOCOLS FOR UNRESTRICTED
REPORTS OF SEXUAL ASSAULT

E5.1. The Commander's Sexual Assault Response Checklist at Attachment E5. A1 is provided to assist unit commanders in successfully navigating the myriad of competing demands placed upon them once a sexual assault is reported. The use of the checklist has the primary objective of ensuring that there is an appropriate balance between a victim's right to feel secure and the alleged offender's rights to due process under the law. Its use also provides guidelines and standards for addressing unit interests in sexual assault cases.

E5.2. Each Military Service shall use this checklist as a baseline commander's guide to respond to unrestricted sexual assault reports. Additional Service-specific guidelines may be incorporated as needed.

E5.3. Commanders have the authority to expand upon this checklist, if necessary, to protect victims from further harm or trauma, to protect the rights of the alleged offender or to safeguard the unit.

Attachment – 1

A1. Commander's Sexual Assault Response Checklist for Unrestricted Reports of Sexual Assault

E5. A1. ATTACHMENT 1 TO ENCLOSURE 5

COMMANDER'S CHECKLIST FOR UNRESTRICTED REPORTS OF SEXUAL ASSAULT

VICTIM'S COMMANDER

- () Ensure the physical safety of the victim--determine if the alleged offender is still nearby and if the victim desires or needs protection.
- () Determine if the victim desires or needs any emergency medical care.
- () Notify the MCIO concerned, as soon as the victim's immediate safety is assured, and medical treatment procedures elected by the victim are initiated.
 - () To the extent practicable, strictly limit knowledge of the facts or details regarding the incident to only those personnel who have a legitimate need-to-know.
 - () Take action to safeguard the victim from any formal or informal investigative interviews or inquiries, except those conducted by authorities who have a legitimate need-to-know.
- () Ensure the SARC is notified immediately.
- () Collect only the necessary information (e.g., victim's identity, location, and time of the incident, name and/or description of offender(s)). **DO NOT ASK DETAILED QUESTIONS AND/OR PRESSURE THE VICTIM FOR RESPONSES OR INFORMATION ABOUT THE INCIDENT.**
- () Advise the victim of the need to preserve evidence (by not bathing, showering, having anything by mouth, voiding bladder, or washing garments) while waiting for the arrival of representatives of the military criminal investigative organization.
- () If needed, assist with or provide immediate transportation for the victim to the hospital or other appropriate medical treatment facility.
- () Ensure the victim understands the availability of victim advocacy and the benefits of accepting advocacy and support.
- () Ask if the victim needs a support person, which can be a personal friend or family member, to immediately join him or her. Be sure to advise the victim this support person could later be called to testify as a witness if the case goes to trial.
- () Ask if the victim would like a chaplain to be notified and notify accordingly.

- () Throughout the investigation, consult with the victim, and listen/engage in quiet support, as needed, and provide the victim appropriate emotional support resources. To the extent practicable, accommodate the victim's desires regarding safety, health, and security, as long as neither a critical mission nor a full and complete investigation is compromised.

- () Continue to monitor the victim's well-being, particularly if there are any indications of suicidal ideation, and ensure appropriate intervention occurs as needed.

- () If needed, confer with victim's HCP(s) and consider the need for convalescent leave or other administrative leave options as Military Service policy permits.
 - () Determine if the victim desires or needs a "no contact" order or a DD Form 2873, "Military Protection Order (MPO)," to be issued, particularly if the victim and the alleged offender are assigned to the same command, unit, duty location, or living quarters. Coordination with other commanders may be necessary if the alleged offender is assigned to a different commander.

 - () Determine the need for temporary reassignment to another unit, duty location, or living quarters on the installation of the victim or the alleged offender being investigated, working with the alleged offender's commander if different than the victim's commander, until there is a final legal disposition of the sexual assault allegation, and/or the victim is no longer in danger. To the extent practicable, consider the desires of the victim when making any reassignment determinations.

 - () Ensure the victim understands the availability of other referral organizations staffed with personnel who can explain the medical, investigative, and legal processes and advise the victim of his or her victim support rights.

 - () Emphasize to the victim the availability of additional avenues of support; refer to available counseling groups and other victim services.

- () Attend the monthly case management meeting as appropriate.

- () Ensure the victim receives monthly reports regarding the status of the sexual assault investigation from the date the investigation was initiated until there is a final disposition of the case.

- () Consult with servicing legal office, as needed, to determine when and how best to dispose of the victim's collateral misconduct, if any.
 - () Absent extenuating or overriding considerations which, in the commander's judgment, make it inappropriate to delay taking action, the commander should consider deferring discipline for such victim misconduct until all investigations are completed and the sexual assault allegation has been resolved. Keep in mind the implications of this decision on speedy trial and/or statute of limitations.

- () When practicable, consult with the servicing legal office, MCIO, and notify the assigned VA or SARC prior to taking any administrative or disciplinary action affecting the victim.
- () Avoid automatic suspension or revocation of a security clearance and/or Personnel Reliability Program (PRP) access, understanding that the victim may be satisfactorily treated for his/her related trauma without compromising his/her security clearance or PRP status. Consider the negative impact that suspension of a victim's security clearance or PRP may have on building a climate of trust and confidence in the Military Service's sexual assault reporting system, but make final determination based upon established national security standards. (See DoD 5210.42-R (Reference (ad) for specific requirements.)

ALLEGED OFFENDER'S COMMANDER

- () Notify the appropriate MCIO as soon as possible after receiving a report of a sexual assault incident.
- () Avoid questioning about the sexual assault allegation with the alleged offender, to the extent possible, since doing so may jeopardize the criminal investigation.
 - () Any contact with a Service member suspected of an offense under Chapter 47 of Reference (b) may involve rules and procedures, that ensure due process of law and are unique to the military criminal justice system. Therefore, before questioning or discussing the case with the alleged offender, commanders and other command representatives should first contact the servicing legal office for guidance.
 - () However, if questioning does occur, advise the Service member suspected of committing a UCMJ offense of his or her rights under Article 31 of Chapter 47 of Reference (b).
- () Safeguard the alleged offender's rights and preserve the integrity of a full and complete investigation, to include limitations on any formal or informal investigative interviews or inquiries by personnel other than those by personnel with a legitimate need-to-know.
- () Strictly limit information pertinent to an investigation to those who have a legitimate need-to-know.
- () Ensure procedures are in place to inform the alleged offender, as appropriate, about the investigative and legal processes that may be involved.
- () Ensure procedures are in place to inform the alleged offender about available counseling support. As appropriate, refer the alleged offender to available counseling groups and other services.
- () With the benefit of the SARC, VA, legal, and/or investigative advice, determine the need for a "no contact" order, or the issuance of an MPO, DD Form 2873.

- () Monitor the well-being of the alleged offender, particularly for any indications of suicide ideation, and ensure appropriate intervention occurs if indicated.

UNIT COMMANDER OF VICTIM AND/OR ALLEGED OFFENDER

PREVENTION

- () Establish a command climate of prevention that is predicated on mutual respect and trust, that recognizes and embraces diversity, and that values the contributions of all its members.
- () Emphasize that sexual assault violates the core values of what being a professional in the Armed Forces is all about and is something that ultimately destroys unit cohesion and the trust that is essential for mission success.
- () Emphasize DoD and Military Service policies on sexual assault and the potential legal consequences for those who commit such crimes.
- () Keep a “finger on the pulse” of the organization’s climate and respond with appropriate action toward any negative trends that may emerge.

IN THE EVENT OF A SEXUAL ASSAULT

- () Discourage members from participating in “barracks gossip” or grapevine speculation about the case or investigation. Remind everyone to wait until all the facts are known and final disposition of the allegation has occurred before reaching conclusions.
- () Remind members that discussion of a possible sexual assault incident might compromise an ensuing investigation.
- () Emphasize that the alleged offender is presumed innocent until proven guilty.
- () Advise those who may have knowledge of the events leading up to or surrounding the incident to fully cooperate with any investigation involved.
- () Consider some form of unit refresher training; or have an outside expert address the unit regarding preventive measures, as well as some of the emotional or psychological feelings that may manifest themselves, affect the unit, and require the unit’s response during the course of the investigation.
- () Continuously monitor the unit’s overall climate to ensure neither the victim and/or the alleged offender is being ostracized and prevent organizational splintering.

VICTIM REPORTING PREFERENCE STATEMENT⁸

VICTIM REPORTING PREFERENCE STATEMENT <i>(Please read Privacy Act Statement before completing this form.)</i>	
1. REPORTING PROCESS AND OPTIONS DISCUSSED WITH THE VA OR SARC	
a. I, (Full name) _____, had the opportunity to talk with a Victim Advocate (VA) or a Sexual Assault Response Coordinator (SARC) before selecting a reporting option.	
b. UNRESTRICTED REPORTING - REPORTING A CRIME WHICH IS INVESTIGATED.	
INITIALS	I understand that law enforcement and my command will be notified that I am a victim of sexual assault and an investigation will be started. I understand I can receive medical treatment, advocacy services, and counseling, and an optional sexual assault forensic examination to collect evidence if indicated. The full range of victim protection actions may be available to me, such as being separated from the offender(s) or receiving a military protective order against the offender. Any misconduct on my part may be punished, but at the discretion of the commander may be delayed until after the sexual assault charge(s) is resolved.
S A M P L E	
c. RESTRICTED REPORTING - CONFIDENTIALLY REPORTING A CRIME WHICH IS NOT INVESTIGATED.	
	(1) I understand that I can confidentially receive medical treatment, advocacy services, and counseling, and an optional sexual assault forensic exam to collect evidence if needed, but law enforcement and my command will NOT be notified. My report will NOT trigger an investigation; therefore, no action will be taken against the offender(s) as the result of my report.
	(2) I understand that there are exceptions to "Restricted Reporting" (see back). If an exception applies, limited details of my assault may be revealed to satisfy the exception.
	(3) I understand that if I have not made an "Unrestricted Report" within 1 year of any evidence collected, it will be destroyed and no longer available for any future investigation or prosecution efforts.
	(4) I understand that all state laws, local laws or international agreements that may limit some or all of DoD's restricted reporting protections have been explained to me. In _____, medical authorities must report the sexual assault to _____.
	(5) I understand that the SARC will provide information that does not reveal my identity, nor that of my offender, to the responsible senior commander within 24 hours of my "Restricted Report" or within 48 hours if at a deployed location and extenuating circumstances apply. This information is required for the purposes of public safety and command responsibility.
	(6) I understand that by choosing "Restricted Reporting," the full range of victim protection actions may not be available, such as being separated from the offender(s) or receiving a military protective order against the offender(s).
	(7) I understand that if I talk about my sexual assault to anyone other than those under the "Restricted Reporting" option (SARC, sexual assault victim advocate, or healthcare providers), and chaplains, it may be reported to my command and law enforcement which could lead to an investigation.
	(8) I understand that I may change my mind and report this offense at a later time as an "Unrestricted Report," and law enforcement and my command will be notified. Delayed reporting may limit the ability to prosecute the offender(s). If the case goes to court, my victim advocate and others providing care may be called to testify about any information I shared with them.
	(9) I understand that if I do not choose a reporting option at this time, my commander and investigators will be notified.
