

Conducting Business with NASA

NASA IN OHIO

Glenn Research Center

NASA Glenn Research Center in Cleveland, Ohio supports all NASA missions and leads in the areas of launch vehicle responsibilities, aircraft propulsion system development, fluids, combustion, and reacting flow systems research, materials testing and evaluation, and other spaceflight, science, and aeronautics research.

Visit http://www.grc.nasa.gov/WWW/Procure/doin_bus.htm for information on doing business specifically with Glenn Research Center.

Plum Brook Station

Plum Brook Station, located in Sandusky, Ohio, offers four world-class facilities for space technology and capability development. It serves as the major testing facility for NASA Glenn, including the Space Power Facility—the world’s largest vacuum chamber for testing the Orion crew exploration vehicle.

Visit http://www.nasa.gov/centers/glenn/about/testfacilities/pb_DoingBusiness.html for more information about doing business with Plum Brook.

The National Aeronautics and Space Administration (NASA) provides procurement opportunities for businesses within the fields of aeronautics, exploration, science, and space to ensure that the Agency executes its mission successfully.
