

KMC SCHOOL BUS INFORMATION

The Department of Defense Dependent Schools (DoDDS) District Superintendent's Office (DSO) manages all DoDDS school bus services in the Kaiserslautern District. In the Kaiserslautern Military Community (KMC) there are two student transportation offices (STOs) that support specific schools in the community. All students requiring bus transportation must be registered each year at the appropriate office. Office hours for both offices on non-school weekdays are 0730-1200 and 1300-1630. Customer service hours during the school year are **0900-1200 and 1300 – 1600 hours Monday thru Friday**. However during bus loading operations (1430-1510 hrs) the office is temporarily unmanned. STOs are closed US Holidays.

RAMSTEIN STUDENT TRANSPORTATION OFFICE

(Ramstein and Landstuhl Schools)

Building 904, Entrance E, Ramstein Elementary School

Phone: DSN: 480-2877 CIV: 06371-47-2877

FAX: DSN: 480-3840 CIV: 06371-47-3840

Vogelweh Elementary School

DSN: 489-6810 or CIV: 0631-91222

BUS SERVICES

DoDDS school bus operations in the KMC are by commercial bus companies providing services specifically defined in contracts with DoDDS. The KMC STOs conduct quality assurance of those contracts to ensure that services are provided as required. All inquiries about DoDDS bus services should be addressed to the STOs and not directly to the bus drivers, security attendants or other contractor employees.

CENTRALIZED BUS STOPS

Bus stops are established based on the size of a community or neighborhood to minimize commute times and provide fair and equitable transportation services for all registered riders. Maximum walking distances are 1 mile for Kindergarten to 6th grade and 1.5 miles for 7th to 12th grade. DoD Transportation Policy mandates centralized stops and does not allow establishment of bus stops solely for convenience.

ALTERNATE BUS STOPS

Daily commute transportation is provided to and from centralized bus stops within walking distance of your primary residence. If your child stays with a childcare provider, either prior to going to school or after school, you may request an alternate bus stop location in the vicinity of the childcare provider. This request must be in writing and taken to the appropriate STO for review of impact on bus routes, costs, etc. If the request is approved, a new or additional bus pass will be issued. For approval, an alternate bus stop location must be an existing school bus stop and within your commuting area. For security reasons, frequent requests or changes to a student's assigned bus stop are strongly discouraged.

BUS PASSES

Students requiring DoDDS school bus transportation need to be registered each year with the appropriate Student Transportation Office (STO). The bus pass contains the bus stop location and scheduled times as well as the route number and information on the student and sponsor. A different color of pass is used each year and expires at the end of the school year. These passes are used to ensure only authorized persons are on the school buses and are critical to identification of student and sponsor in case of accident or incident. No authorized student will ever be denied transportation to school. Each bus driver should have a list of students authorized to ride that bus, based on registration records at the STO. However, if students do not have a valid bus pass, they may be denied transportation home and the sponsor will be notified to pick them up at school. Bus passes are only valid for the route indicated on the pass. If a bus pass is lost or damaged, please contact your STO for a replacement. SWAPPING, EXCHANGING OR FALSIFYING A BUS PASS IS PROHIBITED, and could result in suspension of bus privileges.

TEMPORARY BUS PASSES

If your student needs to ride a different bus on a temporary basis, contact your STO for a temporary bus pass. The parent may also provide a signed, written request for the student to bring to the STO. The same procedure applies for students who normally do not ride a bus, but are visiting a bus rider, however, approval depends on the availability of seats on the requested route/bus. For security and student accountability, all riders must have a bus pass issued for the bus on which they are riding and temporary bus passes must be signed for when issued. Using a bus pass for a different bus is prohibited.

BUS STOP AWARENESS

We highly recommend that you visit your scheduled bus stop with your student(s) to determine the safest route to the stop, the traffic flow in the area and know the location of the nearest phone or other place to go in case of an emergency. Pointing out landmarks, house numbers, street names, etc., will assist the students in being able to identify their stop when on the bus. We also suggest that you and your student(s) review all of the safety dos, don'ts and other safety factors while at the stop. During the winter months, most of the bus routes are serviced prior to full daylight. Prior familiarization of the stop will minimize limitations caused by poor light conditions.

BUS SCHEDULES

Times for each stop are departure times for the inbound (AM) run and arrival times for the outbound (PM) run. Recommend that riders be at the bus stop 5-10 minutes before scheduled departure time in the morning. This will ensure that riders will be ready to board the bus when it arrives. According to DoDDS Policy students are expected to wait up to 30 minutes in case buses are late. Buses may be late due to weather, road, and or traffic conditions. Since the safe transportation of our students is our **FIRST PRIORITY**, drivers are **NOT** allowed to speed, or drive recklessly to make up lost time.

SPECIAL NEEDS TRANSPORTATION

Curb to curb bus service is provided only to special needs students that have a transportation requirement in their Individual Education Plan (IEP). These requirements are sent to the STO by the school, and do not require the parents to prepare a separate bus registration. Students will be transported in a vehicle that has appropriate restraints (i.e. safety seat, seat belts, harness, etc.) as identified in the IEP and the driver or safety aid will ensure each student is properly seated and safety restraints are used. Parents are responsible for taking their students to the curb for the pickup run and meeting the bus at the curb on the return trip. The driver and safety aid are not required to go to the door to pickup or drop off a child. For pickup service, the driver is required to wait until the scheduled departure time. If the student is not present the driver will continue on the scheduled route. For drop off service, if a parent or other designated person is not present to receive a student, the driver is required to wait until the scheduled arrival time at the stop and then contact the STO for guidance. In most cases the student will be returned to the school and the parents will be required to meet them there.

CANCELLATIONS AND CHANGES

If your **special needs** student will not need bus service for a relatively short period of time due to illness or other temporary reason, please contact the **Kaiserslautern STO (DSN 489-2877 or 0631-536-2877)** so the STO can advise the driver not to stop at your stop for that period of time. If there is a permanent or long-term change to the schedule, please notify the school to make the change via the IEP. **Daily commute** students do not need to notify the STOs of day-to-day changes to ridership. We do ask that you contact the appropriate STO when you no longer need the bus service or there are permanent changes to your requirement. If you move to an area served by a different bus stop or route, you will need a new bus pass. Recommend that you drop by your STO before the move to make the transition smoother and allow us time to adjust schedules and routes as required.

SAFETY ATTENDANTS, SECURITY ATTENDANTS and BUS MONITORS

Safety attendants or safety aides are contractor employees assigned to buses for special needs students and buses with only kindergarten through second graders. Their job is to provide assistance to the students and maintain a safe environment on the bus.

Bus Security Attendants are contractor employees who are assigned to buses for **force protection**. Funding restrictions preclude having a security attendant on every bus, every day. The security attendants

are assigned to buses on a rotational basis to ensure the widest coverage to meet force protection requirements. In deference to force protection guidelines and operational security, the security attendant schedule is not published or disseminated to the public.

Bus monitors are volunteers who ride the bus to monitor student behavior and report misconduct. Their tour of duty is two weeks or longer and is strictly on a volunteer basis. If you wish to volunteer as a bus monitor, contact the Ramstein STO for more information.

INCLEMENT WEATHER, LATE BUS AND EARLY RELEASE PROCEDURES

Weather conditions during the winter months can cause delays or cancellation of bus services. The decision to delay the start of the school day, release schools early or cancel the school day altogether rests with the KMC Commander. Delays are normally determined and announced on AFN stations beginning at 0600 hours. For local KMC weather reports and road conditions you can call the Ramstein Air Base weather announcements at **DSN: 480-COLD or CIV: 06371-47-COLD**. For information on school delays or closings listen to AFN radio (FM 100.2 or AM 1107 for the KMC). If you live in an area that does not receive an AFN radio broadcast, you should make arrangements with someone who does to contact you in case of delays or closings. If you have specific questions about school schedules, you should call the specific school office.

Several villages in the KMC have stops that are often inaccessible during inclement weather even when most of the routes have no problems. The families living in those villages receive specific information on procedures to get to an alternate bus stop during inclement weather. However, anyone that feels a specific weather condition makes access to the bus stop doubtful, is authorized to use any bus stop on their bus route.

Early release of school will be determined by the KMC commander in coordination with the school administration and announced according to community procedures. It is recommended that you **do not come to the school** to pickup your student(s) for an early release, especially if the release is due to bad weather. Students are much safer on the bus than in a smaller vehicle on treacherous roads.

At times there may be a delay of one or more routes due to localized conditions or mechanical breakdowns. The bus company is required to notify the STO of any delays in excess of 30 minutes. The STO will make every attempt to contact the sponsors of students on the delayed route to inform them of the delay. Therefore it is critical that you provide your STO with current phone numbers and emergency contact information.

SCHOOL BUS LOADING AND UNLOADING

Each of the KMC schools has its own procedures for the safe arrival and departure of students. STO personnel assist in the morning unloading and the afternoon loading when possible. Buses will not depart the loading zone in the afternoon until the scheduled departure time or when released by school officials. Once the scheduled bus departure has begun, the drivers are not permitted to stop except for emergencies. If a student is not on the bus by the scheduled departure, or a parent attempts to retrieve a student from the bus after bus departure has started, the driver is not permitted to open the bus door or otherwise delay the departure. If you wish to pick up your bus rider at the school, please let them know ahead of time where to meet you - somewhere other than the loading zone. If your student is still on the bus at departure time, you will have to meet them at one of the scheduled bus stops or at home.

LOADING ZONE SAFETY

Due to the large number of students that have to be unloaded or loaded in a short amount of time, loitering or playing in the vicinity of the loading zone is highly discouraged. In the past we have had "near misses" when students were bouncing or throwing balls that bounced into the loading zone in front

of moving buses or under parked buses. Please advise your children that playing, bouncing or throwing balls in the loading / unloading zone is putting them and others at risk of injury, or worse. The same rule should be observed at the bus stops. In Germany there is no requirement for vehicles to stop for a loading or unloading school bus. However, on US military installations, passing a loading or unloading school bus is prohibited, the same as in the US. For the safety of all our students, please do not drive through the loading / unloading zones when school buses are loading or unloading.

SCHOOL PARKING

During school bus unloading and loading times, the bus zone is for school buses only. Most locations are posted with the hours closed to all but school buses, and some areas cannot be used anytime, except by school buses. Suggest you contact your school to determine the parking that you may use.

MISSED BUS STOPS

Occasionally, a student will miss their stop on the return run. If this happens, the student should remain on the bus. If a student is not completely comfortable that a stop is the proper one, remaining on the bus is the safest thing to do. The bus company and the STO have procedures for getting the students to the proper stop or return to the school for parent pickup.

MISPLACED OR LOST STUDENT PROCEDURES

If a child misses their bus stop and stays on the bus, the driver will report this to the contract manager who will contact the STO. The STO will contact the parent, or emergency contact, to arrange a drop off or parental pickup of the child. Unless the bus driver receives specific instructions to the contrary, the student will be returned to their school and the parent or designated adult will be required to pick up the student at the school. If your child does not arrive home (or other designated location) after school as expected, you should contact your STO immediately. The STO staff will stay on duty and work with the school office until your child is located and returned to you or a designated adult. Our experience has been that “lost” students often are with friends, neighbors or at a location which they thought was the agreed upon place for them to go after school. When you call the STO about a lost student, it would help to have the names of the student’s friends who ride the same bus. It would also help for us to know that the parents and or care-providers have been in contact with each other to determine if the child is with either of them. If you locate your child after you contact the STO and school, please give a courtesy call to the STO and school to let us know that the child has been located.

SCHOOL BUS DISCIPLINE

Safe and secure transportation of DoDDS students is our mission. Proper student behavior and parental support of the discipline program is a key element of that mission. Although riding the school bus is a privilege, with that privilege is every student’s right to have a safe and unencumbered ride to and from school. Request that you review the enclosed Behavior Standards with your child and stress the important part that they play in making the school bus ride an enjoyable and safe experience for all.

COMPLAINTS OR SUGGESTIONS

If you have a concern about the operation of a bus route or student conduct on the buses, please contact the applicable Student Transportation Office (STO). Do not address your issue to the bus driver or security attendant unless it is an emergency. Complaints and misconduct reports should be submitted in writing (email, fax, letter) or on a customer inquiry form that is available at the STOs. If you have an emergency or safety issue please call your STO, but follow it up with a written statement so we have a detailed first-hand record of the report.
