

What Do You Want To Be?

Ever wonder what you might want to be someday?

Check out the cool things we do!

Across

4. One who positions the structural pieces of a ship for riveting and welding. A Sailor in the U.S. Navy who does sheet-metal work and plumbing on board a ship.
5. One who is trained in math, science and physics in order to work in a branch of engineering.
6. A person employed to handle correspondence, keep files, and do clerical work for another person or an organization.
7. One who keeps, audits, and inspects the financial records of individuals or business concerns and prepares financial and tax reports.
8. A person who welds pieces of metal or parts of a ship together.
9. One who designs and supervises the construction of buildings or other large structures.
11. One who writes computer programs.
12. Someone who creates shipbuilding designs and plans
13. One that works under water, especially with breathing equipment and weighted clothing.
14. Specialists who save ships or other things from destruction or waste and put them to further use.

Down

1. A scientist who specializes in physics.
2. A worker skilled in making, using, or repairing machines, vehicles, and tools.
3. A diver who can join pieces of metal together or repair damage while under the ocean.
10. One whose profession is to give legal advice and assistance to clients and represent them in court or in other legal matters.
