

SBC User Checkin Registration System (SURS Database)

Once you arrive at SBC for your scheduled beam time you will be asked to verify your contact information using the SBC User Registration System (or SURS Database) which is online at <http://groel.bio.anl.gov/sbcuser> and can be reached by web browsers from either of the PC's located in the operations areas (IDOPS and BMOPS) of each beamline and from any of the Linux workstations at Sector19.

Please make sure that your contact information is up to date in this database.

Thank you,

SBC Staff
