NAVSEA INSTRUCTION 5450.124

From: Commander, Naval Sea Systems Command

Subj: MISSION, FUNCTIONS, AND TASKS OF THE NAVAL SEA LOGISTICS
CENTER DETACHMENT, SAN DIEGO, CA

Ref: (a) NAVSEAINST 5450.28F
(b) CFFC ltr 4790 Ser N43/021 of 3 May 2004

Encl: (1) Functions and Tasks of the Naval Sea Logistics Center
Detachment, San Diego, CA

1. Purpose

a. To announce and document the establishment of the Naval Sea Logistics Center Detachment, San Diego, CA (NAVSEALOGCEN Detachment, San Diego, VA), in accordance with reference (a).

b. To authorize the realignment of select functions and associated resources from the Fleet Technical Support Center, Pacific (FTSCPAC), U.S. Fleet Forces Command (FFC) to the Naval Sea Logistics Center (NAVSEALOGCEN), an echelon-three field activity of the Naval Sea Systems Command (NAVSEA), in accordance with reference (b).

c. To publish the detachment's mission, functions, and tasks.

2. Background. Realignment of ship maintenance activities is part of the Chief of Naval Operations' Regional Maintenance plan to streamline Navy ship maintenance organization and operations. As stated in reference (b), the Fleets have commenced integration of waterfront maintenance activities to improve maintenance operations. As part of this integration, the Fleet evaluated Fleet Technical Support Center (FTSC) work to identify work that falls within the Regional Maintenance Center (RMC) Fleet claimancy. The results of that evaluation demonstrated that Planned Maintenance System (PMS) Coordinating Activity work is not within the intended mission of the RMC. Therefore, NAVSEA is

MAY 04 2005

transferring the reimbursable funded PMS functions to NAVSEALOGCEN.

3. Mission. Keep America's Navy #1 in the world by providing superior, cost effective, and innovative Logistics, Engineering, Information Technology, and Quality Assurance solutions that meet the life-cycle requirements of the current and future Navy.

4. Status and Command Relationships. NAVSEALOGCEN Detachment, San Diego, CA, is a fully operational category 2 detachment, as defined in reference (a), reporting to the Commanding Officer, Naval Sea Logistics Center, Mechanicsburg, PA. The detachment will operate as a tenant activity hosted by the Naval Station San Diego, located in the San Diego, CA area and occupy current office space under an Inter/Intra-Service Support Agreement. Additional organizational information is provided below:

a. Echelons of Command:

- 1 Chief of Naval Operations
- 2 Commander, Naval Sea Systems Command
- 3 Commanding Officer, Naval Sea Logistics Center
- 4 Site Manager, Naval Sea Logistics Center
Detachment, San Diego, CA

b. Area Coordination: Commander, U.S. Fleet Forces Command

c. Regional Coordination: Commander, Navy Region Southwest

5. Functions. The functions and tasks of NAVSEALOGCEN Detachment, San Diego, CA, are contained in enclosure (1).

6. Action. In accomplishing the assigned mission, the Site Manager, NAVSEALOGCEN Detachment, San Diego, CA, will ensure performance of the functions and tasks listed in enclosure (1). The administrative and management information will remain in effect until changed by Naval Sea Systems Command notice or other appropriate documentation. Recommended changes should be sent to the Assistant Deputy Commander, Fleet Logistics Support, Naval Sea Systems Command (SEA 04L).

Functions and Tasks
Naval Sea Logistics Center Detachment, San Diego, CA

Planned Maintenance System Coordinating Activity Functions

1. Develop, revise, and maintain PMS documentation in accordance with Reliability Centered Maintenance (RCM) for assigned systems and equipment installed in new construction, active fleet ships and craft, shore stations, Coast Guard craft and Foreign Military Sales Navies. Maintenance requirements include Scheduled, Unscheduled, and Inactive Equipment Maintenance (IEM).
2. Monitor and approve PMS/RCM documentation developed by equipment manufacturers, shipbuilders and contractors working for the Government or the shipbuilder. Maintain and certify the accountability of Maintenance Index Pages (MIPs) and Maintenance Requirement Cards (MRCs) to applicable systems and equipment. Maintains RCM corporate history data for organizational level PMS. Review Maintenance Engineering Analysis (MEAS) reports, Productive Engineering (PE) reports, RCM analysis packages and plans for systems and equipment.
3. Print, assemble and distribute PMS documentation, to include initial installation packages, Force Revision (SFR) and CD-ROM. Provide PMS documentation to ships and shore activities, and reference customers such as naval schools, Reserve commands, ISEAs, industrial activities and contractors. Provide and maintain automated PMS List of Effective Pages (LOEP) to comprise a current index of documentation applicable to each ship by department and work center. Arrange, schedule and deliver PMS packages for SCN construction/conversion ships and OPN boats/crafts. Obligate funds for PMS documentation, development/revision, computer composition, printing, hardware procurement and system installation.
4. Receive, process, and resolve PMS Technical Feedback Reports (TFBRs) and required PMS revisions. Screen and forward selected TFBRs to cognizant technical activities. Resolve remaining TFBRs, investigate and research reported deficiencies and recommendations, responding directly to the originator. Maintain automated accountability of TFBRs using the PMS Management Information System (MIS). Conduct shipboard and shore activity visits in response to TFBRs or phone calls. Act as ISEA when no ISEA commands are available, e.g., Explosives Ordnance Safety Inspection PMS.

Enclosure (1)

MAY 04 2005

5. Develop statement of work and procurement specifications for product and service requirements. Coordinate and interface with the Fleet Industrial Supply Center. Schedule, coordinate and accept contractor deliverables such as SFR print tapes, SFR CD-ROM, new and revised PMS documentation, and programming efforts for emergent requirements and special reports. Perform COR duties and liaison between NAVSEALOGCEN Detachment San Diego and contractor.
6. Provide AIS support to include planning, acquisition, testing and installation of AIS and telecommunications hardware and software. Monitor the operation of PMS AIS programs and respond to problems by diagnosing and correcting problems. Maintain NAVSEALOGCEN Detachment software inventory. Serve as POC for the entire Navy community for access to PMS on-line data base; interface with contractor to provide access; issue passwords; and provide assistance to the users.
7. Participate in the development of the PMS MIS, to include defining requirements, system testing and on-site analysis of system modules.
8. Plan and develop or participate in the development of specifications for COMNAVSEASYS COM PMS improvement programs, e.g., CD-ROM and automated PMS Scheduler.
9. Develop planning and fiscal management processes for NAVSEALOGCEN Detachment programs. Provide support in the fiscal management of assigned tasks, e.g., cost estimate preparation, job order establishment/maintenance, program surveys and project audits. Perform annual and multi-year fiscal planning and analysis for major NAVSEA sponsored programs. Provide budget/financial planning and command data base preparation for execution of annual and multi-year plans. Coordinate, track and monitor receipt, allocation and expenditure of 150 funding segments from various sources.
10. Maintain plant property, minor property and sponsor property inventories.
