NAVSEA INSTRUCTION 5720.6

From: Commander, Naval Sea Systems Command

Subj: NAVAL SEA SYSTEMS COMMAND (NAVSEA) COMMAND EXHIBIT POLICY

Encl: (1) Inventory of exhibit hardware owned by
NAVSEA activities

1. Purpose

a. To provide direction and procedures for a command-wide exhibit policy to ensure message alignment across the enterprise, with Navy, and NAVSEA Guidance.

b. To ensure NAVSEA presents a unified presence at trade shows.

c. To guide message collaboration across the enterprise.

2. Applicability and Scope. This instruction is a command-wide policy and applies to all NAVSEA activities that intend to participate in a commercial or government trade show, conference, or exhibit (hereafter referred to as trade shows).

3. Policy

a. NAVSEA policy is to:

(1) Annually, identify trade shows where the entire NAVSEA organization will participate under the single umbrella of the "NAVSEA Enterprise."

(2) Approve exhibits that showcase NAVSEA programs/messages.

(3) Annually request input from activity/directorates and PEOs to identify trade shows that are planned for the fiscal year and develop a schedule that will be posted to Inside NAVSEA City.

(4) Identify where there are two or more organizations attending the same trade show so that collaboration and cost

sharing occur. (Collaboration is defined as determining the common command message, space/boot requirements, and the sharing of resources, so there is not an appearance of duplication of work, excess costs, or competition among the different NAVSEA initiatives.)

4. Procedures. The SEA OOD Exhibit coordinator will be responsible for trade show coordination. This individual will be responsible for development of an annual trade show schedule, identification of Enterprise and non-enterprise trade shows, ensuring message alignment with Navy/NAVSEA Guidance, identifying lead organizations for non-enterprise trade shows, graphics design, and overall command coordination for trade shows. SEA00D will be responsible for message approval.

5. Definitions

a. Enterprise trade shows. Enterprise trade shows are those shows at which the entire command has a presence. Enterprise trade shows are coordinated by the SEA OOD Exhibits Coordinator. The symposium focus of an enterprise trade show is generally at the macro level, i.e., a Department of the Navy, or Department of Defense-wide theme.

b. Non-enterprise trade shows. Non-enterprise trade shows are those shows at which individual field activities or departments are exhibiting specific capabilities or initiatives based on the specialized focus of the show or symposium.

6. Responsibilities

a. Enterprise trade shows

(1) NAVSEA Congressional and Public Affairs (SEA OOD).

(a) Ensure that trade show messages are in alignment with Navy and NAVSEA Guidance.

(b) Centrally fund exhibit space, graphics printing, and exhibit hardware.

(c) Coordinate and organize show, design the graphics and configure the exhibit space to best showcase all participants. Activities will have the opportunity to approve their graphics.

(d) Solicit input from all participating activities before embarking upon the design and configuration.

(e) Identify hardware that will be showcased to communicate NAVSEA messages for the trade show.

(f) Identify requirements for audio/visual and telecommunications requirements from participants.

(g) Ensure appropriate videos/multimedia are identified for the symposium.

(2) Field Activities/Directorates/PEOs

(a) Pay shipping costs of any hardware, handouts (if applicable), etc. used for the trade show.

(b) Cover travel costs of persons attending.

(c) Limit number of personnel participating at each trade show, due to space and event restrictions.

b. Non-Enterprise Trade Shows

(1) NAVSEA Congressional and Public Affairs (SEA 00D)

(a) Ensure message alignment between command activities/directorates/PEOs participating in the trade show and approve all message.

(b) Ensure that NAVSEA Leadership is aware of trade shows and which NAVSEA/PEO component will be at the trade show.

(c) Ensure command messages are included in each trade show.

(d) Provide graphic design/support if request is made in sufficient time and can be accommodated with the SEA 00D workload.

(e) Loan freestanding displays and associated peripherals (lights, etc.) to directorates/PEOs/field activities for use at trade shows. An NAVSEA Exhibit Hardware Inventory is contained in Enclosure (1).

(f) If more than one organization is exhibiting at a trade show, NAVSEA Exhibits Coordinator will designate the lead organization for that show.

(g) Approve messages for non-enterprise trade shows.

(2) Field Activities/Directorates/PEOs

(a) Provide SEA 00D a listing of trade shows that they intend to participate in during annual data call. If additional shows come up during the year notify Exhibits Coordinator as soon as possible.

(b) Provide graphics/messages to SEA 00D Exhibits Coordinator for archive purposes and to evaluate and approve message alignment with Navy/NAVSEA Guidance.

(c) For shows when more than one organization is attending, the lead organization designated by the SEA 00D Exhibits Coordinator will be responsible for overall coordination, with each participating organization sharing in the cost of the exhibit space, and pay for its own travel and shipping.

(d) Resource reproduction of graphics designed by SEA 00D if design services requested.

P. E. SULLIVAN
