Distribution is Unlimited

## CONTENTS

- 4** NAVAL SEA SYSTEMS COMMAND OVERVIEW
- 6** NAVAL SEA SYSTEMS COMMAND FACILITIES
- 8** NAVSEA DIRECTORATES
- 10** PROGRAM EXECUTIVE OFFICES
- 10** NAVSEA FIELD ACTIVITIES
- 12** NAVSEA WARFARE CENTERS
- 14** LOGISTICS, MAINTENANCE & INDUSTRIAL OPERATIONS
- 16** NAVSEA WARRANTED TECHNICAL AUTHORITIES
- 46** NAVSEA ORGANIZATIONAL CHART

"TECHNICAL AUTHORITY—OUR ENGINEERING RIGOR THAT ENSURES THE INTEGRITY, OPERATION, AND SAFETY OF THE SHIPS AND SYSTEMS WE BUILD AND MAINTAIN FOR THE NAVY—LIES SQUARELY ON THE SHOULDERS OF OUR UNIQUELY QUALIFIED WARRANT HOLDERS. BECAUSE OF ITS IMPACT ON FLEET READINESS AND SAILORS, TECHNICAL AUTHORITY SHOULD BE CONSIDERED THE MOST IMPORTANT THING WE DO."

— VICE ADM. KEVIN MCCOY, NAVSEA COMMANDER

NAVAL SEA SYSTEMS COMMAND  
**OVERVIEW**

NAVSEA IS COMPRISED OF MORE THAN 60,000 CIVILIAN AND MILITARY PERSONNEL IN 34 ACTIVITIES LOCATED ACROSS THE UNITED STATES AND ASIA.

**W**e engineer, build, buy and maintain ships, submarines and combat systems for the U.S. Navy. With a budget of nearly \$30 billion, NAVSEA accounts for one-quarter of the Navy's entire budget.

NAVSEA manages more than 150 acquisition programs and is responsible for establishing and enforcing technical authority in ship and combat system design and operation. NAVSEA also manages foreign military sales cases for the construction and modernization of ships and ship systems.

**Headquarters Command Staff and Directorates:** NAVSEA headquarters provides policy, guidance, oversight and support in the areas of financial management, contracting, logistics/ maintenance/industrial operations, engineering, undersea warfare, corporate operations, information technology, legal support and security.

**Program Executive Offices (PEOs):** NAVSEA's affiliated PEOs—PEO Ships, PEO Submarines, PEO Aircraft Carriers, PEO Littoral and Mine Warfare, and PEO Integrated Warfare Systems—are responsible for the development and acquisition of Navy and Marine Corps platforms and weapons systems. They report to the Assistant Secretary of the Navy for Research, Development and Acquisition for acquisition-related matters and to the NAVSEA commander for planning and execution of in-service support.

**Naval Shipyards and Regional Maintenance Centers:** Owned by the Fleet and operated by NAVSEA, the four Naval Shipyards – Portsmouth, Norfolk, Puget Sound and Pearl Harbor – maintain, repair, modernize, inactivate, dispose of, and provide emergency repair to U.S. Navy ships, systems and components. Regional Maintenance Centers provide ship repair, industrial, engineering and technical support services for ships, including procurement and administration of contracts for ship maintenance and modernization. These centers also train Sailors in the maintenance and repair of shipboard systems and components.

**Supervisor of Shipbuilding (SUPSHIPS):** NAVSEA's four SUPSHIPs—Bath, Groton, Gulf Coast and Newport News—execute shipbuilding contracts as Administrating Contract Offices and provide oversight of cost, schedule and quality for Navy new construction shipbuilding assigned to our industry partners.

**NAVSEA Warfare Centers:** The Naval Surface Warfare Center (NSWC) and the Naval Undersea Warfare Center (NUWC) are technical institutions dedicated to sustaining warfighting readiness. Warfare center scientists and engineers at 10 divisions across the United States provide expertise in support of research, development, test and evaluation, engineering and Fleet support.

**Other Field Activities:** NAVSEA also directs several field activities that support the warfighter in a myriad of areas, including ship life cycle management, ordnance safety and security, experimental diving, submarine maintenance, logistics and testing of surface combat systems.

Aegis Technical Representative

With 73 percent of the Navy's 313-ship Fleet already in service today, it is critical that U.S. Navy ships maintain full operational readiness to meet projected missions. NAVSEA's four Naval Shipyards are key to maintaining the Fleet's readiness and are responsible for all submarine, aircraft carrier, and some surface ship availabilities. NAVSEA is committed to maximizing the material readiness of the Fleet by ensuring every ship is ready to respond to the Navy's missions. The Wasp-class amphibious assault ship USS Kearsarge (LHD 3) and embarked 26th Marine Expeditionary Unit arrive in Souda Bay, Greece, en route to provide food, water, transportation, and other support to flood victims in Pakistan. U.S. Navy photo by Paul Farley.

CODE

TECHNICAL DOMAIN

TELEPHONE

The NAVSEA commander (COMNAVSEA) is the technical authority for NAVESA and affiliated PEOs in accordance with SECNAVINST 5400.15C. NAVESA's technical authority chain of command is COMNAVSEA, the Chief Engineer (CHENG), the Deputy Warrant Officers (DWOs) and the Technical Warrant Holders (TWHs). COMNAVSEA has delegated authority to the CHENG to select, appoint and terminate appointments of TWHs. NAVSEA Note 5400 on technical authority was signed in 2010. For more information on NAVSEA Note 5400 and the TWH listing, contact Bernard Quibilan at 202-781-1673.
