

Genetic Alliance 2010 Annual Conference Agenda

Welcome

Genetic Alliance moves into the new decade understanding the value of strong partnerships. There is a benefit to hard times: As a community, we begin to understand that our productivity and our potential for success depend on collaboration.

We are one year into the new administration, on the verge of critical health reform. Through openness and partnerships, let us create meaningful partnerships that advance science, policy, translation, and treatments.

We invite you to our 2010 Annual Conference, Advancing Novel Partnerships, to open yourself to new perspectives and relationships and, in doing so, begin your own transformation. Novel partnerships will fuel our success as a community!
