VOLUME 4

**MILITARY STANDARD
BILLING SYSTEM - FINANCE**

April 11, 2012

DEPUTY ASSISTANT SECRETARY OF DEFENSE
(SUPPLY CHAIN INTEGRATION)

DEFENSE LOGISTICS MANAGEMENT SYSTEM

VOLUME 4 – MILITARY STANDARD BILLING SYSTEM – FINANCE

FOREWORD

I. The Defense Logistics Management System (DLMS) manual is reissued as Defense Logistics Manual (DLM) 4000.25, Defense Logistics Management System (DLMS), under the authority of DoD Instruction (DoDI), 4140.01, “DoD Supply Chain Materiel Management Policy,” December 14, 2011. DLM 4000.25 is composed of multiple volumes, each supporting functionally related business processes. Volume 4 provides standard procedures for billing and related adjustments for sales of materiel and related services, collectively referred to as the Military Standard Billing System (MILSBILLS). This includes the related standard transactions for exchanging data in compliance with the procedures.

II. The provisions of this manual apply to the Office of the Secretary of Defense, the Military Departments, the Joint Staff, the Combatant Commands, and Defense Agencies. The manual applies, by agreement, to external organizations conducting logistics business operations with DoD including (a) non-Government organizations, both commercial and nonprofit; (b) Federal agencies of the U.S. Government other than DoD; (c) foreign national governments; and (d) international government organizations.

III. This manual incorporates the Approved DLMS Changes (ADC) listed in the Process Change History page immediately following this Foreword. ADCs are published electronically at www.dla.mil/j-6/dlms/eLibrary/changes/approved2.asp. Recommended revisions to this manual shall be proposed and incorporated under the Process Review Committee (PRC) forum for logistics functional areas. Submit all proposed change requests through your designated DoD Component PRC representatives. The procedures are in Volume 1, Chapter 3 of this manual and at www.dla.mil/j-6/dlms/eLibrary/Changes/processchanges.asp

IV. This Volume is approved for public release and is available electronically at www.dla.mil/j-6/dlms/eLibrary/Manuals/dlm/dlm_pubs.asp. Use the comment form at www.dla.mil/j-6/dlms/About/Comment/comment_form.php to contact DLA Logistics Management Standards.

Paul D. Peters
Deputy Assistant Secretary of Defense
for Supply Chain Integration

VOLUME 4 – Military Standard Billing System - Finance

PROCESS CHANGE HISTORY

ADC Number	Date	Change Description	Version
221A	8/3/2011	<p>Revised Procedures associated with the DLMS Enhancement for Communication of Unit Price. This change revises procedures for DLA Transaction Services Defense Automatic Addressing System (DAAS) conversion mapping from DLMS to MILS legacy 80 record position formats to block the perpetuation of any price exceeding 7 positions (5 digits dollars and 2 digits cents), and block the perpetuation of any price consisting of all "9"s. The change allows the Navy ERP to accept items whose price is larger than \$100,000. Revises DLMS Supplements 511R, Requisition, 511M, Requisition Modification, 527D, Due-in/Advance Receipt /Due Verification, 527R, Receipt, Inquiry, Response and MRA, 536L, Logistics Reassignment Management Data, 810L, Logistics Bill, 812L, Logistics Bill Adjustment Request Reply, 812R, Logistics Bill Adjustment Request, 846D, Logistics Reassignment Transfer and Decapitalization, 856S, Shipment Status, and 869F, Requisition Follow-Up.</p>	0
274	4/1/2008	<p>DLMS and DLSS Changes to Support Army Exchange Pricing. This change makes changes to support Army Exchange Pricing. Army Managed National Stock Numbered (NSN) items that are on an existing or planned national repair program, will have an Exchange Price (EP), which represents the Latest Repair Cost plus a recovery rate. Essentially, those nationally repaired items will be issued at a discounted price based upon an expected return. If EP items are not returned within the established timeline (Delta Delay Days), the process will generate a Delta Bill (SP minus EP), which would result in a net cost of the full Standard Price to the customer. The Exchange Price will only be applicable to Army EP customers. All other customers will be charged the Standard Price. Revises MILSTRIP Chapter 3, MILSTRAP Chapter 4, and MILSBILLS Chapter 2 and Appendix 2.5.</p>	0
275	4/3/2008	<p>Administrative Changes to Eliminate Override Procedures for DLMS Supplements 812L, Logistics Bill Adjustment Request Reply and 812R, Logistics Bill Adjustment Request. This change modifies the 812L and 812R DLMS Supplements to clearly identify as an enhancement (not approved for current use) the use of Table 1 Code Source Information in cases where the Agency code is applicable to all Table 2 iterations. This change also removes the use of override procedures for Code Source information, as override is no longer recognized as recommended procedure.</p>	0

ADC Number	Date	Change Description	Version
280	8/8/2008	PQDR/SDR/TDR Credit Tracking. This change to MILSBILLS will allow for better tracking of credits for PQDRs, SDRs and TDRs. Revises MILSBILLS Chapter 4, Appendix 2.3, and Appendix 2.5.	0
289	10/21/2009	Revisions to Security Assistance Program Procedures, Modification of the Definition of the Security Assistance Type of Assistance and Financing Codes (MILSTRIP/Supply) and Policy Change to Billing Procedures. This change accommodates the inclusion of a paragraph on the timeframe for shipments using a Required Availability Date (RAD), the use of extended Required Delivery Dates (RDDs), a paragraph regarding possible storage charges for materiel awaiting Notice of Availability (NOA) responses, and some minor changes to program names and acronyms. Revises DLMS Volume 4 Chapter 2.	0
290	6/24/2008	Administrative Revisions to the DLMS Supplements 810, Logistics Bill, 812L, Logistics Bill Adjustment Request Reply and 812R, Logistics Bill Adjustment Request. This change adds additional qualifier codes to DLMS Financial Supplements and to make administrative changes to achieve consistency among the Supplements. Revises DLMS Supplements 810L Logistics Bill, 812L Logistics Bill Adjustment Request Reply and 812R Logistics Bill Adjustment Request, as well as, DLMS Volume 4 Chapter 2, DLMS Billing.	0
294	7/31/2008	Elimination of Treasury Suspense Account F388. Eliminated Treasury Suspense Account F3885, which was a suspense account used to temporarily hold unmatched financial transactions. Treasury stated that this account is no longer authorized for use. Revises DLMS Volume 4 Chapter 5, Interfund Billing System Procedures, as well as, MILBILLS AP2.2, Fund Codes.	0
315	1/5/2009	Administrative Change to DLMS Note for Fund Code in DLMS 810L, Logistics Bill. This change modifies the DLMS Supplement 810L to incorporate an administrative change to correct an incorrect DLMS note regarding the qualifier DG (Fund Code), which incorrectly states that the fund code may not be used with Interfund bills.	0
324	6/24/2009	DLMS Procedures for Materiel Returns from National Inventory Management Strategy (NIMS) Sites and Industrial Sites under Base Realignment and Closure (BRAC). This change documents procedures for materiel returns to DLA as partially implemented under the National Inventory Management Strategy (NIMS) and as planned in support of the 2005 Base Realignment and Closure (BRAC) decision. The change addresses communications among customers, the distribution depot, and the DLA ICP, along with establishing new procedures for authorizing and processing customer credit. Finalization of the returns procedures required recurring DLMSO interaction with the BRAC team to achieve correct business rules and documentation of these rules in the applicable DoD manuals. Revises MILBILLS Chapter 2.	0

ADC Number	Date	Change Description	Version
328	7/28/2009	<p>“Off-Line” Requisition Processing: Internet Ordering Application Request for Component Verification of Funds Availability and Recording of the Financial Obligation. This change requests an interface be established between the various internet ordering applications and the applicable Component financial application, so that fund availability can be checked before allowing the requisition to be processed, and, as a separate, subsequent action, establish the associated obligation within the applicable financial system. Revises DLMS Volume 2, Chapter 7, Verification of Funds Availability Web Call for Requisitions Submitted VIA Internet Ordering Applications; Volume 4, Finance, AP2, Verification of Funds Request, and AP3, Verification of Funds Reply; DLMS Supplement 9DS) Revision of 511R, Requisition.</p>	0
332	7/8/2009	<p>Intra-Navy Exchange Price Billing for Depot Level Repairables. The purpose of this change is to map the Navy’s current billing transactions for depot level repairables (DLRs) under the Navy Carcass Tracking program to the DLMS Supplement 810L, Logistics Bill. This change will support the Navy migration to DLMS, and will support mapping in a mixed DLMS/MILS environment. Revision to DLMS Supplement (DS) 810L, Logistics Bill.</p>	0
346	10/26/2009	<p>DLMS Interfund Billing System Procedures. This change publishes procedures for DoD 4000.25-M, Defense Logistics Management System (DLMS) Volume 4 (Finance), Chapter 5 - Interfund Billing System Procedures.</p>	0
350	11/16/2009	<p>Navy Budget Project For Billing. The purpose of this change is to map the Navy’s current MILS billing transactions for the Summary Bill to the DLMS Supplement 810L, Logistics Bill by including a DLMS qualifier called “budget project identifier” for Navy “budget project”. This change will support the Navy migration to DLMS, and will support mapping in a mixed DLMS/MILS environment.</p>	0

ADC Number	Date	Change Description	Version
435	10/3/2011	<p>Use of Referential Data to Support Standard Financial Information Structure (SFIS). This changes provides for the Component and Agency preferred solution of exchanging SFIS accounting data elements using referential data keyed on a fund code. DLA Transaction Services will develop and host an expanded fund code table on DAAS, which will be the master reference table for SFIS data to be maintained. The ADC also modifies specified DLMS transactions to add Business Partner Number (BPN) as an authorized DLMS enhancement, which may be an issue for non-DoD buyers and sellers to accommodate. Revises DLMS Supplement (DS) 511R, Requisition, 511M Requisition Modifier, 869F, Requisition Follow Up, 180M Material Returns Reporting, 517M, Material Obligation Validation, 867I, Issue, 940R, Material Release, 856S, Ship Notice/Manifest, 842 A/W Supply Discrepancy Report, 810L, Logistics Bill, 517G, Government Furnished Material (GFM) Validation, 527D, Due in/Advance Receipt/Due Verification, 527R, Receipt, Inquiry, Response and MRA, 812L, Logistics Bill Adjustment Request Reply, 812R, Logistics Bill Adjustment Request , 842A/R Standard Supply Discrepancy Report Reply, 867D, Demand Reporting, 869A, Requisition Inquiry/Supply Assistance Request, 869C, Requisition Cancellation, 945A, Material Release Advise, and 947I, Inventory Adjustment (Applies to 4010 as well).</p>	0
450	2/14/2012	<p>Elimination of the DLMS Request for Implementation Date Procedures for Component System Changes. The RFID letter/process, as currently published in the DoD 4000.25 family of manuals is eliminated. Implementation dates will be requested at the time of issuance of the PDC. The revised procedure will incorporate the request for and negotiation of an agreement upon implementation dates embedded in the PDC/ADC process. Revises DLMS Volume 4, Chapter 1</p>	0
469	2/23/2012	<p>Consolidating MILSBILLS into DLMS Volume 5, Finance. This change consolidates and updates chapters of DoD 4000.25-7-M (MILSBILLS) with the DoD 4000.25-M (DLMS) Finance volume to enable DLMS Volume 4 to be a single manual for DLMS/MILS logistics billing. Revises DLMS Volume 4.</p>	0

C1. CHAPTER 1

INTRODUCTION

C1.1. GENERAL

C1.1.1. **Purpose.** This volume provides Defense Logistics Management System (DLMS) standard procedures for billing and related adjustments for sales of materiel and related services, collectively referred to as the Military Standard Billing System (MILSBILLS). This includes the related standard transactions for exchanging data in compliance with the procedures using either the DLMS Supplements (DS) variable length format or the legacy Defense Logistics Standards Systems (DLSS) fixed length 80 record position format.

C1.1.1.1. New and migrating systems implementations of the DLMS are to comply with the DLMS Supplements to Federal Implementation Conventions (ICs) for American National Standards Institute (ANSI) Accredited Standards Committee (ASC) X12 in accordance with [DoD Directive 8190.1](#), "DoD Logistics Use of Electronic Data Interchange (EDI) Standards," May 5, 2000. The relevant DLMS Supplements are the DLMS 810L (Logistics Bill), DLMS 812R (Logistics Bill Adjustment Request), and DLMS 812L (Logistics Bill Adjustment Request Response). All DLMS Supplements to Federal ICs may be accessed at www.dla.mil/j-6/dlms/eLibrary/TransFormats/140_997.asp.

C1.1.1.2. DLSS is the legacy implementation for billing, previously published as part of MILSBILLS. See Appendix 3 for the list of billing related document identifier code (DIC) formats.

C1.2.1. **Use of This Volume.** Use of this volume requires simultaneous access to DLMS Manual Volume 1 administrative items such as lists of acronyms and abbreviations, terms and definitions, and references; instructions for acquiring access to the DLMS standards data base; DLMS-to-Defense Logistics Standard System (DLSS) cross-references and conversion guides; specific guidance that applies to all implementation conventions; and functional and technical information that is relatively stable and applies to the DLMS as a whole.

C1.2. POLICY

C1.2.1. [DoD 7000.14-R](#), "Department of Defense Financial Management Regulations," provides the DoD policies governing procedures in this volume.

C1.2.2. [DoD 4140.01-R](#), "DoD Supply Chain Materiel Management Regulation," May 23, 2003 provides the DoD policies and governing procedures in this volume.

C1.3. APPLICABILITY. This volume applies to the Office of the Secretary of Defense, Military Departments, Joint Staff, Unified and Specified Commands, Defense Agencies, and Defense Organizations (hereafter referred to collectively as "DoD Components") and, by agreement, to other organizations participating in the DLMS.

C1.4. FINANCE PROCESS REVIEW COMMITTEE. The Finance Process Review Committee (PRC) is the forum through which the DoD Components and other participating organizations may participate in the development, expansion, improvement, maintenance, and administration of the Interfund Billing System and other financial requirements for the DLMS. The Chairman, Finance PRC, in coordination with other Finance PRC members, is responsible for the contents of this volume of the DLMS. The identification of Finance PRC representatives, and other PRC related information, appears on the Finance PRC Webpage at www.dla.mil/j-6/dlms/Programs/Committees/Finance/financeprc.asp. Refer to Volume 1, Chapter 1 for a discussion of general DLMS PRC functions and responsibilities.

C1.5. SUPPLEMENTAL PROCEDURES. Supplemental procedures issued by the DoD Components and participating Agencies are authorized when additional detailed instructions are required. The publications listed in Table C1.T.1 supplement the provisions of this volume within the DoD Components and participating Agencies:

Table C1.T1. Supplemental Billing Procedures

<u>SERVICE or AGENCY</u>	<u>SUPPLEMENTAL INSTRUCTIONS</u>
United States Army (USA) and United States Air Force (USAF)	Defense Finance and Accounting Service (DFAS)-Indianapolis Center (DFAS-IN) Regulation 37-1, Finance and Accounting Policy Implementation
United States Navy (USN) or United States Marine Corps (USMC)	NAVSO P-1000, Department of the Navy Financial Management Policy Manual
General Services Administration (GSA)	FPMR 101, Subchapter E, Subpart 101-26-8, Discrepancies or Deficiencies in GSA or DoD Shipments, Material or Billings FEDSTRIP Operating Guide

C1.6. NONCOMPLIANCE. If reasonable attempts to obtain compliance with prescribed procedures or resolution of DLMS Finance related problems are unsatisfactory, the activity having the problem shall request assistance from its DLMS Finance PRC representative. The request shall include information and copies of all correspondence pertinent to the problem; including the document number, the number and date of the DLMS bill, and billing office. The representative shall take the necessary actions to

resolve the issue or problem. The actions may include requesting assistance from the Chairman.

C1.7. SIMULATED MOBILIZATION EXERCISE

C1.7.1 When establishing plans that require simulated mobilization exercises, identify the associated transactions as simulated mobilization exercise transactions as provided for in the applicable implementation convention. The common mechanism in the DLMS Supplement is to set the Purpose Code of the beginning segment to 77–Simulation Exercise. Do not process simulated mobilization transactions in the supply distribution system(s) as action documents that affect accountable/unit records. The DoD Component activities responsible for initiating these exercises must use extreme caution to ensure procedures are explicit and to coordinate with all participants.

C1.7.2. DLSS has reserved certain DIC series for use in mobilization or other exercises. Within the legacy DLSS, DIC H series transactions are reserved for use during simulated mobilization exercises in lieu of the normal F or G series DICs. Although not mandatory, exercise planners are encouraged to use the H series DIC.

C2. CHAPTER 2

BILLING PROCEDURES

C2.1. CRITERIA FOR BILLING

C2.1.1. Shipments From Stock. Billing shall be effected on the basis of drop from inventory or performance of services. Exceptions are as follows:

C2.1.1.1. Security Assistance. Billings for security assistance shall be effected upon constructive delivery.

C2.1.1.2. Petroleum, Oil, and Lubricants (POL). Billings for bulk POL shipments may be billed after notification of receipt or 15 calendar days after the date of shipment or issue, whichever occurs first.

C2.1.1.3. Perishable Subsistence Chill and Freeze Items. Billings for perishable subsistence chill and freeze items shall be effected upon drop from inventory. Billings for fresh fruits and vegetables shall be effected upon receipt of an issue transaction from DLA Troop Support.

C2.1.1.4. Drawdowns

C2.1.1.4.1. Materiel requisitioned under authority of Section 506 of the Foreign Assistance Act, as amended (i.e. , when the Foreign Military Sales (FMS)/Grant Aid (GA) type of assistance code is C), may not be billed until funds are appropriated, with the exception of Working Capital Fund activities. Although Section 506 does not provide obligation or disbursing authority, it does permit the drawdown of existing DoD stocks subject to an appropriation to be made at a later date. Since there is no assurance that DoD accounts will be reimbursed, the transfers cannot be recorded as accounts receivable. Therefore, issues under Section 506 will be treated as transfers without reimbursement. The transfer without reimbursement will be reversed when appropriations are received to reimburse the DoD account for the transfer. Section 506 draw downs of General Services Administration (GSA) or other non-DoD stocks are not authorized.¹

C2.1.1.4.2. All requests for Defense Working Capital Fund (DWCF) activities (to include transportation) shall include a funding source, allowing DWCF

¹Section 552 of the Foreign Assistance Act of 1961 allows the President to "direct the drawdown of commodities and services from the inventory and resources of any agency of the United States Government". Under DLMS, except for the use of DoD (Section 506) or any agency (Section 552) assets, drawdowns under both sections are identified and treated similarly.

activities to be reimbursed by the Military Departments without delay. Orders will not be accepted without a funding source. Refer to [DoD 7000.14-R](#), "Department of Defense Financial Management Regulations (FMRS)", Vol. 12, paragraph 230502 and Vol. 11B, paragraph 110106.A.).

C2.1.2. Direct Deliveries of Materiel From Contractors. When an inventory item is out of stock, is not carried, or has otherwise been requested via direct delivery of materiel from a vendor, the billing shall be effected upon notification of receipt of materiel by the customer or notification of shipment by the vendor.

C2.1.3. In-Storage Visibility Lateral Redistributions. When an Integrated Materiel Manager/Inventory Control Point (IMM/ICP) laterally redistributes materiel, reimbursement to the reporting activity and billing to the requisitioning activity shall be effected upon notification of receipt by the requisitioning activity.

C2.1.4. In-Storage Visibility Procurement Offset. When materiel is returned to the IMM/ICP to offset or preclude procurement, reimbursement to the returning activity is authorized upon receipt, inspection, and acceptance of materiel as evidenced by the IMM/ICP's generation of a creditable Materiel Receipt Status.

C2.1.5. Customer Asset Report Credits. Materiel Return Program (MRP) credits are authorized upon receiving notification that materiel authorized for return under creditable procedures has been received in the offered condition and quantity.

C2.1.6. Materiel Services. Billings for services related to materiel shipments and returns not included in the materiel price are authorized after the services are rendered.

C2.1.7. Obligations for Requisitioned Materiel. Establishing an obligation for the proper amount under the requisition document number is essential for the timely and automated processing of interfund bills. Failure to do so is a violation of financial management procedures; and may delay processing and increase workload for both DFAS and submitting Component personnel. DoD Components that either (1) establish business processes for requisitioning outside their customer's Component sponsored supply system, e.g., via internet ordering applications, or (2) authorize their own Component personnel to satisfy requirements through the use of external ordering processes, shall support adherence to standard DoD financial business processes.

C2.1.7.1 DoD Components may authorize manual recording of the financial obligation by the customer as a separate action until such time as an automated interface between the ordering application and a Component-sponsored financial system is available. Where an interface is not available, external ordering applications shall alert users to comply with their Component-directed financial procedures.

C2.1.7.2 Procedures for on-line internet ordering application real-time verification of funds availability and funds availability response for are provided under DLMS Vol 4, Chapter 7.

C2.2. PREPARATION OF BILLS

C2.2.1. General. Bills shall be prepared within 30 calendar days of the criteria provided in section C2.2 and must identify each shipment, delivery, service performed, or refund earned.

C2.2.2. Materiel Billing And Credit Amounts. In general, billings for materiel shall be at the standard price in effect at the time of shipment, and credit adjustments (refunds) shall be at the price originally billed. Exceptions are identified in the following subparagraphs. Billings and credits for services or allowances related to materiel shipments shall be processed as prescribed by section C2.5.

C2.2.2.1. Lateral Redistribution Credits. Reimbursements for materiel laterally redistributed shall be processed at the standard price in effect at the time of shipment. Credits may be fully or partially reversed by the IMM/ICP when a validated discrepancy report documents the materiel was not shipped in a condition or quantity warranting full credit.

C2.2.2.2. In-Storage Visibility Procurement Offset and MRP Credits. Credits shall be processed at the acquisition cost in effect at the time of receipt. Credits may be lower if, in the opinion of the IMM/ICP, the received materiel is not in a condition and/or quantity to warrant full credit.

C2.2.2.3. Quality Deficiency Reports. When the original requisition number cannot be identified, the credits shall be at the current standard price.

C2.2.2.4. Materiel Returns to DLA from Industrial Sites under Base Realignment and Closure Retail Storage and Distribution/Inventory Management and Stock Positioning, and National Inventory Management Strategy². A variation of the MRP program is used for processing materiel returns to DLA from selected sites in support of the Base Realignment and Closure (BRAC) Retail Storage and Distribution (SS&D)/Inventory Management and Stock Positioning (IMSP) and the National Inventory Management Strategy (NIMS). Standard MRP DLMS/MILSTRIP transactions do not apply. No credit for packaging, crating, handling, or transportation (PCH&T) shall be provided.

C2.2.2.4.1. Industrial Sites. DLA managed materiel returned by an industrial customer at BRAC industrial sites will be accepted into DLA inventory

² DLA is required to request approval of new procedures supporting BRAC/NIMS allowing full materiel credit for returns regardless of asset position with no credit for PCH&T.

regardless of DLA wholesale asset stock position. Credit shall be processed based upon a receipt of the returned materiel corresponding to a sale to Service maintenance (identified by DoD Activity Address Code (DoDAAC) series/internal customer group) for the same materiel and condition completed within the 60-day period prior to the date on the return. Up to 100 percent credit shall be processed at the full selling price of the item on the original order(s) used as reference for return quantity less than or equal to the quantity on the reference order(s). DLMS/MILSBILLS Billing for Issue from Stock (DLMS 810L/DIC FA2) shall be used to provide credit under modified business rules. Credit for any quantity returned over the original amount, in a different condition code from the original sale or unmatched is subject to DLA ICP stock position using business rules equivalent to the MRP for determining whether to provide credit/credit amount contained in [DoD 4140.01-R](#), "Supply Chain Materiel Management Regulation," May 23, 2003. The Service's financial system will be notified of any resulting credit via a DLMS/MILSBILLS Materiel Returns Program Credit (DLMS 810L/DIC FD2).

C2.2.2.4.2. National Inventory Management Strategy Sites. Credit for materiel returns from a NIMS site customer will be processed based upon the return receipt. The DLA ICP shall process the receipt and determine whether a sale has occurred for the same materiel, condition code, and customer within a 60-day time frame reflecting the exact same document number as the receipt (return) document. If there is an exact matching sale, the customer shall receive credit equal to the original sale. Credit for any quantity returned over the original amount, in different condition code from the original sale or unmatched is subject to credit/credit amount from C2.2.2.4.1. The Service's financial system will be notified of any resulting credit via a DLMS/MILSBILLS Materiel Returns Program Credit (DLMS 810L/DIC FD2).

C2.2.3. Method of Billing

C2.2.3.1. Bills arising from transactions containing a National Stock Number (NSN) within the DoD will be collected through the Military Standard Billing System (MILBILLS) interfund billing procedures when supported by the supply and accounting systems. The provider will not accept a Military Interdepartmental Purchase Request (MIPR) if interfund can be used. Manual billing (e.g., the XP fund code) will not be used unless approved by the Deputy Chief Financial Officer. For intragovernmental interfund disputes, follow the dispute process outlined in Chapter 4.³ Billings to DoD offices must be under interfund procedures except as provided below.

C2.2.3.2. Billing shall be under noninterfund procedures when:

C2.2.3.2.1. The bill-to office is non-DoD (Bill-To Service Code is numeric, G, or Z).

³ From DoD 7000.14-R, Volume 4, Chapter 3 Receivables, Paragraph 030504.B (November 2009)

C2.2.3.2.2. The bill-to office is a DoD contractor (Bill-To Service Code is C, E, HG, L, Q, SD, or U).

C2.2.3.2.3. The bill-to office is DoD (Bill-To Service Code is alpha other than C, E, G, HG, L, Q, SD, U, or Z) and the fund code requires noninterfund billing (normally XP fund code).

C2.2.3.2.4. The bill-to office is another-DoD Component (Bill-To Service Code is H) and the fund code is not identified as a valid fund code.

C2.2.3.2.5. The bill-to office is Army & Air Force Exchange Service (AAFES) (Bill-To Service Code is H followed by an X).

C2.2.3.2.6. DLA Transaction Services will reject bills when they fail any of the edits. See Chapter 6.2 for information about the routing and editing of bills processed through DLA Transaction Services. Rejected bills will be returned to the originating communications center with a narrative description indicating the reason for rejection. Billing offices will correct the rejected bills and resubmit them to the DLA Transaction Services. Billing offices will ensure that all appropriate adjustments for rejected billings and interfund collections are made to seller accounting records.

C2.2.3.3. Method of Billing Summary. Billing methods are summarized in Table C2.T1.

Table C2.T1. Method of Billing

<u>Condition Number</u>	<u>Billed DoDAAC Begins With:</u>	<u>And Fund Code is:</u>	<u>Then the Billing Method is:</u>
1	C, E, G, HG, HX, L, Q, SD, U, Z, or numeric	Any	NON INTERFUND
2	Any Service code	XP or otherwise designates noninterfund	NON INTERFUND
3	H	Not identified as eligible for interfund billing	NON INTERFUND
4	Anything other than conditions described by 1, 2, or 3		INTERFUND

C2.2.4. Determining Bill-To Parties

C2.2.4.1. Billed Party. Ordering activities shall identify a billed party DoDAAC for all requisitions or other orders, including nonreimbursable orders.

C2.2.4.2. Billed Party Not Identified. Item managers or other providers of goods and services shall reject requisitions or other orders when a valid billed party is not identified. In the event an order comes through without a valid bill-to party, billing offices will designate the ordering or submitting activity as the bill-to party if, for whatever reason, they are unable to identify a valid billed party. The Service Security Assistance Control Office shall be designated as the bill-to party for unidentifiable security assistance requisitions. The Service control offices are: Army–W25P02, Navy–N65916, and Air Force–FG2303.

C2.2.4.3. The mailing address for noninterfund bills shall be the clear text address prescribed for billing (TAC 3 if assigned; otherwise TAC 1) in the DoDAAD ([DLM 4000.25](#), Defense Logistics Management System Manual, Volume 6, Chapter 2). The routing for interfund bills shall be based on the billing Communication Routing Identifier (COMMRI).

C2.2.5. Nonreimbursable Bills. Materiel issued under nonreimbursable procedures must be reported to the billed office using the Notice of Nonreimbursable Issue (810L/DIC FE_).

C2.2.6. Interfund Bills

C2.2.6.1. Use of Interfund. If the bill is paid under interfund procedures, the billing office will report the collection to its servicing finance center on its seller interfund report. A separate interfund bill will be prepared for billings applicable to a bill-to DoDAAC and treasury symbol.

C2.2.6.2. An interfund bill consists of a Summary Billing Record (DS 810L, DIC FS_) and one or more detail billing records, but shall not contain more than 495 records in total. Noninterfund records shall not be included on the same bill.

C2.2.6.3. Interfund bills are forwarded to DLA Transaction Services electronically for editing and further routing to the offices billed as described in Chapter 6. Only billings routed by DLA Transaction Services shall be eligible for interfund collection as prescribed in Chapter 5.

C2.2.6.4. Separate detail billing records, selected from the Appendix 3 series appendices, shall be prepared for each shipment of delivery supporting the summary billing record.

C2.2.6.5. The fund code (see Appendix 2) provides procedures for converting fund codes to appropriations charged.

C2.2.6.6. A separate interfund (or noninterfund) bill shall be prepared:

C2.2.6.6.1 when the billed office DoDAAC or fund code changes,

C2.2.6.6.2. when the net amount of the bill (net amount of the detail billing records) equals or exceeds 10 million dollars,

C2.2.6.6.3. when the number of billing records (summary plus detail billing records) exceed 495 records, or

C2.2.6.6.4. when there are different Security Cooperation Customer Codes.

C2.2.6.7. The recommended standard for interfund bill numbers appears in Table C2.T2.

Table C2.T2. Standard Interfund Bill Numbers

<u>If the Billing Month Is:</u>	<u>The 1st Position of the Bill Number Will Be:</u>	<u>If the Billing Month Is:</u>	<u>The 1st Position of the Bill Number Will Be:</u>
January	A or B	July	N or P
February	C or D	August	Q or R
March	E or F	September	S or T
April	G or H	October	U or V
May	J or K	November	W or X
June	L or M	December	Y or Z
The remaining four positions of the bill number will be alpha or numeric (characters A-Z or 0 or 9). The bill number shall be unique within the billing month.			

C2.2.7. Noninterfund Bills

C2.2.7.1. When an activity is unable to use electronic data interchange (EDI) methods (i.e. DLMS 810L), it may use the [SF 1080](#), "Voucher for Transfers between Appropriations and/or Funds," or other form approved by the Treasury Department,

such as [GSA Form 789](#), “Statement, Voucher, and Schedule of Withdrawals and Credits” as the billing document for noninterfund bills.

C2.2.7.2. An original of the noninterfund billing shall be provided to the billed office. Noninterfund billings will, at a minimum, be supported by the following information⁴: document order number, description of the article or services, delivery or other performance date, quantity, and price. The document order number and description will usually be satisfied by the requisition document number and NSN. The delivery or performance date is the same as the day of year prescribed for the detail billing record appropriate for the issue or service.

C2.2.7.3. Billing offices may, at their option and with the customer’s concurrence, provide automated support for noninterfund billings using the G series billing records. These billing records shall be transmitted electronically to DLA Transaction Services, which will pass the records to the billed office by the best means available. Hard copy billing documents are not required.

C2.3. RETENTION OF BILLING RECORDS

C2.3.1. Billing offices must have accessibility to billing records for six years, three months after the month of the billing. Billing records include a copy of the bill and supporting records.

C2.3.2. Notwithstanding the requirements of C2.3.1, adjustment processing activities shall retain accessibility to billing records for whatever time period is required to enable them to process adjustments for requests or validated discrepancy reports when the request or report leading to the adjustment is received within prescribed timeframes.

C2.3.3. For security assistance, interfund bills are considered supporting execution documentation required to be maintained by the Implementing Agency in accordance with DoD 7000.14R, Volume 15, 0602.J.7.

C2.4. CORRECTION OF ERRONEOUS BILLINGS

C2.4.1. Billing Forwarded To Customer. When a billing office finds it has issued an invoice containing one or more erroneous billing lines, it shall correct the erroneous billing line in a later invoice. Normally, billing offices are expected to reverse and reissue only the erroneous billing line, not the entire invoice. The corrections shall be processed as soon as practical and shall not await customer requests for adjustments.

⁴ Though not required, to facilitate the resolution of billing or payment disputes involving noninterfund bills, billing offices should also include electronic contact information on the bill.

C2.4.2. Billing Rejected By DLA Transaction Services. Billings rejected by DLA Transaction Services must be corrected and resubmitted to obtain reimbursement. Corrective procedures shall include the accounting records to maintain the audit trail and the validity of the records. For example, in-transit interfund collections and paid accounts receivables related to the rejected bills will have to be reversed.

C2.5. CANCELLATIONS. When a provider accepts a customer's request to cancel a requisition or other order, any billings generated for that requisition shall be reversed in the next billing cycle. When the cancellation involves diverting materiel back to stock, the billing shall be reversed upon receipt of the materiel. Any charges related to the cancellation, such as contract termination costs, will be billed under noninterfund procedures.

C2.6. BILLING FOR ACCESSORIAL AND ADMINISTRATIVE COSTS

C2.6.1. DoD Shipments

C2.6.1.1. Purpose. Accessorial and administrative costs may be invoiced using either interfund or noninterfund reimbursement methods. However, in all cases, billing shall be accomplished in the same manner as the materiel. DoD 7000-14-R, Volume 6, provides the DoD policy for billing accessorial and administrative costs.

C2.6.1.2. Normal Charges. Unless otherwise indicated on ordering documents or transactions, accessorial costs incurred for supply items requisitioned by DoD Activities shall be charged to the same funds as the materiel.

C2.6.1.3. Retail Loss Allowance. DoD 7000.14-R, volume IIB, requires the DWCF to grant a discount for retail losses to retail stock funds based upon net issues after authorized credits or offsets have been applied. These discounts are to provide funds for losses experienced at the retail stock fund level. Retail loss discounts shall not be granted for sales to commissaries and customers of retail or installation level stock fund activities. However, retail loss discounts are authorized for all military clothing items sold to Military Exchanges.

C2.6.1.4. Packing, Crating, Handling, and Transportation

C2.6.1.4.1. Reimbursements for packing, crating, and handling costs for (a) IMM/ICP directed lateral redistributions, (b) IMM/ICP authorized MRP and sales returns, and (c) IMM/ICP directed procurement offset returns associated with In-Storage Visibility (ISV) shall be a percent of the materiel credit price. The rate shall be 3.5 percent for consumable items and 1 percent for reparable items. Billing offices shall use the Accessorial and Other Miscellaneous Billings record format to support these billings and reimbursements.

C2.6.1.4.2. Reimbursements for transportation costs for (a) IMM/ICP directed lateral redistributions, (b) IMM/ICP authorized MRP and sales returns, and (c)

IMM/ICP directed procurement offset returns associated with ISV shall be for an amount equal to the IMM/ICP's cost recovery rate for second destination transportation included in the selling price of the materiel and shall be supported by a Billing for Transportation record format.

C2.6.1.4.3. Billing offices shall use the Accessorial and Other Miscellaneous Billings or other appropriate record to support billings and reimbursements for other authorized PCH&T, administrative, or accessorial charges.

C2.6.1.4.4. Reimbursement for packing, crating, handling, and transportation shall not be provided for materiel returns to DLA industrial sites under BRAC SS&D/IMSP, or NIMS sites⁵. Refer to C2.2.2.4.

C2.6.2. GSA Shipments

C2.6.2.1. General. GSA shall assess accessorial and administrative costs on shipments to the Department of Defense as indicated in this section.

C2.6.2.2. Transportation Charges

C2.6.2.2.1. Paid By GSA. GSA shall pay transportation charges on stock items to:

C2.6.2.2.1.1. Consignees in the CONUS, and, where scheduled, surface commercial transportation services are available in Hawaii, the Commonwealth of Puerto Rico, the Virgin Islands, the southeast peninsula of Alaska, central Alaska (rail belt), and Kodiak Island.

C2.6.2.2.1.2. A U.S. port of embarkation for overseas destinations not included in subparagraph C2.6.2.2.1.1.

C2.6.2.2.2. Paid By Customer. GSA shall not pay transportation charges for shipments of special order program (nonstock) items, purchased free on board (FOB) origin. GSA will, however, prepay and bill the agency as a separate item for:

C2.6.2.2.2.1. Transportation charges to a CONUS destination or a U.S. Port of Embarkation on F.O.B. origin items.

C2.6.2.2.2.2. Transportation charges from a CONUS destination or a U.S. Port of Embarkation to consignees in Hawaii, the Commonwealth of Puerto Rico,

⁵ DLA is required to request approval of new procedures supporting BRAC/NIMS allowing full materiel credit for returns regardless of asset position with no credit for PCH&T.

the Virgin Islands, the Southeast Peninsula of Alaska, Central Alaska (rail belt), and Kodiak Island.

C2.6.2.2.2.3. Transportation charges billed under interfund procedures shall be billed using the Accessorial and Other Miscellaneous Billings record.

C2.6.2.3. Export Charges

C2.6.2.3.1. Surcharge shall be assessed at the rate of 10 percent of the value of the materiel ordered and shipped to customers overseas from GSA wholesale distribution centers and vendors when unique DoD marking/packing requires the shipment be physically handled by a GSA export packing facility. The export surcharge shall be billed as follows:

C2.6.2.3.2. A flat fee of \$5 administrative charge per requisition line shall be assessed for export shipments not physically handled by a GSA export packing facility.

C2.6.2.3.3. The export services performed on shipments for customers overseas may vary by customer location, commodity, mode of shipment, and other criteria and include: monitoring and expediting delivery to meet required delivery date; over packing and documenting dangerous/hazardous shipments; challenging air eligible shipments; unitizing, consolidating, and palletizing cargo; arranging for seavans to source load cargo and document shipments for delivery to ports of embarkation; and others.

C2.6.2.3.4. GSA shall annually review actual costs to perform export services and, as appropriate, propose changes in the above rate for use throughout each fiscal year. The Under Secretary of Defense (Comptroller) shall be advised sufficiently in advance for appropriate program and budget planning.

C2.7. BILLING FOR PROGRESS AND ADVANCE PAYMENTS

C2.7.1. Progress Billings

C2.7.1.1. Purpose. Progress payments may be billed via interfund whenever the order received from the customer specifies that progress billings via interfund are authorized. Documentation of the agreement by the customer to allow progress billing via interfund may be used in lieu of a specific provision on each order.

C2.7.1.2. Billing Basis. Billings made for progress payments will be based upon documentary evidence of satisfactory performance and shall not exceed the amount of the customer order.

C2.7.1.3. Offsets. The billing office shall offset billing lines for deliveries against all outstanding progress billings related to those deliveries. Billing lines shall be reported for both the sales price of the shipment and the amount of the progress billing being liquidated. The billing method elected for the progress payment will also be the method used to invoice for the delivery.

C2.7.1.4. Multiple Progress Billings. Although multiple progress billings may have been submitted against an order, a single recoupment billing may be reported for the total amount of the progress billings.

C2.7.2. Advance Billings

C2.7.2.1. Applicability. Advance billings may not be billed via interfund. When authorized, advance funding will be satisfied via noninterfund and by the use of appropriation level, rather than project or order level, advances.

C2.7.2.2. Application of Advances. Received advances must be returned or applied to accounts receivable before the end of the fiscal year.

C2.8. INTO-PLANE FUEL SALES

C2.8.1. Applicability. These procedures apply to DoD into-plane issues (sales) of fuels to DoD aircraft except when other billing procedures are specified by the terms of an inter-Service support agreement.

C2.8.2. Reimbursable Issues. Reimbursable issues (sales) of fuel into DoD planes by DoD activities shall be billed at the standard price in effect at the time of issue.

C2.8.3. Contractor Fuel Issues. Contractor into-plane fuel issues shall be billed at the standard price applicable to each such issue.

C2.8.4. DWCF Billing. Billing offices funded by the DWCF will grant credit for DoD aircraft defueling based on supply defueling slips at DWCF prices.

C2.8.5. Credits. Credits shall be given for contractor into-plane defueling of DoD aircraft based on a defueling slip at the standard price given for each defueling.

C2.8.6. Into-plane fuel bills shall use the Billing for Into-Plane Issues record format.

C2.9. HAZARDOUS MATERIEL AND WASTE BILLINGS

C2.9.1. Users of DLA's hazardous materiel and waste disposal services shall provide DLA with a disposal turn-in document ([DD Form 1348-1A](#), "Issue Releases/Receipt Document," or [1348-2](#), "Issue Release/Receipt Document with

Address Label”) as prescribed by DLM 4000.25. Since these services are provided on a reimbursable basis, the order will be funded in accordance with the standards prescribed by DoD 7000.14-R. The order will generally authorize DLA to use the interfund billing system to reimburse themselves for these services.

C2.9.2 General⁶

C2.9.2.1. General policies and procedures governing hazardous materials and waste disposal within the Department of Defense are prescribed by [DoD 4160.21-M, “Defense Materiel Disposition Manual,” August 19, 1997](#). DLA Disposition Services (formerly the Defense Reutilization and Marketing Service) is authorized to bill for these services under interfund billing procedures and shall use the Billing For Decentralized, Noncatalogued, and Nonstocked Items billing record.

C2.9.2.2. Requestors of services wanting to dispose of hazardous waste and materiel shall follow the procedures in DoD 4160.21-M and Chapters 3 and 5 of [MILSTRIP DLM 4000.25-1](#). These procedures require preparation of a disposal turn-in document (DTID) in accordance with instructions prescribed by MILSTRIP⁷ and provide it to the DLA Disposition Services Field Office (formerly Defense Reutilization and Marketing Office (DRMO)). The DLA Disposition Services Field Office shall provide the generator with a receipt copy of the DTID at the time of turn-in.

C2.9.3. Hazardous Waste Disposal

C2.9.3.1. Hazardous waste disposal services are provided on a reimbursable basis and generators must, therefore, contact their servicing finance office to ensure that funds are obligated for these services. Prior to actual turn-in and disposal, the cost of hazardous waste disposal services may be estimated by referring to the contract governing the materiel being disposed of. The estimated cost of the disposal must be obligated under the DTID number. Contact the DLA Disposition Services Field Office for assistance in estimating the cost.

C.2.9.3.2. The DLA Disposition Services Field Office shall provide the generator with copies of the disposal manifest ([DD Form 1155](#)) and any modifications as the disposal request is executed and modifications are agreed to. The DLA Disposition Services Field Office shall also provide the generator with a certified copy of disposal for each DTID. Generators must advise their servicing finance office when estimated amounts obligated at the time of turn-in or execution are lower than actual amounts indicated on these documents.

⁶ The “background” information in this subsection is provided to assist financial personnel in understanding their responsibilities with regard to hazardous waste and materiel disposal services. Any conflicts between information contained in this subsection and procedures prescribed by MILSTRIP or DoD 4160.21-M will be resolved by following MILSTRIP procedures.

⁷ Appendix 3.49 Transfers To DLA Disposition Services Field Office on [DD Form 1348-1a](#) Issue Release/Receipt Document, or [DD Form 1348-2](#), Issue Release/Receipt Documents With Address Label.

C2.9.3.3. Establishing an obligation for the proper amount under the DTID document number is essential for the timely and automated processing of interfund charges. Failure to do so is a violation of financial management procedures and shall delay updating generator accounts and increase workload on both DFAS and generator personnel.

C2.9.4. Hazardous Materiel Disposal

C2.9.4.1. Unlike hazardous waste, disposal of hazardous materiel may not result in any charges to the generator. Therefore, unless you are certain you will incur disposal charges, generators should not obligate turn-ins of hazardous materiel. After receipt of the hazardous materiel DTID, the DLA Disposition Services Field Office must advise the generator if disposal costs that are the responsibility of the generator will be incurred. The following determines whether or not the generator shall be charged for disposal of hazardous materiel.

C2.9.4.2. There shall be no disposal costs charged to the generator if the DLA Disposition Services Field Office can dispose of the hazardous materiel through an existing contract or believes the materiel can be reutilized, transferred, donated or sold.

C2.9.4.2.1. DLA Disposition Services Field Offices shall provide the generator with a monthly Disposal Funding Status Report of the DTIDs that were successfully reutilized.

C2.9.4.2.2. Generators who have open hazardous materiel disposals in process shall contact the DLA Disposition Services Field Office if they fail to receive a monthly Disposal Funding Status Report.

C2.9.5. When the preceding condition does not apply, the hazardous materiel becomes hazardous waste, the disposal shall be on a reimbursable basis, and hazardous waste disposal procedures apply. Funding for this hazardous waste disposal must be provided to the DLA Disposition Services Field Office within 5 workdays of notification. The DLA Disposition Services Field Office must not proceed with the disposal of the now classified hazardous waste until funding is confirmed by the generator.

C2.10. GENERAL SERVICES ADMINISTRATION UNIQUE BILLINGS

C2.10.1. Automotive Vehicles

C2.10.1.1. GSA is authorized to use the interfund billing system to invoice DoD activities for automotive vehicles purchased under a category one (reimbursable) MIPR. DoD activities submitting a MIPR must do so in accordance with paragraph 8.7008 of the DoD Supplement to the Federal Acquisition Regulation, which requires activities to provide DLMS requisition data for each line-item to be delivered to each ship-to address.

C2.10.1.2. For purposes of identifying and validating charges, GSA shall support interfund billings for automotive vehicles with a single line item billing register. The register must show, in addition to the information shown on the billing record, the full MIPR number under the columns headed "STOCK NUMBER."

C2.10.2. GSA Customer Supply Center Billing Procedures

C2.10.2.1. GSA bills DoD customers for Customer Supply Center (CSC) billings using either a customer provided MILSTRIP document number or a constructed pseudo-document number. The document number is constructed from the ordering DoDAAC of the customer provided at the time the account was opened, the Julian day the order was placed, and the last four positions of the ticket number. GSA shall treat all line items requisitioned as a single order, with or without multiple line items, and bill for the order under the constructed document number if the customer doesn't provide a MILSTRIP document.

C2.10.2.2. GSA CSC interfund bills shall be supported by the GSA CSC Billing record.

C2.10.2.3. Noninterfund bills shall be supported by the Single Line Item Billing Register. The register must include the customer provided MILSTRIP document number in the stock number field.

C2.10.2.4. GSA offers its customers the option of having its CSC billings billed to a Government purchase card. Activities having difficulties with interfund or [SF 1080](#) billings of CSC supplies may want to consider this option.

C2.11. ARMY EXCHANGE PRICING PROCESS

C2.11.1. The Army approach to the Exchange Pricing interim approach is a multi-system functionality implementation. Exchange Pricing employs a dual pricing system for a repairable NSN item based upon Standard Price (latest acquisition cost plus recovery rate) and Exchange Price (latest repair cost plus cost recovery rate) and a "buy one–return one" relationship with the customer (i.e., a qualified exchange pricing customer buys at the EXCHANGE PRICE and pays a penalty if a reparable is not turned-in within a specified period of time from the issue date). This process is applicable to Army customers and Army-managed materiel only; other Services will continue to pay Standard Price and receive 65 percent credit exchange upon receipt of carcass by the Army Primary Inventory Control Activity (PICA).

C2.11.2. Once an item of supply is identified for a national repair program and the National Item Identification Number (NIIN) has an established Exchange Price, all requisitions for the items will be priced at the Exchange Price if the customer is an authorized Exchange Price customer.

C2.11.3. When a requisition submitted to the Supply Support Activity (SSA) is processed by the Standard Army Retail Supply System (SARSS), SARSS will determine if both the customer DoDAAC is an Exchange Price customer, and the NIIN has an established Exchange Price indicator. As this transaction is processed through the Army supply system, middleware, Funds Control Module (including Exchange Price Tracking) Defense Automatic Addressing System (DAAS), Commodity Control Supply System (CCSS), and Army Logistics Modernization Program (LMP), the Exchange Price indicator will be used to identify the transaction as Exchange Price related. All the legacy systems will continue processing the MILS transactions; LMP will process DLMS transactions that are converted by DLA Transaction Services.

C2.11.4. All related supply transactions prepared by the Army will carry and perpetuate the Exchange Price Indicator. The following transactions will be impacted as a result of the Exchange Price implementation: Requisition; Requisition Modifier; Requisition Follow-up; Materiel Release Order; and Supply Status. The returns process will also process Exchange Price related transactions. The Materiel Receipt transaction will be generated by SARSS for all returns of Exchange Price NIINs, and will include an Exchange Price Type of Credit indicator for Unserviceable credit when applicable and an Exchange Price Conversion Indicator to identify the need to provide credit according to the pre Exchange Price credit policy, which will last for 60 calendar days following Exchange Pricing implementation.

C2.11.5. If the return has an un-repairable condition code or the item is not returned within the established timeframe (Delta Delay Days), the national level systems (LMP, CCSS) will create an obligation adjustment based on the receipt from Middleware Funds Control Module of a Materiel Returns Supply Status (Delta Bill Trigger) transaction. As a result of processing the delta bill trigger the national systems will create the logistics/interfund bill transaction with an Exchange Price Indicator and Type Bill code to identify the specific type of Exchange Price bill to the Army financial system.

C2.12. NAVY EXCHANGE PRICING PROCESS

C2.12.1. The Navy uses a two tier pricing system for selling Depot Level Repairable (DLR) materiel to Navy customers. The Navy sells DLRs to other Services at full (standard) price and then provides carcass value credit when the carcass is returned. This is the same method the Air Force and Army use when selling repairable items to the Navy. The Standard Price is the price representing the full value of the DLR item, and is the price charged when a Not Ready For Issue (NRFI) unit (also referred to as a 'Carcass') is not turned in. The Net Price (also referred to as Exchange Price) is the price that includes the cost of repairing a DLR item, and is the price charged to customers when a NRFI unit has been or will be turned in. Navy customers indicate on their requisitions whether a NRFI unit is available for turn in via the Advice Code, and they are then charged Net or Standard Price accordingly.

C2.12.2. Received requisitions indicating that a carcass will be returned are tracked in the Navy's Carcass Tracking System. This system monitors these requisitions and matches them with carcass returns as they occur. This system also generates follow ups to customers who have not returned their carcasses as promised. Ultimately, the system will trigger an additional charge to the customer if the carcass is not returned. Navy uses the term "Carcass Charge" for this additional billing, which represents the difference in value between Standard Price and Net (Exchange) Price. This additional billing is also referred to as a Delta Bill. If the customer returns the carcass after receiving the Carcass (Delta) Bill, then the additional billing is reversed, resulting in a Carcass Charge Reversal (Credit Delta Bill). Navy customers may also return excess DLRs for credit. The credit can be Standard, Net, or Carcass value.

C2.12.3. Under legacy format Defense Logistics Standard Systems (DLSS)/MILSBILLS billing, the Navy ICPs use the Sales Price Condition Code to indicate to customers that a bill is either Net (Exchange) Price or Carcass (Delta) Price. Once operational, the Navy's ERP will replace the Navy ICP's DLSS/MILSBILLS billing system with a DLMS based system. Since DLMS does not utilize a Sales Price Condition Code, Navy will use a combination of Stock Exchange Code and Type of Bill Code to indicate on the bill whether the price charged is Standard, Net, or Carcass price. DAAS will convert Navy bills back to DLSS/MILSBILLS format for any Navy customers unable to accept DLMS formats.

C2.13. INCLUSION OF TRANSPORTATION CONTROL NUMBERS ON DLMS LOGISTICS BILLS. Suppliers may bill on partial shipments with identical quantities under the same document number, which makes the bills appear as duplicates. Including the Transportation Control Number (TCN) on the DLMS Logistics Bill will resolve that problem. Partial shipment codes are part of the TCN structure in accordance with [DTR 4500.9-R](#), "Defense Transportation Regulation". Accordingly, reporting activities shall include the TCN in DLMS Logistics Bill transactions. This is a DLMS enhancement, which may be implemented without prior authorization.

C3. CHAPTER 3

PROCESSING AND PAYMENT OF BILLS

C3.1. PAYMENT OF NONINTERFUND BILLS

C3.1.1. Payments made to other Federal Agencies are due upon receipt and shall be paid in full. The following exceptions apply:

C3.1.1.1. Bills for issues to North Atlantic Treaty Organization (NATO) (Supreme Headquarters Allied Powers Europe (SHAPE)) (identified by billed office Department of Defense Activity Address Code (DoDAAC) WM1Q7K) are due 120 calendar days after the billed date.

C3.1.1.2. Bills for issues to United Nations (UN) Peacekeeping Forces (identified by billed office DoDAAC WN7GX8) are due 120 calendar days after the billed date.

C3.1.2. When the appropriations to be reimbursed and disbursed are both within the Department of Defense, bills may be paid either by check or through cross disbursing (no check) procedures. Payments involving appropriations outside the Department of Defense shall be by check.

C3.1.3. All remittances must include either the bill number or a copy of the bill.

C3.2. **PROCESSING INTERFUND BILLS.** Interfund bills are notices of disbursement of billed office funds by the billing office. Accordingly, billed offices shall take prompt action to record and clear the in-transit disbursement.

C3.3. ADJUSTMENTS

C3.3.1. Billed offices shall review all charges to ensure that billed items were ordered and that obligations are adjusted when appropriate. All requests for billing adjustments shall be prepared in accordance with Chapter 4.

C3.3.1. Billed offices shall review all charges to ensure that billed items were ordered and that obligations are adjusted when appropriate. All credits shall be reviewed to ensure that they are warranted and correct. Billed offices shall request adjustments for erroneous charges or credits in accordance with Chapter 4.

C3.3.2. Billing or other discrepancies that do not meet the criteria for requesting adjustment, described in Chapter 4, shall be recorded as obligations, funds disbursed, and expenses.

C4. CHAPTER 4

ADJUSTMENT PROCEDURES

C4.1. REQUESTING ADJUSTMENTS

C4.1.1. Submission of Adjustment Requests

C4.1.1.1. Unless otherwise indicated in this chapter, requests for adjustment, follow-ups, and replies shall be submitted by electronic means.

C4.1.1.2. Requests are generally prepared using the Request for Billing Adjustment (DLMS 812R, DIC FAE) record. However, into-plane and bulk fuel related adjustment requests must use the Request For Adjustment of Fuel Billing (DLMS 812 R, DIC FJE). Refer to other Chapter 4 sections for more specific information on preparing requests for adjustments and follow-ups.

C4.1.1.3. Requests for adjustments will normally indicate the billing office as the addressee and shall be submitted to DLA Transaction Services for processing and routing to the billing office. Requests for adjustments of GSA billings shall be addressed to the GSA National Customer Service Center (DoD Activity Address Code (DoDAAC) 476437, RI code GSA). Correspondence to the Service Center, if necessary, may be directed to:

General Services Administration
National Customer Service Center
1500 East Bannister Road
Kansas City, Missouri 64131-3087
Telephone: (800) 488-3111 (DSN) 465-1416

C4.1.2. **Nonreimbursable.** Forward a request for adjustment in the format prescribed for billing account code (BAC) 14 when the coding of the requisition indicates that the materiel was requisitioned under nonreimbursable procedures and a materiel billing was received.

C4.1.3. **Accessorial.** A request for adjustment in the format prescribed for BAC 15 shall be forwarded whenever accessorial costs are charged and the charges are not authorized.

C4.1.4. **Timeframes.** All requests for adjustments should be submitted within 30 calendar days of receipt of the billing. Initial requests for adjustment received after the record retention period for billing records may be denied. When a discrepancy report or adjustment request is received within prescribed timeframes, nonavailability of records,

or the passing of the record by the time the report is validated or the request is processed, may not be used as a basis for denying the adjustment.

C4.1.5. Minimum Value

C4.1.5.1. Adjustment for Billing Errors. In general, no request for adjustment should be submitted for billing errors when the amount of the error is \$250 or less. As an exception to the general guideline, no request for adjustment should be submitted for billing errors when the amount of the error is \$100 or less and the billing office is GSA or the materiel involved is a subsistence item.

C4.1.5.2. Adjustment Types. There is no minimum value for requesting status on an anticipated or required billing, requesting a corrected bill when the received bill is incomplete, requesting a copy of a bill, requesting a change in the type of billing (interfund to noninterfund and noninterfund to interfund), or requesting adjustments for validated discrepancy reports.

C4.1.5.3. Foreign Military Sales Billing Errors. There is no minimum value for adjustment of foreign military sales (FMS) billing errors. However, adjustment requests for FMS shipments may not be submitted when the request can be rejected per the general conditions of the U.S. Department of Defense Letter of Offer and Acceptance.

C4.2. CANCELING OR AMENDING REQUESTS FOR ADJUSTMENT

C4.2.1. Canceling Requests. Submitting offices may cancel requests for adjustments whenever the request is no longer valid or appropriate and the billing office has not provided a final reply to the request.

C4.2.2. Amendments. Requests for adjustments may be amended by canceling the original request and submitting a new request.

C4.3. FOLLOW-UP ON UNANSWERED REQUESTS FOR ADJUSTMENT

C4.3.1. Adjustment Requests. Except for follow-ups to DLA Transaction Services, offices submitting adjustment requests will follow-up on requests for adjustments remaining unanswered for more than 14 calendar days after submission. If the request for adjustment remains unanswered for more than 14 calendar days after follow-up, submitting offices will forward a second and final follow-up by letter or message to the billing office. In addition to providing the billing office with the information required to process the request, the final follow-up will identify the dates of initial and follow-up request.

C4.3.1.1. Follow the procedures prescribed for noncompliance and other problems (see Chapter 1) when requests for adjustments or requests for MRP credits remain unanswered for more than 30 calendar days after the second follow-up or if an interim response was received and the promised date has passed.

C4.3.1.2. Follow up to DLA Transaction Services (daashelp@dla.mil) for copies of interfund bills that were requested but not received.

C4.3.2. Credit Follow-Up. Offices designated to receive Materiel Returns Program (MRP) credit will initially follow-up on the credit due when the credit has not been received and more than 30 calendar days have elapsed since the creditable status was received. A second follow-up will be submitted if a reply or credit is not received within 30 calendar days of the initial follow-up.

C4.4. REPLYING TO REQUESTS FOR ADJUSTMENT OR MATERIEL RETURNS PROGRAM CREDIT

C4.4.1. Processing Adjustments. Billing or adjustment processing offices will reply to adjustment requests using Defense Logistics Management System (DLMS) 812L, Adjustment Request Reply transaction. The DLMS Supplement will also be used to reply to follow-up requests.

C4.4.2. Responding to Requests. Billing offices shall respond to all requests for adjustment within 13 calendar days of the date the request is received. Billing offices shall respond to follow-up requests for adjustment within 13 calendar days of the date the request is submitted. Replies to adjustment requests (DLMS 812L, Document Identifier Code (DIC) FAR) and follow-ups (DLMS 812L, DIC FAS) are required and shall also be forwarded to DLA Transaction Services for processing and further routing to the adjustment requestor. As with the requests, fuel-related replies shall follow the equivalent DIC FJ_ series formats. All adjustment replies shall include an appropriate coded reply.

C4.4.2.1. Responses to adjustment requests shall be forwarded to the office designated by the recipient of billing status code. Adjustments shall be forwarded to the original billed office.

C4.4.2.2. Billing offices shall respond to initial requests and first follow-up for MRP credit in the DLMS 812L, DIC FTB format. Responses shall be forwarded, via DSN, to the office designated by the materiel receipt status (870M, DIC FTZ).

C4.4.2.3. Billing offices shall respond to second follow-up requests for adjustments and MRP credit within 30 calendar days of receipt. If the request cannot be answered within 30 calendar days, an interim response by letter or message will be provided. The response must be completed within 60 calendar days.

C4.5. ADJUSTMENT AMOUNT. In general, adjustments, when warranted, will be at the originally billed price. Adjustments for validated product quality deficiency reports (PQDRs) will be processed at the current standard price when the original billed price cannot be determined. Adjustments for Materiel Returns Program (MRP) credits will be

at the current acquisition price or at a reduced price if, in the opinion of the Integrated Materiel Manager (IMM), the condition warrants such reduction.

C4.6. INCOMPLETE OR UNSUPPORTED BILL

C4.6.1. An incomplete bill is one in which the interfund or noninterfund bill is not fully supported by detail billing records or information, respectively.

C4.6.2. Since DLA Transaction Services will not pass incomplete interfund bills to billed offices and billing offices will not be reimbursed for bills not submitted to DLA Transaction Services, a copy of the “incomplete” interfund bill shall be requested from DLA Transaction Services.

C4.6.3. Requests for incomplete (i.e., unsupported) noninterfund bills shall be addressed to the billing office and must cite BAC 19. In addition to responding to the request, whenever the bill referred to is on file, billing offices must always provide a fully supported copy or corrected bill to the billed office.

C4.7. BILLING STATUS PROCEDURES

C4.7.1. Obtaining Bill Status. When requisitioned materiel is received, intended billed offices must use an Adjustment Request (DLMS 812R, DIC FAE) to seek the status of the bill. When materiel was not ordered, or if ordered and not received, discrepancy report procedures apply. See DLMS Volume 2, [Chapter 17](#) and [DoD 4500.9-R](#), Defense Transportation Regulation, Volume 2, Chapter 210 for discrepancy report procedures.

C4.7.2. Shipment Bill Status. When shipment status is received for requisitioned materiel and the materiel can be billed only upon evidence of constructive delivery, intended billed offices must use an Adjustment Request (DLMS 812R, DIC FAE) citing BAC 35 to seek the status of the bill. Billing offices may generate the required billing when properly completed requests are received and a billing is awaiting evidence of constructive delivery. Billing offices will also initiate appropriate actions with their supply office to identify and resolve problems underlying this condition.

C4.7.3. Timeframe. At least 90 calendar days must have elapsed after receiving the materiel or, in the case of FMS shipments, shipment status before requesting the bill status. However, the status must be requested within a year of the shipment date (2 years for FMS shipments). Billing offices may reject requests for billing status that are not submitted within these timeframes.

C4.7.4. When the billing status request involves fuels and is forwarded to DLA Energy (RIC S9F), the request shall be mailed and must identify the supply source. If the supply source is a DLA Energy regional location, provide the location’s DoDAAC. If the supply source is a contractor, including contractor Into-plane, provide the contract number.

C4.7.5. Restrictions. Except for billings awaiting evidence of shipment or receipt, billing offices will not generate bills based solely upon a request for billing status.

C4.7.6. DoD 7000.14-R, Department of Defense Financial Management Regulations (FMRS), Volume 10 has allowances for writing off unbilled liabilities and de-obligating the related obligation when an invoice has not been received within 180 calendar days from the date of acceptable final performance and there is documentation on file that at least two written requests for an invoice have been made. Refer to the reference for other conditions that must be met, such as establishing a reserve for late bills.

C4.8. BILL COPY PROCEDURES

C4.8.1. Requesting Copies. Requests for copies of interfund bills shall be addressed to DLA Transaction Services if the DLA Transaction Services record retention period has not expired. Requests must use the Request for Retransmission of Interfund Bill (DLMS 812R ,DIC QB1) format. See Chapter 6 for DLA Transaction Services record retention requirements and options for retrieving bill copies.

C4.8.2. Retransmitting Copies. DLA Transaction Services will retransmit copies of all bills wherein the billing office DoDAAC, bill number, and year within decade and month of credit match the same information on the request.

C4.8.3. Copies of Noninterfund Bills. Requests for copies of noninterfund bills will normally be addressed to the billing office.

C4.9. REQUESTS FOR CHANGE IN BILLING METHOD

C4.9.1. Change in Billing Method

C4.9.1.1. When billing offices bill under interfund procedures and MILSBILLS procedures do not allow for such billing, billed offices will forward requests for adjustment in the format prescribed for BAC 52.

C4.9.1.2. When MILSBILLS procedures prescribe billing under interfund procedures, billing offices shall deny requests for improperly billed interfund.

C4.9.1.3. When the requisition or customer asset report improperly designates interfund billing and the interfund billing cannot be processed, refer to the following subparagraph for requesting rebilling under noninterfund procedures.

C4.9.2. Properly Billed Interfund to Noninterfund

C4.9.2.1. When a billed office is unable to process a billing record under interfund procedures, the billed office may have the item or items billed under noninterfund procedures by forwarding a request for billing adjustment citing BAC 51.

Use of this advice code is an admission by the billed office that the requisition or other document was incorrectly coded.

C4.9.2.2. Requests citing BAC 51 may be submitted only when the funds or charge cannot be disbursed or processed under interfund procedures. All such requests shall be honored by the billing office; the billing office may challenge this assertion.

C4.10. ADJUSTMENTS FOR DISCREPANCY REPORTS

C4.10.1. Financial Adjustment

C4.10.1.1. Discrepancy reports shall be submitted, reviewed, processed, validated, and responded to in accordance with the procedures described in the requirements in Table C4.T1.

Table C4.T1. Adjustments to Discrepancy Reports

Reporting of Transportation Discrepancies in Shipments DTR 4500.9-R "Defense Transportation Regulation"
Supply Discrepancy Reporting, DLM 4000.25, Chapter 17
Product Quality Deficiency Program, DLAR 4155.24/AR 702-7/SECNAVINST4855.5A/AFR 74-6

C4.10.1.2. Billing offices shall process financial adjustments or claims citing the applicable Type of Bill Code (QD, WP, WU, or TD) based on the discrepancy report when the discrepancy report is validated and all of the following MILSBILLS or GSA criteria are met:

C4.10.1.2.1. Discrepancy Not Otherwise Resolved. The discrepancy was not resolved otherwise; for example, the vendor does not replace deficient materiel for a validated PQDR.

C4.10.1.2.2. Materiel Billed and Paid. The materiel was billed and paid previously or, in the case of reporting on a constructed document number, there is a reasonable basis for assuming that the items were previously billed and paid.

C4.10.1.2.3. Materiel Returned. The materiel is received by the depot in those cases where the discrepancy report reply requires the return.

C4.10.1.3. The discrepancy involves GSA shipments and the Transportation Discrepancy Report (TDR) exceeds \$25 per line (detail billing record) (DBR) or the Supply Discrepancy Report (SDR) exceeds \$50 per line (DBR). There is no minimum

adjustment level on PQDRs involving GSA shipments. There are no adjustment dollar value limitations for discrepancies involving DoD shipments.

C4.10.1.4. The original MILSTRIP requisition number is included on the PQDR or SDR. When the original requisition number cannot be identified, the originating or screening point must include a constructed 14 position MILSTRIP document number using the originating or screening point's DoDAAC for the first six characters, the current Julian date (YDDD) for the next four positions, and a four position serial number beginning with "U" as the first position of the serial number. An example of a constructed document number is F123453175 U001. Also carried as a utilization code under DLMS. Note: For SDRs, circumstances authorizing the use of a constructed document number are restricted to those described in DLMS, Volume 2, Chapter 17.

C4.10.1.5. The discrepancy report for a GSA shipment is received by GSA, except when extenuating circumstances or high dollar values warrant special consideration, within the following timeframes:

C4.10.1.5.1. Within 1 year of the shipment date for PQDRs except:

C4.10.1.5.1.1. For items under warranty that must be received within the time limits prescribed in the individual warranty.

C4.10.1.5.1.2. For shelf life items that must be received prior to the expiration of the shelf life period and within 1 year of the shipment date.

C4.10.1.5.2. Within 180 calendar days of the shipment date for other than quality deficiencies except for:

C4.10.1.5.2.1. Shipments for security assistance consignees that must be received within 18 months of the shipment date; and

C4.10.1.5.2.2. Shipments to consignees located in the CONUS, Hawaii, the Commonwealth of Puerto Rico, the Virgin Islands, the southeast peninsula of Alaska, central Alaska (rail belt), and Kodiak Island that must be received within 120 calendar days of the shipment date.

C4.10.1.6. Improper Commitment. When a reply to a discrepancy report improperly commits the billing office to providing an adjustment (e.g., the shipment was never billed), the billing office will ask the replying office to correct the reply to the discrepancy report.

C4.10.2. Other Discrepancy Adjustment Rules

C4.10.2.1. Adjusting Discrepancy Reports. Requests for adjustments related to TDRs will be submitted only when the adjustment is not received and more than 60

calendar days have elapsed since the report was filed. Requests related to PQDRs and SDRs should be timely, but shall not be submitted until a minimum of 60 calendar days have elapsed since receiving notification that the discrepancy is validated (i.e., that an adjustment is approved). When the promised adjustment for a discrepancy is contingent upon the return of materiel, the request shall not be submitted until a minimum of 60 calendar days have elapsed since shipping the materiel with additional allowance for transportation time to the shipping activity. When a reply to a discrepancy report is not received, follow up as prescribed by DLMS Volume 2, Chapter 17.

C4.10.2.3. The portion of credits for materiel laterally redistributed may be fully or partially reversed by the IMM when a discrepancy report documents the materiel was not shipped in a condition warranting full credit.

C4.10.2.4. Activities responsible for discrepant shipments may be held responsible for costs incurred for repackaging, disposal, unauthorized returns, deficient packaging, and other item and packaging discrepancies that have been documented and validated under SDR procedures. Although other mutually agreeable arrangements may be made, such costs shall normally be recovered under noninterfund procedures and will be supported by the validated discrepancy report. In addition, when such returns are creditable, these discrepancy costs may be offset against the credit to which the returning activity is otherwise entitled.

C4.10.2.5. Adjustments based upon PQDRs shall be forwarded to the code and bill-to DoDAAC indicated on the PQDR. If omitted, adjustments shall be sent to the DoDAAC indicated (TAC 3, or TAC 1 if no TAC 3 exists) of the requisition number provided on the PQDR and the fund codes in Table C4.T2.

Table C4.T2. Default PQDR Fund Codes

BILLED SERVICE CODE	FUND CODE
N, P, R, or V (Navy)	96
All Others	QD

C4.11. ADJUSTMENTS FOR BILLING ERRORS

C4.11.1. The following are billing errors and shall not be accepted for processing unless the minimum value criterion (Section 4.1) for requesting adjustment is met:

C4.11.1.1. Duplicates

C4.11.1.2. Wrong amount billed

C4.11.1.3. Wrong office billed

C4.11.1.4. Improper billed

C4.11.1.5. Promised adjustment not received

C4.11.1.6. Other problems

C4.11.2. Duplicates

C4.11.2.1. Duplicate Billing Line

C4.11.2.1.1. A duplicate billing line is a second or later billing for a single shipment or adjustment. If the second or later billing resulted from a second or later shipment, financial adjustment procedures do not apply. See, instead, discrepancy report procedures for duplicate shipments in DLMS Volume 2, Chapter 17.

C4.11.2.1.2. To obtain adjustment for duplicate detail billing records not previously adjusted by the billing office, submit a separate request for each duplicated billing record in the format prescribed for BAC 11.

C4.11.2.2. Duplicate Bill

C4.11.2.2.1. This is an interfund or noninterfund bill (SF 1080 or equivalent), that is supported entirely by duplicate detail billing records. In the case of interfund bills, the bill is also included on the billing office's interfund report.

C4.11.2.2.2. Adjustments for duplicate interfund bills may be requested only upon confirmation that the bills (original and duplicate) were, in fact, reported to the buying service's Central Accounts Office (CAO). To obtain an adjustment, submit a Request For Summary Level Billing Adjustment (DLMS 812R, DIC FDE) for each duplicated bill citing:

C4.11.2.2.2.1. BAC 42 when the bill, details and summary are identical, including the bill number, to a previous bill,

C4.11.2.2.2.2. BAC 43 when, except for the bill number, the bill details and summary are identical to a previous bill, and

C4.11.2.2.2.3. BAC 44 when all of the supporting detail billing records of one bill have been included on another bill. The bill containing such previously billed DBRs is the duplicate bill.

C4.11.3. Wrong Amount Billed

C4.11.3.1. Purpose. A wrong amount billed refers to a billing line in which the unit price, quantity, or price extension is erroneous.

C4.11.3.2. Exceptions. Do not request adjustment for wrong amount if:

C4.11.3.2.1. The unit price is the correct standard or catalog price and you are questioning the price. Follow price challenge procedures instead.

C4.11.3.2.2. The extension does not agree with the amount billed and Sales Price Condition code B is indicated. In this case, the unit price shown on the billing record is the inventory carrying value, the standard unit price. The billing unit price, if needed, must be computed.

C4.11.3.2.3. The quantity billed equals the quantity ordered or shipped and a lesser quantity is received. Follow the appropriate DLMS Volume 2, Chapter 17 discrepancy reporting procedure instead.

C4.11.4. Wrong Office Billed

C4.11.4.1. Request. Request an adjustment for wrong office billed when the office billed does not agree with the coded requirements of the requisition or adjustment request and the coding indicated a valid billed office DoDAAC. A valid billed office DoDAAC is one listed in the DoD Activity Address Directory (DoDAAD) with the proper authority code (See Chapter 6, C6.2.2.1.2 of this volume).

C4.11.4.2. Request Denial. When the billing was prepared in accordance with the requisition or modification received by the Inventory Control Point/Integrated Materiel Manager (ICP/IMM), the request shall be denied.

C4.11.4.3. Wrong Office Assigned. When the billing office assigned the billed office as prescribed in Chapter 2 and the office assigned is not the intended office, the billed office will transfer or otherwise process the bill in accordance with procedures prescribed by the DoD Component. If the offices involved are serviced by the same finance center, the billed office shall contact the intended billed office or requisitioner and make arrangements for transferring the bill.

C4.11.5. Improper Billing

C4.11.5.1. General. A DLMS 812R, Adjustment Request citing the proper billing advice code should be submitted to billing offices to request adjustments for improper billings. For purposes of this section, an improper billing is a billing line which:

C4.11.5.1.1. Charges for materiel requisitioned under nonreimbursable procedures;

C4.11.5.1.2. Charges improperly for accessorial costs;

C4.11.5.1.3. Charges for materiel following a reply that a billing could not be rendered; or

C4.11.5.1.4. Charges for materiel confirmed cancelled when the materiel is not received.

C4.11.5.2. Cancelled. When a billing for materiel is received on a requisition that was confirmed cancelled by the ICP or IMM and the materiel is not received, a request for adjustment in the format prescribed for BAC 17 shall be forwarded to the billing office. When the materiel was received or if the requisition was not confirmed cancelled by the ICP or IMM, MILSBILLS procedures do not apply. Follow instead procedures prescribed for reporting SDRs. Although annotations on a shipping document, in conjunction with other factors, may support a discrepancy report, they do not support an adjustment for improper billing. A validated discrepancy report is needed.

C4.11.5.3. Backordered. A request for adjustment in the format prescribed for BAC 18 shall be forwarded to the billing office whenever a billing is received on a requisition that was backordered and the receipt of the billing status, confirming that the materiel was not received. Do not submit requests citing BAC 18 prior to obtaining this status.

C4.11.5.4. Billing Cannot Be Rendered. Billed offices shall request adjustment in the format prescribed for BAC 20 whenever the billing office issues a bill after advising, in a response to a request for billing status (Billing Status Codes DC and DF), that a bill could not be rendered.

C4.11.6. Promised Adjustment Not Received. Billed offices shall forward an Adjustment Request (DLMS 812R, DIC FAB/FJR) with the proper billing advice code to the billing office to follow-up on unreceived promised adjustments and more than 30 calendar days have elapsed since receiving a reply promising the billing or adjustment.

C4.11.7. Lateral Redistributions (In-Storage Visibility For Both Consumables and Repairables). Offices promised credits for lateral redistributions (In-Storage Visibility (ISV) for both consumables and repairables) shall follow up on credits not received within 30 calendar days of the date shipment confirmation is submitted to the ICP/IMM. The initial request must be made by submitting a Request for Billing Adjustment (DLMS 812R, DIC FAE) record citing BAC 27 to the ICP/IMM.

C4.11.8. Other Billing Problems. Billed offices or others will request adjustments for problems not covered by billing advice codes by forwarding a letter (or message) of explanation along with the information required to process the request for BAC 55. The billing office will normally respond with an Adjustment Request (DLMS 812L, DIC FAR or FJR format).

C4.12. PRICE CHALLENGES AND VERIFICATION. [DoD 4140.1-R](#) DoD Supply Chain Materiel Management Regulation, May 23, 2003 prescribes the basic DoD requirements under Service and Agency Price Challenge And Price Verification Programs. Price

challenges and verification are often mistaken for MILSBILLS "wrong unit price billed" procedures. Contact IMM/ICP customer service for assistance filing price challenges.

C4.13. DISPUTED RESPONSES TO REQUESTS FOR ADJUSTMENT. Billing and billed offices are expected to resolve their differences regarding adjustment requests. However, when a billed office does not agree with the billing office's response and the billed office considers the amounts involved significant, the billed office may consider the dispute an unresolved problem and follow the procedures prescribed in Chapter 1.

C4.14. ADJUSTMENTS FOR CHANGE NOTICES

C4.14.1. Recording Undelivered Orders. If an order is placed with or through the DWCF, an undelivered order (obligation) should be recorded when the order is placed. A non-stock numbered item should be recorded as an undelivered order when the order is accepted. An adjustment to the undelivered order should be processed when a change notice affecting price, quantity, or an acceptable substitution of a like item is received from the stock fund. Refer to [DoD 7000.14-R](#) Volume 6 for more specific information on the above requirements.

C4.14.2. Customer Not Receiving Change Notice. If a DBOF customer does not receive a change notice at all or in time to cancel or modify the order and additional funds are required, the materiel may be refused or returned to the DBOF and an adjustment requested. Adjustments for this reason shall be forwarded by mail and must be signed by the activity accounting officer. The request must meet the following requirements and will state essentially:

"As a result of a price change, quantity change, or authorized substitution, the value of the materiel received exceeds amounts obligated and all available obligation authority. Request credit for the indicated quantity and items delivered under the following requisition document and suffix number. Please also provide us with the return instructions for the materiel."

C4.14.3. Honoring Requests. The billing office shall honor all such requests and provide adjustment, without regard to dollar value, after the materiel is returned. The ordering activity shall also contact the ICP/IMM to arrange for the return.

C4.15. SECURITY ASSISTANCE DISCREPANCIES AND BILLING ERRORS

C4.15.1. The Military Department may automatically grant adjustments¹ and charge or credit the administrative surcharge fund when:

¹ Automatic adjustments may be withheld from specific customers if there is a pattern of abuse of this authority. When such a pattern exists, all discrepancies and billing errors from that customer should be researched.

C4.15.1.1. The request cannot be rejected per the general conditions of the U.S. Letter of Offer and Acceptance, and

C4.15.1.2. The transaction was billed on a [DD Form 645A](#), Foreign Military Sales Statement.

C4.15.1.3. The amount of the adjustment requested is either (1) less than \$100 or (2) less than the amount approved² for that Military Department by the Defense Security Cooperation Agency.

C4.15.2. Adjustments for IMM/ICP charges that may not be automatically charged to the administrative fund shall be prepared and forwarded to the IMM/ICP in accordance with the procedures contained in this chapter.

C4.16. CREDITS FOR EXCESS REPORTS (MATERIEL RETURNS PROGRAM)

C4.16.1. Procedures. Materiel returns program procedures are prescribed by DLMS Volume 2.

C4.16.2. Processing Credits. Billing offices shall process credits for excess reports during the first billing cycle after receiving notification that materiel authorized for return under creditable procedures has been received in a condition warranting credit. The portion of credits for materiel laterally redistributed may be fully or partially reversed by the IMM when a discrepancy report documents that the materiel was not shipped in a condition warranting full credit.

C4.16.3. Materiel Returns Program or Procurement Offset Status Request (In-Storage Visibility For Both Consumables and Reparables). Offices expecting MRP or procurement offset (ISV for both consumables and reparables) shall request credit status using the Follow-up for Materiel Returns Program Credit (DLMS 812R, DIC FTP). The initial request should be prepared when the credit has not been received and more the 30 calendar days have elapsed since the Materiel Receipt Status (DLMS 870M, DIC FTZ), citing a creditable status or the Shipment Status (DLMS 856S, DIC AS6) is received by the IMM/ICP.

² Military Departments may request approval for a different adjustment level. The dollar amounts of automatic adjustments will be determined by an agency cost effectiveness study which compares the administrative cost of conducting necessary research to determine specific responsibility versus the cost which will be incurred by the administrative surcharge pool if an automatic refund is authorized. The agency cost effectiveness study must be submitted to Defense Security Cooperation Agency for review and approval.

C5. CHAPTER 5

INTERFUND BILLING SYSTEM PROCEDURES

C5.1. POLICY

C5.1.1. General. It is DoD policy that DoD customers shall authorize suppliers to use the interfund billing system to reimburse themselves for materiel, hazardous materiel and waste services, and services related to materiel shipments.

C5.1.2. Exclusions

C5.1.2.1. The interfund billing system is not mandatory for use when the involved funds are Military Assistance Grant Aid or where only limited sales occur between the DoD Components.

C5.1.2.2. The interfund billing system may not be used to bill non-DoD customers (e.g., state or local governments, private contractors, individuals, or nonappropriated fund instrumentalities) or for major end items such as complete aircraft, ships, tanks, space vehicles, and missiles.

C5.1.2.3. Except for the General Services Administration (GSA), the Federal Aviation Administration (FAA), and the National Oceanic and Atmospheric Administration (NOAA), non-DoD suppliers may not use the interfund billing system to bill DoD customers.

C5.2. PRINCIPLES OF THE INTERFUND BILLING SYSTEM

C5.2.1. The interfund billing system allows suppliers to reimburse themselves, from appropriations designated by the customer, at the time of billing. The supplier forwards an automated billing to the billed office and reports to the Treasury Department a reimbursement of the supplying funds, with an offsetting charge to the customer's fund.

C5.2.2. Interfund bills are both "bills" and "notices" to a customer that its funds have been charged and the "bill" paid.

C5.2.3. Billed offices shall, upon receipt of the "bill", either accept and record the charge for the complete or partial bill or, when the charge is questionable or erroneous at the detail bill level or in dispute, record the charge into the designated default account for further research. Charges shall remain uncleared pending completion of research and resolution. The Department of the Navy has been granted a waiver as an exception to this procedure. A questionable or erroneous portion of a Navy interfund bill will suspend to the interfund clearing account (treasury account symbol F3885). When

the charge is acceptable, but the account disbursed by the billing office is not, the billed office shall accept and record the charge to the proper account. The billed office shall also follow procedures prescribed by its disbursing officer to correct the account reported to the Treasury Department.

C5.2.4. Only the billing office or Central Accounts Office (CAO) is authorized to adjust or otherwise reverse reimbursements reported to the Treasury Department on behalf of the billing office.

C5.3. PREPARATION OF INTERFUND BILLS

C5.3.1. Interfund bills are made up of one or more detail billing records with the same fund code, and a single summary billing record. The summary billing record represents a summary of the supporting detail billing records.

C5.3.2. Detail billing records in support of interfund bills shall be prepared in accordance with Defense Logistics Management System (DLMS) 810L transaction or Appendix 3 for legacy 80 column card transactions.

C5.4. CENTRAL ACCOUNTS OFFICES

C5.4.1. General. CAOs are Defense Finance and Accounting Service (DFAS) Centers or other federal agencies given the responsibility of reporting on interfund in the Statement of Interfund Transactions to the Treasury Department. Depending upon the customer organization, they may have seller and or buyer CAO responsibilities.

C5.4.2. Seller Central Accounts Offices. DLA Transaction Services forwards copies of interfund summary billing records to seller CAOs. Based upon these records, seller CAOs report seller interfund self-reimbursements and related buyer disbursements to the Treasury Department. Seller CAO interfund bill responsibilities are identified by the service code of the seller DoD Activity Address Code (DoDAAC) described in Table C5.T1.

Table C5.T1. Seller CAO

SELLER DoDAAC BEGINS WITH	SELLER CAO
Numeric	GSA
F	DFAS-CO
M	DFAS-CL
N	DFAS-CL
Other	DFAS-IN

C5.4.3. Buyer Central Accounts Offices. Buyer CAOs are responsible for interfund bill clearance and report, to the Treasury Department, buyer adjustments of the disbursement side of seller reported interfund transactions. Neither buyers nor their CAOs can directly or indirectly adjust the reimbursement side of interfund transactions reported by seller CAOs. Buyer CAO interfund bill responsibilities are determined by the appropriation disbursed according to Table C5.T2.

Table C5.T2. Buyer CAO

INDEX	TREASURY SYMBOL	LIMIT or SUBHEAD	BUYER CAO
17	All	All	DFAS-CL
21	All	All	DFAS-IN
57	All	All	DFAS-CO
97	NOT 4930	All	DFAS-IN
97	4930	All	DFAS-IN

C5.5. INTERFUND REPORTS

C5.5.1. Billing Office Reports. CAOs shall base interfund reimbursements upon summary billing records received from DLA Transaction Services for interfund bills passing DLMS prescribed DLA Transaction Services edits. Therefore, upon implementation of the revised seller interfund reporting procedures, DLMS no longer requires sellers to forward [DD Form 1400](#), Statement of Interfund Transactions or equivalent reports to their accounts office. However, CAOs may continue to require their reporting activities to submit seller interfund reports for a transition period determined by the accounts office.

C5.5.2. Billed Office Reports. Each billed office shall report (i.e., correct or otherwise clear) interfund disbursements charged to the office in accordance with procedures prescribed by its Service or Agency.

C5.5.3. Department Level Reports. CAOs shall consolidate Department level "Statement of Interfund Transactions" and prepare related reports from interfund reports received from billed offices and summary billing records validated by DLA Transaction Services.

C5.6. STATEMENT OF INTERFUND TRANSACTIONS

C5.6.1. Purpose and Reports Control Symbol. This section prescribes a monthly report on interfund transactions. The DD 1400 "Statement of Interfund Transactions" provides OUSD(C) with a summarized classification of receipts and outlays processed under the interfund billing system.

C5.6.2. Applicability and Scope. The provisions of this section apply to the DoD Components and to their disbursing officers (referred to collectively as “disbursing officers”). It establishes the requirements and procedures for the preparation and submission of interfund transaction reports.

C5.6.3. Report Form. The “Statement of Interfund Transactions” must be prepared monthly and contain totals for each appropriation/limit charged and reimbursed, the reporting period, and identify the reporting office. GSA shall submit an equivalent “Statement of Interfund Transactions.”

C5.6.4. Frequency and Distribution. The “Statement of Interfund Transactions” must be submitted to the OUSD(C) as promptly as possible, but no later than close of business on the 2nd workday of the month immediately following the close of the reporting month.

C5.6.5. Adjustments. In preparing the “Statement of Interfund Transactions,” CAOs or offices designated by the DoD Components or participating Agencies shall convert invalid accounts to the charged agency’s default appropriation as indicated in Appendix 2.2. of this guidance.

C5.6.6. Other Reporting Requirements

C5.6.6.1 Extract of the Statement of Interfund Transactions

C5.6.6.1.1. Each Military Department (and GSA for its equivalent report) must furnish an “extract” of the “Statement of Interfund Transactions” to the DoD Components and other participating Agencies for which it collects or disburses showing the transactions for that Component or Agency. The DoD Components may be identified by their unique suffix/limit codes on department “97” appropriations.

C5.6.6.1.2. Extracts of the “Statement of Interfund Transactions” (and GSA equivalent) that are forwarded to DoD CAOs shall be supported by summary billing records (DLMS 810L/Document Identifier Code (DIC) FS). The summary billing records shall be forwarded electronically to the CAO responsible for clearance. The CAO responsible for clearance is determined by the departmental index of the disbursed appropriation and, in the case of department “97” appropriations, by the DoD Component identification contained in the appropriation’s suffix/limit code. Table C5.T3 identifies the CAO responsible for clearing interfund bills:

Table C5.T3. Department of Defense Central Accounts Offices

<u>CLEARANCE CAO</u>	<u>COMMRI</u>	<u>INDEX</u>	<u>COMPONENT</u> ¹
DFAS-Indianapolis	RUQADVU	97	Other than USAF, USN, USMC, and SDDC limit FD30
		21	All
DFAS-Columbus	RUVEGAA	97	USAF
		57	All
DFAS-Cleveland	RUEBJNW	97	USN and USMC
		17	All

C5.6.6.1.3. The extracts should be submitted as soon as possible but no later than 2 workdays after the Statement of Interfund Transactions is submitted to OUSD(C).

C5.6.6.2. Defense Agency Appropriations. A “Statement of Interfund Transactions” summarizing the transactions by appropriation for each Defense Agency must be provided to the Director of Budget and Finance, Washington Headquarters Service, 1155 Defense Pentagon, Washington, DC 20301-1155.

C5.6.7. Hard Copy Report Preparation

C5.6.7.1. General

C5.6.7.1.1. Each interfund report must be completed with the minimum required information.

C5.6.7.1.2. If more than one sheet is used to report transaction amounts, the grand total for each column must be shown on the last page of the statement. Page totals are optional.

C5.6.7.1.3. Each hard copy statement must be signed by the officer under whose direction it was prepared.

C5.6.7.1.4. Negative amounts must be identified by the suffix “CR.”

C5.6.7.2. Columnar Entries

¹ For purposes of this procedure, the Component Identification for 97X4930 is in the 1st position of the suffix/limit code and is A (USA), N (USN), F (USAF), M (USMC), and 5 (Defense Agencies). For other than 97X4930, the identification is in the 1st two positions and is 01 (USA), 02 (USAF), 04 (USN), and 05 (USMC).

C5.6.7.2.1. Appropriation or Fund /Symbol. Enter the department index number assigned by the Treasury Department as a prefix to that department's appropriation symbols, fiscal year or other appropriate indicator (e.g., "X" if no year, etc.), treasury account symbol of the appropriation, other fund, or receipt account for which the transaction amounts are being reported. Include any prefix or suffix prescribed by the Treasury Department on the classification authorization. No other suffix or prefix may be shown.

C5.6.7.2.2. Reimbursements (Credits). Enter the amounts of collected appropriation reimbursements applicable to each related appropriation or other fund account.

C5.6.7.2.3. Expenditures (Charges). Enter the amounts of disbursements chargeable to each appropriation or other fund symbol.

C5.7. CENTRAL ACCOUNTS OFFICE LEVEL INTERFUND PROCEDURES

C5.7.1. Army, Navy, Air Force, and GSA shall prescribe procedures consistent with those prescribed in this Manual for:

C5.7.1.1. Reporting interfund reimbursements and disbursements originated by Activities serviced by their disbursing offices and shall be included in their "Statement of Interfund Transactions."

C5.7.1.2. Adjusting, accepting or otherwise clearing interfund disbursements charged to Activities serviced by their disbursing offices and whose adjustments shall be included in their Statements of Interfund Transactions.

C5.7.1.3. Ensuring there are adequate controls over interfund-related transactions such that:

C5.7.1.3.1. Lapsed accounts are not reported to the Treasury Department or the other DoD Components.

C5.7.1.3.2. Invalid account symbols are converted to the agency default appropriation as defined in Appendix 2.2 of this regulation.

C5.7.1.3.3. Seller interfund reimbursements reported to the Treasury Department are based upon interfund billings validated by DLA Transaction Services.

C5.7.1.3.4. Disbursements charged to billed offices are processed by the billed office.

C5.7.1.3.5. Uncleared Disputed Transactions

C5.7.1.3.5.1. Uncleared “disputed” transactions shall be researched and cleared within a reasonable period (i.e., within 120 calendar days of the date the disbursement was reported to DFAS when the entitlement office and accounting office are not co-located and 90 days when they are co-located). Amounts placed in suspense; that is, charged to the clearing account, are transferred to another account or are otherwise cleared within the same period as above.

C5.7.1.3.5.2. Within 90 days of the disbursement being report to DFAS, or 60 days if co-located, DFAS shall ask the customer to follow up on uncleared detail bills. When a customer leaves a detail bill uncharged for 120 calendar days (90 days if co-located), DFAS shall contact the customer for an appropriation to charge to clear the detail bill. Only when a written notification from the seller that an adjustment is forthcoming may the item remain unprocessed after this timeframe. Within 90 days of the suspense date (60 days if co-located), DFAS will ask the customer to clear the amount in suspense and provide an alternative account for the disbursement.

C6. CHAPTER 6

DEFENSE AUTOMATIC ADDRESSING SYSTEM

C6.1. GENERAL. This chapter describes Defense Logistics Management System (DLMS) Finance related procedures and processes for the Defense Automatic Addressing System (DAAS). DLM 4000.25-4, "Defense Automatic Addressing System" provides additional information regarding support furnished by Defense Logistics Agency (DLA) Transaction Services.

C6.2. MILITARY STANDARD BILLING SYSTEM PROCESSING

C6.2.1. Requirement to Route Bills to DAAS

C6.2.1.1. As indicated in Chapter 2, sellers shall route all interfund and automated "G" series noninterfund billing records to DAAS for editing, retention, and further routing to billed offices.

C6.2.1.2. Only interfund bills passing MILSBILLS prescribed edits and routed by DAAS are eligible for reporting to the Treasury Department and interfund reimbursement.

C6.2.1.3. All billing records shall be electronically routed to DAAS.

C6.2.2. Bill Editing

C6.2.2.1. DAAS shall edit and reject any bill that fails any of the following edits:

C6.2.2.1.1. The record count (positions 5-7 of the legacy 80 column card format) of the summary billing record equals the actual count of the supporting detail billing records.

C6.2.2.1.2. The bill-to Department of Defense Activity Address Code (DoDAAC) (positions 30-35) of the summary billing record is a valid DoDAAC, and is authorized for use as a bill-to party in accordance with the DoDAAC authority code, as outlined in DoD 4000.25-M, "Defense Logistics Management System" Volume 6 (DoD Logistics Systems Interoperability Support Services), Chapter 2 – Department of Defense Activity Address Directory. Note that DoDAACs are deleted to prevent requisition transactions from being processed through DLA Transaction Services. Once the delete effective date has passed, the record is physically removed from the master file, and bills with the bill-to authorized in accordance with the DoDAAC authority code will not reject as invalid during this period. After the five year period, deleted DoDAACs

are removed from the DLA Transaction Services database, and subsequent bills will reject as invalid DoDAACs.

C6.2.2.1.2.1. The bill-to DoDAAC of the summary billing record is authorized for use as a bill-to party. An unauthorized United States Air Force (USAF) bill-to activity is identified by its structure.

C6.2.2.1.2.1.1. DoDAAC begins with FT or FF indicating a non-appropriated funded activity,

C6.2.2.1.2.1.2. DoDAAC begins with FA or FY, or

C6.2.2.1.2.1.3. The first position of the DoDAAC is an "F", followed by one numeric character in position two, and an alpha character in position three.

C6.2.2.1.3. The amount (positions 65-73) of the summary billing record equals the sum of the amounts (positions 65-73) of the supporting billing records.

C6.2.2.1.4. The bills are identified as interfund and authorized to be billed under interfund procedures.

C6.2.2.1.5. The bill-to is one of the following F numeric or F numeric alpha DoDAACs.

(Numeric) C6.2.2.1.5.1. F (Numeric) (Numeric) (Numeric) (Numeric)

C6.2.2.1.5.2. F (Numeric) (Numeric) (Numeric) (Numeric) (Alpha)

C6.2.2.1.5.3. F (Numeric) (Numeric) (Alpha)

C6.2.2.1.5.4. FA series

C6.2.2.1.5.5. FF series

C6.2.2.1.5.6. FT series.

C6.2.2.2. Rejected bills shall be returned to the originator or originating communications center with a narrative description indicating the reason for rejection.

C6.2.2.2.1. Originators may retrieve any rejected bills within one hour of original submission to DAAS. When appropriate, billing offices shall correct and resubmit rejected bills.

C6.2.2.2.2. Billing offices shall ensure that adjustments for rejected billings are properly recorded in their seller accounting records.

C6.2.2.3. Upon successful completion of the bill edits, DLA Transaction Services shall:

C6.2.2.3.1. Route billings to the billed office by the best available means.

C6.2.2.3.2. Ensure that electronically routed bills are routed to the billing communications routing identifier (COMMRI) code assigned to the billed office DoDAAC.

C6.2.2.3.3. Ensure that non-electronically routed bills are mailed to the clear-text address of the billed DoDAAC identified for billing.

C6.2.2.4. DAAS shall forward images of interfund summary billing records to the seller's Central Accounts Office (CAO).

C6.2.3. Bill Retention. DLA Transaction Services shall retain a copy of non-security assistance bills for two years and security assistance bills for four4 years after initial routing.

C6.3. BILL COPY RETRIEVAL

C6.3.1. Copies of bills may be retrieved in any of the following ways:

C6.3.1.1. MILSINQ. Images of bills may be retrieved from DAAS through their web-based MILSBILLS Inquiry (MILSINQ) process. See section C6.5.

C6.3.1.2. Retransmission Request. Bills may also be retrieved from DAAS by submitting a Request for Retransmission of Interfund Bill (DLMS 812R/Document Identifier Code (DIC) QB1).

C6.3.1.2.1. DLA Transaction Services shall retransmit a copy of all bills matching the billing office DoDAAC and bill number provided on the request. Although unlikely, it is possible that DLA Transaction Services will find and retrieve a current and prior year bill matching the prescribed retransmission criteria.

C6.3.1.2.2. The retransmission request may also be requested via the Internet as part of the MILSINQ process.

C6.3.1.3. Telephone Request. DLA Transaction Services shall accept telephone requests (937-656-3247 or DSN 986-3247) for copies. Telephone requests are limited to no more than five bills and the service will be terminated if abused.

C6.3.2. Only copies of bills routed by DAAS and within the record retention period may be retrieved through the methods described in C6.3.1 above. However, whenever DAAS does not find a matching bill, it shall create and forward a request for copy of bill (DLMS 812R/DIC FAE billing record, with Billing Advice code 41) to the billing office.

C6.3.2.1. Billing offices failing to respond to requests for copies of interfund bills received within the record retention period shall be directed by their Service or Agency headquarters to reverse the billing. Billed offices shall absorb all charges in the manner prescribed by their Service or Agency when the record retention period has elapsed and they have failed to obtain copies of the bill(s).

C6.3.2.2. Forward a billing adjustment reply (DLMS 812L, DIC FAR) with Billing Status code DA to advise the requesting office that they have referred their bill retransmission (copy) request to the seller.

C6.4. FUND CODE TABLES. Fund code tables appear on the DLA Logistics Management Standards Website www.dla.mil/j-6/dlms/elibray/manuals/dlm/v4.asp.

C6.5. MILITARY STANDARD BILLING SYSTEM INQUIRY PROCESS

C6.5.1. General MILSINQ Information

C6.5.1.1. MILSINQ is a process established by DLA Transaction Services to allow its customers to remotely query the DAAS MILSBILLS database as an alternative to the DLMS 812R and DIC QB1 retransmission (send a copy of the bill to me) means of obtaining billing information from DAAS. MILSINQ may also be used for the Military Standard Requisitioning and Issue Procedures (MILSTRIP) materiel obligation validation process.

C6.5.1.2. Bills may be queried by the billing DoDAAC or billed DoDAAC and may be narrowed to a particular billing month or bill.

C6.5.1.3. Once identified, the bills can be viewed, printed, saved to a local PC, or retransmitted (copy sent by DAAS to a designated recipient).

C6.5.1.4. The MILSINQ Website¹ is <https://www.transactionservices.dla.mil/milsinq>. Users will generally be logged off systems after 5 minutes of idle time.

C6.6. MILITARY STANDARD BILLING SYSTEM-RELATED REPORTS

C6.6.1. Introduction

¹ If the application is not accessible from your browser, contact your local Internet support office for assistance in configuring your telnet application for your browser.

C6.6.1.1. As part of its logistics information data services, DAAS accumulates data from MILSBILLS records it routes and generates reports for MILSBILLS use. The reports cover the preceding 12 months.

C6.6.1.2. The following MILSBILLS-related reports are available from <https://www.transactionservices.dla.mil/milsing>:

C6.6.1.2.1. Interfund billing adjustments by billing office (Routing Identifier Code (RIC) sequence).

C6.6.1.2.2. Interfund bills by billed office (DoDAAC sequence).

C6.6.1.2.3. Interfund bills by billed office (DoDAAC within Service).

C6.6.1.2.4. Interfund bills by billing office (DoDAAC within Service).

C6.6.1.2.5. Interfund bills by billing office (RIC sequence).

C6.6.1.2.6. Interfund bills by route to COMMRI (COMMRI sequence).

C6.6.1.2.7. Interfund bills rejected by DLA Transaction Services (RIC sequence).

C6.6.1.2.8. Interfund bill retransmission requests.

C6.6.1.2.9. In-storage Visibility Redistribution (ISVR) credit report 'Lateral Redistribution.'

C6.6.1.2.10. Rejected interfund bills by billed office (Service sequence).

C6.6.1.2.11. Rejected interfund bills by billing office (DoDAAC within Service).

C6.6.2. Interfund Billing Adjustments By Billing Office Routing Identifier Code

C6.6.2.1. This report provides each billing office RIC with data related to billing adjustment requests and responses. With the exception of DIC QB1, all adjustment requests processed by DAAS during the indicated reporting month and year are included. Figure C6.F1 shows an example of this report.

Figure C6.F1. Interfund Billing Adjustment Example

C6.6.2.2. Total number of requests and replies are provided for each billing RIC, with subtotals for each listed RIC series (first position of RIC) and a grand total for the report. Request details include numbers by advice code groupings and reply details include numbers by billing status code groupings.

C6.6.3. Interfund Bills By Billed Office. This report provides each billed office (BILLED DODAAC) with the number of interfund bills (NO. BILLS), the number of detail billing records (NO. DETAILS) that supports the bills, and the value (\$ VALUE) of interfund bills processed by DAAS during the report month. The report provides a page break, a total (SUBTOT) for each service, and a total (TOTAL) for the report. Figure C6.F2 shows an example of this report.

C6.6.7. Interfund Bills By Route-To COMMRI Code. This report provides a monthly summary of interfund bills by "route-to" COMMRI code for bill route by DAAS, the number of interfund bills (NO. BILLS), number of detail billing records (NO. DETAILS), and the dollar value of the bills (DOLLAR VALUE) are summarized by Service for each billed-to DoDAAC (BILLED DODAAC) within a communications office to which bills are routed (COMMRI) by DAAS during a month.

C6.6.8. In-storage Visibility Redistribution Credit Report. This is a report of laterally redistributed materiel and ISV procurement offset reimbursements. It shows the number and dollar value of credits for materiel, transportation, packing, crating, and handling by DoDAAC and/or RIC receiving the credit. See Figure C6.F5 for an example of this report.

C6.6.9. Rejected Interfund Bills by Billing Office (Service Sequence). This report provides a listing of interfund bills that failed MILSBILLS prescribed DAAS edits. These bills were returned by DLA Transaction Services to the billing office. The report identifies bills by billing office and identifies the billed DoDAAC, bill number, and dollar value. See Figure C6.F6 for an example of this report.

C6.7. OTHER DEPARTMENT OF DEFENSE ACTIVITY ADDRESS CODES AUTHORIZED INTERFUND

C6.7.1. DLA Transaction Services shall edit service code H requisitions to ensure that interfund procedures are appropriate for the requisitioner. Other DoD Components' requisitions for which interfund billing is appropriate are those in which the requisitioning DoDAAC is identified as authorized interfund billing. See Appendix AP1 for more information.

C6.7.2. If necessary, DLA Transaction Services will change the fund code cited on other DoD Components' requisitions to XP when the H-Series requisitioning DoDAAC is not identified as authorized interfund billing.

C6.7.3. Other DoD Components may add their DoDAAC (to allow for interfund billing) or delete a listed DoDAAC (mandatory noninterfund billing). To request a

change, use the comment form on the DLA Logistics Management Standards Website www.dla.mil/j-6/dlms0/About/Comment/comment_form.php.

C7. CHAPTER 7

VERIFICATION OF FUNDS AVAILABILITY WEB CALL FOR REQUISITIONS SUBMITTED VIA INTERNET ORDERING APPLICATIONS

C7.1. **IMPLEMENTING FUNDS AVAILABILITY VERIFICATION.** Internet ordering applications that accept Military Standard Requisitioning and Issue Procedures (MILSTRIP) requisitions dependent upon interfund billing procedures (e.g., [DoD EMALL](#), General Services Administration (GSA) Advantage/GSA Global) shall implement Defense Logistics Management System (DLMS) procedures for verification of Component funds availability. Components shall establish procedures to process the request for verification of funds availability and ensure subsequent establishment of a financial obligation.

C7.1.1. DoD Components may authorize manual recording of the financial obligation by the customer as a separate action until an automated interface between the ordering application and a Component-sponsored financial system is available.

C7.1.2. Where an interface is not available, external ordering applications shall alert users to comply with their Component-directed financial procedures.

C7.2. **FUNDS AVAILABILITY REQUEST.** The Verification of Funds Availability Request shall be prepared as a web call for online, real-time processing in the format prescribed at www.dla.mil/j-6/dlmsso/elibrary/manuals/dlm/v4/v3a3.docx.

C7.3. **BUSINESS RULES.** Business rules for processing the Verification of Funds Availability Request are as follows.¹

C7.3.1. Ordering applications shall not send requisitions, requisition modifications, and requisition follow-ups to the Source of Supply (SoS) until the funds availability check is completed and positive confirmation is received.

C7.3.2. The Verification of Funds Availability Request shall be forwarded to the Army when the requisition identifies an Army DoDAAC in either the document number or supplemental address.

¹ Under the pilot program, implementation is limited to an interface between DoD EMALL and GSA Advantage/GSA Global and the Army Funds Control Module and the Marine Corps financial application. Additional Component interfaces are projected under future phases. Refer to ADC 328.

C.7.4. FUNDS AVAILABILITY REPLY. The Verification of Funds Availability Reply shall be prepared as a web call for online real-time processing in the format prescribed at www.dla.mil/j-6/dlmso/elibrary/manuals/dlm/v4/v3a3.docx.

C.7.5. PROCESSING MULTIPLE LINE ITEMS. When multiple line items are included in the customer's "shopping cart," they shall be processed for funds verification as individual requisitions in succession by sequence² described below, thereby allowing funds to be applied appropriately should there be insufficient funds for the entire "cart." The sequence shall be:

C7.5.1. Priority Designator (PD).

C7.5.2. OSD/JCS project codes.

C7.5.3. Special Requirements Code 999 and PD 01-03.

C7.5.4. Special Requirements Code N (NMCS) (PD 01-08).

C7.5.5. Special Requirements Code E (ANMCS) (PD 01-08).

C7.5.6. Special Requirements Code 555 and PD 01-08.

C7.5.7. Required Delivery Date.

C7.6. VERIFICATION OF AVAILABILITY REPLY CODE. The receiving DoD Component shall verify funds availability and provide the applicable reply code.

C7.6.1. Under the following criteria, the requisition shall be considered acceptable for further processing by the Internet ordering application and forwarding to the SoS by citing an alpha Funds Verification (FV) Reply Code.

C7.6.1.1. If funds are available for the bill-to DoDAAC and no error conditions exist, the requisition shall be authorized for continued processing, the funds available balance decremented, and the applicable financial obligation established. Cite FV Reply Code A.

C7.6.1.2. If the bill-to DoDAAC is determined under internal Component procedures as not applicable to the funds verification process (e.g., funded by an alternative funding source, which the Component is not able to verify), the requisition shall be authorized for continued processing with no action. Cite FV Reply Code B.

C7.6.1.3. If the bill-to DoDAAC is not identified in the web call due to procedures for third-party billing (bill-to DoDAAC associated with the Fund Code/Signal

² Sequencing rules are based upon those established for demand sequencing under MILSTRIP Chapter 3, paragraph 3.1.2. These rules deviate from demand sequencing to include use of the RDD.

Code C or L)³, but the requisitioner DoDAAC has funds available and no error condition exists, the requisition shall be authorized for continued processing, the funds available balance decremented, and the applicable financial obligation shall be established under the requisitioner's DoDAAC. Cite FV Reply Code C.

C7.6.1.4. If the bill-to DoDAAC is not identified in the web call due to procedures for third-party billing (bill-to DoDAAC associated with the Fund Code/Signal Code C or L), and the funds verification cannot be approved using the requisitioner DoDAAC, but no error condition exists, the requisition shall be authorized for continued processing with no action. Cite FV Reply Code D.

C7.6.1.5. If the unique message identification number (control number) assigned for the web call is a duplicate of a previously processed funds availability request, but funds are available, the requisition shall be authorized for continued processing. Cite Funds Verification (FV) Reply Code E.

C7.6.1.6. Under Component-directed procedures, requisitions may be forwarded for funds verification even where the requisitioner's Component is not responsible for reimbursement to the SoS, e.g., a requisition with an Army requisitioner and a Navy bill-to activity. The requisitioner's Component may choose to obligate funds under the requisitioner DoDAAC as a precaution. The Army has directed that these procedures be employed for Army requisitioners.

C7.6.1.6.1. If the bill-to DoDAAC is identified as another Component, but the requisitioner DoDAAC has funds available, the requisition shall be authorized for continued processing, the funds available balance decremented, and the applicable financial obligation established. Cite FV Reply Code F.

C7.6.1.6.2. If the bill-to DoDAAC is identified as another Component, but the requisitioner DoDAAC does not have funds available, no action shall be taken by the requisitioner's financial application and the requisitioner shall be asked to confirm that correct information is used in the requisition and an obligation has been recorded by the bill-to Component. Cite FV Reply Code G. The customer may choose to continue or abort processing (subject to bill-to activity's funds verification processing, when available).

C7.7. CRITERIA FOR UNACCEPTABLE REQUISITION PROCESSING. Under the following criteria, the requisition shall not be considered acceptable for further processing by the Internet ordering application by citing a numeric Funds Verification (FV) Reply Code.

C7.7.1. If funds are not available for the bill-to DoDAAC, the requisition shall not be authorized for further processing. Cite FV Reply Code 1.

³ Procedures for verification of third party bill-to DoDAACs are under consideration for a future enhancement.

C7.7.2. If the bill-to DoDAAC is not authorized under Component procedures as a valid bill-to DoDAAC, the requisition shall not be authorized for further processing. Cite FV Reply code 2.

C7.7.3. If the Fund Code is not recognized and acceptable to the billed Component, the requisition shall not be authorized for further processing. Cite FV Reply Code 3.

C7.7.4. If the requisition document number (or document number/suffix) is a duplicate of a previously established obligation, the requisition shall not be authorized for further processing. Cite FV Reply Code 4.

C7.8. REQUISITION MODIFICATIONS. Requisition modifications shall be processed for verification of funds availability to ensure that the original requisition obligation is on file and any applicable changes to fund code or bill-to activity are acceptable. The materiel identification on the modification must match that on the original requisition. The responsible Component shall not reject or establish a new obligation for requisition modifications due to a duplicate document number.

C7.8.1. Where no action is taken due to a previously recorded obligation and there are no error conditions, the requisition modification shall be authorized for further processing. Cite FV Reply Code H.

C7.8.2. Where the materiel identification does not match that of the previously recorded obligation matching on document number, the requisition shall be rejected. Cite FV Reply Code 5.

C7.8.3. If the Component has no identified obligation for the document number (or document number/suffix), process as a new requisition under the above procedures for verification of Component funds availability. Cite the applicable FV reply code. Note: The funds verification process may result in rejecting modifications to requisitions that had previously processed successfully by the SoS. Direct communication with the requisitioning Component's financial office and possibly the SoS may be required to resolve the problem.

C7.9. REQUISITION FOLLOW-UPS. Requisition follow-ups in DLMS 869F, Document Identifier Code (DIC) AT_ format shall be processed for verification of funds availability to ensure that the original requisition obligation is on file. The materiel identification on the follow-up must match the original requisition. The responsible Component shall not reject or establish a new obligation for these follow-ups due to a duplicate document number.

C7.9.1. Where no action is taken due to previously recorded obligation and there are no error conditions, the requisition follow-up shall be authorized for further processing. Cite FV Reply Code H.

C7.9.2. Where the materiel identification does not match that of the previously recorded obligation (matching on document number), the requisition shall be rejected. Cite FV Reply Code 5.

C7.9.3. If the Component has no obligation identified for the document number (or document number/suffix), process as a new requisition under the above procedures for verification of Component funds availability. Cite the applicable FV reply code. Note: The funds verification process may result in rejecting follow-ups to requisitions that had previously processed successfully by the SoS. Direct communication with the requisitioning Component's financial office and possibly the SoS may be required to resolve the problem.

C7.10. REVISION OF REQUISITION CONTENT. Customers receiving a reply code indicating that their requisition is not authorized for further processing shall be provided an opportunity to revise the requisition content. For example, the customer may choose to reduce the extended dollar value by reducing the quantity ordered or correct the bill-to activity DoDAAC or fund code, as applicable. Subsequent to customer update, the Request for Verification Funds Availability shall be re-transmitted.

C7.11. ALTERNATIVES FOR UNTIMELY APPLICATION INTERFACE. When the ordering application is unable to establish a timely interface with the responsible Component application, and the customer awaits the real-time funds availability reply, the ordering application may offer two alternatives:

C7.11.1. Unmonitored Funds Verification. The Verification of Funds Availability Request shall be transmitted without direct feedback to the customer. The ordering application shall re-send the request every 15-30 minutes for up to 3-hours⁴ while the requisition is held in a pending status. If the reply is received indicating that the requisition is authorized for further processing, the requisition shall be forwarded to the SoS with no further action.

C7.11.1.1. If the FV Reply Code indicates that the requisition is not approved for further processing, the Internet ordering application shall retain the FV Reply Code for customer queries of requisition status. In addition:

C7.11.1.1.1. If the requisition is rejected using FV Reply Code 1-3, the ordering application shall transmit the requisition to the SoS via DAAS, citing Supply Status CX and the Internet ordering application's Routing Identifier Code (GSA Internet ordering applications shall cite "GSA" and DoD EMALL shall cite "SME") in the DLMS requisition. DAAS shall recognize this as a trigger for preparation of supply status indicating rejection of the requisition. DAAS shall prepare and return to all applicable status recipients the MILSTRIP Supply Status perpetuating the CX status. The Internet

⁴ Actual time window for repeated attempts to contact the financial application may vary by Internet application.

ordering application shall be perpetuated by DAAS as the Routing Identifier Code (RIC) From of the Supply Status. DAAS shall not forward the requisition to the SoS.

C7.11.1.1.2 If the requisition is rejected using FV Reply Code 4 (duplicate document number/suffix), the requisition shall not be forwarded.

C7.11.1.1.3 If the requisition is rejected using FV Reply Code 5 (modifier/follow-up with miss-match on materiel identification), the requisition shall not be forwarded.

C7.11.1.2. If no reply is received after repeated attempts, the requisition shall be forwarded to the SoS with no action.

C7.11.2. Hold for Later Processing. The customer may choose to place the order ("shopping cart") in a hold status, and retry later. The ordering application shall not attempt to re-send the request. The order shall be saved for later processing to be initiated by the customer.

C7.12. BATCH ACCEPTANCE. Where the ordering application accepts batch ordering or input via MILSTRIP/DLMS format (e.g., multiple transactions uploaded as a batch, or without real-time direct interaction between the application and the customer, such as via DoD EMALL Manual Order Entry System (MOES)), the ordering application shall process the Verification of Funds Availability Request as described in paragraph C7.11.1. above using unmonitored funds verification procedures.

AP1. APPENDIX 1

FUND CODE TABLES AND RELATED LISTINGS

AP1.1. Fund code to fund account conversion tables are published at www.dla.mil/j-6/dlmsso/elibrary/manuals/dlm/v4/v4a1_01.docx.

The authoritative reference table is published at the Defense Automatic Addressing System (DAAS) Website <https://www.daas.dla.mil/daashome/services.asp>.

AP1.2. Fund code to billed office DoD Activity Address Code (DoDAAC) conversion tables are published at https://www2.dla.mil/j-6/dlmsso/certaccess/elibrary/manuals/dlm/v4/v4a1_02.docx **(Requires CAC or PKI Certificate)**.

The authoritative reference table is published at the DAAS Website <https://www.daas.dla.mil/daashome/services.asp>.

AP1.3. H series DoDAACs authorized to use interfund fund codes are published at https://www2.dla.mil/j-6/dlmsso/certaccess/elibrary/manuals/dlm/v4/v4a1_03.docx **(Requires CAC or PKI Certificate)**.

The authoritative reference table is published at the DAAS Website <https://www.daas.dla.mil/daashome/services.asp>.

AP2.2. APPENDIX 2.2

FUND CODES

NUMBER OF Two
CHARACTERS:

TYPE OF CODE: Alpha or Numeric

AP2.1. Fund codes are two position alpha/numeric codes used in conjunction with Service or Agency Code of the billed office to designate the billing method (interfund or noninterfund). When interfund billing is indicated, the fund code also indicates the fund account to be charged (disbursed) or credited (refunded).

- The fund code to disbursement fund account conversion tables are published online in Part I of the Fund Code Table at:
<https://www.daas.dla.mil/daashome/services.asp>
- Only valid appropriations and limits may be associated with fund codes. The undistributed intergovernmental payments account, F3885 may not be associated with fund codes or used on interfund bills.
- When a fund code used in the billing and adjustment process is not found on the fund code to disbursement fund account conversion table the appropriation charged shall be assigned as follows:

<u>Organization (Billed Service Code)</u>	<u>Interfund Default Appropriation</u>
Contractor (C, E, L, Q, U)	Not applicable, noninterfund
Non-DoD (G, Z, HX, Numeric)	Not applicable, noninterfund
Army (A, W)	21*2020
Air Force (D, F)	57*3400
Navy (N, P, R, V)	17*1804
Marine Corps (K, M)	17*1106
Defense Logistics Agency (S, T)	97X4930.5999
Other Defense Agency (H)	Not applicable, noninterfund.

AP2.2. An additional use for the fund code, when the signal code is C or L, is to indicate the DoDAAC of the "bill-to" office. See AP1 for codes.

AP2.3. Requisitions submitted to DoD Activities and the General Services Administration shall always contain a fund code, unless the materiel requested shall be issued without charge. When the materiel shall be issued without charge the signal code (pos. 51) shall be D or M (free issue) and the fund code shall not be significant.

AP2.4. Defense Agencies and others using H series DoDAACs may use fund codes designating interfund billing only if the requisitioning DoDAAC is identified as authorized to use interfund. See AP1 for authorized DoDAACs.

AP2.5. Agency designated Fund Code Coordinators are responsible for maintaining fund codes for their Service or Agency. With the exception of DLA, which has its own coordinator, Defense Finance and Accounting Service (DFAS) maintains fund codes for DoD Organizations and Agencies. Fund code coordinators are identified at www.dla.mil/j-6/dlmso/elibrary/manuals/dlm/v4.asp.

AP 2.3. APPENDIX 2.3

BILLING ADVICE CODES

NUMBER OF CHARACTERS: Three

TYPE OF CODE: Numeric

EXPLANATION: Billing advice codes are used in requests for billing adjustment to identify the nature of the request or problem. The first position entry, when present, is significant only to the requesting activity. The second and third position entries listed below convey significant information to the billing office. See chapter 4 for information on the use of the codes.

Code	Description
11	Duplicate billing record received. Request credit.
12	Wrong amount billed. Request credit.
13	Wrong office billed. Request credit and re-billing to correct office.
14	Bill received for materiel requisitioned as nonreimbursable. Materiel not received. Request credit.
15	Bill received for unauthorized accessorial charge. Request credit.
17	Bill received for confirmed canceled requisition. Materiel not received. Request credit.
18	Bill received for back ordered materiel. Materiel not received. Request credit.
19	Incomplete bill. Detail billing records do not support the amount billed. Request credit or corrected bill.
20	Bill received following billing office reply that an adjustment billing could not be rendered. Request credit.
21	TDR (SF 361) submitted over 60 days ago; adjustment bill not received. Request credit.
23	Promised adjustment not received. Request credit.

Code	Description
24	Reply to Product Quality Deficiency Report (SF 368) indicated adjustment authorized. Request refund.
26	Reply to Supply Discrepancy Report (SF 364) indicated adjustment authorized; however, adjustment billing not received. Request credit status.
27	Material laterally redistributed as directed and shipment status (AS6) provided; however, credit billing not received. Request credit status.
34	Requisitioned materiel received. Request billing status.
35	Shipment status received for materiel requisitioned for security assistance. Request billing status.
41	Request copy of billing.
42	Duplicate summary level billing (same bill number). Request credit.
43	Duplicate summary level billing (different bill number). Request credit.
44	Duplicate summary level billing within second billing. Request credit.
51	Unable to process billing under interfund procedures. Request interfund reversal and re-billing under noninterfund procedures.
52	Billed by interfund when requisition or other document specified noninterfund billing. Request interfund reversal and re-billing under noninterfund procedures.
55	Refer to accompanying letter of explanation.
90-99	Reserved for internal use. May not be reflected on any document forwarded outside the activity.

AP2.4. APPENDIX 2.4

BILLING STATUS

NUMBER OF CHARACTERS: Three

TYPE OF CODE: Alphabetic

EXPLANATION: Billing status codes are used in replies to requests for billing adjustment, duplicate billing, or billing status. The first position entry, when present, is significant only to the billing office. The second and third position entries listed below convey significant information to the billed office.

Code Description

“A” SERIES: REQUEST DENIED

AA	Duplicate billing record resulted from receipt of duplicate requisition and resulting duplicate issue.
AB	Billing record reflected correct unit price, quantity, and extended amount.
AC	Billing record was prepared in accordance with requisition, excess report, or request for adjustment.
AD	Either nonreimbursable was not authorized, or if authorized, was not specified in the requisition.
AE	Accessorial charge was authorized, requested, and furnished.
AF	Materiel either was not back ordered or was issued following notification of back order.
AG	Requested adjustment, not related to a discrepancy report, is less than the minimum dollar value prescribed for adjustment.
AH	Prescribed record retention period has elapsed.
AI	Adjustment was issued under bill number shown in pos. 54-58.
AJ	Requisition or excess report did not specify billing under noninterfund procedures.
AK	Copy of bill should be requested from DLA Transaction Services.

Code	Description
AM	Discrepancy report required the return of the discrepant or deficient materiel. Credit cannot be provided until the depot receives the materiel. If the materiel was shipped, initiate shipment tracer.
AO ¹	Request was not received within allowable timeframes.
AP	Cancellation request either was not received or was received but not confirmed.
AR	Reply to discrepancy report did not promise adjustment.
AS	Reply was not furnished indicating that billing could not be rendered.
“C” SERIES: REQUEST GRANTED	
CA	Duplicate, adjustment, or corrected bill shall be issued in the next billing cycle.
“D” SERIES: ADVISORY RESPONSE	
DA	No record of requested bill in DLA Transaction Services files. Request forwarded to billing office.
DC	Materiel was issued on a nonreimbursable basis.
DD	Billing or adjustment was rendered under bill number shown in pos. 54-58.
DF	No record of cited document number or bill number is on file.
DH	Billing or adjustment under the cited document number shall be furnished in the next billing cycle.
DI	Letter of explanation shall follow.
“E” SERIES: REQUEST REJECTED	
EA	Request is incomplete or contains invalid data. Review and resubmit with correct data.
EF	No record of duplicate billing under bill number(s) cited.
EH	No duplicate billing. Duplicate summary billing record was not reported to the Treasury Department.

¹ The fact that the record retention period has elapsed by the time the discrepancy report is validated or the adjustment request is completed may not be used as a basis for denying or failing to comply with the adjustment request if the request was submitted within prescribed timeframes.

Code	Description
EI	No record of requisition or shipment. Submit ² a copy of the DD Form 1348-1 , DoD Single Line Item Release/Receipt Document, or equivalent.

² For fuel shipments provide the following information by letter or message: supply source for product received, contract number for direct deliveries, and if shipped by DFSP, the DoDAAC of the DFSP.

AP2.5. APPENDIX 2.5

TYPE OF BILL CODES

NUMBER OF CHARACTERS:	Two
TYPE OF CODE:	Alphabetic
EXPLANATION:	Types of bill codes are provided, at the option of the billing office, on the detail billing records to indicate to the billed office the purpose of the billing.
Code	Description
AA	Bill for materiel issued, quantity billed is equal to quantity requisitioned.
AB	Bill for materiel issued, quantity billed is less than quantity requisitioned due to partial issue.
AC	Bill for materiel issued, quantity billed is greater or less than quantity requisitioned due to unit pack adjustment.
AR	IMM authorized returns under the Materiel Returns Program.
DB	Bill for the Delta amount (Standard Price minus Exchange Price) (Commonly referred to as "Carcass Charge" within Navy).
DR	IMM directed returns under the Asset Visibility (Procurement Offset) Program.
EP	Bill at Exchange Price (Commonly referred to as "Net Price" within Navy).
HM	Hazardous materiels.
HW	Hazardous waste disposal services.
LR	IMM directed Lateral Redistributions.
QD	Bill to adjust the amount previously billed due to approval of a PQDR.
RB	Credit Bill to reverse a Delta Bill (DB) under Exchange Pricing (Commonly referred to as "Carcass Charge Reversal" within Navy).
SC	Credit Bill for Serviceable Credit under Exchange Pricing (May be Exchange Price or Delta Price for Navy).

Code	Description
TD	Bill to adjust the amount previously billed due to approval of a TDR.
TM	Bill for creditable excess materiel returned, reduced credit allowed for quantity shown.
TN	Bill for creditable excess materiel returned, full credit allowed for quantity shown.
WP	Bill to adjust the amount previously billed due to approval of an SDR.
WR	Bill to adjust amount billed previously, due to warehouse refusal.
WS	Bill to adjust amount billed previously, due to billing error detected by billing office.
WT	Bill to adjust amount billed previously, due to billing error reporting by billed office.
WU	Bill to adjust the amount billed previously, due to approval of discrepancy report. Use until codes QD, WP, and TD are implemented.
WV	Bill to adjust amount billed previously, due to failure to return materiel as directed.

AP2.6. APPENDIX 2.6

RECIPIENT OF BILLING STATUS CODES

NUMBER OF One
CHARACTERS:

TYPE OF CODE: Numeric

EXPLANATION: Recipient of Billing Status Codes are used in requests for billing adjustment to convey to the processor or DLA Transaction Services the identity of the activity to receive the billing reply and status.

Code	Description
2	Reply to DoDAAC shown in pos. 30-35
4	Reply to DoDAAC shown in pos. 45-50
9	Reply to DoDAAC designated by pos. 52

AP2.7. APPENDIX 2.7

SALES PRICE CONDITION CODE

NUMBER OF CHARACTERS: One

TYPE OF CODE: Alphabetic

EXPLANATION: Indicates that the indicated standard unit price is not the actual billing unit price used. The actual billing unit price is equal to the billing amount divided by the quantity.

Code	Description
B	Sales price reduced as agreed. The amount billed does not equal the unit price extension (quantity times unit price). The actual amount is equal to a "discounted" unit price (not shown) extension.
X	Used by Navy. When used on DIC FA1, indicates that this is an additional charge for non-return of a Depot Level Repairable carcass. When used on DIC FA2, indicates that this is a reversal of a previous charge for non-return of a Depot Level Repairable carcass.

AP2.8. APPENDIX 2.8

GENERAL SERVICES ADMINISTRATION CUSTOMER SUPPLY CENTER CODES

NUMBER OF CHARACTERS: Two
 TYPE OF CODE: Numeric
 EXPLANATION: Codes identifying GSA customer supply centers

Code	Location
11	Naval Air Depot, Jacksonville, FL Building 101, Gate #1 Mezzanine #5 Jacksonville, FL 32212
21	Servmart – Quantico, VA 7 Zeilin Road Building #7 MCB Quantico, VA 22134-5109
25	RAF Lakenheath 48 Fighter Wing – Logistics Readiness Squadron RAF Lakenheath, Bldg 1035 Brandon, Great Britain IP27 9PN
26	U.S. Army – Chievres U.S. Army Hangar 3 Base Aerienne DeEta 7950 Chievres, Belgium
27	U.S. Army – Schinnen U.S. Army Building 73 Nutherweg 60 5365 ER Schinnen, Netherlands
39	U.S. Marine Corps Air Ground Combat Center – 29 Palms GSA Global Supply Store Building 1102 Twenty-nine Palms, CA 92278-8108

Code	Location
41	U.S. Marine Corps Air Station – Iwakuni USMC Servmart #41 GSA Global Supply Building 1007, Bay 701 Misumi-Machi, Iwakuna-Shi Yamaguchi-Ken Prefecture, SW Honshu 740-2005 (JP) MCAS Iwakuni, Japan
43	U.S. Air Base – Misawa Unit 5014, Building 1334 35 Logistics Readiness Squadron \1-Chrome, Hirahata, Misawa City Aomori-Prefecture, Japan 033-0012 (JP)

98	GSA Global Supply Store Building 2069 Humphreys Road Schofield Barracks, HI 96857

AP2.9. APPENDIX 2.9

INFORMATION INDICATOR CODE

NUMBER OF CHARACTERS: One
TYPE OF CODE: Alpha or numeric
EXPLANATION: This code, located in position 39 of the summary billing record, conveys special information to offices receiving the Interfund bill.

Code	Information Conveyed
H	Hazardous Waste Disposal Services
R	Exact reversal of a previously submitted and erroneous summary billing record
X	Denoted DLA Transaction Services provided copy ¹ of an Interfund bill

¹ DLA Transaction Services routes and retains copies of billing originated at a billing office. Bills retrieved by DLA Transaction Services from their files and retransmitted to an office are copies. Copies may, however, be treated as originals if appropriate.

AP2.10. APPENDIX 2.10

SIGNAL CODE

NUMBER OF CHARACTERS: One
 TYPE OF CODE: Alpha
 EXPLANATION: This code is prescribed by DLM 4000.25-1 and is used to designate the bill-to and ship-to (or ship-from in the case of DIC FT_ and FD_ records) activities. The descriptions shown below are presented in an abbreviated form. Refer to MILSTRIP for additional information.

Code	Bill-To	Ship-To/From
A	Requisitioning/Reporting Activity (pos. 30-35)	Requisitioning/Reporting Activity (pos. 30-35)
B	Supplementary Addressee (pos. 45-50)	Requisitioning/Reporting Activity (pos. 30-35)
C	Addressee designated by the fund code	Requisitioning/Reporting Activity (pos. 30-35)
D	Free issue	Requisitioning/Reporting Activity (pos. 30-35)
J	Requisitioning/Reporting Activity (pos. 30-35)	Supplementary Addressee (pos. 45-50)
K	Supplementary Addressee (pos. 45-50)	Supplementary Addressee (pos. 45-50)
L	Addressee designated by the fund code	Supplementary Addressee (pos. 45-50)
M	Free issue	Supplementary Addressee (pos. 45-50)
W	Reserved for Intra-Service use	Requisitioning/Reporting Activity (pos. 30-35)
X	Reserved for Intra-Service use	Supplementary Addressee (pos. 45-50)

AP2.11. APPENDIX 2.11

OTHER CODES

NUMBER OF CHARACTERS:	Variable
TYPE OF CODE:	Variable
EXPLANATION:	This appendix provides the source and other information for codes used or referred to in this manual which are prescribed by other DoD publications and not republished in this manual.
Code	Authoritative Source
Asset Transaction Status	DLM 4000.25-1
CommRI	ACP 117
Content Indicator	JANAP 128
Delivery Source	DoD 7000.14-R, Chapter 8, Volume 15
DoD Activity Address	DLM 4000.25, Volume 6, Chapter 2
FMS Country	DoD 5105.38-M
Media and Status	DLM 4000.25-1
Mode/Method	Volume I, DoD 4500.32-R
Routing Identifier Code	DLM 4000.25-1
Service/Agency	DLM 4000.25-1
Stock Fund or Non Stock Fund	DoD 7000.14-R, Chapter 8, Volume 15
Transportation Bill	DoD 7000.14-R, Chapter 8, Volume 15
Type of Assistance	DoD 5105.38-M
Unit of Issue ¹	DLM 4000.25-1

¹ Also referred to as the Unit of Measurement Code
