

# **Treasury Financial Manual**

Transmittal Letter No. 651

Volume I

To: Heads of Government Departments, Agencies, and Others Concerned

### 1. Purpose

This transmittal letter releases revisions to I TFM 2-3300: Statement of Transactions (FMS 224) Reporting by Agencies for Which the Treasury Disburses. This chapter provides guidance that Government departments and agencies follow when preparing and submitting the monthly FMS 224 and related supporting documents. In addition, agencies are informed of the availability of the Partial FMS 224 process in the Governmentwide Accounting Modernization System.

### 2. Page Changes

Table of Contents for Part 2 (T/L 650)	Table of Contents for Part 2

#### 3. Effective Date

This transmittal letter is effective immediately.

### 4. Inquiries

Direct questions concerning this transmittal letter to:

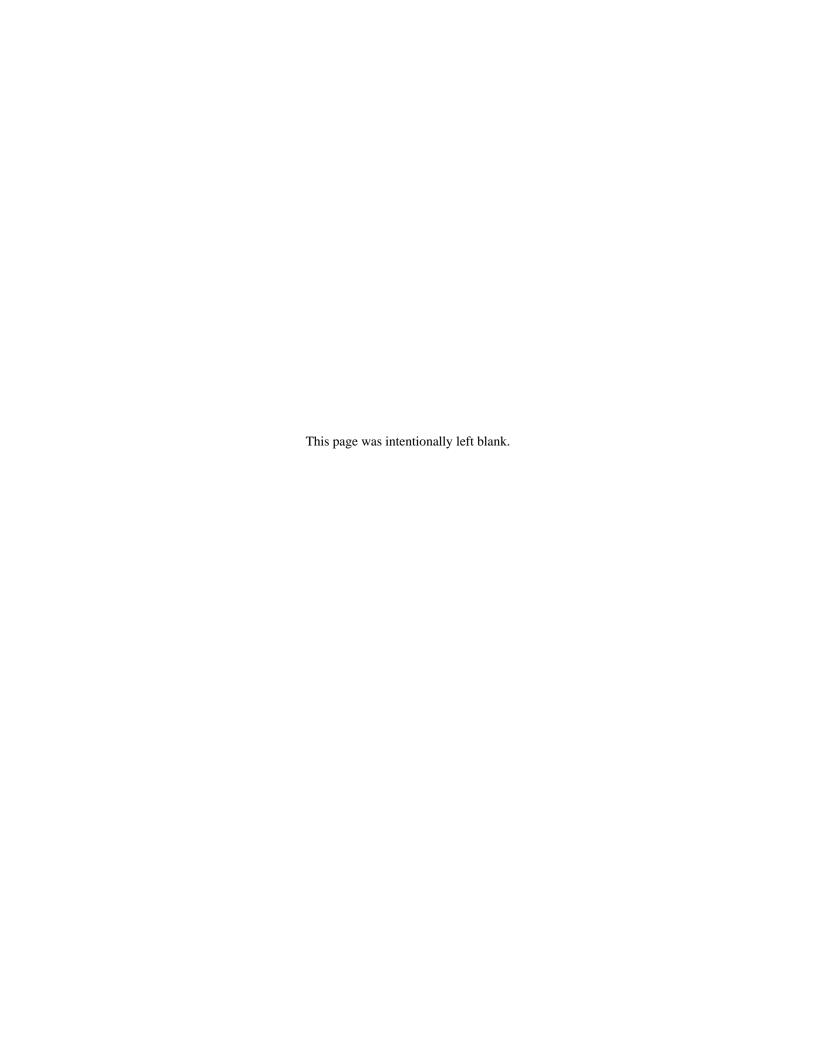

Cash Analysis Branch Cash Accounting Division Governmentwide Accounting Financial Management Service Department of the Treasury 3700 East-West Highway, Room 526E Hyattsville, MD 20782

Telephone: 202-874-7980

Date: June 3, 2009

David A. Lebryk (Acting) Commissioner

VOL I 2-3300

### Part 2—Chapter 3300

# STATEMENT OF TRANSACTIONS (FMS 224) REPORTING BY AGENCIES FOR WHICH THE TREASURY DISBURSES

This chapter provides guidance for Government departments and agencies, for which the Department of the Treasury (Treasury) disburses, to follow when preparing and submitting the monthly FMS 224: Statement of Transactions (Classified According to Appropriation, Fund and Receipt Account; and Related Control Totals), and related supporting documents (see Appendix 1).

# Section 3310—Scope and Applicability

This chapter applies only to those departments and agencies for which Treasury's Financial Management Service (FMS) disburses at any of its Regional Financial Centers (RFCs).

#### Section 3315—Authority

The procedures in this chapter are issued per 31 U.S.C. 3513, which requires that:

- The Secretary of the Treasury shall prepare reports that will inform the President, Congress, and the public on the financial operations of the United States Government.
- The head of each executive agency shall give the Secretary reports and information on the financial condition and operations of the agency the Secretary requires to prepare the reports.

### Section 3320—Using and Assigning Eight-Digit Agency Location Codes (ALCs)

#### 3320.10—Using ALCs

An eight-digit ALC is used to identify each Federal agency that prepares an FMS 224. The first two digits of the symbol identify the department or agency, the third and fourth digits identify the particular bureau within the department, and the remaining four digits identify the particular agency accounting station within that bureau. Agencies must include the ALC on all correspondence, forms. and other documentation forwarded to financial institutions. FMS. other Federal agencies, and RFCs, and particularly on all Standard Form (SF) 215s: Deposit Tickets, and/or related SF 5515s: Debit Vouchers.

# 3320.20—Establishing, Changing, and Deleting an ALC

Each agency must provide FMS with the name, telephone number, and address of one contact person per designated ALC and must ensure this information is current at all times. To establish, change, or delete an ALC, the agency or the RFC representative must contact FMS in writing (see the

Contacts page). All requests relating to the eight-digit ALCs must include the standard information shown in Appendix 2.

FMS uses the letter request received from the agency to complete the FMS 6601: Advice Regarding Agency Location Codes (3, 4, or 8 Digits), see Appendix 2, for confirmation action. FMS must receive written requests to establish, change, or delete an ALC at least 30 days before the requested effective date. If an agency uses the ALC for payments through an RFC or the Automated Standard Application for Payments (ASAP), the agency first must ensure that the FMS 210: Designation for Certifying Officer, is completed or modified to reflect the appropriate ALC relationship. See TFM Volume I, Part 4, Chapter 1100, regarding FMS 210.

# Section 3325—Monthly Reporting Requirements

The validity of the classified receipt and disbursement data reported in the central accounts and published in the financial reports of the U.S. Government depends on the accuracy of the monthly statements of transactions submitted by all departments and agencies. The timeliness of the U.S. Government's financial reports depends on strict

2-3300 VOL I

compliance by agencies with the FMS-assigned reporting deadlines. All departments and agencies must prepare their monthly FMS 224 submissions from their accounts on a priority basis to meet the reporting deadlines.

The Governmentwide Accounting (GWA) Modernization System, Central Accounting Front End (CAFÉ) portal, automatically submits FMS 224s that have no transactions on the last day of the closing period (sixth day). Therefore, agencies do not have to submit a "no transactions" FMS 224 to FMS.

#### Section 3330—Preparing FMS 224s

For a column-by-column description of the information reported on the FMS 224, see Appendix 1.

# 3330.10—Using Source Data to Prepare Monthly FMS 224s

Agencies prepare the monthly FMS 224 based on:

- Vouchers paid or accomplished by RFCs;
- Intra-governmental Payments and Collections (IPAC) transactions accomplished;
- Cash collections received for deposit on SF 215s;

#### **AND**

 Electronic payments/deposits, such as those processed through the Automated Standard Application for Payments (ASAP) System or the Fedwire Deposit System.

**Note:** Confirmed deposits are based on special operations involving the determination of amounts available for investment, or amounts of interest earned with respect to certain trust funds.

Agencies can obtain disbursement data from the GWA System. The GWA System provides users with all disbursements accomplished by RFCs.

Agencies authorized to use the CA\$HLINK II System can obtain

monthly SF 215 and SF 5515 transactions.

**Note:** Agencies report receipts on a collections received basis. They must report receipts not presented or mailed to the bank by the last day of the accounting month as cash held outside of Treasury transactions (see TFM Volume I, Part 2, Chapter 3400).

Collections are considered Fund Balance with Treasury (FBWT) transactions when received, and agencies should report them on the FMS 224 in that accounting month. They report unconfirmed deposits that are confirmed in the following month in the month the collection was received. Agencies should classify their FBWT transactions in Section I of the FMS 224. They report their confirmed deposits and their deposits mailed and presented to the bank on line 3, Section III, and on line 2, Section III, of their current month FMS 224.

Agencies also should report transactions recorded in their general ledgers that are not associated with an SF 215, SF 5515, IPAC, or vouchers paid or accomplished by RFCs in Section I of the FMS 224 only. For example, an agency may have expenditure transfers between two Treasury Appropriation Fund Symbols (TAFS) within the same ALC. The agency can prepare and report an internal document, such as a Journal Voucher, on its FMS 224.

### 3330.20—Classifying Transactions Reported on FMS 224s, Section I

Agencies report Section I of the FMS 224 to classify and reclassify, by individual appropriation, fund, or receipt account, all documents that have been paid or accomplished by RFCs, IPAC System transfers, ASAP payments, and actual collections received during the month for deposit on SF 215, net of any SF 5515s.

Generally, classifying transactions at the level of appropriation, fund, and receipt account is sufficient for FMS's central accounts and reports. However, FMS requires that agencies classify some transactions below the account level used for normal receipt and expenditure transactions for central reporting purposes. When agencies must classify transactions below the account level, they must contact FMS for the assignment of the subclass codes (see TFM Volume I, Part 2, Chapter 1500). Agencies use the appropriate subclass code assigned as a parenthetical prefix to the account symbol, opposite the amount for each type of transaction reported.

See the following TFM chapters for detailed accounting and reporting policies and procedures for specific transactions that require the use of subclass codes:

- TFM Volume I, Part 2, Chapter 3400: Accounting for and Reporting on Cash and Investments Held Outside of the U.S. Treasury;
- TFM Volume I, Part 2, Chapter 4300: Reporting Instructions for Accounts Invested in Department of the Treasury Securities;
- TFM Volume I, Part 2, Chapter 4600: Treasury Reporting Instructions for Credit Reform Legislation.

# Section 3335—Reconciling FMS 224, Section II

Agencies report Section II of the FMS 224 to distinguish disbursement transactions from collections. FMS compares the data reported by each agency's ALC with the control totals reported by the RFCs and IPAC for each ALC level (see TFM Volume I, Part 2, Chapter 3100) and displays the results in the FMS 6652: Statement of Differences, Disbursing Office Transactions (see Appendix 3). Agencies can access all FMS 6652s through the GOALS II/Information Access System (IAS). Section II, line 1, of the monthly FMS 224 may include RFC and IPAC transactions. All transactions identified by the disbursing office symbol and are separated according to the month accomplished. Agencies

VOL I 2-3300

should reconcile RFC transactions separately from IPAC transactions by comparing transactions reported in their accounting systems with the transactions reported to Treasury by the RFCs and through IPAC. In the month following the reporting month, agencies should correct any disclosed differences.

# 3335.10—Differences in RFC Transactions

Agencies should be able to identify RFC transaction differences based on their own records and support listings provided by the Treasury Disbursing Officer (TDO) Payments Application in the GWA System.

Using their own records and the support listing, agencies can isolate the total difference amount by reviewing amounts to each "Reporting D.O. Symbol," if there were RFC transactions processed for the agency by more than one RFC.

The RFC adjusts any discrepancies in its records, and the agency adjusts discrepancies in its records on the FMS 224.

# 3335.20—Differences in IPAC Transactions

IPAC payments and collections are reported on FMS 224, Section II, line 1. Agencies obtain a list of transactions from the IPAC System and compare the transactions with their own records. They include differences disclosed in the comparison in the Statement of Differences total for disbursements. Agencies isolate the IPAC difference amount by reviewing amounts to each "Reporting D.O. Symbol," if IPAC transactions were processed by more than one disbursing office symbol.

The receiving agency must report erroneous charges made by other agencies in the month billed, unless the charge is reversed before the month closes. Agencies report all corrections on the FMS 224 in the month the adjustment was made in the IPAC System.

# Section 3340—Reconciling FMS 224, Section III

Section III of the FMS 224 discloses the status of actual collections reported in the CA\$HLINK II System, including ASAP payments. FMS compares the data reported by each agency's ALC with control totals reported by CA\$HLINK II for each ALC level (see TFM Volume I, Part 2, Chapter 3100) and displays the results on the FMS 6652: Statement of Differences, Deposit Transactions (see Appendix 4). Agencies can access all FMS 6652s through GOALS II/IAS.

Agencies must report all CA\$HLINK II deposit transactions on FMS 224, Section III, line 3, according to the date entered in block 2 on the SF 215s and SF 5515s. This date represents the day the SF 215s/SF 5515s were presented or mailed to the bank.

Agencies should report undeposited collections at the end of the month as cash held outside of Treasury transactions (see TFM Volume I, Part 2, Chapter 3400).

### 3340.10—Payment Transactions

There are instances when disbursements are reported on the FMS 224 in Section III instead of Section II. These disbursements are made by banks and are reported through CA\$HLINK II as SF 5515s, for example, ASAP disbursements. Agencies report ASAP transactions on FMS 224, Section III, line 3. They report appropriation symbols with ASAP activity on the FMS 224, Section I, Column 3. (See the ASAP Guides on the FMS Web site at http://www.fms.treas.gov/asap/pr\_hand books.html#guides.)

# 3340.20—Access to Agency Data and Clearing Differences

Agencies can review and download the FMS 6652 and the support listing (see Appendix 4) through GOALS II/IAS. They also can review their confirmed deposit data on-line through CA\$HLINK II. CA\$HLINK II is a worldwide deposit reporting and cash concentration system with a single database of deposit details to expedite agency reconciliation. CA\$HLINK II provides agencies access to their deposits deposit adjustments in the CA\$HLINK II database. By accessing CA\$HLINK II, agencies can research and begin reconciling their deposits made at commercial banks on the same business day the Federal Reserve Bank reports the deposits (FRB) CA\$HLINK II. If funds are moved overnight by Automated Clearing House through the Federal Reserve System, agencies can review deposits the day after the deposit is reported. Using the inquiry function of CA\$HLINK II, an agency may obtain a printout of deposit data in CA\$HLINK II to compare with items in the agency's records. For additional information about CA\$HLINK II, contact FMS's Accounting and Data Management Division (see the Contacts page).

Agencies clear differences by either:

 Reporting adjusting entries on the FMS 224 for the current month (with the prior month indicated);

#### OR

 Contacting the bank to trace the transmittal to FMS and correcting the SF 215/SF 5515 in CA\$HLINK II.

If agencies are unable to resolve differences after correspondence with the banks, they must contact an FMS representative for assistance (see the Contacts page).

# 3340.30—Unreconciled Differences

Monthly, FMS sends a letter with a scorecard to the Chief Financial Officers for those agencies that have unreconciled differences older than three audit periods. The Office of the Inspector General (OIG) routinely examines the internal control systems for faults and vulnerabilities. Agencies must immediately report any suspicions of fraud to their OIG for investigation.

2-3300 VOL I

FMS can prepare journal voucher entries to adjust small difference amounts of \$50 or less that have been outstanding for 3 months or sooner at the agencies' requests. Agencies that reconcile their own small difference amounts should request that FMS's Cash Accounting Division exempt them from Treasury's small difference writeoff process.

#### Section 3345—Partial FMS 224

To facilitate incremental the implementation of **GWA** Modernization Project, the FMS 224 application was modified to allow for reporting each section independently. Agencies only have to report those sections of the FMS 224 that are not being reported by a GWA System mechanism. The modified FMS 224 application is known as the "Partial FMS 224" and replaces the GOALS II FMS 224 application.

### 3345.10—GWA System Non-Reporter and GWA System Reporter

An agency is either a GWA System Non-Reporter or a GWA System Reporter, but not both. Reporting mechanisms ensure that an agency reports in only one of the two ways. This precaution eliminates the risk of double-reporting.

A GWA System Non-Reporter:

- Is identified by ALC and source system, for example, IPAC, Secure Payment System, and CA\$HLINK II;
- Is not yet capable of providing Treasury Account Symbol (TAS) information on incoming daily transmissions to the GWA System;
- Reports through the Partial FMS 224 application.

A GWA System Reporter:

• Is identified by ALC and source system;

- Is authorized to provide TAS information on incoming daily transmissions to the GWA System;
- Reports through the Partial FMS 224 application.

The GWA System collects and maintains information to create the appropriate FMS 224 entries. The collected information is processed through FMS's central accounting system (STAR). The GWA System Reporter reports based on the following seven categories:

- Intragovernmental Only;
- Collections Only;
- · Payments Only;
- Intragovernmental and Collections;
- Intragovernmental and Payments;
- Payments and Collections;
- Intragovernmental, Collections, and Payments.

# Section 3350—Submitting the Partial FMS 224

Agencies submit the FMS 224 to FMS through the GWA System Partial FMS 224 application. The Partial FMS 224 application for submission of the FMS 224 opens the first business day of the following accounting month and is available 24 hours a day. Each agency electronically submits the FMS 224 to FMS as promptly as possible, but no later than the third business day following the close of the accounting month (see the Contacts page).

Agencies should retain a copy of their FMS 224s for auditing and reconciliation purposes.

# Section 3355—Reporting Supplemental FMS 224s

After preparing and submitting the FMS 224 according to the procedures prescribed in this chapter, agencies can submit nine supplemental FMS 224s.

The supplemental FMS 224s do not replace the original FMS 224 but are used to make adjustments to it. FMS must receive supplemental FMS 224s no later than the third business day following the close of the accounting month.

**Note:** FMS may request supplemental FMS 224s from an agency after the third business day because of incorrect reporting on the original FMS 224s.

# 3550.10—Submitting Supplemental FMS 224s

Agencies can submit Partial FMS 224 supplementals to correct original Partial FMS 224s through the GWA System Partial FMS 224 application. Agencies can prepare a non-Partial FMS 224 supplemental to correct priormonth/prior-year TAS balances (see TFM Volume I, Bulletin No. 2008-05 on Web **FMS** site http://www.fms.treas.gov/tfm/vol1/ 08-05.pdf), which should be submitted directly to FMS's Cash Accounting Division by fax or mail (see the Contacts page).

# Section 3360—Reporting Fiscal Yearend FMS 224s

FMS issues a separate annual Treasury Financial Manual (TFM) Yearend Closing Bulletin to provide agencies with a schedule for preparing and submitting fiscal yearend FMS 224s. See the TFM Bulletin Web site at http://www.fms.treas.gov/tfm/vol1/bull.html.

# Section 3365—Integrating the Accounting Results

The central accounting and reporting of the Government as a whole is based on statements of accountability and transactions submitted to FMS, and on certain documentation processed centrally, such as appropriation warrants. FMS consolidates this accounting data

VOL I 2-3300

into the GWA System Account Statement and reports it back to the agencies. Agencies must verify these accounting results and reconcile them with their accounts (see TFM Volume I, Part 2, Chapter 3900).

**Note:** On the FMS 2108: Year-End Closing Statement, which FMS reports back to each agency, certain subclass prefixes reported on the FMS 224 will not appear under the heading of Appropriation or Fund Symbol. For example, FMS converts subclass prefix (41) to a .921 subnumber that will appear under the subnumber column corresponding to the Appropriation or Fund Symbol.

# Section 3370—GWA System Implementation Strategy

To control the implementation of GWA System Reporters, FMS will implement the GWA System source systems in three phases:

- IPAC Only;
- IPAC and Collections;
- IPAC, Collections, and Payments.

#### 3370.10—Phase One

In the first phase of the GWA System source system implementation, an agency designated as a GWA System Reporter for IPAC sends its classified intragovernmental transactions through IPAC. The IPAC System sends these transactions to the Partial FMS 224

application. The agency's FMS 224 preparer enters payment and collection transactions into the Partial FMS 224 application. The preparer also may use the Partial FMS 224 to reclassify intragovernmental transactions for the agency but cannot create new ones. The Partial FMS 224 takes all the transactions (intragovernmental, payments, and collections), creates an FMS 224, and sends it to STAR.

Agencies that are GWA System Non-Reporters prepare their FMS 224 in the GWA Partial 224 application and submit the data via CAFÉ. CAFÉ sends the FMS 224 data to STAR.

#### 3370.20—Phase Two

In the second phase of the GWA System source system implementation. IPAC and CA\$HLINK implemented. An agency designated as a GWA System Reporter for IPAC and CA\$HLINK II sends its classified intragovernmental transactions through IPAC and its classified collection transactions through CA\$HLINK II. IPAC and CA\$HLINK II send these transactions to the Partial FMS 224 application. The agency FMS 224 preparer enters payment transactions into the Partial FMS 224 application. The preparer also may use the Partial FMS 224 to reclassify intragovernmental and collection transactions for the agency but cannot create new ones. The Partial FMS takes all the transactions (intragovernmental, payments,

collections), creates an FMS 224, and sends it to STAR.

#### 3370.30—Phase Three

In the third phase of the GWA System source system implementation, IPAC, CA\$HLINK II, and Payments are implemented. An agency designated as a GWA System Reporter for IPAC, CA\$HLINK II, and Payments sends its classified intragovernmental transactions through IPAC, its classified collection transactions through CA\$HLINK II, and its classified payment transactions through the RFC system. IPAC, CA\$HLINK II, or the RFC system sends these transactions to the Partial FMS 224 application.

The FMS 224 preparer also may use the Partial FMS 224 to reclassify intragovernmental, collections, and payment transactions for the agency but cannot create new ones. The Partial FMS 224 takes all the transactions (intragovernmental, payments, and collections), creates an FMS 224, and sends it to STAR.

When all three source systems are implemented, FMS 224 preparers will no longer have to enter FMS 224 information into the Partial FMS 224, with the exception of reclassification, for agencies that are GWA System Reporters for all three GWA System source systems.

2-3300 VOL I

# **CONTACTS**

Direct general inquiries concerning this chapter, transmission of original FMS 224s, deposit transaction reports, requests for ALC changes, and information on how to reconcile common discrepancies to:

Manager, Cash Analysis Branch Cash Accounting Division Governmentwide Accounting Financial Management Service Department of the Treasury 3700 East-West Highway, Room 526E Hyattsville, MD 20782

# EXPLANATION OF ITEMS TO BE REPORTED ON FMS 224: STATEMENT OF TRANSACTIONS

### Heading of FMS 224—The heading of FMS 224 includes the following:

- Department or agency;
- Bureau or office;
- Location (complete mailing address) of the reporting office (this address will be used for any necessary correspondence);
- Agency Location Code (ALC);

#### **AND**

Accounting period ended.

#### Section I - Classification of Disbursements and Collections by Appropriation, Fund, and Receipt Account

This section includes a classification by individual appropriation, fund, or receipt account of all documents that have been paid or accomplished by Regional Financial Centers (RFCs), Intra-governmental Payment and Collection (IPAC) System transfers, Automated Standard Application for Payments (ASAP) payments, and actual collections received during the month for deposit on SF 215: Deposit Ticket, net of any SF 5515: Debit Voucher, documents.

Column	Description
APPROPRIATION, FUND, OR RECEIPT ACCOUNT (1)	Enter the established symbol of the appropriation, fund, or receipt account for which the agency is reporting the transactions. In certain cases, reporting of transactions below the level of the appropriation or fund account is required. FMS assigns separate subclass identification codes for agencies to use as parenthetical prefixes to the account (see subsection 3330.20 of this chapter for additional information). The appropriation and fund account symbols are listed in numerical sequence according to the basic four digits of the account symbol following the digits representing the fiscal years, the symbol "X" for no year, or "F" for clearing accounts. The unavailable receipt account symbols are listed after the appropriation and fund symbols in numerical sequence of the four digits following the departmental or agency prefix.
RECEIPTS AND COLLECTIONS CREDITED TO APPROPRIATION OR FUND ACCOUNTS (2)	Receipts Receipts are reported, net of adjustments, in the following types of accounts:  • Available Receipt accounts; • Unavailable Receipt accounts; • "F" Clearing accounts.  Offsetting Collections  Most offsetting collections are reported in this column for Appropriation or Fund accounts (expenditure accounts). Offsetting collections are derived from the following types of activities:  • Sales of goods and services to the public; • Reimbursements for goods or services from other agencies; • Refunds of payments originally made in prior fiscal years; • Canceled or returned checks originally made in prior fiscal years; • Other corrections of errors made in prior fiscal years; • Collections related to credit reform.  Certain limited offsetting collections are reported in column 3 (see the column 3 description). For loan repayments, enter principal repayments and direct sale of loans. Do not report noncash transactions.

Column	Description
RECEIPTS AND COLLECTIONS CREDITED TO APPROPRIATION OR FUND ACCOUNTS con. (2)	Subclass Code Information <sup>1</sup> Borrowings From the Public Reported by the Issuing Agency: Enter the par value of the securities sold or issued in this column. See the description for column 3 to report the difference between the par value issued and the sale proceeds.  Sales of Federal Securities and Unrealized Discount Reported by the Investing Agency: Enter all sales at par value. Further instructions related to the proper posting of amounts related to the purchase and sale of securities, including the purchase of unrealized discount, are specified in TFM Volume I, Part 2, Chapter 4300.
GROSS DISBURSEMENTS (3)	All disbursements, including those processed by the ASAP electronic payment and information system, are reported in this column, either gross or net, as specified below.  Enter gross charges to Appropriation and Fund accounts, except as specified below:  • Charges to "F" Clearing accounts are entered net of any adjustments; and  • Loan disbursements from Appropriation and Fund accounts are entered net of cash adjustments.  Offsetting Collections Only the following current fiscal year collections should be credited to an Appropriation or Fund Account in this column.  • Refunds of payments made in the current fiscal year;  • Canceled or returned checks originally issued in the current fiscal year;  • Other corrections of errors made in the current fiscal year.  Subclass Code Information¹  Borrowings from the Public Reported by the Issuing Agency: For redemptions, enter the par value of securities redeemed. For issuances, enter the difference between the par value and the sale proceeds as a charge or credit, as applicable.  Purchases and Sales of Federal Securities Reported by the Investing Agency: Enter purchases of Federal securities at par value. Further instructions related to the proper posting of amounts related to the purchase and sale of securities are specified in TFM Volume I, Part 2, Chapter 4300.
COLUMNAR TOTALS	Enter the net totals for columns 2 and 3.
NET TOTAL, SECTION I	Enter the net total of column 3 minus column 2.

T/L 651 3 June 2009

<sup>&</sup>lt;sup>1</sup> These transactions will be further identified by prefixing the account symbol in column (1) with the applicable designated subclass code.

### Section II—Control Totals of Disbursements and Collections Classified in Section I

This section distinguishes transactions processed by RFCs from net collections received by the agencies or departments.

Line No.	Description				
1. ADD	Enter summary net totals, according to accomplished (paid) month, of all charges and credits represented by voucher schedules and other documentation processed by Treasury disbursing centers, including the following forms:				
	SF 1166: Voucher and Schedule of Payments;				
	SF 1098: Schedule of Canceled or Undelivered Checks;				
	SF 1096: Schedule of Voucher Deductions;				
	SF 1184e: Unavailable Check Cancellation (PIN-FEED)				
	AND				
	Other similar forms.				
	Also, enter all interagency charges and collections processed and reported by the IPAC System.				
2. DEDUCT	Enter total collections received for deposit on SF 215s, net of uncollectible items charged on SF 5515s, and any related adjustments for the current accounting month that are classified in Section I, column 2. Also enter all ASAP payments processed by the Federal Reserve Bank of Richmond (net of collections) and any related adjustments for the current accounting month that are classified in Section I, column 3.				
	GOALS II automatically calculates this line, which should agree with Section III, line 2.				
3. NET TOTAL	Enter the net total of the amount shown for lines 1 and 2. The net total of Section II must agree with the net total of Section I.				

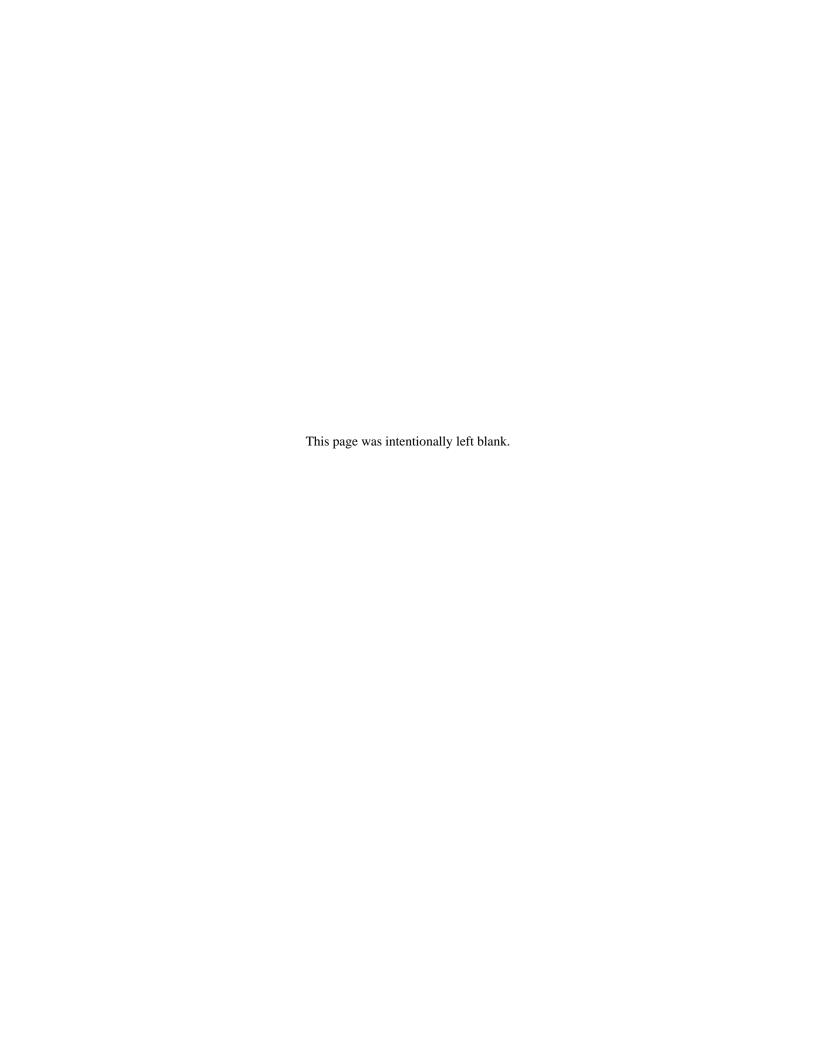

### **Section III—Status of Collections**

This section discloses the status of actual collections reported in the CA\$HLINK II System, including ASAP payments.

Line No.	Description
1. BALANCE OF UNDEPOSITED COLLECTIONS, CLOSE OF PRECEDING MONTH	Enter all collections on hand as of the close of the prior month. This amount must be the same as that reported on Section III, line 4, of the prior month's report. The GOALS II FMS 224 subsystem automatically rejects any balance on Section III, line 1, that does not agree with the balance on Section III, line 4, for the prior month and displays an FMS phone number. GOALS II automatically calculates this line. Agencies should not carry forward any balances from the previous month, as this line should be and remains zero. Report collections undeposited before the end of the accounting month as cash held outside of Treasury and only in Section I.
2. ADD	Enter the total amount of collections received, net of any uncollectible items and related adjustments for the current accounting month. Also, enter any ASAP payments reported in Section I, column 3. This amount must agree with the amount shown on Section II, line 2.

Line No.	Description
3. DEDUCT	Show the summary of all deposits and ASAP payments made directly with Federal Reserve Banks and branches and general depositaries, at the level of "Date Presented or Mailed to Bank," represented by SF 215s, less related SF 5515s, for items depositaries charged back. This summary is identified by the "Date Presented or Mailed to Bank" month entered on the document.
4. NET TOTAL, SECTION III	Enter the net total of lines 1 and 2, less line 3. This line should be and remains zero.

 $\pmb{Note} :$  Enter and identify all negative figures with a minus sign (-).

# INSTRUCTIONS FOR PREPARING FMS 6601: ADVICE REGARDING AGENCY LOCATION CODES (ALC) (3, 4, AND 8 DIGITS)

To establish, change, or delete an ALC, the responsible agency or disbursing office representative must contact FMS in writing. The letter must contain the effective date and other required information to assist FMS in preparing the FMS 6601. All Federal agencies submitting a written request to establish, change, or delete an ALC must provide the following information in fields 1 through 8:

FIELD	DESCRIPTION
FUNCTION	For FMS use only. Indicates the reason for the completion of the form; for example, A (add), C (change), L (close), or R (re-open) an ALC.
(DO) ALC	Enter the 3-, 4-, or 8-digit ALC identifying code; for example, 520, 5390, or 12345678.
(DO) ALC NAME	Enter the name of the agency responsible for the ALC.
(DO) ALC ADDRESS	Enter the complete address of the agency responsible for the ALC.
CONTACT PERSON	Enter the name of the agency contact person.
TELEPHONE	Enter the area code and telephone number (FTS and/or commercial) of the agency contact person.
DATE OPENED	Enter the requested date to add an ALC. (Agencies must submit the request to FMS 30 days in advance.)
DATE CLOSED	Enter the requested date to delete an ALC. (Agencies must submit the request to FMS 30 days in advance and must provide the ALC that will replace the account to clear outstanding transactions.)

Mail the letter to the appropriate address shown on the Contacts page.

# EXPLANATION OF STATEMENT OF DIFFERENCES, DISBURSING OFFICE TRANSACTIONS

FMS 6652: Statement of Differences, Disbursing Office Transactions, includes six columns as follows:

Column	Description
REFERENCE	Treasury-assigned identifying number for Treasury-prepared adjustments.
REPORTING DATE	Accounting month in which the transaction was processed.
REPORTING SYMBOL	Treasury reference number or disbursing office symbol that identifies the agency reporting the transaction.
AGENCY CONTROL ACCOUNTS MAINTAINED BY TREASURY	Summary totals of transactions reported to Treasury by two reporting sources:
	Regional Financial Centers (RFCs)—Net disbursements RFCs processed and confirmed that were reported via the RFC Agency Link report in GOALS II.
	Intra-governmental Payment and Collection (IPAC) System— Interagency billings and payments previously processed with the SF 1081: Voucher and Schedule of Withdrawals and Credits.
ACCOUNTING REPORTS SUBMITTED BY AGENCIES	Net amount shown on FMS 224, Section II, line 1.
AMOUNT OF DIFFERENCE	Difference between the agency control accounts maintained by Treasury and the accounting reports submitted by agencies.

### **EXPLANATION OF AGENCY CONFIRMATION REPORT LISTING**

Column	Description
SCHEDULE NUMBER	Number assigned by the agency.
CHECK SYMBOL	Identifies the RFC that processed the check schedule.
CONFIRMED DATE	Date the check schedule was processed and mailed or was deposited at the bank. Only report confirmed schedules processed during the accounting month on the FMS 224.
CHECK/BOND RANGE	Range of RFC-assigned check identifying numbers for every check listed on the check schedule.
NET AMOUNT	Sum of all checks processed on the check schedule.
DOC TYPE	Type of document or standard form that the RFC processed. A legend is displayed at the end of the check schedule.
