

# ALERT!

## Hazard Communication Changes

How does the Global Harmonizing System (GHS) change Hazard Communication at my installation?

- "Hazard Classification" rather than "hazard determination".
- "Safety data sheet" (rather than "material safety data sheet") uses a 16-section format.
- Labels are more defined with specific requirements.
- Information and training: Employers are required to train workers by December 1, 2013 on the new labels elements and safety data sheets format.
