What is a Web and telephone seminar?

This 90-minute Web and telephone seminar allows an unlimited number of people to listen to OCC experts and industry professionals and to discuss with them their experiences and policy imperatives. You can listen over individual telephones or discuss with colleagues on speaker-phones. The experts' interaction with you, the listener, will make the program a valuable learning experience. And you can ask questions from wherever you are, online or on the telephone.

There is no rush-hour traffic, no parking, no travel time or expenses. You can remain in the office and share information with a large group of colleagues. A moderator guides the presentation and the open forum. Accessing the automated slide show is as easy as clicking on a Web link.
