U.S. Reporters that cannot distinguish between equity and debt investment in their unincorporated foreign affiliates: if your accounting records do not distinguish between intercompany debt (**17** A and **17** B) and equity **26** , then:

1. Compute the net change in the home office account. (This equals: End-of-quarter home office account minus beginning-of-quarter home office account.)
2. Subtract net income (loss) **13** A, certain realized and unrealized gains (losses) taken directly to other comprehensive income or owner's equity **13** B2, and the quarterly translation adjustment **13** C.
3. If the amount computed in **2.** is positive, show it as an increase in equity **19** B. If the amount computed in **2.** is negative, show it as a remittance of earnings (**13** D and **13** F) to the extent that there is quarterly net income; show the residual, if any, as a decrease in equity **20** B. **17** A and **17** B should be blank.
