MEMORANDUM FOR SUPPLY PRC MEMBERS

SUBJECT: Approved DLMS Change 121, DLMS Mapping for Disposal Shipment Confirmation to DLMS Supplement (DS) 945A, Material Release Advice (Supply)

This memorandum forwards an approved change to DOD 4000.25-M, Defense Logistics Management System (DLMS). DAASC and DLA have authorization to employ these procedures immediately under DLMS migration. This change incorporates desired functionality in the Material Release Advice transaction. Implementation will be coordinated between DAAS and DLA to ensure configuration management is maintained.

The updated DS will be posted to the DLMSO web site (<http://www.dla.mil/j-6/dlms0/ICs/Default.htm>) within 30 days. DLMSO will concurrently pursue coordination/approval with the DOD Logistics Functional Working Group, the DOD Electronic Data Interchange Standards Management Committee (EDISMC), and the Federal EDI Standards Management Coordinating Committee (FESMCC) for Federal implementation convention (IC) revisions.

Addressees may direct questions to the DLMSO points of contact, Ms. Ellen Hilert, Co-Chair, Supply Process Review Committee, 703-767-0676, DSN 427-0676, or email: ellen.hilert@dla.mil or Ms. Vermella Saváge, DOD MILSTRIP System Administrator, 703-767-0674, DSN 427-0674, or e-mail: Vermella.savage@dla.mil. Others must contact their Service or Agency designated representative.

ADC 121
**DLMS Mapping for Disposal Shipment Confirmation to
DS 945A, Material Release Advice**

1. ORIGINATOR: Supply Process Review Committee, Ellen Hilert, Co-Chair, DLA J673, Defense Logistics Management Standards Office (DLMSO), 703-767-0676 (DSN 427), ellen.hilert@dla.mil

2. FUNCTIONAL AREA: Supply

3. REQUESTED CHANGE:

a. Title: DLMS Mapping for Disposal Shipment Confirmation to DS 945A, Material Release Advice (ASZ transaction mapping)

b. Description of Change: This change modifies the DS 945A, Material Release Advice, to reflect appropriate mapping for the Disposal Shipment Confirmation transaction (MILSTRIP DI Code ASZ). When this change is published, additional administrative updates will also be reflected to the DS and Federal IC to incorporate standard DLMS notes for code usage (e.g., “For DLMS use, only the following codes are authorized.”).

c. Procedures: Revise DS 945A, Material Release Advice, as indicated to assigning a beginning segment code to specifically identify the disposal shipment confirmation. The DAAS maps and the DLMS Cross-Reference tables must be adjusted accordingly.

	Location	Revision	Reason	Federal
1	DLMS Introductory Notes	<p><u>Revise DLMS Introductory note 5 to add new ADC:</u></p> <p>This DLMS Supplement incorporates ...</p> <p>- ADC 121, Revision to DLMS Mapping for Disposal Shipment Confirmation to DS 945A, Material Release Advice (ASZ transaction mapping)</p>	Administrative update	No update required
2	1/W0611/020	<p><u>Add the following qualifier and DLMS note:</u></p> <p>AZ Disposal Shipment Advice</p> <p>DLMS Note: The shipping activity may use to provide confirmation of a disposal shipment to the DRMS. (This corresponds to the DLSS Document Identifier ASZ.)</p> <p>An ANSI data maintenance action will be taken to properly align the code AZ with the correct name, "Disposal Shipment Confirmation," for use in a future version/release.</p> <p><u>Revise DLMS note for existing code NQ:</u></p> <p>NQ Disposal Shipment Confirmation</p> <p>DLMS Note: Use to provide supply status <i>to the ICP</i> on a disposal release order (This corresponds to DLSS Document Identifier AEJ.) .</p> <p><i>An ANSI data maintenance action will be taken to properly align the code NQ with the correct name, "Disposal Shipment Advice," for use in a future version/release.</i></p>	<p>The 945A IC/Supplement must be fixed to assign a beginning segment code for use in mapping the MILSTRIP DI Code ASZ to DLMS.</p> <p>The note for the beginning segment code NQ is clarified.</p> <p>Both beginning segment codes are annotated to indicate that the ANSI standard names associated with the codes are misaligned and will be corrected through an ANSI data maintenance action.</p>	Federal IC update required

Alternatives: None identified.

4. REASON FOR CHANGE: This change supports DLMS implementation and desired functionality. The addition of a beginning segment code is required for identification of the transaction used for disposal shipment confirmation. This transaction type was inadvertently removed from the 945A. The beginning segment codes for the AEJ and ASZ were confused resulting in a name switch. This will be corrected through an ANSI change. The preference is to associate code AZ with the ASZ because of the recognizable association. The similar names are incorrectly assigned which is confusing; therefore the specific DLSS transaction identification is included in the DLMS note.

5. ADVANTAGES AND DISADVANTAGES:

a. Advantages: Supports DLMS implementation and clarifies DLSS mapping.

b. Disadvantages: None identified.

6. IMPACT:

Publications. Federal Implementation Conventions 945A and corresponding DoD 4000.25-M DLMS Supplement. The DS revision requires prior change to the Federal Implementation Convention (IC).
