MEMORANDUM FOR SUPPLY PROCESS REVIEW COMMITTEE (PRC) MEMBERS

SUBJECT: Approved Defense Logistics Management System (DLMS) Change (ADC) 347, Revise DLMS Supplement (DS) 527R Receipt, 867I Issue, 945A Materiel Release Advice, and 947I Inventory Adjustment to Support Unique Item Tracking for Air Force Positive Inventory Control (PIC) (Supply) (Staffed as PDC 370)

The attached change to DOD 4000.25-M, DLMS, is approved for implementation. The updated DLMS Supplement will be posted to the Defense Logistics Management Standards Office (DLMSO) Web site <http://www.dla.mil/j-6/dlms0/elibrary/TransFormats/formats.asp> within **10** days from the above date for implementation planning. This change supports Air Force Nuclear Weapons Related Materiel (NWRM) Positive Inventory Control (PIC) Fusion, which is a Secretary of the Air Force top priority. **To ensure a synchronized implementation between the Distribution Standard System (DSS), PIC Fusion, and the Defense Automatic Addressing System (DAAS), request that by November 17, 2009, DLA identify the earliest possible implementation date for DSS and Air Force identify the earliest possible implementation date for PIC Fusion.**

Addressees may direct questions to the DLMSO points of contact Ms. Mary Jane Johnson, email: [Mary.Jane.Johnson@dla.mil](mailto:Mary.Jane.Johnson@dla.mil) and Ms. Ellen Hilert, email: [Ellen.Hilert@dla.mil](mailto:Ellen.Hilert@dla.mil). Others must contact their Component designated Supply PRC representative.

## ATTACHMENT TO ADC 347

Revise DLMS Supplement (DS) 527R Receipt, 867I Issue, 945A Materiel Release Advice, and 947I Inventory Adjustment to Support Unique Item Tracking (UIT) for Air Force Positive Inventory Control (PIC) (Supply)

**1. ORIGINATOR:** Defense Logistics Management Standards Office (DLMSO), Mary Jane Johnson, 703-767-0677, DSN 427-0677, email: Mary.Jane.Johnson@dla.mil; and Ellen Hilert, 703-767-0676; DSN 427-0676, email: Ellen.Hilert@dla.mil.

**2. FUNCTIONAL AREA:** Supply, UIT

**3. REFERENCES:**

a. DLMSO memorandum, September 29, 2009, subject: Proposed DLMS Change (PDC) 370, Revise DLMS Supplement (DS) 527R Receipt, 867I Issue, 945A Materiel Release Advice, and 947I Inventory Adjustment to Support Unique Item Tracking (UIT) for Air Force Positive Inventory Control (PIC) (Supply)

b. September 22, and September 30, 2009 telecons among DLMSO, AF PIC Fusion personnel, AF Supply Process Review Committee (SPRC) representative, Defense Automated Addressing System Center(DAASC), and DLA (HQ J33, J6U DSS, J6N DDC)

**4. PROPOSED CHANGE:**

a. **Title/Description of Change/Background:**

(1) **Title:** Revise DLMS Supplement (DS) 527R Receipt, 867I Issue, 945A Materiel Release Advice, and 947I Inventory Adjustment to Support Unique Item Tracking for Air Force Positive Inventory Control (PIC) (Supply)

(2) **Description of Change:** This change revises DLMS transactions support receipt, issue, materiel release advice, and inventory adjustment (DS 527R, 867I, 945A, and 947I) to allow a new action code which will clearly identify their use as “image” transactions which do not affect the accountable records when the balance-affecting accountable transaction bypassed the normal Defense Automated Addressing System Center (DAASC) transaction flow. Once available as an image transaction, the DLMS transaction containing information pertaining to the specific business process and the applicable serial number(s) may be passed to a designated party for information.

**Note:** As noted in PDC 370 (reference 3a) and during September 2009 telecons (reference 3b), USAF must identify any additional DLMS standard logistics transaction functions for which serial number is required for PIC Fusion.

(3) **Background:**

(a) UIT under DLMS is accomplished with standard logistics transactions. However when UIT was first established in the Distribution Standard System (DSS) for use with the Navy Depot Level Repairable UIT program in 2002, DSS had not yet fully implemented DLMS. Specifically DSS had not yet implemented DLMS for balance affecting transactions to include DLMS 527R Receipt. DLMS 140B was authorized for use with DSS UIT Phase 1 for a temporary period to provide visibility of receipt information serial numbers for UIT assets. Use of 140B for use with receipt information was to be phased out under DSS UIT Phase 2. DLMSO understanding was that when DSS implemented UIT Phase 2 (implemented balance affecting transactions to include 527R Receipt) several years ago, DSS would no longer generate DLMS 140B for receipt UIT information.

(b) Presently, due to a Customer Information Control System (CICS) direct interface between DSS and the Air Force (AF) D035K system, which bypasses normal DAASC processing, DSS sends the D035K trading partner operating in MILS, MLSTRAP Document Identifier (DI) Code D4\_/D6\_ receipt transactions which cannot accommodate serial numbers under their 80 record position constraints. In 2009 USAF established a UIT program for PIC Nuclear Weapon Related Materiel (NWRM) and DSS started sending a 140B transaction through DAASC for AF PIC NWRM serial numbers associated with MILSTRAP D4\_/D6\_ receipt sent direct to D035K. DAASC in turn converts the 140B from DSS for transmission via DAASC Integrated E-mail LOGistics (DIELOG), which DAAS then sends to a DIELOG email account established on behalf of D035K. The 140B transaction formatted as ASC X12 which DSS sent to DAAS is not being sent to any AF application today in the 140B structure.

(c) In September 2009 AF began discussing expanding use of 140B to additional DLMS functions for a new AF PIC Fusion interface. AF identified a requirement for issue transactions, materiel release advice, inventory adjustment, and possibly other transactions to be determined. DLMSO objected to this nonstandard approach and expansion of the use of 140B, and strongly recommended an integrated approach to include serial number within the standard logistics transaction supporting the functional requirement: e.g., 527R receipt, 867I Issue, 945A Materiel Release Advice, 947I Inventory Adjustment, rather than through an independent transaction which must then be interpreted and associated with the previously transmitted transaction for the designated functional process.

**b. Revise DS 527R, 867I, 945A, and 947I (version 4010 and version 4030) as shown in the enclosure. Note:** For IUID, DS 947I version 4030 is required.

**5. REASON FOR CHANGE:** To establish capability to transmit an image transaction for unique item tracking, thereby allowing the DSS to pass serial number information to AF PIC Fusion for PIC NWRM UIT using the integrated DLMS transaction, even when DSS sends the AF D035K trading partner MILSTRIP/MILSTRAP transactions via a CICS interface bypassing DAAS.

## **6. ADVANTAGES AND DISADVANTAGES:**

### **a. Advantages**

**(1) Supports AF NWRM PIC Fusion which is a Secretary of the Air Force top priority.** Provides AF PIC Fusion integrated serial number requirements in the appropriate DLMS transaction for a given logistic function, rather than a disjointed approach of PIC fusion receiving 2 separate independent transactions (140B and MILSTRIP/MILSTRAP transactions) from 2 disparate systems (D035K and DAAS) which PIC Fusion must then marry up to reflect the serial number information.

**(2) Supports OSD Supply Chain Integration Office Item Unique Identification (IUID) approach to IUID** documented in several SCI IUID workshops conducted with all DOD Components (February through June 2009). The IUID workshops addressed the requirement for using standard DLMS logistics transactions to convey IUID information.

**(3) Positions AF NWRM PIC Fusion Center application for IUID.** The DLMS standard logistics transactions for receipt (527R), issue (867I), materiel release advice (945A), and inventory adjustment (947I Version 4030 only) all have the capability to pass the IUID unique item identifier (UII). This will eliminate rework for transition to IUID use of standard logistics transactions when implemented.

**(4) Positions DSS applications for IUID.** DLMS standard logistics transactions will be required to pass IUID data.

**(5) Halts proliferation of a non-standard, inefficient approach to UIT.**

(6) Adopts planned functionality to transmit DLMS transactions to registry/tracking programs when required in addition to the designated owner/manager.

**b. Disadvantages:** Requires a DSS and DAAS system change. When serial number information is required for PIC NWRM, DSS system requires update to pass the standard DLMS transaction with serial numbers and the new beginning segment action code, in addition to the associated MILSTRIP or MILSTRAP transaction being sent to the AF D035K system. DAAS will need to recognize the indicator for an “image” transaction so that accountable/standard DLMS or the equivalent MILS transactions will not be forwarded to the owner/manager or otherwise trigger duplication of information.

**7. RESPONSES TO PDC 370:**

<u>COMPONENT</u>	<u>RESPONSE</u>	<u>DISPOSITION</u>
<b>DLA</b>	<b>Concurs without comment.</b>	Noted.
<b>AIR FORCE</b>	<b>Concurs.</b> did not, however, receive verification from PIC Fusion personnel on whether a Routing Identifier Code would be required for the PIC Fusion Center.	Noted. AF must advise DLMSO immediately if a routing identifier code is not being assigned for PIC Fusion.
<b>NAVY</b>	<b>Concurs as written.</b>	Noted.
<b>USTRANSCOM</b>	<b>Abstains.</b>	Noted.
<b>DLMSO (Heidi Daverede)</b>	<p>For qualifier 945A W0612 Action Code "FI", we need to add an additional instruction that says "This is not authorized for use when the distribution code = 111 and the message supports the Retail Transportation and Supply Receipt and Acknowledgement Interchange (See DoD 4000.25-M, Volume 3, Chapter 2)."</p> <p>Per ADC 316, the 945A already uses the W0612 Action Code (A6, CN, ME) to flag 945A transactions for retail supply/transportation. If NWRM PIC decides to need copies of these 945A retail supply/transportation transactions, the "FI" qualifier can't be used since the Action Code is already in use. DLMSO is preparing an addendum to ADC 316C that uses the N1 "KK" and "PK" to flag the ADC 316 for image routing to NWRM PIC in addition to normal routing to retail supply activity as indicated in the N106 "TO" instance.</p> <p>Recommend revising the 1/W0612/20 new Action Code 'FI' DLMS note as follows (change has <i>bold, italics</i>):</p> <p><b>FI File</b>  <b>DLMS Note:</b> Authorized for Air Force and DSS use with PIC NWRM UIT, <i>except when the distribution code = 111 and the message supports the Retail Transportation and Supply Receipt and Acknowledgement Interchange (See DoD 4000.25-M, Volume 3, Chapter 2).</i> Use with W0611 Code NJ, NK, and Code NM to identify a material or disposal release confirmation and materiel release denial image transactions where the original transaction has bypassed the normal DAAS transaction flow. All transaction set recipients must use extreme caution to ensure that individual transactions with this code do not process as action documents which affect accountable records. Must use with 2/N101/80 code 'KK' and 2/N106/80 code 'PK'. There will be no 2/N106/80 code 'TO' for this transaction.</p>	Concur. Change incorporated in the 945A Change Table at the enclosure.

**8. IMPACT:**

- a. Publication(s):** DLMS 527R, 867I, 945A, and 947I (versions 4010 and 4030)
- b. Systems/Applications:** DAAS, DSS and AF PIC Fusion Center application.
- c. DAASC Mapping:** Updates required to DAASC mapping.
- d. DLMS Data Element:** This change adds the existing data element for Image Transaction Flag (beginning segment code mapped to X12 qualifier FI, File) to additional transactions as specified.

Enclosure

## ENCLOSURE TO ADC 347

### DLMS Supplement (DS) Change Tables Changes from PDC 370 are **highlighted in yellow**

Item #	Location	DS 527R Receipt Recommended Change for PIC	Reason
1.	DLMS Introductory Note	<p><u>Add ADC 347 to Introductory note for PDCs/ADCs:</u></p> <p>- ADC 347, Revise DLMS Supplement (DS) 527R Receipt, 867I Issue, 945A Materiel Release Advice, and 947I Inventory Adjustment to Support Unique Item Tracking for Air Force Positive Inventory Control (PIC)</p>	To identify DLMS changes included in the DS
2.	1/BR06/20	<p><u>Add new Action Code 'FI' with DLMS note:</u></p> <p><b>FI File</b></p> <p><b>DLMS Note:</b> <i>Authorized for Air Force and DSS use with PIC NWRM UIT. Use with BR02 Code D4 to identify a receipt image transaction where the original receipt transaction has bypassed the normal DAAS transaction flow. All transaction set recipients must use extreme caution to ensure that individual transactions with this code do not process as action documents which affect accountable records. Must use with 2/N101/210 code 'KK' and 2/N106/210 code 'PK'. There will be no 2/N106/210 code 'TO' for this transaction. Refer to ADC 347.</i></p>	<p>To clearly identify that a 527R receipt transaction, going from DSS through DAAS to AF PIC Fusion, is an information copy not affecting the balance.</p> <p>USAF D035K has CICS interface with DSS. Through the CICS interface DSS sends MILSTRAP DI Code D4_/D6_ receipt transactions directly to Do35K without going through DAASC.</p> <p>If interface was through DAAS, then DSS would have sent 527R Receipt to DAASC and DAAS could create MILS D4/D6 for USAF D035K trading partner still operating in MILS, and DAAS could have sent an information copy of 527R with the serial numbers to AF PIC Fusion for PIC NWRM.</p>
3.	2/N101/210	<p><u>Revise note 1 and add new DLMS note 2 to existing code KK:</u></p> <p>KK Registering Party</p> <p><b>DLMS Notes:</b></p> <p>1. Use to identify the Component UIT registry. May be used by a Component when their UIT process requires that a copy of <del>this 527R</del> the transaction <b>must</b> also be sent to a UIT registry for information purposes. Must be used with 2/N106/210 code 'PK-Party to Receive Copy' to identify that this is only an information copy of the transaction, for use with the Component UIT registry. <b>Cite the applicable Routing Identifier in 2/N103.</b></p> <p>2. <b>Authorized DLMS enhancement for Air Force and DSS use with PIC NWRM UIT; For PIC UIT, must use in conjunction with 2/N106 code PK and 1/BR06/20 Action Code FI and cite the applicable Routing Identifier in 2/N103.</b></p> <p>3. <b>Except as noted above,</b> DLMS enhancement; see introductory DLMS note 5a.</p>	<p>This revised approach will provide AF PIC Fusion with an integrated receipt transaction generated by DSS with serial numbers incorporated.</p> <p><b>Note:</b> AF was tasked in PDC 370 to verify that a Routing Identifier was, or would be, assigned for PIC Fusion Center or else there was a need to identify an alternative for mapping – N102 or N103 required. <b>USAF did not confirm RI code assignment--but also did not indicate an alternative to RI Code was required. Assumption, unless USAF states otherwise is that RI Code assignment is being made for PIC Fusion.</b></p>

Item #	Location	DS 527R Receipt Recommended Change for PIC	Reason

Use when appropriate to send an information copy of the transaction to a Component UIT registry. For use with N101 code KK.</p> <p><b>2. Authorized DLMS enhancement for Air Force and DSS use with PIC NWRM UIT. For PIC UIT, must use in conjunction with 2/N101 code KK and 1/BPT07/20 Action Code FI and cite the applicable Routing Identifier in 2/N103.</b></p> <p><b>3. Except as noted above,</b> DLMS enhancement; see introductory DLMS note 5a.</p>	

Item #	Location	DS 945A Materiel Release Advice Recommended Change for PIC	Reason
1.	DLMS Introductory Notes	<u>Add ADC 347 to Intro note for PDCs/ADCs:</u> - ADC 347, Revise DLMS Supplement (DS) 527R Receipt, 867I Issue, 945A Materiel Release Advice, and 947I Inventory Adjustment to Support Unique Item Tracking for Air Force Positive Inventory Control (PIC)	To identify DLMS changes included in the DS
2.	1/W0612/20	<u>Add new Action Code 'FI' with DLMS notes:</u>  <b>FI File</b>  <b>DLMS Note: Authorized for Air Force and DSS use with PIC NWRM UIT, except when the distribution code = 111 and the message supports the Retail Transportation and Supply Receipt and Acknowledgement Interchange (See DoD 4000.25-M, Volume 3, Chapter 2). Use with W0611 Code NJ, NK, and Code NM to identify a material or disposal release confirmation and materiel release denial image transactions where the original transaction has bypassed the normal DAAS transaction flow. All transaction set recipients must use extreme caution to ensure that individual transactions with this code do not process as action documents which affect accountable records. Must use with 2/N101/80 code 'KK' and 2/N106/80 code 'PK'. There will be no 2/N106/80 code 'TO' for this transaction. Refer to ADC 347.</b>	To clearly identify when a 945A transaction, going from DSS through DAASC to AF PIC Fusion, is an information copy not affecting the balance.  <b>← See the DLMSO comment at paragraph 7, RESPONSES TO PDC 370, for an explanation of new change at left.</b>  USAF D035K has CICS interface with DSS. Through the CICS interface DSS sends MILSTRIP DI Code AR__ and A6_ transactions directly to D035K without going through DAASC.  If the interface had been through DAAS, then DSS would have sent 945A to DAASC and DAAS could create MILSTRIP DI Code AR_/A6_ for USAF D035K trading partner still operating in MILS, and DAAS could have sent an information copy of the 945A to AF PIC Fusion for PIC NWRM.
3.	2/N101/80	<u>Revise note 1 and add new DLMS note 2 to existing code KK:</u>  KK Registering Party  <b>DLMS Notes:</b> 1. Use to identify the Component UIT registry. May be used by a Component when their UIT process requires that a copy of the transaction also be sent to a UIT registry for information purposes. Must be used with 2/N106/80 code 'PK-Party to Receive Copy' to identify that this is only an information copy of the transaction, for use with the Component UIT registry. <b>Cite the applicable Routing Identifier in 2/N103.</b>  <b>2. Authorized DLMS enhancement for Air Force and DSS use with PIC NWRM UIT; For PIC UIT, must use in conjunction with 2/N106 code PK and 1/W0612/20 Action Code FI and cite the applicable Routing Identifier in 2/N103.</b>  <b>3. Except as noted above, DLMS enhancement; see introductory DLMS note 3a.</b>	This revised approach will provide AF PIC Fusion with an integrated Materiel Release Advice transaction generated by DSS with serial numbers incorporated.  <b>Note:</b> AF was tasked in PDC 370 to verify that a Routing Identifier was, or would be, assigned for PIC Fusion Center or else there was a need to identify an alternative for mapping – N102 or N103 required. <b>USAF did not confirm RI code assignment--but also did not indicate an alternative to RI Code was required. Assumption, unless USAF states otherwise is that RI Code assignment is being made for PIC Fusion.</b>

Item #	Location	DS 945A Materiel Release Advice Recommended Change for PIC	Reason
4.	2/N101/80	<p>Add new DLMS note 2 to existing code PK:</p> <p>PK Party To Receive Copy</p> <p><b>DLMS Notes:</b></p> <p>1. Use when appropriate to send an information copy of the transaction to a Component UIT registry. For use with N101 code KK.</p> <p><b>2. Authorized DLMS enhancement for Air Force and DSS use with PIC NWRM UIT. For PIC UIT, must use in conjunction with 2/N101 code KK and 1/W0612/20 Action Code FI and cite the applicable Routing Identifier in 2/N103.</b></p> <p><b>3. Except as noted above,</b> DLMS enhancement; see introductory DLMS note 3a.</p>	

Item #	Location Version 4030	DS 947I Inventory Adjustment (Table Locations address 947I version 4030, corresponding changes are being made to 947I version 4010)	Reason
1.	DLMS Introductory Notes	<p><u>Add ADC 347 to Intro note for PDCs/ADCs:</u> - ADC 347, Revise DLMS Supplement (DS) 527R Receipt, 867I Issue, 945A Materiel Release Advice, and 947I Inventory Adjustment to Support Unique Item Tracking for Air Force Positive Inventory Control (PIC)</p>	To identify DLMS changes included in the DS
2.	1/W1506/ 0200	<p><u>Add new Action Code 'FI' with DLMS note:</u></p> <p><b>FI File</b></p> <p><b>DLMS Note:</b> <b>Authorized for Air Force and DSS use with PIC NWRM UIT. Use with W1505 Code NU to identify a material or disposal release confirmation and materiel release denial image transactions where the original transaction has bypassed the normal DAAS transaction flow. All transaction set recipients must use extreme caution to ensure that individual transactions with this code do not process as action documents which affect accountable records. Must use with 2/N101/1100 code 'KK' and 2/N106/1100 code 'PK'. There will be no 2/N106/1100 code 'TO' for this transaction. Refer to ADC 347.</b></p>	<p>To clearly identify when a 947I Inventory Adjustment transaction, going from DSS through DAASC to AF PIC Fusion, is an information copy not affecting the balance.</p> <p>USAF D035K has CICS interface with DSS. Through the CICS interface DSS sends MILSTRAP DI Code D8_, D9_, and DAC transactions directly to D035K without going through DAAS.</p> <p>If the interface had been through DAAS, then DSS would have sent a 947I to DAAS and DAAS could create MILSTRAP DI Code D8_/D9_/DAC for the USAF D035K trading partner still operating in MILS, and DAAS could have sent an information copy of the 947I to AF PIC Fusion for PIC NWRM.</p>

Item #	Location Version 4030	<b>DS 947I Inventory Adjustment</b> (Table Locations address 947I version 4030, corresponding changes are being made to 947I version 4010)	Reason
3.	2/N101/1100  Also adds KK to 947I version 4010	<p><b><u>Revise note 1 and add new DLMS note 2 to existing code KK:</u></b></p> <p>KK Registering Party</p> <p><b>DLMS Notes:</b></p> <p>1. Use to identify the Component UIT registry. May be used by a Component when their UIT process requires that a copy of the <i>inventory adjustment</i> transaction also be sent to a UIT registry for information purposes. Must be used with 2/N106/1100 code 'PK-Party to Receive Copy' to identify that this is only an information copy of the transaction, for use with the Component UIT registry. <b>Cite the applicable Routing Identifier in 2/N103.</b></p> <p><b>2. Authorized DLMS enhancement for Air Force and DSS use with PIC NWRM UIT; For PIC UIT, must use in conjunction with 2/N106 code PK and 1/W1506/0200 Action Code FI and cite the applicable Routing Identifier in 2/N103.</b></p> <p><b>3. Except as noted above,</b> DLMS enhancement; see introductory DLMS note 4a.</p>	<p>This revised approach will provide AF PIC Fusion with an integrated DLMS Inventory Adjustment transaction generated by DSS with serial numbers incorporated.</p> <p><b>Note:</b> AF was tasked in PDC 370 to verify that a Routing Identifier was, or would be, assigned for PIC Fusion Center or else there was a need to identify an alternative for mapping – N102 or N103 required. <b>USAF did not confirm RI code assignment---but also did not indicate an alternative to RI Code was required. Assumption, unless USAF states otherwise, is that RI Code assignment is being made for PIC Fusion.</b></p> <p><b>Note:</b> 2/N101 codes KK and PK are currently available in 947I version 4030, but are not currently in version 4010. They are being added to version 4010 by this change.</p>
4.	2/N101/1100  Also adds PK to 947I version 4010	<p><b><u>Add new DLMS note 2 to existing code PK:</u></b></p> <p>PK Party To Receive Copy</p> <p><b>DLMS Notes:</b></p> <p>1. Use when appropriate to send an information copy of the transaction to a Component UIT registry. For use with N101 code KK.</p> <p><b>2. Authorized DLMS enhancement for Air Force and DSS use with PIC NWRM UIT. For PIC UIT, must use in conjunction with N101 code KK and 1/W1506/0200 Action Code FI and cite the applicable Routing Identifier in 2/N103.</b></p> <p><b>3. Except as noted above,</b> DLMS enhancement; see introductory DLMS note 4a.</p>
