[Docket Nos. FMCSA-98-3637, FMCSA-99-6156, FMCSA-2000-7006, FMCSA-2000-7165, FMCSA-2002-12294]

**Qualification of Drivers; Exemption Applications; Vision**

**AGENCY:** Federal Motor Carrier Safety Administration (FMCSA), DOT.

**ACTION:** Notice of renewal of exemption; request for comments.

**SUMMARY:** This notice publishes the FMCSA decision to renew the exemptions from the vision requirement in the Federal Motor Carrier Safety Regulations for 16 individuals. The FMCSA has statutory authority to exempt individuals from vision standards if the exemptions granted will not compromise safety. The agency has concluded that granting these exemptions will provide a level of safety that will be equivalent to, or greater than, the level of safety maintained without the exemptions for these commercial motor vehicle (CMV) drivers.

**DATES:** This decision is effective November 9, 2004. Comments from interested persons should be submitted by November 26, 2004.

**ADDRESSES:** You may submit comments identified by DOT DMS Docket Numbers FMCSA-98-3637, FMCSA-99-6156, FMCSA-2000-7006, FMCSA-2000-7165, and FMCSA-2002-12294 by any of the following methods:

**Exemption Decision**

Under 49 U.S.C. 31315 and 31136(e), the FMCSA may renew an exemption from the vision requirement in 49 CFR 391.41(b)(10), which applies to drivers of CMVs in interstate commerce, for a two year period if it finds "such exemption would likely achieve a level of safety that is equivalent to, or greater than, the level that would be achieved absent such exemption." The procedures for requesting an exemption (including renewals) are set out in 49 CFR part 381. This notice addresses 16 individuals who have requested renewal

of their exemptions in a timely manner. The FMCSA has evaluated these 16 applications for renewal on their merits and decided to extend each exemption for a renewable two year period. They are:

Benny J. Burke  
Milton Coleman  
Gary R. Evans  
Harlan L. Gunter  
Steven H. Heidorn  
Danny E. Hillier  
Gary L. Killian  
Stephen C. Perdue  
Doyle R. Roundtree  
Garry R. Setters  
Jimmy E. Settle  
Jesse M. Sikes  
Kenneth E. Suter, Jr.  
Denny V. Traylor  
Noel S. Wangerin  
Hubert Whittenburg

These exemptions are extended subject to the following conditions: (1) That each individual have a physical exam every year (a) by an ophthalmologist or optometrist who attests that the vision in the better eye continues to meet the standard in 49 CFR 391.41(b)(10), and (b) by a medical examiner who attests that the individual is otherwise physically qualified under 49 CFR 391.41; (2) that each individual provide a copy of the ophthalmologist's or optometrist's report to the medical examiner at the time of the annual medical examination; and (3) that each individual provide a copy of the annual medical certification to the employer for retention in the driver's qualification file and retain a copy of the certification on his/her person while driving for presentation to a duly authorized Federal, State, or local enforcement official. Each exemption will be valid for two years unless rescinded earlier by the FMCSA. The exemption will be rescinded if: (1) The person fails to comply with the terms and conditions of the exemption; (2) the exemption has resulted in a lower level of safety than was maintained before it was granted; or (3) continuation of the exemption would not be consistent with the goals and objectives of 49 U.S.C. 31315 and 31136(e).

**Basis for Renewing Exemptions**

Under 49 U.S.C. 31315(b)(1), an exemption may be granted for no longer than two years from its approval date and may be renewed upon application for additional two year periods. In accordance with 49 U.S.C. 31315 and 31136(e), each of the 16 applicants has satisfied the entry conditions for obtaining an exemption from the vision requirements (63 FR 30285, 63 FR

54519, 67 FR 67234, 64 FR 54948, 65 FR 159, 65 FR 20245, 65 FR 57230, 67 FR 57266, 65 FR 33406, 65 FR 57234, 67 FR 46016, 67 FR 57267). Each of these 16 applicants has requested timely renewal of the exemption and has submitted evidence showing that the vision in the better eye continues to meet the standard specified at 49 CFR 391.41(b)(10) and that the vision impairment is stable. In addition, a review of each record of safety while driving with the respective vision deficiencies over the past two years indicates each applicant continues to meet the vision exemption standards. These factors provide an adequate basis for predicting each driver's ability to continue to drive safely in interstate commerce. Therefore, the FMCSA concludes that extending the exemption for each renewal applicant for a period of two years is likely to achieve a level of safety equal to that existing without the exemption.

#### Comments

The FMCSA will review comments received at any time concerning a particular driver's safety record and determine if the continuation of the exemption is consistent with the requirements at 49 U.S.C. 31315 and 31136(e). However, the FMCSA requests that interested parties with specific data concerning the safety records of these drivers submit comments by November 26, 2004.

In the past the FMCSA has received comments from Advocates for Highway and Auto Safety (Advocates) expressing continued opposition to the FMCSA's procedures for renewing exemptions from the vision requirement in 49 CFR 391.41(b)(10). Specifically, Advocates objects to the agency's extension of the exemptions without any opportunity for public comment prior to the decision to renew, and reliance on a summary statement of evidence to make its decision to extend the exemption of each driver.

The issues raised by Advocates were addressed at length in 69 FR 51346 (August 18, 2004). The FMCSA continues to find its exemption process appropriate to the statutory and regulatory requirements.

Issued on: October 20, 2004.

### Federal Motor Carrier Safety Administration

[FMCSA Docket No. FMCSA-2004-18885]

#### Qualification of Drivers; Exemption Applications; Vision

**AGENCY:** Federal Motor Carrier Safety Administration (FMCSA), DOT.

**ACTION:** Notice of final disposition.

**SUMMARY:** The FMCSA announces its decision to exempt 29 individuals from the vision requirement in the Federal Motor Carrier Safety Regulations (FMCSRs). The exemptions will enable these individuals to qualify as drivers of commercial motor vehicles (CMVs) in interstate commerce without meeting the vision standard prescribed in 49 CFR 391.41(b)(10).

**DATES:** October 27, 2004.

**FOR FURTHER INFORMATION CONTACT:** Maggi Gunnels, Office of Bus and Truck Standards and Operations, (202) 366-2987, FMCSA, Department of Transportation, 400 Seventh Street, SW., Washington, DC 20590-0001. Office hours are from 8 a.m. to 5 p.m., e.t., Monday through Friday, except Federal holidays.

#### SUPPLEMENTARY INFORMATION:

##### Electronic Access

You may see all the comments online through the Document Management System (DMS) at: <http://dmses.dot.gov>.

##### Background

On September 1, the FMCSA published a notice of receipt of exemption applications from 29 individuals, and requested comments from the public (69 FR 53493). The 29 individuals petitioned the FMCSA for exemptions from the vision requirement in 49 CFR 391.41(b)(10), which applies to drivers of CMVs in interstate commerce. They are: Paul G. Albrecht, David W. Brown, David J. Caldwell, Walden V. Clarke, Donald O. Clopton, Awilda S. Colon, Richard B. Eckert, Charles B. Edwards, Zane G. Harvey, Jr., Robert T. Hill, Dale E. Johnson, Jimmy D. Johnson II, Jeffrey M. Keyser, Donnie A. Kildow, Carl M. McIntire, John C. McLaughlin, Daniel A. McNabb, David G. Meyers, Thomas L. Oglesby, Michael J. Paul, Russell A. Payne, Rodney M. Pegg, Raymond E. Peterson, Zbigniew P. Pietranik, Dennis E. Pinkston, John C. Rodriguez, Robert B. Schmidt, Wesley L. Schoonover, and Charles E. Wood.

Under 49 U.S.C. 31315 and 31136(e), the FMCSA may grant an exemption for a 2-year period if it finds "such

exemption would likely achieve a level of safety that is equivalent to, or greater than, the level that would be achieved absent such exemption." The statute also allows the agency to renew exemptions at the end of the 2-year period. Accordingly, the FMCSA has evaluated the 29 applications on their merits and made a determination to grant exemptions to all of them. The comment period closed on October 1, 2004. Two comments were received.

#### Vision and Driving Experience of the Applicants

The vision requirement in the FMCSRs provides:

A person is physically qualified to drive a commercial motor vehicle if that person has distant visual acuity of at least 20/40 (Snellen) in each eye without corrective lenses or visual acuity separately corrected to 20/40 (Snellen) or better with corrective lenses, distant binocular acuity of at least 20/40 (Snellen) in both eyes with or without corrective lenses, field of vision of at least 70° in the horizontal meridian in each eye, and the ability to recognize the colors of traffic signals and devices showing standard red, green, and amber (49 CFR 391.41(b)(10)).

Since 1992, the agency has undertaken studies to determine if this vision standard should be amended. The final report from our medical panel recommends changing the field of vision standard from 70° to 120°, while leaving the visual acuity standard unchanged. (See Frank C. Berson, M.D., Mark C. Kuperwaser, M.D., Lloyd Paul Aiello, M.D., and James W. Rosenberg, M.D., "Visual Requirements and Commercial Drivers," October 16, 1998, filed in the docket, FMCSA-98-4334.) The panel's conclusion supports the agency's view that the present visual acuity standard is reasonable and necessary as a general standard to ensure highway safety. The FMCSA also recognizes that some drivers do not meet the vision standard, but have adapted their driving to accommodate their vision limitation and demonstrated their ability to drive safely.

The 29 applicants fall into this category. They are unable to meet the vision standard in one eye for various reasons, including amblyopia, corneal and macular scars, and loss of an eye due to trauma. In most cases, their eye conditions were not recently developed. All but nine of the applicants were either born with their vision impairments or have had them since childhood. The nine individuals who sustained their vision conditions as
