Scope and Content

The materials in 2006-1017-F are a selective, not necessarily all inclusive, body of documents responsive to the topic of the FOIA. Researchers should consult the archivist about related materials.

FOIA request 2006-1017-F consists of cables, memoranda, forms, and emails concerning Mark Francis Moynihan. He served on the President's Foreign Intelligence Advisory Board (PFIAB) from 1997-1999. A sizable portion of this FOIA is composed of the personnel files of Mark Moynihan. Nearly all of these records were closed for reasons of personal privacy. In short, what Moynihan did as a member of PFIAB receives very little attention in the documents deemed to be responsive.

System of Arrangement

Records that were responsive to this FOIA request were found in three collection areas—Clinton Presidential Records: White House Staff and Office Files, Clinton Presidential Records: Automated Records Management System (ARMS) Emails, and Clinton Presidential Records: NSC Cable, Email, and Records Management Systems. As policy, Staff and Office Files are processed at the folder level. That is, individual documents are not selected and removed from a folder for processing. While this

method maintains folder integrity, it frequently results in the incidental processing of documents that are not wholly responsive to the subject area.

Staff and Office files were maintained at the folder level by staff members within their individual offices and document all levels of administration activity.
