Scope and Content

The materials in FOIA 2009-0442-F are a selective body of documents responsive to the topic of the FOIA. Researchers should consult the archivist about related materials.

FOIA request 2009-0442-F contains records from the WHORM subject files, including speeches, schedules, thank you letters, and newspaper clippings. The White House Staff and Office files: Executive Office of the President contains briefing papers, schedules, speeches and letters related to the groundbreaking of the Kennedy Peace Memorial in Indianapolis Indiana.

System of Arrangement

Records that are responsive to this FOIA request were found in two collection areas—Clinton Presidential Records: WHORM Subject Files and Clinton Presidential Records: White House Staff and Office Files.

WHORM Subject files are processed at the document level. As policy, Staff and Office Files are processed at the folder level, that is, individual documents are not selected and removed from a folder

for processing. While this method maintains folder integrity, it frequently results in the incidental processing of documents that are not wholly responsive to the subject area.

The WHORM Subject file was compiled by the White House of Records Management and is a series of categories designated by a letter/number combination. A complete listing of the categories with detailed description is provided in our research room.

Staff and Office files were maintained at the folder level by staff members within their individual offices and document all levels of administration activity.
