Re: Election Management System Suite, version 3.0 to the 2002 VSS

Dear Mr. Ortiz,

This letter is acknowledgement that the EAC has received and approved your request (submitted on 1/6/2008) to terminate the application for testing of Unisyn's Election Management System Suite (v.3.0) to the 2002 Voting System Standards at SysTest Labs.

Please note that a new application for testing will be required for the Election Management System Suite (v.3.0) when Unisyn resubmits the system for EAC certification. In addition, the testing will have to be done to the 2005 Voluntary Voting System Guidelines. For further information regarding the application process, please refer to §4.3 of the Voting System Testing and Certification Program Manual (OMB Control No 3265-0004).

If you have any questions or would like to discuss the matter further, please do not hesitate to contact me at your earliest convenience.

Sincerely,

A handwritten signature in black ink, appearing to read "Laiza N. Otero". The signature is fluid and cursive, with a long horizontal stroke at the end.

Laiza N. Otero
Deputy Director, Voting System Testing & Certification
