

furnishings BRIEF

Members, did you ship enough essential furnishings for yourself and/or family? I.E., bedroom sets, living room set, dining room set. Due to the change to the JFTR allowing full weight entitlements to Japan bases, FMO furnishing loaner kits are now issued for a maximum of 90 days. Appliances (refrigerators, stoves, washers and dryers) will still be provided for duration of tour. If you have any furniture that you've put into government storage, you have 180 days from your arrival here at Misawa to release your non-temp storage household goods stateside. You do not have to release everything as items can be released in lot numbers. Misawa TMO needs a copy of your orders, a copy of inventory list, and a list of what you want released. For further information contact FMO, building 1341, phone 226-3565/9269.
