

## Stakeholder announcement

**October 6, 2011**

Mark your calendar for a free Webinar that will examine the technical, environmental and financial factors to consider when installing an anaerobic digester on a livestock operation. The “[Virtual Renewable Energy Education Field Day](#)” will originate in Las Cruces, N.M., and will have an emphasis on considerations pertaining to the Southwest.

<b>When:</b>	October 26, 2011 8:00 AM – 4:00 PM MDT
<b>What:</b>	Sessions will cover real-life experiences, digester operation and management, financing, revenues and how to get started. Speakers will include livestock producers with experience in operating an anaerobic digester, industry leaders, researchers, and agency representatives.
<b>Where/how to participate:</b>	<ul style="list-style-type: none"><li>• Online from your home or office computer</li><li>• Designated viewing sites in locations across the Southwest</li><li>• In person at the New Mexico Farm and Ranch Heritage Museum in Las Cruces, N.M.</li></ul>
<b>Who should attend:</b>	<ul style="list-style-type: none"><li>• Dairy and beef producers in New Mexico, Arizona, California, Colorado, Kansas, Oklahoma and Texas</li><li>• Representatives and staff from interested organizations</li></ul>
<b>How to register:</b>	Visit the <a href="#">Farm Foundation, NFP Web site</a>

The *Virtual Renewable Energy Education Field Day* is brought to you by [Farm Foundation, NFP](#) in collaboration with [USDA Rural Development](#), [USDA’s Office of Energy Policy and New Uses](#), the [Farm Service Agency](#) and [USDA Natural Resources Conservation Service](#).
