

Resolution Form
DOE-0342 Chronic Beryllium Disease Prevention Program

ID Number: 0342-27 **Title/Subject:** DOE-0342, Revision 2, PHMC Replaced by MSC

Initiated by: Joseph Samuels **Company:** MSA **Date:** 10/04/12 **Phone #:** 628-0623

Affected Document Number / Revision: DOE-0342 CBDPP, Rev 1

Issue / Concern / Affected Step(s): Three Areas of DOE-0342 make reference to "PHMC" or "PHMC Contractor". This Resolution Form updates those sections to appropriately reference the Mission Support Contractor (MSC).

Discussion: Reference to PHMC is in the following sections of DOE-0342:

Section 3: DEFINITIONS

Hanford Site Contractors/Employers:

Project Hanford Management Contract (PHMC)
Plateau Remediation Contract (PRC)
River Corridor Contract (RCC)
Tank Operation Contract (TOC)
Site Occupational Medical Contract (SOMC)

6.2 Program Review and Submittal

The PHMC contractor shall facilitate an annual update of the CBDPP, working with the CBDPP Committee. Any significant change to this Program must be submitted to the Hanford DOE Field Elements for review and approval prior to implementation. If no response is received from the DOE within 90 days, the submitted change will be considered approved. The PHMC shall provide notice of changes to this Program to the Hanford Atomic Metal Trades Council (HAMTC), the Central Washington Building and Construction Trades Council (CWB&TC) and any other affected bargaining unit. Any bargaining unit issues concerning the implementation of the CBDPP will be addressed in accordance with current labor agreements.

6.6 Baseline Inventory

The Hanford Site baseline inventory is maintained by the Project Hanford Management Contract (PHMC). The PHMC shall ensure that a qualified individual (e.g., a Certified Industrial Hygienist) is responsible for overseeing the maintenance of the baseline inventory. Site contractors shall communicate facility status changes to the PHMC within 30 calendar days. This inventory shall include:

Beryllium-controlled facilities
Former beryllium-controlled facilities that have been decontaminated
Facilities that no longer exist and where beryllium activities are known or assumed to have occurred
Outdoor areas where beryllium contamination is identified

The inventory will be maintained on a Web site accessible to all employees, current and former, and will be updated within 30 calendar days of receiving notification of a facility status change. All Site contractors shall provide to the PHMC the information necessary to establish and maintain the baseline inventory for facilities covered under their scopes of work.

Resolution Form
DOE-0342 Chronic Beryllium Disease Prevention Program

ID Number: **Title/Subject: DOE-0342, Revision 2, PHMC Replaced by MSC**

Resolution: Make changes from reference to “PHMC” or “PHMC contractor”. This resolution form updates those sections to appropriately reference the Mission Support Contractor (MSC) as follows:

Section 3: DEFINITIONS

Hanford Site Contractors/Employers:

- Mission Support Contractor (MSC)
- River Corridor Contract (RCC)
- Tank Operation Contract (TOC)
- Site Occupational Medical Contract (SOMC)

6.2 Program Review and Submittal

The MSC shall facilitate an annual update of the CBDPP, working with the CBDPP Committee. Any significant change to this Program must be submitted to the Hanford DOE Field Elements for review and approval prior to implementation. If no response is received from the DOE within 90 days, the submitted change will be considered approved. The MSC shall provide notice of changes to this Program to the Hanford Atomic Metal Trades Council (HAMTC), the Central Washington Building and Construction Trades Council (CWB&TC) and any other affected bargaining unit. Any bargaining unit issues concerning the implementation of the CBDPP will be addressed in accordance with current labor agreements.

6.6 Baseline Inventory

The Hanford Site baseline inventory is maintained by the Mission Support Contractor (MSC). The MSC shall ensure that a qualified individual (e.g., a Certified Industrial Hygienist) is responsible for overseeing the maintenance of the baseline inventory. Site contractors shall communicate facility status changes to the MSC within 30 calendar days. This inventory shall include:

- Beryllium-controlled facilities
- Former beryllium-controlled facilities that have been decontaminated
- Facilities that no longer exist and where beryllium activities are known or assumed to have occurred
- Outdoor areas where beryllium contamination is identified

The inventory will be maintained on a website accessible to all employees, current and former, and will be updated within 30 calendar days of receiving notification of a facility status change. All Site contractors shall provide to the MSC the information necessary to establish and maintain the baseline inventory for facilities covered under their scopes of work.
