The American Red Cross will host a blood drive from 11 a.m. to 5 p.m. Aug. 14 and from 9 a.m. to 3 p.m. Aug. 15 at the Warrior Transition Battalion clam shell building. “Right now the Red Cross is in great need of blood – we have shortages all over the country,” said Susan Westbrook, Red Cross station manager, Fort Riley, Kan. “So when you give blood here at Fort Riley, it can go to any place in the country.” The Red Cross also is a supplier of blood for Irwin Army Community Hospital. “When you donate blood, you’re saving up to three lives,” Westbrook said. The goal for the drive is to have 80 donors, Westbrook said. One pint of blood per person is taken from each donor during a blood drive. Participants are encouraged to increase their fluid intake the day of the event. “It will limit your reactions to giving blood, because if you’re dehydrated and you’re giving blood, you get pale-faced and people (may) faint ... That’s why that extra fluid will help you get through the process better,” Westbrook said. The Red Cross also does everything latex free, for those who may be concerned about allergic reactions. Those interested can learn more about eligibility for donating blood by calling 866-236-3276. For more information or to make an appointment, visit www.redcrossblood.org. Those interested in volunteering at the Red Cross on post or at the blood drive may contact Westbrook at 785-239-1887. By Calun Reece 1st Inf. Div. Post

Antiterrorism Awareness Message

"The price of freedom is eternal vigilance."

**~ Thomas Jefferson,
3rd President of the United States**

August marks the Army's third annual observance of Antiterrorism Awareness Month. Antiterrorism awareness is a critical aspect of our profession, both on and off duty, because the threat of terrorist attack against our Nation and our Army is real and ever-present.

Effective antiterrorism measures integrate a multitude of security programs – law enforcement, physical security and operational security – to ensure the continued protection of our installations, standalone facilities and expeditionary forces. The continued protection of our facilities and our people requires the eternal vigilance of every member of our Army Family and the successful integration of the Antiterrorism Principles – *Assess, Detect, Warn, Defend and Recover*. This year's Antiterrorism Awareness Month will focus on enhancing community awareness by both leveraging the command information program to educate our Army Family on the dangers associated with terrorism and highlighting the iWATCH Army program, which helps us recognize and report suspicious activity.

We encourage all commands to conduct training or sponsor events that emphasize the importance of the community in the protection of our Army. Leaders should promote antiterrorism principles and the significant role Soldiers, Civilians and Families play in our own safety. Together, we will safeguard our installations, facilities and – most importantly – the people who continue to answer our Nation's call to service. Army Strong!
