Selection of Assistant Manager for Environmental Management

The U.S. Department of Energy, National Nuclear Security Administration Nevada Site Office (NNSA/NSO) welcomes the new Assistant Manager for Environmental Management, Scott A. Wade.

In his capacity as the Assistant Manager, Wade is responsible for managing the cleanup of contaminated areas/facilities and radioactive waste disposal at the Nevada Test Site. According to Stephen Mellington, NNSA/NSO Manager, "Scott possesses the unique combination of experience and entrepreneurship that we look for in every assistant manager."

Prior to joining the NSO team, Wade was the Acting Director of the Yucca Mountain Site Office and the Director of the Office of Facility Operations. In these positions, he had responsibility for management and operation of the Yucca Mountain site, field engineering, environment, safety and health compliance, property management, and fleet operations. Scott also served as the Acting Director of the Infrastructure Management Office, with responsibility for construction planning and execution of repository and rail assets. He has worked in various technical staff positions for government contractors; including those that support the Nevada Test Site and the U.S. Environmental Protection Agency.

Wade is a native to Las Vegas, and has a bachelor's degree in Chemistry from the University of Nevada, Las Vegas. He is a Certified Environmental Manager and a Certified Hazardous Materials Manager. "My education and experience provide for a fresh perspective and opportunity to enhance Environmental Management activities at the Nevada Test Site," said Wade.
