

Army Regulation 600-8-6

Personnel—General

Personnel Accounting and Strength Reporting

**Headquarters
Department of the Army
Washington, DC
24 September 1998**

UNCLASSIFIED

SUMMARY of CHANGE

AR 600-8-6

Personnel Accounting and Strength Reporting

Change 2--

- o This change incorporates the Army Internal Control Program of AR 11-2, Internal Control System, into this regulation for the four covered management control processes: the Personnel Register (DA Forms 647 and 647-1), Strength Reports, the Personnel Asset Inventory (PAI) (DA Form 3986-R), and Personnel Mobilization. This change also adds the required checklists for these processes to this regulation as appendices.

Change 1--

- o Prescribes changes in policy and procedures governing military personnel accounting and strength reporting and authorizes the use of a new DA Form 4187-1-R (Personnel Action Form Addendum) to be used in conjunction with the DA Form 4187 (Personnel Action) when action must be forwarded to the next level of command for further processing. Also, this change clarifies personnel accounting procedures for Reserve Component (RC) soldiers ordered to active duty in support of any phase of mobilization and makes other administrative changes. This change will result in more efficient reporting of soldier duty status changes and will ensure that RC soldiers are properly accounted for in SIDPERS.

This new Army regulation--

- o Consolidates AR 680-1, AR 680-31, and portions of DA Pam 600-8, chapters 9 and 10.
- o Prescribes policies, principles of support, standards of service, operating tasks, and steps governing the function of military personnel accounting and strength reporting (chap 1).
- o Establishes procedural guidance for reporting soldier duty status changes (chap 2).
- o Establishes procedural guidance for preparing DA Form 4187 (Personnel Action) to document duty status changes (chap 2).
- o Establishes procedural guidance for completing and controlling the DA Form 647 (Personnel Register) (chap 2).
- o Establishes procedural guidance for reporting strength-related Standard Installation/Division Personnel System transactions (chaps 2 and 3).
- o Establishes procedural guidance for processing the Unit Manning Report (AAC-C07) (chap 3).

- o Establishes procedural guidance for processing the Personnel Strength Zero Balance Report (AAC-C27) (chap 4).
- o Establishes procedural guidance for processing the unit Personnel Strength Zero Balance Report (AAC-C40) (chap 4).
- o Establishes procedural guidance for processing the Personnel Transaction Register (AAC-P01) (chap 4).
- o Establishes procedural guidance for conducting a personnel asset inventory (chap 5).
- o Establishes policy and procedural guidance for the command and control strength reporting system (chap 6).
- o Establishes policy and procedural guidance for personnel accounting and strength reporting during all phases of mobilization (chap 6).

Section III

The Personnel Accounting and Strength Reporting Function

1–12. The principles of support

Personnel accounting, through SIDPERS, must provide sufficient management information to local commanders, immediate commanders, and HQDA during peacetime. It must also provide essential personnel strength management information during periods of conflict, mobilization, and war. The Military Personnel System directs a function to—

- a. Account for soldiers and report their duty status.
- b. Operate a command and control strength reporting system (C2SRS) to manage the personnel combat power of the tactical force.
- c. Reconcile PASR information over a period of time.
- d. Support the Army's personnel life-cycle function of sustainment.

1–13. Standards of service

- a. *PASR system*. The PASR system is—
 - (1) A wartime and a peacetime military personnel function.
 - (2) Resourced in the table of organization and equipment (TOE) personnel authorization system.
 - (3) Deployed with the tactical force.
 - (4) The functional responsibility of the Personnel Data Base Management Work Center (PDBM) and its tactical counterpart.
- b. *Personnel accounting standards*.
 - (1) The duty status of a soldier will be processed into the battalion database not later than 1000 on the next duty day in peacetime and within 5 days during wartime.
 - (2) One hundred percent soldier accountability will be maintained in the SIDPERS in peace and war.

Section IV

Manpower

1–14. Manpower resources

Manpower Staffing Standards System (MS3) teams measure tasks described in this regulation at field locations to determine manpower resources for accomplishing PASR.

1–15. Levels of work

- a. Most personnel work in the field is performed at three primary levels—unit, battalion, and installation (or their equivalent in other organization structures). This regulation provides guidance on the three levels as follows:
 - (1) Unit and battalion-level work are tasks that are normally accomplished at that level.
 - (2) Installation-level work requires an understanding of the organizational structure. Work at installation level falls into the following two major categories:
 - (a) *Command and staff (C&S)*. C&S includes work required to manage the personnel strength of a command and work required to support the commander's decision process. The headquarters elements of all Army commands are responsible for C&S work. (Brigades within Army divisions are notable exceptions.) C&S work includes enlisted and officer strength management, awards and special correspondence, and personnel actions requiring a commander's decision.
 - (b) *Personnel support*. Personnel support work is performed by personnel support activities, either in the Personnel Service Company (PSC), or as part of the Base Operating Information System support structure.
- b. The guidance in this regulation will typically address the following levels of work:
 - (1) *Soldiers*. Work beginning with input from the soldier.
 - (2) *Unit*. Work executed at the unit level.
 - (3) *Battalion Adjutant (BNSI)*. Work executed at the battalion, separate company, or equivalent level.

Section V

Policies

1–16. Active Army strength accounting and reporting

- a. Soldiers accessed into the Standard Installation or Division Personnel System–Active Army (SIDPERS–AC) will be reported in SIDPERS, beginning on the actual date their active duty orders are executed, or upon their return to military control (RMC). They will continue to be reported until released from active duty, separated, discharged, retired, or lost from military control, or dead.
- b. Soldiers accessed into the Active Component (AC) of the Army will be counted in the active duty end–strength.

Reserve Component (RC) soldiers accessed onto active duty for administrative accounting purposes will not be counted in the active duty end–strength. (See para 6–2 for detailed information on accession for administrative accounting purposes.)

c. Soldiers will be dropped from the active duty end–strength on the effective date of the loss action.

d. Soldiers will be counted as gains to a unit on the effective date of the gain action and will be dropped from the unit on the effective date of the loss action.

1–17. SIDPERS accountability

a. All soldiers (Active Army and RC) serving on active duty will be accounted for in SIDPERS according to the following:

(1) Soldiers accessed to SIDPERS–AC will be reported as assigned or attached, as appropriate. (See paras 3–3 and 3–4.) Soldiers are reported as attached, in accordance with their orders, when performing the following temporary duty (TDY) or training in a TDY status:

(a) For 30 days or more at a unit serviced by a Personnel Automated Section (PAS), other than the PAS, which supports the soldier’s parent unit.

(b) At an Army Service school, regardless of the length of course, for example, Advanced Noncommissioned Officers’ Course (ANCOC), Officer Advance Course (AOC), and Combined Arms and Services Staff School (CAS3).

(c) At a unit (regardless of length of period) serviced by the same Personnel Information System (PERSINS) processing activity (PPA) soldier’s parent unit.

(d) At an installation, while initiating action for a compassionate reassignment, hardship discharge, or diversion; seeking treatment for health problems, or for drug or alcohol abuse; attached awaiting disposition (ATAD); or waiting for records or orders.

(2) RC soldiers will be reported as attached, not accessed, into SIDPERS–AC, when ordered to active duty for the following reasons:

(a) Initial active duty for training (IADT) under the Special Reserve Components Program.

(b) Active duty for training (ADT) for 30 days or more.

(c) Temporary tour of active duty (TTAD) for 30 days or more.

(d) Active duty for special work (ADSW).

(e) Active Guard Reserve (AGR) status. As an exception, AGR soldiers may be carried in a test model file for the purpose of personnel service support and accounting.

(f) Called or ordered to active duty for 30 days or more and federalized in execution of a civil disturbance operation plan (OPLAN) or federalized in support of a domestic relief operation (such as, floods, earthquakes, storms, or fires).

b. See chapter 6 for accountability of RC soldiers serving on active duty in support of a contingency plan or in support of any phase of mobilization.

1–18. Accountability outside of SIDPERS

a. Members of the U.S. Navy (USN), the U.S. Marine Corps (USMC), the U.S. Air Force (USAF), and the U.S. Coast Guard (USCG) assigned or attached to an Active Army unit.

b. Commissioned officers of the U.S. Public Health Service and the National Oceanic and Atmospheric Administration, assigned or attached to an Active Army unit.

1–19. Accountability of soldiers

a. Units account for soldiers in SIDPERS by using a unit processing code (UPC) for reporting purposes.

b. Unit commanders report all changes in personnel status occurring during the reporting period to the BNS1, separate company commanders, or other responsible officials each duty day.

c. BNS1s and separate company commanders will ensure all changes in personnel status received from subordinate elements are submitted in SIDPERS.

d. Units account for soldiers from their initial arrival (ARR) date or specified reporting date in orders (whichever is earlier), to actual departure (DPRT) date, date dropped from rolls (DFR), date dropped from strength (DFS), date of separation (SEP) from active duty, or the date of death. (See paras 3–23 through 3–26.)

e. Units account for soldiers being assigned to a transition point or center for transition processing (separation, transfer, discharge, retirement, or relief from active duty) until the reporting date specified in transition orders. For soldiers who will transition from active duty at their current duty station, the reporting date in the reassignment orders assigning them to the transition point or center must be the date the soldier will transition from the Active Army. The losing unit will not submit a SIDPERS departure transaction transferring accountability to the transition point until the date prior to the date the soldier will transition from the Active Army. This process must be followed even though the soldier has departed on PTDY, excess leave, or transition leave. The purpose of this reporting date in the reassignment orders is for transfer of accountability from the losing unit to the transition point or center. The soldier is not required to return to the transition point or center on this date. The departure date in the SIDPERS departure transaction must be

the date prior to the soldier's transition date and the reporting date must be the date the soldiers will transition from the Active Army. (See AR 600-8-105, para 4-8*i* and paras 3-15 and 3-16 of this regulation.)

f. Transition centers and points account for soldiers from the actual report date reflected in reassignment orders until the day after the date of transfer, separation, discharge, or retirement from active duty.

g. PERSCOM accounts for soldiers while they are in a transient status.

1-20. The strength reporting period

The accounting period covers the 24-hour period beginning at 0001 and ending at 2400 for each calendar day.

1-21. Reporting accessions to active duty

a. Accessions officially increase the overall strength of the Active Army and will be reported on the actual date of the accession. (See DA Pam 600-8-2, chap 6, and DA Pam 600-8-23, chap 10, for detailed instructions.)

b. Accessions for commissioned and warrant officers (WOs) entering active duty (from civilian life, officer candidate school, United States Military Academy (USMA), Reserve Officer Training Corps (ROTC), and direct appointments from enlisted status) will be reported through the Accessions Management Information System (AMIS) by the Commander, PERSCOM, ATTN: TAPC-OPP, ALEX VA 22332-0474.

c. Accessions from enlistment's originating in the United States, including Alaska, Hawaii, Puerto Rico, and any other U.S. Territory will be reported by the U.S. Army Recruiting Command upon a soldier's entry on active duty, through the Army Recruiting and Accession Data System (ARADS).

d. Accessions will be reported through SIDPERS by branches of the Military Personnel Division (MPD), Assistant Chief of Staff, G1, Personnel (G1), or AG, in coordination with unit commanders when soldiers—

- (1) Enlist in an overseas area except as stated in *c* above.
- (2) Enlist within 24 hours after the date of relief from active duty or separation as a commissioned officer or WO.
- (3) RMC from a DFR or DFS status.
- (4) Were erroneously reported as separated or DFR or DFS.
- (5) Have been erroneously omitted from the Army personnel databases.
- (6) Enlist immediately when the term current enlistment is voided, due to discharge for fraudulent entry or nonfulfillment of enlistment commitment.
- (7) RC or retirees called to active duty in support of a contingency operation or any phase of mobilization. (See para 6-5 for accessing these soldiers to the Active Army.)

e. When a soldier is transferring between military personnel classes (MPC) (for example, sergeant to first lieutenant), the discharge transaction must be processed prior to submission of accession transaction.

1-22. Reporting separations

The Active Army accountable strength, by MPC, will be officially decreased whenever an individual is no longer a member of the Active Army. (See chap 3 for further discussions.)

1-23. Strength reconciliation

a. The SIDPERS Personnel Strength Zero Balance Report (AAC-C27) will be the source document and historical document for strength reconciliation's. Any strength variance between a unit's reported strength on the SIDPERS organization master file (SOMF), and the accountable strength on the SIDPERS personnel file (SPF), (as reflected on the AAC-C27) will be administratively reconciled. (See para 4-5.)

b. Units or agencies assigned a unique SIDPERS UPC for strength reporting purposes and for which an AAC-C27 is prepared, will reconcile strength whenever there is a strength variance.

1-24. Strength monitoring

a. A military personnel strength monitor (MPSM) will be appointed (in writing) by the following commanders:

- (1) Commanders of installations, divisions activities, or MSCs maintaining a PPA.
- (2) Commanders of installations, posts, camps, and stations located on a SIDPERS satellite activity for support.
- (3) Commanders of field operating agencies or activities on an installation or satellite installation.

b. At installation level, the MPSM will not be the PAS chief, but will be a person assigned to the strength management section of the MPD, G1, or AG.

c. The MPSM at each level will serve as the principal contact for military personnel strength information for assigned units or subordinate commands. The MPSM will monitor and analyze automated strength reports for unit strength variances and resolve all issues to ensure accurate personnel strength accounting.

1-25. Strength related forms

a. The following forms are for use when SIDPERS direct screen input is not available. Detailed instructions for

preparing strength reports are in DA Pam 600–8–1 (SIDPERS Personnel Service Center Level Procedures) and DA Pam 600–8–2 (SIDPERS Unit Level Procedures).

- (1) DA Form 3805 (SIDPERS Input and Control Data - Officer Accession).
- (2) DA Form 3806 (SIDPERS Input and Control Data - Enlisted Accession).
- (3) DA Form 3807 (SIDPERS Input and Control Data - Officer Transfer Data Record).
- (4) DA Form 3808 (SIDPERS Input and Control Data - Enlisted Transfer Data Record).
- (5) DA Form 3813 (SIDPERS Input and Control Data - Personnel/Organization Change).

b. Use the DA Form 3815 (SIDPERS Input and Control Data, Authentication and Transmittal) to transmit documentation to the Personnel Automation Section (PAS).

1–26. Management Controls

The Personnel Register (DA Forms 647 and 647-1), Strength Reports, the Personnel Asset Inventory (PAI) (DA Form 3986-R), and Personnel Mobilization are management control processes in the Army Internal Control Program of AR 11-2, Internal Control Systems. The required checklists for these processes are in Appendices B, C, D, and E, respectively.

Chapter 2 Managing SIDPERS Personnel Accounting Transactions

Section I Reporting Duty Status Changes

2–1. Overview

This chapter provides information about reporting soldiers' duty status. (See DA Pam 600–8–1 and DA Pam 600–8–23 for detailed instructions.) It also provides instructions for preparing the DA Form 4187 (Personnel Action) and the DA Form 647 (Personnel Register), documents that support SIDPERS transactions.

2–2. Duty status codes

a. Any time the duty status of a soldier changes so as to meet the definition of another duty status, a SIDPERS transaction is necessary, unless exempted below. (See DA Pam 600–8–1, chap 2, and DA Pam 600–8–23, chap 10 for SIDPERS duty status processing instructions.) All duty status changes must be supported by authorizing documentation (for example, DA Form 31 (Request Authority for Leave), DD Form 1610 (Request and Authorization for TDY Travel of DOD Personnel), and DA Form 4187).

- (1) Duty status changes for departure and return from leave are optional.
- (2) Duty status changes for departure on and return from TDY for periods of less than 30 days are optional if the TDY is required in performance of normal duties. Duty status changes are required for other periods of TDY.

- b.* Table 2-1 lists and defines the duty status codes used in SIDPERS duty status transactions.
- c.* Table 2-2 defines reportable absences and returns to duty, and associated duty status codes.

Section II

Task: Preparing and Distributing the DA Form 4187

2–3. Rules for preparing and distributing the DA Form 4187

DA Form 4187 will be completed to support absences and returns to duty, which have a direct impact on strength accounting, pay entitlements, and other administrative actions. In such cases, sections I, II, IV, and V of the form will be completed.

a. Care will be taken in preparing DA Form 4187, as it may be used in court-martial proceedings and in the adjudication of claims, based on the duty status of a soldier. Because of its importance—

- (1) Incorrect entries will be corrected by drawing a line through the incorrect entry and entering the correct information. This corrected entry will be initialed by the certifying official. Erasures are not authorized on the form.
- (2) Incorrect forms previously submitted will be changed or deleted by preparing and submitting a new form.
- (3) Forms made retroactive will reflect the actual effective date of the duty status change and the reason for late preparation.
- (4) The duty status entries in section II will be spelled out. Abbreviations in this section are not authorized. For

example, “920625/DYST/OLV/HOS/0930” is spelled out as “Duty status ordinary leave to hospital, effective 0930, 25 June 1992.”

(5) Instructions for completing section IV of the DA Form 4187 for certain DYST transactions are contained in table 2-3.

(6) If necessary, a plain sheet of white paper will be used as a continuation sheet. The top portion of the continuation sheet will fully identify the soldier and reporting unit.

b. The DA Form 4187 will be authenticated by the unit commander or designated representatives. (The form will be signed in black or blue-black ink and an “X” will be placed in the “HAS BEEN VERIFIED” box.) These representatives will ensure that data entered on the form is in agreement with data entered into SIDPERS-AC. Designated representatives are as follows:

(1) The commissioned officers and WOs serving in the position of BNS1, adjutant, or assistant adjutant. This authorization includes adjutants and assistant adjutants of organizations authorized commanders (lieutenant colonel (LTC) and above) that do not have a headquarters company or similar organization.

(2) Department of the Army (DA) civilian employees in grades GS-7 and above, when appointed in writing by the unit commander.

(3) Personnel and Administration Center (PAC) supervisor or personnel staff noncommissioned officer (PSNCO).

(4) First Sergeants (1SGs) or acting 1SGs of separate companies.

(5) Other designated representatives appointed in writing by the unit commander.

c. The soldier’s current duty status determines distribution of the DA Form 4187.

(1) The form will normally be distributed as follows:

(a) Copy 1—PSC/MPD Records Section for filing, in the action-pending section of the military personnel records jacket (MPRJ).

(b) Copy 2—Supporting finance and accounting office (FAO).

(c) Copy 3—Unit files.

(d) Copy 4—Soldier (or unit of attachment).

(2) Distribution exceptions are as follows:

(a) Copy 1 and Copy 2—Assigned unit (if soldier is attached without records).

(b) Copy 4—FAO, if soldier is entering or returning from the hospital.

(c) Copy 4—Commander, U.S. Army Enlisted Records and Evaluation Center, ATTN: PCRE-RD, Fort Benjamin Harrison, IN 46249-5301 (for soldiers DFR, RMC from DFR, or when a DFR entry is deleted as erroneous). If the soldier is attached, forward a photostatic copy of Copy 4 to the address above and send Copy 4 to the parent unit.

d. DA Form 4187-1-R (Personnel Action Form Addendum) may be used to forward the DA Form 4187 (Personnel Action) to the next level of command for further processing. This form may be typewritten, completed by electronic means, or legibly handwritten. The DA Form 4187-1-R will be locally reproduced on 8½ by 11-inch paper. A copy of the form for reproduction purposes is located at the back of this regulation. An electronically-generated DA Form 4187-1-R must contain all data elements and follow the exact format of the existing reproduced form. The form number of the Electronically-generated form will be shown as DA Form 4187-1-R-E, and the date will be the same as shown on the current edition of the form.

2-4. Steps for preparing and distributing a DA Form 4187

Section III

Task: Report Duty Status Changes

2-7. Rules for reporting duty status changes

- a. Unauthorized absences for periods of less than 24 hours will not be reported in SIDPERS-AC.
- b. DA Form 4187 will be prepared to support absences, unauthorized absences in excess of 24 hours, and return to duty. The exceptions are leave and TDY, which are supported by DA Form 31 and TDY orders, respectively.
- c. See AR 600-8-10, chapter 10, to determine the effective date of duty status change when soldier’s status changes while on ordinary leave.
- d. The duty status changes for attached soldiers will be reported in SIDPERS by the parent unit. The unit of attachment will prepare DA Form 4187 and forward to the soldier’s parent unit to document SIDPERS transaction.
- e. TOE units who have Tactical Army Combat Service Computer System (TACCS) equipment will report duty status changes to the BNS1 by way of the ISG’s report.

2-8. Steps for reporting duty status changes

The steps for reporting duty status changes are shown in table 2-6.

Table 2-6

Section IV

Task: Reconcile DA Form 647 and DA Form 647-1

2-9. Rules for reconciling the Personnel Register

a. DA Form 647 and DA Form 647-1 (Personnel Register) are source documents for SIDPERS. They are used to record military personnel arrivals to or departures from units on PCS or TDY. They may be used also for recording passes, leaves, and visitors.

b. DA Form 647 will be used to the greatest extent possible.

c. DA Form 647-1 will be used when the use of DA Form 647 is impractical. When the soldier's duty station is located away from the unit maintaining the Personnel Register, the DA Form 647-1 will be mailed to the parent unit when the soldier signs in or out.

d. Commanders will establish procedures for maintaining the Personnel Register and designate a place where it will be located, during and after duty hours.

(1) Instructions on how to complete the DA Form 647 will be posted in the immediate vicinity of the register, easily accessible to individuals signing in or out.

(2) DA Form 647 will be used until all spaces are filled.

(3) A separate line entry will be made on DA Form 647 for each individual duty status change. When the DA Form 647-1 is used, separate forms will be used when signing in and out.

(4) Persons responsible for maintaining the Personnel Register will be briefed on the required register entries and any special requirements of the local command.

(5) The responsible person will close out the Personnel Register as of 2400 each day.

(6) All entries except signatures will be typed or printed in black ink.

(7) All persons signing in or out will personally sign the Personnel Register. When this is impractical, commanders may designate a representative to accept telephonic reports and sign for the person. The name and title of the representative will be printed in the remarks block.

(8) Care should be taken to ensure the Personnel Register is properly safeguarded and filled out. Recreating the Personnel Register for the sole purpose of improving the appearance is prohibited. If the Personnel Register is lost, destroyed or obliterated prior to being used to support strength accounting, the person responsible for maintaining the register will recreate it, using the best information available.

(9) Entries on DA Form 647 are not required for regular Army trainees who arrive at basic training or one-station-unit training organizations from a reception battalion on the same installation.

(10) Soldiers departing on transition leave will check the "PCS" block and enter the number of days' leave in the remarks block.

2-10. Steps for reconciling the Personnel Register

The steps for reconciling the Personnel Register are shown in table 2-7.

Table 2-7
Reconciling the personnel register

Step	Work center	Required action
1	BNS1	Ensure all incoming and outgoing soldiers (or designated representative) complete and sign the Personnel Register.
2	BNS1	Close out Personnel Register by 2400 each day.
3	BNS1	Submit required SIDPERS transactions.
4	BNS1	Use the Modern Army Record-Keeping System (MARKS) (AR 25-400-2) number 680-1A to file DA Form 647. (Note: File number will change to a 600-8-6 number at a later date.)

2-11. Management control process for the Personnel Register.

The Personnel Register is a management control process in the Army Internal Control Program of AR 11-2. To assist commanders, units, BNS1, and PAS in evaluating this key management control item, the Management Control Review Checklist for the Personnel Register appears in appendix B.

Chapter 3 Personnel Accounting

Section I Introduction

3-1. Accounting for personnel

a. Active Army soldiers assigned to TOE or tables of distribution and allowances (TDA) units will be counted as part of the active duty operating end-strength account. (See para 1-17 and chap 6 for accountability of RC soldiers.)

b. Active Army soldiers not assigned to TOE or TDA units, will be counted as part of the active duty end-strength but not as part of the Active Army's operating strength. These soldiers will be accounted for separately, in individual accounts. These accounts include trainees, transients, holdees (patients, prisoners, separatees), students, and USMA cadets.

(1) *Trainees*. Trainees include officer accession students. Trainees are those active duty soldiers who have not completed initial entry training. Entry training includes basic training, advanced individual training, and other proficiency or developmental training accomplished before arrival at first permanent duty assignment.

(2) *Transients*. Transients include soldiers not available for duty while en route to a new permanent duty station. Transient time includes permanent change of station (PCS) travel time, TDY en route, and leave en route. Transient time does not include TDY training en route to new permanent duty station, travel associated with a unit move, or travel time associated with movement to or between initial entry courses of instruction.

(3) *Holdees*. Holdees include soldiers who are reassigned from the strength of a TOE or TDA unit and assigned to a holding activity.

(a) *Patients*. Soldiers assigned to a medical-holding detachment. Soldiers will be reassigned to a medical-holding detachment when hospitalization or inpatient treatment has exceeded, or is expected to exceed, 90 days; when soldier is hospitalized and return to duty is not expected; when soldier enters a patient status while in transient between duty stations; or when soldier is hospitalized as the result of an injury received in a combat area.

(b) *Prisoners*. Soldiers assigned to a personnel control facility (PCF) or other type of control facility. Prisoners include soldiers sentenced to 30 days or more of confinement by a military or civilian court, or soldiers RMC from a DFS or DFR status. (See paras 3-21 and 3-23.)

(c) *Separatees*. Soldiers assigned to a transition center or point awaiting transition from the Army.

(4) *Students*. Soldiers assigned to a non-initial entry course of instruction (normally, a course length of 20 weeks or more), or soldiers attending a TDY school course, en route to a permanent duty station.

(5) *Cadets*. Students attending USMA.

c. Soldiers who are not available to perform duties but whose availability for duty is controlled by unit, installation, or senior local commands, will not be counted in the individual strength accounts. This includes soldiers on sick call; on short-term hospitalization; on leave, pass, or permissive TDY from unit; or attending a local or TDY and return courses of instruction.

d. Soldiers who are outside of military control and whose date of RMC is uncertain will not be counted as part of the active duty end-strength. (See table 3-1 for transaction change numbers used to report soldiers who are outside of military control.) These soldiers fall into the following two accounting categories:

(1) *DFR*. These soldiers are DFR and strength of the Army. They do not remain a member of the reporting unit. (See para 3-21.)

(2) *DFS*. These soldiers are not DFR of the Army; however, they are DFS of the Army for personnel strength accounting purposes. Exclusion from the Active Army strength does not, by itself, affect status as an Active Army

member. DFS personnel may remain entitled to pay and benefits. Except for prisoners of war (POW) and missing personnel, they remain a member of the reporting unit until separated from the Service or until they are reassigned by a higher authority. The POW, missing personnel, and transient accounts are managed by PERSCOM. (See para 3–22.)

Table 3–1
Transaction change numbers

Number	Transaction used in	For transaction
941	DFR	Dropped from rolls as deserter.
942	DFR	Dropped from rolls as military prisoner with bad conduct or dishonorable discharge.
943	DFR	Dropped from rolls as missing or captured.
944	DECD	Death as a result of battle or hostile action.
945	DECD	Death resulting from disease.
946	DECD	Death resulting from other than battle, hostile action, or disease.
948	DFR	To enter USMA.
949	DFR	To enter any of the Service academies, other than USMA.
950	DFR	Dropped from rolls; sentenced to 6 months or more by civil authority.
971	DFR	Erroneously reported as returned from dropped from rolls as deserter.
972	DFR	Erroneously reported as restored to duty from dropped from rolls as a military prisoner.
973	DFR	Erroneously reported as returned from dropped from rolls as missing or captured.
974	DFR	Erroneously reported or restored to duty from dropped from rolls, or sentenced to 6 months or more by civil authority.

3–2. Reporting systems

a. SIDPERS will be the primary system for providing personnel accounting information from the unit level to HQDA.

b. ARADS will account for enlisted soldiers upon initial entry to active duty.

c. AMIS will account for initial officer accessions.

Section II

Task: Report Assigned or Attached Soldiers

3–3. Rules for reporting assigned or attached soldiers

a. Soldiers arriving at a permanent or temporary gaining unit of assignment on or before the reporting date reflected in orders will be gained (assigned or attached, as appropriate), and reported effective on the actual date of arrival. For RC soldiers individually called to active duty, the effective date will be the date soldiers begin travel to the gaining duty station or mobilization station.

b. Soldiers will not be assigned or attached without orders or authorization from appropriate authorities.

c. When the parent unit of the soldier and the unit of attachment are supported by different PDBM, the attachment will be reported through submission of an individual transfer data record (TDR). The unit of attachment will submit a SIDPERS organizational strength report change (OSTR) transaction.

d. When soldiers are attached for the purpose of applying for a compassionate reassignment, processing and reporting will be accomplished by the Personnel Plans and Actions Section (PPAA). All other attachments will be processed by the In-Out Processing Section (IOPR).

e. Soldiers failing to arrive on or before the specified reporting date in orders will be gained as assigned not joined (ASNJ). (See para 3–5.)

f. Gains (assigned or attached) reported in error will be corrected, according to paragraph 3–11.

g. Intact unit transfers will be processed according to DA Pam 600–8–23, chapters 9, 10, and 16.

h. Administrative add transactions should not be used to add soldiers to unit's strength. This transaction will be

posted to the SPF; however, it will not be posted to the HQDA databases. Submit the proper SIDPERS transactions that will be posted to the SPF and HQDA databases.

3-4. Steps for reporting assigned or attached soldiers

The steps for reporting assigned or attached soldiers are shown in table 3-2.

Step	Work center	Required action
1	BNS1/REPLACE- MENT (REPL)	Obtain copy of orders from the soldier or from the order suspense file.
2	BNS1/REPL	Verify unit of assignment or attachment.
3	BNS1/REPL	Have soldier sign in on DA Form 647 or DA Form 647-1. The staff duty officer (SDO) or staff duty noncommissioned officer (SDNCO) or charge of quarters (CQ) will ensure that soldiers sign in during nonduty hours. (See para 2-10.)
4	BNS1/REPL	Accessions will be reported according to DA Pam 600-8-1, chapter 2, DA Pam 600-8-2, chapter 2, and DA Pam 600-8-23. Use DA Form 3805 or DA Form 3806, as required.
5	BNS1/REPL	Submit TDR, as required. Use DA Form 3807 or DA Form 3808 if direct system input is not available.
6	BNS1	Annotate the AAC-C27. Enter the soldier's name and date of arrival and increase the accountable or attached strength. (See para 4-5.)
7	BNS1	Verify duty position on the AAC-C07 to which the soldier is being assigned (assigned soldiers only).
8	BNS1	Annotate the AAC-C07 and position the soldier on the C2SRS battle roster (BR). (See paras 3-35 and 6-14.)
9	BNS1	If c above applies, ensure that IOPR or PPAA has submitted the TDR.
10	BNS1	Submit either a SIDPERS arrival transaction for a soldier being assigned or submit an attached transaction for soldiers being attached. (See DA Pam 600-8-1, chap 2, DA Pam 600-8-2, chap 2, and DA Pam 600-8-23, chap 10.)
11	BNS1	Submit SIDPERS position (POSN) transaction, if necessary. (See DA Pam 600-8-1, chap 2, and DA Pam 600-8-23, chap 10 and para 3-33 of this regulation.)
12	BNS1	If an officer, submit a SIDPERS current duty assignment title (CDAT) transaction. The date of arrival and CDAT date must be the same. (See DA Pam 600-8-1, chap 2, DA Pam 600-8-2, chap 2, and DA Pam 600-8-23, chap 10 and para 3-31 of this regulation.)

Section III

Task: Reporting Assigned-Not-Joined Soldiers

3-5. Rules for reporting assigned-not-joined soldiers

a. AC soldiers will be placed in an assigned-not-joined status—

- (1) When soldiers fail to report to a gaining permanent or TDY en route unit of assignment on the report date.
- (2) When soldiers fail to report to their gaining permanent unit of assignment on the reporting date specified on an AAC-C40 failure-to-gain notice.

b. An ARNGUS or USAR commissioned officer, warrant officer, or enlisted soldier will be placed in an assigned-not-joined (ASNJ) status as outlined below when they fail to report for active duty (AD) processing on the prescribed report date stated in mailgram or AD orders.

- (1) RC soldiers who are mandatorily called or ordered to AD in compliance with a contractual agreement or by

operation of law and fail to report for AD will be accessed into SIDPERS-AC on the 30th day after the report date prescribed in AD orders and placed in ASNJ status the next day. This process also includes RC soldiers ordered to Federal AD in accordance with 10 USC, chapter 15. RC soldiers are accessed into SIDPERS-AC under the provisions of this paragraph for administrative strength accounting purposes only and they will not be counted in the Active Army endstrength. (AR 630-10, para 5-5, applies to soldiers voluntarily ordered to AD.)

(2) Members of the Selective Reserve who are called or ordered to active duty under Presidential Selective Reserve Callup (PSRC) or partial full, or total mobilization will be accessed to SIDPERS-AC when they fail to report to AD processing on the report date prescribed in mailgram or AD orders and placed in an ASNJ status the next day. (See AR 630-10, para 6-4a.) Refer to AR 630-10, paragraph 6-4b, Soldiers ordered to AD and accessed into SIDPERS-AC under—

(a) PSRC or partial mobilization authority are accessed for administrative strength accounting purposes and will not be counted in the Active Army endstrength.

(b) Full or total mobilization authority will be counted in the Active Army endstrength.

c. After reporting a soldier in an assigned-not-joined status, reporting units will determine the soldier's status. Telephonic, electronic message, and letter queries will be made every 15 days until replies to all queries have been received. If SIDPERS ASNJ transaction is based on an AAC-C40 notice, request a copy of the PCS orders from the losing unit. Queries will be made to the following:

(1) PERSCOM Career Management Division for AC soldiers.

(2) Losing unit.

(3) Losing unit of attachment, if TDY en route.

(4) Losing PSC.

(5) Personnel Assistance Points (PAP) serving the overseas command.

d. The third request will include the Commander, U.S. Army Military Police Support Agency, ATTN: DAMO-ODL-O, 4401 Ford Avenue, Alexandria, VA 22302-1432, as an information addressee.

e. Soldiers will only be reported from an assigned-not-joined duty status to AWOL after a response has been received from all agencies queried and the soldier's status remains unknown. The effective date of AWOL will be the day after the report date stated in PCS orders.

f. Agencies receiving queries will respond to the requester by the fastest means available, but not later than 7 workdays.

- a. The accountable unit will report all reassignment loss actions in SIDPERS-AC which will cause a decrease in its assigned or attached strength.
- b. Losses due to reassignment and relief from attachment will be reported, effective on the actual date of departure. These losses will not be reported without official orders or other supporting documentation.
- c. Normally, soldiers are reported as reassignment losses and reassigned to medical-holding detachments when hospitalization exceeds, or is expected to exceed, 90 days.
- d. Assignment to a medical-holding detachment or evacuation to a medical treatment facility (MTF) will be

confirmed through electronic message, orders, or admission and disposition slips. Close coordination must be maintained with medical officials to determine the soldier's status and to ensure evacuated soldiers are properly dropped from the unit's assigned strength.

e. Reassignment losses will be in a present-for-duty (PDY) status prior to departure, except for losses due to confined by military authorities (CMA) or hospital nonbattle-related.

f. Soldiers departed on assignment, or relief from attachment in error, will be gained to the unit's strength, according to paragraph 3-19.

g. If a soldier is reassigned to the unit to which currently attached, a RATH SIDPERS transaction must be processed prior to the submission of a SIDPERS ARR transaction. A SIDPERS RATH transaction is not required if the record's status code is "P". SIDPERS will automatically generate a RATH transaction.

h. Administrative loss SIDPERS transactions will not be used to remove soldiers from the SPF. This transaction will be posted to the SPF. However, it will not be posted to the HQDA personnel databases. The appropriate SIDPERS transactions that will be posted to the SPF and HQDA databases must be submitted.

3-14. Steps for reporting reassignment losses

The steps for reporting reassignment losses are shown in table 3-8.

Section VIII

Task: Report the Transfer, Separation, Discharge, or Retirement of a Soldier from Active Duty

3-15. Rules for reporting the transfer, separation, discharge, or retirement of a soldier from active duty.

a. Soldiers being transferred, separated, discharged, or retired at a transition center or point will be departed by the losing unit in SIDPERS to the transition center or point. The transition center or point that will process a soldier's separation will arrive soldier in SIDPERS. The report date stated in soldier's orders will govern this action, as appropriate. (See AR 600-8-105, para 4-8*i*, and DA Pam 600-8-11 and para 1-19 of this regulation.)

(1) For CONUS-based soldiers, the reporting date in the transition orders will be the date after the date that soldiers will complete transition leave, excess leave, and permissive TDY.

(2) For outside continental United States (OCONUS)-based soldiers returning to CONUS for transition, the reporting date in the transition orders will be the port-call date, plus normal travel time to the gaining CONUS transition point.

(3) For OCONUS-based soldiers transitioning in the overseas area, the reporting date will be established as in (1) above.

b. Soldiers being transferred, separated, discharged, or retired at other than a transition center or point will be departed in SIDPERS to the PSC that will process the soldier for transition. The PSC will submit a SIDPERS ARR transaction upon the soldier's reporting date. The PSC will submit a SIDPERS SEP transaction when the soldier leaves active duty.

c. If a soldier is being separated for the purpose of a change in the soldier's MPC (for example, enlisted to WO), the soldier will be separated in one SIDPERS cycle and accessed in the new status in the next cycle. Close coordination

must be maintained with the records element of the soldier's servicing PSC or MPD to ensure that an accession TDR format identification (FID) (Q) is prepared in the soldier's new status. It will be processed in the first SIDPERS cycle after the SEP transaction is processed.

d. If a soldier was previously DFR (TCN 942 or 950), notify the PAS analyst to process a pass record N-type transaction.

e. The transition center or point will normally submit the SIDPERS SEP transaction for the soldier being transferred, separated, discharged, or retired from active duty. (See paras 1–19 and 3–15.) When a “PASS RECORD” SEP SIDPERS transaction is submitted, the unit identification code (UIC) in the transaction will be the transition center or point UIC.

f. The effective date of loss in the SEP SIDPERS transaction for soldiers being transferred, separated, discharged, or retired from active duty is the date following the date of transfer, separation, discharge, or retirement listed on DD Form 214 (Certificate of Release or Discharge From Active Duty.) These soldiers must be counted on the rolls of the Active Army strength, up to 2400, on the established transfer, separation, discharge, or retirement date.

3–16. Steps for reporting the separation, transfer, discharge, or retirement of a soldier from active duty

The steps for reporting the separation, transfer, discharge, or retirement of a soldier from active duty are shown in table 3–9.

Section IX

Task: Report the Death of a Soldier

3–17. Rules for reporting the death of a soldier

a. Reporting the death of a soldier may be based upon notification from HQDA or another command through the PSC or MPD servicing your unit. Once the death of the soldier has been verified, submit the DECD transaction.

b. Reassignment losses will be in a PDY status prior to departure, except for losses due to CMA or nonbattle-related hospitalization.

c. If a soldier has been previously DFR (TCN 942 or 950), notify the PAS analyst so he or she can process a pass record N-type transaction.

d. Losses due to battle and nonbattle death will be reported, effective the date of death, as confirmed by medical officials. AR 600–8–1 provides detailed guidance on casualty reporting.

4	BNS1	If there are changes on the previous report not reflected on the latest report, verify that necessary SIDPERS transactions were submitted. The AAC–P01 and the AAC–P11 (Personnel Transaction Register By Originator) will be used to verify the processing of previous SIDPERS transactions impact on the AAC–C07.
5	BNS1	Retain the original copy of the AAC–C07 and forward an annotated copy to the unit.
6	Unit	Review the AAC–C07 to ensure authorization data is correct.
7	Unit	Review the AAC–C07 to ensure all personnel are properly positioned.
8	Unit	Notify BNS1 of required changes.
9	BNS1	Annotate latest copy of AAC–C07 and submit appropriate SIDPERS transactions.
10	BNS1	Submit a SIDPERS position number transaction for each soldier assigned or attached as required. (See para 3–33, DA Pam 600–8–1, chap 2, and DA Pam 600–8–23, chap 10.)

Chapter 4

Strength Reports

Section I

Introduction

4-1. Overview

This chapter establishes the procedures for processing the various reports which maintain and provide complete and accurate personnel strength accounting data.

4-2. HQDA feedback, error, data reconciliation, and change notices

a. HQDA feedback, error, and data reconciliation notices are an important part of the personnel strength accounting error resolution process. They will be processed, along with the other reports discussed in this chapter. The PAS will

review notices, research problems, and coordinate submission of corrective SIDPERS transactions prior to the next SIDPERS cycle.

b. Instructions for processing HQDA feedback and error notices are discussed in DA Pam 600–8–23, chapters 10, 18, and 19.

c. Instructions for processing monthly audit data reconciliation records are discussed in DA Pam 600–8–23, chapters 10 and 23.

d. Instructions for processing central transient account system change notices are discussed in DA Pam 600–8–23, chapters 21 and 23.

4–2.1. Management control process for Strength Reports

Strength Reports are a management control process in the Army Internal Control Program of AR 11-2, Internal Control Systems. To assist commanders, units, BNS1, and PAS in evaluating this key management control item, the Management Control Review Checklist for Strength Reports, appear in Appendix C.

Section II

Task: Process the Personnel Transaction Register (AAC–P01) by Unit

4–3. Rules for processing the AAC–P01

The AAC–P01 is processed as follows:

- a.* The PAS will produce the AAC–P01 for each SIDPERS cycle.
- b.* The BNS1 will immediately reconcile any differences between adjusted SPF and reported strength in the accountable strength summary section of the AAC–P01. (See DA Pam 600-8-1, chap 4, and DA Pam 600–8–23, chaps 10 and 18.)
- c.* For historical purposes, the PAS chief will authenticate the original copy of the AAC–P01 by preparing and signing a monthly memorandum. The memorandum will be addressed to the Local Records Holding Area (LRHA) and will include the following statements:
 - (1) The enclosed AAC–P01 reports reflect the status of soldiers recorded in the SIDPERS database during the course of normal business of Fort (name of fort), for the period (day, month, year) through (day, month, year). This includes cycles (day, month, year) through (day, month, year).
 - (2) The AAC–P01 provides a list of registered units supported by the PAS during the period.
- d.* At the PAS level, the original AAC–P01 will be cut off monthly, held for the current year, then transferred to the LRHA, along with the above memorandum. The LRHA will hold it for 12 months and then retire it to the National Personnel Records Center (NPRC) for permanent retention. (See AR 25-400-2.)
- e.* PAS will file the original copy of the AAC–P01, according to MARKS, File Number 600–8b. (See AR 25–400–2.)
- f.* At BNS1 level, the AAC–P01 will be cut off monthly, retained in the current files area for 1 year, then destroyed according to MARKS (AR 25–400–2).

4–4. Steps for processing the AAC–P01

The steps for processing the AAC–P01 are shown in table 4-1.

Step	Work center	Required action
1	PAS	Produce the AAC–P01.
2	PAS	Provide two copies of the AAC–P01 report to supported units and one copy to the PINF section.
3	PAS	Certify and file the AAC–P01 as stated in c, d, and e above.
4	BNS1	Receive copies of the AAC–P01 from PAS.
5	BNS1	Review accountable strength summary section of AAC–P01 for differences between SPF adjusted strength and reported accountable strength. If no differences are found in all categories of assigned and attached soldiers, the strength is determined to be balanced.
6	BNS1	If discrepancies are found, take action to report personnel gains and losses.

Table 4-1
Processing the AAC-P01—Continued

Step	Work center	Required action
7	BNS1	Submit a SIDPERS OSTR transaction if the last OSTR transaction submitted requires adjustment because of additions and deletions discovered during reconciliation's. The AAC-C27 and DA Form 3813 (SIDPERS Input and Control Data-Personnel/Organization Change (Key Punch)), or automated transaction register for units with automated file entry, will be used in reconciling the AAC-P01. (See DA Pam 600-8-1, chap 2, and DA Pam 600-8-23, chap 10.)
8	BNS1	File AAC-P01 and retain as stated in f above.

Section III

Task: Process Personnel Strength Zero Balance Report (AAC-C27)

4-5. Rules for processing the AAC-C27

The AAC-C27 will be processed according to the following procedure:

- a. The PAS will produce the AAC-C27 on microfiche bimonthly.
- b. If microfiche is unavailable, the PAS will produce the AAC-C27 bimonthly on paper. (See DA Pam 600-8-23, chaps 10 and 17.)
- c. Regardless of the operating environment, the PAS will produce the AAC-C27 on paper, midmonthly, and at the end-of-month (EOM) cycle, and will provide copies to supported units.
- d. The PAS chief will authenticate the original copy of the AAC-C27 for historical purposes by preparing and signing a monthly memorandum. The memorandum will be addressed to the LRHA and will include the following statements:
 - (1) The enclosed AAC-C27 reports reflect the status of soldiers recorded in the SIDPERS database during the course of normal business of Fort (name of fort), for the period (day, month, year) through (day, month, year). This includes cycles (day, month, year) through (day, month, year).
 - (2) The AAC-C27 provides a list of registered units supported by the PAS section during the period.
- e. At the PAS level, the original AAC-C27 will be cut off monthly, held for the current year, then transferred, along with the above memorandum, to the LRHA. The LRHA will hold it for 12 months and then retire it to the NPRC for permanent retention. (See AR 25-400-2.)
- f. BNS1s (and separate units) will post to the AAC-C27 all changes occurring between receipt of hard-copy reports.
- g. The BNS1 will authenticate the EOM cycle AAC-C27.
- h. The BNS1 EOM cycle AAC-C27 will be filed under MARKS File Number 600-8c and retained for the current year, plus 1 year, in an inactive file. The AAC-C27 will be destroyed at the end of the inactive period.
- i. Units (subordinate to the battalion) may destroy old reports upon receipt of the new AAC-C27.
- j. On the date a unit becomes temporarily without assigned or attached soldiers, an AAC-C27 for that unit will be produced. A statement signed by the PAS chief, reflecting the zero strength, will be attached to the AAC-C27.
- k. Units without assigned or attached soldiers are not required to have AAC-C27s printed until personnel are again assigned or attached.

4-6. Steps for processing the AAC-C27

The steps for processing the AAC-C27 are shown in table 4-2.

Table 4-2
Processing the AAC-C27

Step	Work center	Required action
1	PAS	Retain a copy of the AAC-C27 produced from each cycle.
2	PAS	Authenticate the original copy of the AAC-C27, according to d above.
3	PAS	File the AAC-C27 according to e above.
4	PAS	Provide two paper copies of the AAC-C27 to supported BNS1s (and separate units) at least once during the midmonth and EOM cycles.
5	BNS1	Receive copies of the AAC-C27 from PAS.
6	BNS1	Review part I of the AAC-C27 for differences between the organizational management strength and actual strength to ensure it is balanced.

Table 4-2

Step	Work center	Required action
7	BNS1	If discrepancies are found, execute required strength transactions to reconcile differences.
8	BNS1	Compare part II of the new AAC-C27 with the previous AAC-C27 to ensure that all manually posted transactions have processed.
9	BNS1	Reconcile differences. Correct errors and resubmit transactions, as necessary.
10	BNS1	Cross-check results of part II reconciliation with part I strength figures.
11	BNS1	If you are satisfied that part II is correct, submit SIDPERS OSTR transaction to adjust part I.
12	BNS1	If part II is not correct, consult with unit 1SG and continue research to resolve differences.
13	BNS1	Provide updated copy of the AAC-C27 to unit. Retain one copy according to paragraph 4-5h.
14	Unit	Receive updated copy of the AAC-C27 from BNS1.
15	Unit	Report changes to BNS1 if discrepancies are noted. Retain the AAC-C27 according to paragraph 4-5i.

Section IV

Task: Process the Unit Personnel Accountability Notices Report (AAC-C40)

4-7. Rules for processing the AAC-C40

- a. The PAS will produce the AAC-C40 each SIDPERS cycle. (See DA Pam 600-8-23, chap 17.)
- b. Battalions and separate companies will annotate on the latest copy of the AAC-C40 report all actions taken.
- c. The previous AAC-C40 will be destroyed upon receipt of the latest AAC-C40. (See AR 25-400-2, File Number 600-8b.)
- d. BNS1 and separate units will work and resolve all notices prior to receipt of the next AAC-C40.
- e. The PAS will assist units in the resolution of notices which are beyond the control of the BNS1 and units, and will monitor the resolution of notices by supported battalions and separate units.
- f. Expiration of term of service (ETS), expired service agreements (ESA), and expired date estimated return from overseas (DEROS) notices will be resolved through coordination with the responsible PSC or MPD.
- g. Instructions for processing the AAC-C40 are in table 4-3.

Chapter 5 Conducting a Personnel Asset Inventory

Section I Introduction

5-1. Overview

- This chapter provides instructions for conducting a personnel asset inventory (PAI). PAIs will be conducted by—
 - (1) Not used.
 - (2) Not used.
 - (a) Active Army units.
 - (b) RC units on active duty for other than active duty for training.
- PAIs are primarily conducted at company or battalion levels. However, PAIs must also be conducted by any organization assigned a unique UPC.

5-2. Personnel asset inventory objective

The objective of the PAI is to maintain timely, error-free PASR, and to involve commanders at all levels in the strength accounting and reporting process. Accurate personnel strength data is required at all command levels to establish personnel policies and procedures; to manage the Army's personnel distribution system; and to report accurate personnel strength data to Congress.

5-3. Definition of a unit

For the purpose of this chapter, a unit is any company, detachment, battalion, U.S. Army element, agency, team, group, activity, or similar organization assigned a unique UPC.

5-4. Accountable strength

Accountable strength is the number of all soldiers assigned or attached to a unit, regardless of their duty status. (See para 1-17 for a definition of attached personnel.)

5-5. Reported strength

Reported strength is the assigned, assigned-not-joined, and attached strengths by MPC as shown on the most recent OSTR transaction submitted to SIDPERS.

5-6. Strength imbalance

A strength imbalance occurs when the OSTR and accountable strength recorded in SIDPERS-AC are different. This will be reflected on the most current AAC-C27.

5-6.1. Management control process for the Personnel Asset Inventory

The PAI is a management control process in the Army Internal Control Program of AR 11-2. To assist commanders, units BNS1, and PAS in evaluating this key management control item, the Management Control Review Checklist for the PAI appears at Appendix D.

Section II

Task: Conduct a Personnel Asset Inventory

5-7. Rules for conducting a personnel asset inventory

a. A PAI (physical muster formation) will be conducted—

(1) At change of command. For the purpose of conducting a PAI, a unit commander is defined as any company commander, battalion commander, commander or senior Army person of a U.S. Army element, or Army chief of an agency or activity having a unique UPC that has assigned Army personnel. (The key in determining if an activity other than a company or battalion should conduct a PAI is whether or not a unit is assigned a unique UPC.) (See para 5-3.)

(a) If possible, the departing commander and the new commander will jointly conduct the PAI. The departing commander will not be allowed to depart or PCS until unit personnel strength has been reconciled; all assigned and attached soldiers are accounted for; and required SIDPERS transactions have been processed.

(b) If the commander is lost due to death, extended hospitalization (60 days or more), operational relief, or a similar reason, a PAI will be completed by the acting commander or new commander within 15 days after assuming command.

(2) Fourteen calendar days prior to a unit move to a different duty station; a unit inactivation, discontinuance or redesignation; or a change in servicing PPA.

(3) At the direction of the chain of command. Commanders at any level may direct a PAI whenever they determine one is required.

(4) When the unit strength variance is 2 percent or more after validation of the personnel Strength Zero Balance Report.

b. Commanders at all levels will establish command PAI procedures and conduct inspections to ensure the PAIs are properly conducted. The PAS chief will report to the appropriate commander recurring unit or installation strength variances of 2 percent or more that can not be resolved. The commander will investigate causes and direct correction of these recurrences.

c. DA Form 3986-R (Personnel Asset Inventory) is used to document the PAI. The DA Form 3986-R will be locally reproduced on 8 1/2- by 11-inch paper. A copy for reproduction purposes is located at the back of this regulation. An electronically-generated DA Form 3986-R must contain all data elements and follow the exact format of the existing reproduced form. The form number of the electronically-generated form will be shown as DA Form 3986-R-E, and the date will be the same as shown on the current edition of the form. (See table 5-1 for instructions for completing the DA Form 3986-R.)

d. The AAC-C27 is the baseline document for conducting a PAI. Commanders will reconcile information on the AAC-C27 with an actual physical muster formation of assigned and attached soldiers. (See para 1-17 for definition of attached and assigned personnel.)

e. Units and commands located in an area of armed conflict may be exempted from conducting a PAI by the MACOM or theater commander.

f. The actual PAI should be conducted at the lowest and most practical administrative level, consistent with the overall organization structure. Normally, the PAI will be conducted at the UPC level. (See para 5-3.)

g. Commanders of widely dispersed units (staff elements or headquarters above brigade or regiment level, hospitals, or split units, and so forth) may delegate conducting the PAI to the senior Army person at the dispersed location. The commander will receive PAIs from these locations and will forward them through the servicing PAS to the approval authority, according to local standing operating procedure (SOP).

h. The unit commander will sign DA Form 3986-R and forward it through the PAS and intermediate commanders to the PAI approval authority. The PAI is invalid if not signed by the unit commander and PAS chief.

i. The division, installation, or activity MPSM and PAS will provide units assistance while conducting PAIs.

j. The division, installation, or activity commander who provides SIDPERS support will be the final PAI approval authority. Tenant elements assigned to other MACOMs and Army elements of the Joint Staff, being supported by the local SIDPERS activity, will cooperate with the local commander to ensure accurate PASR for their units.

k. SIDPERS strength transactions will be submitted to correct unit strengths and will contain the actual event date,

that is, the actual arrival, loss, attachment, relief from attachment, or DFR dates. SIDPERS administrative add or loss transactions will not be used to correct unit strengths.

l. All assigned and attached soldiers (see para 1-17), will be accounted for during the PAI to include absences such as the following:

- (1) Assigned-not-joined.
- (2) Hospitalization.
- (3) Leave.
- (4) TDY.
- (5) AWOL.
- (6) Confined.
- (7) Pass, administrative absence, sick in quarters.
- (8) Essential duties.
- (9) Missing.

m. The PAI packet is distributed as follows:

(1) The original copy is forwarded through the PAS and immediate commanders to MPSM. Original copy will be returned to BNS1 after processing through command channels, according to local SOP.

(2) One copy is retained for unit file until original is returned.

(3) One copy is retained by the PAS for analyst followup.

(4) One copy is retained by the MPSM.

(5) One copy is provided the departing commander, if a change-of-command PAI.

n. The completed DA Form 3986-R packet will be forwarded to the PAS within 5 workdays of the PAI.

o. File PAI, according to MARKS, File Number 680-31a.

5-8. Steps for conducting a personnel asset inventory

Steps for conducting a PAI are in table 5-2.

Table 5-2

Steps for conducting a personnel asset inventory

Step	Work center	Required action
1	Installation commander	Establish local SOP for conducting a PAI.
2	Unit commander	Make arrangements to conduct PAI (date, time, place, and so forth).
3	PAS	Ensure supporting SIDPERS outputs (that is, AAC-C27, AAC-C40, AAC-P01, and AAC-P11 SIDPERS reports) are provided the units.
4	BNS1	Inventory SIDPERS outputs. Contact the PAS if reports are not received. Resolve items on AAC-C40, AAC-P01, and AAC-P11 SIDPERS reports. Annotate and process AAC-C27. Complete items 1 through 10 and item 12 of DA Form 3986-R.
5	Unit commander	Conduct PAI. Verify soldier's name and SSN with AAC-C27 and identification card. Verify all duty status of soldiers not present at PAI. Complete item 11 and item 13 of DA Form 3986-R. Complete and sign item 14 of DA Form 3986-R. Forward DA Form 3986-R to new commander or PAS, as appropriate.
6	New unit commander	Complete and sign section II of DA Form 3986-R (if a change-of-command PAI). Forward DA Form 3986-R to PAS.
7	BNS1 or PAS	Resolve duty or assignment status issues and submit appropriate SIDPERS transactions.
8	PAS	Complete and sign section III of DA Form 3986-R and return to BNS1.
9	BNS1	Forward DA Form 3986-R through immediate commander to the division commander, MPSM, installation commander, or activity commander according to local SOP.
10	Immediate commander	Review PAI results. Take corrective action, as necessary, and forward PAI packet to next addressee.
11	MPSM or commander	Review and approve or disapprove PAI. Take corrective action, as necessary. Return original DA Form 3986-R and associated documents to BNS1.
12	BNS1	File PAI packet. (See para 5-7o.)

Table 5-1
Instructions for completing DA Form 3986-R

Item	Description	Remarks
1	Date	Date the PAI was conducted.
2	Reporting unit	Unit conducting PAI.
3	Parent unit	Next higher unit in the chain of command.
4	Command	Appropriate MACOM
5	Permanent station location (city, state, APO)	Reporting unit station and location.
6	UPC	UPC as used in SIDPERS.
7	AAC-C27 (cycle and date):	The "as of date" is the date of the AAC-C27. The cycle control number is the date in the upper right-hand corner of the AAC-C27. Enter the sums of MPC on the AAC-C27 in columns c, d, e, and f.
8	+Gains	Enter the number of soldiers required to be added to the AAC-C27 in columns c, d, e, and f. Those reported as gains between the inclusive "as of date" on the AAC-C27 and the PAI date must be listed by name, grade, and SSN on the AAC-C27 in item 13. Continue on a separate sheet, if required, and attach as an enclosure to DA Form 3986-R. (See item 13 below.)
9	- Losses	Enter the number of soldiers required to be subtracted from the AAC-C27 in columns c, d, e, and f. Those reported as losses between the inclusive "as of date" on the AAC-C27 and the PAI date must be listed by name, grade, and SSN in item 13 of DA Form 3986-R. Continue on a separate sheet, if required, and attach as an enclosure to the DA Form 3986-R. (See item 13 below.) Draw a line through the corresponding entry on the AAC-C27. Reconcile the AAC-C27 by adding the gains and deleting the losses on the AAC-C27. The AAC-C27 will now be an updated roster of all soldiers assigned and attached to unit on the "as of date" of the PAI.
10	Adjusted strength "as of (date)"	Enter the "as of date" of the PAI. Show in columns c, d, e, and f the adjusted AAC-C27 strength after consideration of item 8 and item 9.
11	PAI (muster inventory)	Conduct the physical inventory. Check name, grade, and SSN of all soldiers present at the muster formation against the updated AAC-C27. Record in item 13 all soldiers physically present for duty but not included on the AAC-C27 by name, grade, and SSN. Continue on a separate sheet, if needed, and attach as an enclosure to DA Form 3986-R. Also attach copy of orders directing assignment or attachment, if available. Verify duty status of all assigned and attached soldiers not present at the muster formation. This involves a review of supporting documentation (DA Form 31, DA Form 4187, DD Form 1610, sick slips, admission and disposition reports, confinement orders, and so forth). Record in item 13 all soldiers listed on the AAC-C27 and not present for duty by name, grade, and SSN, along with duty status, or explain why they were not present for duty. Continue on a separate sheet, if required, and attach as an enclosure to DA Form 3986-R. If soldiers departed on reassignment or attachment, also enclose a copy of the orders. Ensure the provisions of AR 630-10 have been complied with for soldiers in assigned-not-joined or AWOL duty status. Enter the number of all soldiers physically present by MPC in columns c, d, e, and f. Determine whether or not gain, loss, or attachment SIDPERS transactions were submitted to account for differences between AAC-C27 and physical muster inventory. If SIDPERS transactions were submitted prior to the "as of date" on the AAC-C27, record name, grade, and SSN, type SIDPERS transaction, and date of transaction on a separate sheet and attach as an enclosure to DA Form 3986-R. Enclose a copy of the corresponding AAC-P01, if available. Resubmit transactions, if necessary. If transactions were not submitted prior to the "as of date" of the AAC-C27, take corrective action and explain on a blank sheet what action was taken by name, grade, and SSN. Attach sheet as an enclosure to DA Form 3986-R.
12	Type PAI	Check appropriate box.
13	Remarks	See items 8 through 11.

Chapter 6 Personnel Mobilization

Section I Introduction

6-1. General policy in support of graduated mobilization response

a. The military PASR system, defined in this regulation as augmented by C2SRS, will remain in effect during all phases of the graduated mobilization response (GMR).

b. All members of the total military force, directly supporting the execution of a Chairman of the Joint Chief of Staff (CJCS) OPLAN in support of a contingency operation, or in support of any phase of mobilization, will be accounted for in the military PASR systems. This means additional categories of personnel (recalled or mobilized personnel) will be accessed in SIDPERS as personnel requirements increase to support OPLAN execution and escalation.

c. For Presidential Selected Reserve Callup (PSRC) and partial mobilization, RC personnel called or ordered to active duty (UP 10 USC 12302 or 12304) will not be counted against the Active Army's strength. For full or total mobilization, all personnel on active duty will be counted in the Active Army's strength who are not excluded UP 10 USC 115(d).

d. Soldiers who arrive in the theater of operations and perform duties not in direct support (DS) of the operation (such as TDY) for less than 30 days will not be arrived in local SIDPERS-AC. However, units will submit SIDPERS ATCH and RATH transactions for these soldiers while they are in the theater of operations, according to DA Pam 600-8-1, procedures 2-21 and 2-24. This will enable the theater to account for all soldiers and their status while they are in the theater of operations. Note. TDY status does not include soldiers assigned to theater of operations in a temporary change of station (TCS) status.

6-2. Levels of graduated mobilization response

At any level of a GMR, the Active Army strength may be expanded or augmented by various categories of personnel. In addition, timely, complete, and accurate personnel accounting for the total force is critical to the Army commander in the theater and to the HQDA decision-makers. Therefore, additional manpower pools will be accessed into SIDPERS-AC as the response to a contingency or OPLAN escalates. Accession is a critical process to begin strength accountability in SIDPERS-AC and to subsequently support manpower decisions. The categories of GMR and associated manpower accession requirements are described as follows:

a. Level 1. Support of contingency operations, or OPLAN execution, not involving the involuntary order to active duty of a member of the RC. Retirees retired UP 10 USC 1293, 3911, 3914, 6323, 8911 or 8914, in receipt of retired pay may be involuntarily ordered to active duty at this level. Such retirees and members of the RC may volunteer to be ordered to active duty at this time. Such retirees ordered to active duty (voluntarily or involuntarily), and any RC

members ordered to active duty voluntarily, incident to support of contingency operations or OPLAN execution, will be accessed to SIDPERS-AC for administrative strength accounting however, they will not be counted in the Active Army endstrength. The authority for ordering this category of personnel to active duty is section 12301(d), RC members, title 10, United States Code (10 USC 12301(d)), or section 688, title 10, United States Code (10 USC 688)(a), retirees retired UP 1293, 3911, 3914, 6323, 8911, or 8914.

b. Level 2. PSRC. In addition to the manpower categories indicated in a above, ARNG and USAR units may be involuntarily ordered or called to active duty when a PSRC is authorized. Selected individual mobilization augmentees (IMA) may also be involuntarily ordered to active duty at this time, with the approval of HQDA. The effective date is normally designated "S-Day." Any soldiers (voluntarily or involuntarily) ordered or called to active duty under the PSRC authority will be accessed to SIDPERS-AC for administrative strength accounting however, they will not be counted in the Active Army endstrength. Members of the AGR, reporting to mobilization stations as members of RC units who are released from the AGR Program and involuntarily ordered or called to active duty units, will also be accessed into SIDPERS at this time. The authority for ordering these personnel to active duty is section 12304, title 10, United States Code, unless such members are retained in AGR status UP 10 USC 12301(d) during mobilization.

c. Level 3. Partial mobilization. In addition to the above categories of personnel, members of the individual ready reserve (IRR) may be involuntarily ordered to active duty, incident to either a Presidential or Congressional declaration of partial mobilization. This is the first actual level of mobilization, and the effective date will normally be designated "T-Day" (section 12302(a), title 10, United States Code) (10 USC 12302(a) (national emergency declared by the President); section 12301(a), title 10, United States Code (10 USC 12301(a) (In time of war or national emergency declared by Congress)). These soldiers will be accessed into SIDPERS-AC for administrative strength accounting purposes only and will not be counted in the Active Army endstrength. If an RC member volunteers for active duty under the partial mobilization authority, the soldier will still count as an involuntary RC member for accounting purposes. All AGR soldiers serving on active duty in CONUS are also accessed to SIDPERS-AC, effective on "T-Day." The authority for ordering this category of personnel to active duty is section 12301(a), title 10, United States Code (10 USC 12301(a)) or 10 USC 12302(a) unless ordered to active duty under any other provision of law.

d. Level 4. Full mobilization. All pretrained RC soldiers and unit members are available for involuntary orders to active duty when Congress declares a full mobilization. The effective date of the full mobilization is designated as "M-Day." These soldiers will be accessed in SIDPERS-AC and will be counted in the Army's end strength. The authority for ordering this category of personnel to active duty is section 12301(a), title 10, United States Code (10 USC 12301(a)), unless ordered to active duty under any other provision of law.

e. Level 5. Total mobilization. Total mobilization is the expansion of the Active Armed Forces, resulting from action by Congress and the President to organize or generate additional units or personnel, beyond the existing force structure. This also includes resources needed for their support to meet the total requirements of a war or other national emergency involving an external threat to the national security of the United States. These soldiers will be accessed in SIDPERS-AC and will be counted in the Army's end strength.

6-3. Conscription

The U.S. Congress may authorize a return to conscription, without regard to any particular level of GMR, at any necessary time. Conscripts are in the U.S. Army while on active duty; they are neither members of the Regular Army nor the RC. However, conscripts will be accessed and accounted for in SIDPERS-AC and counted in the Army's end strength.

6-4. Definition of a contingency operation

The term contingency operation identifies a military operation that—

a. Is designated by the Secretary of Defense as an operation in which members of the Armed Forces are, or may become, involved in military actions, operations, or hostilities against an enemy of the United States or against an opposing military force.

b. Results in the call or order to, or retention on, active duty of members of the uniformed Services under 10 USC 12301(a), section 12302, title 10, United States Code (10 USC 12302), 10 USC 12304, section 12305, title 10, United States Code (10 USC 12305), 10 USC 688, section 3500, title 10, United States Code (10 USC 3500), section 8500, title 10, United States Code (10 USC 8500), chapter 15, title 10, United States Code (10 USC 15), or any other provision of law during a war, or during a national emergency declared by the President or Congress.

6-4.1. Management control process for personnel mobilization

Personnel mobilization is a management control process in the Army Internal Control Program of AR 11-2. To assist commanders, units, BNS1, and PAS in evaluating this key management control item, the Management Control Review Checklist for Personnel Mobilization appears at Appendix E.

6-5. General rules for accessing RC soldiers in SIDPERS-AC

The Army's goal is to obtain 100 percent visibility and accountability on SIDPERS-AC and HQDA databases of all

mobilized RC soldiers and recalled retirees and Active Army assets during all phases of GMR process. (See para 6-2 for further explanation of the GMR process.)

a. During a contingency operation or execution of an OPLAN or during a PSRC, only RC soldiers and Army retirees ordered to active duty, in support of the operation, will be accessed into SIDPERS.

b. When a partial or higher mobilization is declared, all RC members serving on active duty, except those on ADT, IADT, or ADSW, will be accessed into SIDPERS-AC. This accession process includes AGR soldiers and RC soldiers serving on TTAD for other missions. Soldiers on ADT, IADT, or ADSW will be accessed as follows:

c. RC soldiers who fail to report for AD processing on the report date stated in mailgram or AD orders will be processed in accordance with AR 630-10, chapter 6, and paragraphs 3-5 and 3-21 of this regulation.

d. RC soldiers who fail to report for AD processing on the report date stated in mailgram or AD orders will be processed in accordance with AR 630-10, chapter 6, and paragraphs 3-5 and 3-21 of this regulation.

(1) RC soldiers serving on active duty for IADT will be accessed when they complete training, if their unit has been mobilized. If their unit has not been mobilized, they will be released from active duty and returned to home station.

(2) RC soldiers on ADT and ADSW will not be accessed while in an ADT or ADSW status. They will be accessed according to prescribed procedures when they are subsequently mobilized, recalled, or ordered to active duty.

Section II

SIDPERS Accountability and Data Transfer

6-6. Temporary change of station moves

The HQDA will announce whether or not units or individuals being ordered or recalled to active duty will move in a PCS or TCS status. Soldiers (including RC soldiers) deploying to a theater of operations as individual fillers, in support of a contingency operation or execution of an OPLAN, will be deployed in a TCS status unless otherwise directed by PERSCOM or HQDA. AR 600-8-105, orders Format 401, will be used to deploy these soldiers. These soldiers will be departed in SIDPERS-AC from their current active duty unit and subsequently arrived at their TCS gaining unit. SIDPERS DPRT, ARR, ATCH, and RATH transactions, as appropriate, will be submitted each time soldiers in a TCS status are subsequently moved between other units. In addition—

a. Soldiers in TCS status will be returned to their previous permanent home station upon return from the operation, unless otherwise directed by HQDA. The PSC that published the deployment orders will maintain a roster of these soldiers for identification and dependent service support purposes until soldiers return or are reassigned by HQDA, whichever comes first.

b. SIDPERS ARR transactions will be submitted when soldiers return to their permanent duty stations, or when they arrive at another duty station in a PCS status, as directed by PERSCOM or other appropriate authority.

c. The losing unit will submit the appropriate deployment indicator (DPLI) transaction in SIDPERS when unit soldiers deploy.

6-7. Soldiers evacuated to a medical treatment facility or assigned to a medical-holding detachment

a. During contingency operations or during any phase of mobilization, soldiers become reassignment losses to a unit the day they are reassigned to a medical-holding detachment or evacuated to an MTF.

b. In the designated theater of operations, the theater personnel commander will specify and enforce procedures for the accounting of medical evacuees according to this regulation. Normally, the unit will depart a soldier who is evacuated to an MTF beyond the brigade boundary. The theater personnel commander will coordinate accountability for these holdees. If the soldier is returned to duty within the theater, the goal will be to return the soldier to the original unit. The medical-holding detachment, or replacement company returning the soldier to duty, will submit a SIDPERS DPRT transaction. The gaining unit will submit a SIDPERS ARR transaction.

c. AWOL and DFR RC personnel will be processed according to this regulation and AR 630-10, chapters 5 and 6.

6-8. Reserve Component personnel system and accounting data

a. RC personnel accounting systems used for unit members (whether ARNG or USAR) will include the capability to transfer organization, authorization, and personnel data to SIDPERS-AC.

b. Personnel data for mobilizing members of the RC, not affiliated with units, will be provided by Commander, U.S. Army Reserve Personnel Center (ARPERCEN), through the mobilization personnel system (MOBPERS), to mobilization stations.

c. Unit personnel data will be excluded for any member of a unit not reporting for active duty with the unit. RC unit commanders will conduct a PAI, according to chapter 5 of this regulation, and purge excluded soldiers from their database prior to providing the data to the Active Army.

d. Mobilization stations or replacement activities, as designated by the local commander, will submit SIDPERS accession transactions according to DA Pam 600-8-2, procedure 6-2.

6-9. Replacement battalions, companies, or activities

Replacement units or activities, within the theater of operations, will submit SIDPERS ARR transactions on all individual replacements processing through the activity. SIDPERS DPRT transactions must also be submitted when these soldiers depart the replacement activity for further reassignment.

6-10. Intact unit transfers to theater of operations

a. When a unit will change servicing PPA, the losing PPA will process an out intact unit transfer (OIUT) transaction 4 days prior to unit's departure. An out intact unit transfer gain (OIUG) will be processed upon notification from the gaining PPA of successful processing of the OIUT SIDPERS transaction. (See AR 220-10 and DA Pam 600-8-23, chaps 9, 10, and 16 for further instructions.)

b. Only data pertaining to soldiers who will actually move with the unit will be transferred. Soldiers who do not deploy with the unit will be departed in SIDPERS-AC to a nondeploying unit at the current duty station prior to deploying unit's actual deployment date. After departing nondeploying soldiers, submit SIDPERS unit deployment indicator transaction.

c. A PAI will be performed, according to chapter 5 of this regulation, 14 days prior to unit's deployment.

Section III

Demobilization or Release from Active Duty

6-11. Intact unit transfers during redeployment

Paragraph 6-10 also applies for unit redeployments. A PAI will be performed, according to chapter 5, 14 days prior to unit's redeployment, inactivation, discontinuance, or redesignation. SIDPERS redeployment indicator, DPRT, and ARR transactions will be submitted for soldiers redeploying as individuals.

6-12. SIDPERS separation transactions

The requirement to submit SIDPERS SEP transactions for all soldiers leaving active duty cannot be overemphasized. This transaction removes the soldier from the field and HQDA databases and allows the Army to properly manage the Army's transition to post-redeployment restructure and operations.

a. RC and AC soldiers separating or transitioning from active duty will be processed according to DA Pam 600-8-11. SIDPERS SEP transactions will be submitted for all soldiers (RC and AC) separating or transitioning from active duty, according to DA Pam 600-8-1, procedure 2-31.

b. The activity that processes the soldier for separation or transition is responsible for processing the SIDPERS SEP transaction. If the soldier is not on the local database, submit a pass record SIDPERS SEP transaction. Otherwise, submit a normal SIDPERS SEP transaction.

Section IV

Command and Control Strength Reporting System

6-13. General description of Command and Control Strength Reporting System

a. The C2SRS is a battlefield accounting system which provides a means to rapidly report operating strength at each operating level (company, battalion, brigade, or division) to the next higher command. Operating strength is defined as not only assigned (organic) personnel strength but also any personnel attached, either as an individual or as a group. This data is required by each command level to support personnel and tactical decisions.

b. The C2SRS performs critical task force forming functions, such as detaching a slice element from a unit, or attaching sliced elements to a unit to form a task force. C2SRS also provides the ability to account for DS or GS personnel. This includes U.S. civilians (USCIV), other U.S. military (OUSM) personnel, non-U.S. military (NUSM) personnel, and local national civilians (LNC).

c. C2SRS constantly interacts with and augments SIDPERS-AC. Each time a gain, loss, or duty status change is submitted through SIDPERS-AC, C2SRS is simultaneously updated. A duty status change submitted through C2SRS will generate either a SIDPERS duty status change or DECD transaction, depending on the type of action submitted. This interaction between SIDPERS-AC and C2SRS is possible because both systems share the same TACCS datafiles.

d. While the C2SRS is primarily a battlefield system, it must be maintained and used during peacetime. Unit personnel will remain proficient on the C2SRS. This allows them to operate the system during field exercises, during deployment in support of a contingency operation, or during any phase of GMR.

6-14. Command and Control Strength Reporting System reports

a. BR. The BR is the primary management tool in C2SRS. This roster reflects both personnel and authorization data to the company level. TACCS assigns each individual soldier on the BR a BR number. The BR number is automatically assigned to each soldier during the BR initialization process. Every authorized position on the BR must be

assigned a position sequence number. The position sequence numbers, however, must be manually entered, based on input from the company commander or 1SG.

b. Personnel Summary (PS) Report.

(1) The PS Report is a key personnel reporting tool in a battlefield environment. The PS Report is a snapshot of a unit's strength which provides the units authorized, assigned, and operating strength by officer, WO, and enlisted MPC. The PS Report also provides a breakout, by category, of all gains, losses, and duty status changes since the last PS Report.

(2) The PS Report consists of three parts. Parts one and two are automatically updated each time a strength-related or duty status change is submitted through SIDPERS-AC or C2SRS. Part three is for the commander's use. The PS Report may be placed on a floppy diskette and rolled up through brigade and division.

(a) Part one provides detailed strength information on all organic units by UPC.

(b) Part two provides a summary by duty status within MPC.

(c) Part three provides a narrative section where the command can send a free text message, stating any critical data desired for submission.

(3) Units that do not have TACCS machines must prepare PS Reports, using manual or other automated means. (See paras 6-22 and 6-23.)

c. Personnel Requirements Report (PRR).

(1) This report identifies personnel requirements by MPC and MOS. The PRR calculates requirements based on the differences between assigned strength and authorized strength for the unit. Both the PRR and the PS Report provide the capability to send additional information or requirements in narrative form to the next higher command.

(2) Units that do not have TACCS machines must prepare the PRR, using manual or other automated means. (See paras 6-26 and 6-27 of this regulation.)

d. Task force personnel summary (TFPS). The TFPS provides the command with a tool for submitting current personnel strength data without having to process all the SIDPERS and casualty related actions first. The TFPS allows manual update of strength and duty status for attached personnel. Strength data may also be updated for DS or GS personnel attached to an organization. The TFPS must be updated each time there is a change.

6-15. Strength reconciliation's

a. Command database managers will provide summarized C2SRS information to strength managers for use in detecting units that are significantly out of balance.

b. Hasty strength reports and SIDPERS TACCS database will be reconciled not less than three times a month, using the BR roster as the baseline.

c. Strength managers at division, MACOM, and corps levels will direct strength reconciliation whenever the degree of imbalance between hasty strength reports and results of C2SRS processing exceeds plus or minus 2 percent. Strength reconciliation will be completed within 5 days of the tasking from the MPSM.

d. One hundred percent agreement between the SIDPERS-AC unit data, the battalion personnel database, and strength reports will be achieved during each reconciliation process.

e. Casualty management information will be synchronized with personnel information and strength reporting information at all personnel echelons.

Section V

Task: Initiate the Battle Roster

6-16. Rules for initiating the battle roster

a. The BNS1 (or separate company equivalent) will perform BR initiation.

b. The BR initiation will be performed whenever a TACCS device is initially installed, when a major authorization document changes, or whenever a loss of existing TACCS files occurs.

c. The unit commander, or 1SG, will structure the BR and will assign each position on the unit document a BR sequence number, beginning with 001, so that each soldier's BR number reflects where the soldier's actual assignment is within the unit.

6-17. Steps for initiating the battle roster

The steps for initiating the BR are shown in table 6-1.

Table 6-1
Initiating the battle roster

Step	Work center	Required action
1	BNS1	Receive the Theater Command (TCOM) diskette from PAS.
2	BNS1	Load the TCOM diskette.
3	BNS1	Verify that subordinate units are on the UPC listing, and if not on the listing, notify PAS.
4	BNS1	Select "PERS ACCT/STR RPT, CMD & CTL STR RPT SYS, INITIALIZE FILES, BATTLE ROSTER INIT" from the TACCS menu.
5	BNS1	Select the desired UPC function (for example, INIT NEW, ADD UPC, CHANGE UPC, DELETE UPC).
6	BNS1	Enter UPCs for subordinate units.
7	BNS1	Obtain printed BR skeleton and forward to unit.
8	BNS1	Initiate the PS Report.
9	BNS1	Initiate the PRR.
10	Unit	Assign BR sequence number for each duty position number reflected on the BR skeleton.
11	Unit	Return the annotated BR skeleton to the BNS1.
12	BNS1	Select "PERS ACCT/STR RPT, CMD & CTL STR REP SYS, INITIALIZED FILES, ASGN SEQUENCE NUMBER" from the TACCS menu and enter all unit-designated BR sequence numbers.

Section VI

Task: Maintain and Reconcile the Battle Roster

6-18. Rules for maintaining and reconciling the battle roster

- a. The BNS1 will provide an updated BR to each supported unit as often as necessary, but not less than three times a month to support strength reconciliation's.
- b. During peacetime, changes in a soldier's duty status on the BR will be updated through SIDPERS transactions.
- c. During wartime, changes in a soldier's duty status on the BR will be updated, either through SIDPERS transaction input (time permitting), or from the C2SRS input screen.
- d. All soldiers will be assigned a BR sequence number at the time of initial unit inprocessing and where a change in duty affects BR positioning. Repositioning of soldiers on the SIDPERS UMR will not automatically change a soldier's BR sequence number.
- e. Attached soldiers will have BR sequence numbers assigned by the unit of attachment. All other personnel data will be entered by the parent unit of assignment (with information provided by the unit of attachment).

6-19. Steps for maintaining and reconciling the battle roster

The steps for maintaining and reconciling the BR are shown in table 6-2.

Table 6-2
Maintaining and reconciling the battle roster

Step	Work center	Required action
1	Unit	Notify BNS1 of changes.
2	BNS1	Receive changes from unit.
3	BNS1	Select "PERS ACCT/STR RPT, CMD & CTL STR RPT SYS, BATTLE ROSTER" from the TACCS SIDPERS menu.
4	BNS1	Select "Update Individual" and input changed data.
5	BNS1	Create backup copy of the BR.

Section VII

Task: Prepare the TACCS Personnel Summary Report

6-20. Rules for preparing the TACCS Personnel Summary Report

- a. The automated PS Report will be prepared, using C2SRS applications on the TACCS. A sample PS is at figure 6-1 and completion instructions are at table 6-3.
- b. In the event of TACCS failure at any level of command, units will transfer their files to another TACCS and prepare the PS Report.
- c. Since only organic personnel and by-name attachments reported through SIDPERS are reflected on the PS Report, reporting units must use the TFPS to account for units where by-name attachments are not reported.
- d. The PS Report will be updated through BR maintenance steps outlined in this chapter or SIDPERS input transactions.
- e. The PS Report will be prepared at least daily, through the BDE S1, to reflect information at a specified time (for example, 1800), and as dictated by the battlefield situation. Times will be established by division or corps tactical SOP. Reports will be prepared daily, even when there is no change in a unit's strength since the last PS Report.
- f. Units attached to other armed services will submit a PS Report to the gaining command, with an information copy to their next higher headquarters.
- g. The PS Report reflects the unit's status only as of the time it is prepared.
- h. The parent unit of detached elements will retain personnel accounting responsibility for detached personnel. The unit of attachment will provide such information as it becomes available to the parent unit.
- i. The parent unit of units assigned a support mission (DS, GS, general support re-enforcing (GSR), or re-enforcing (R)) will retain strength reporting responsibility.
- j. The automated PS Report will be delivered to the next higher headquarters by the quickest means available (for example, diskette).

6-21. Steps for preparing the TACCS Personnel Summary Report
