

PMIC Institution Record Format

(File format is tab-delimited)

The Institution Record Format is a combination of selected Transmittal Sheet (TS) and Reporter Panel (Panel) fields.

The Transmittal Sheet and Reporter Panel data are available on the FFIEC HMDA website http://www.ffiec.gov/hmda/hmdaproducts.htm#LAR_TS. See File Formats & Documentation.

The Panel fields for Respondent Name (Panel), Respondent City (Panel), and Respondent State (Panel) are included for comparison because the reported city and state on the TS may differ from the city and state on the Panel entered as the home office.

* Assets are not applicable for PMIC.

For the validity errors, if LARs with validities > 0, then the value = 'Y', otherwise 'N'.

For further guidance reference the PMIC HELP file in the Raw Data Windows Application.

PMIC Institution Record Format
 (File format is tab-delimited)

#	Field	Maximum Length	Type
1	Activity Year	4	N
2	Respondent-ID	10	AN
